STEAM RAILROAD MOVIES

Photographed by Fred McLeod

These several railroad films, all photographed in the late 1940's and early 1950's, were shot with an Auricon camera with the sound effects (available in our 16mm. sound version—these 8mm. versions are silent) recorded in a synchronization with the scenes. Because Fred McLeod was out to get in synchronization with the scenes, and had to carry both camera and recording equipment for some distances from the highway, the difficulty of getting to the best possible locations from the standpoint of lighting sometimes forced the shooting of scenes from the shady side of the train. This reduces the detail of locomotive side rods in these particular scenes, which may be objectionable to some of you.

WHAT BLACKHAWK'S CUSTOMERS SAY . .

"First of all, this note will offer a sincere compliment to your fine company. I have been most delighted with all my transactions with your organization; i. e., the fine purchases, wonderful service. The 35mm. slides are excellent. Your Laurel & Hardy films are well reproduced and very entertaining!"

L. Keith le Duc
Winston-Salem, N. C.

"I wish to compliment Blackhawk Films on the increased quality of your films, especially Mac Owen's 8mm. color railroad films. The recent slides, also, could hardly be better."

C. R. Bennett
Seattle, Wash.

"I received 'The Finishing Touch' with Laurel & Hardy a couple of days ago and I'm writing to tell you how very pleased I am with it. It is one of the best Laurel & Hardy films I've ever seen, and one of the best prints I've seen!"

Fred Peatross
Williamson, W. Va.

"Upon my arrival home I found the package of circus slides. The color, for reproduced film, is everything that can be desired and the subject matter is tops. I have seen many of these old posters. You can rest assured you will have many more orders for slides from me in the future. Your ads do not do your slides justice."

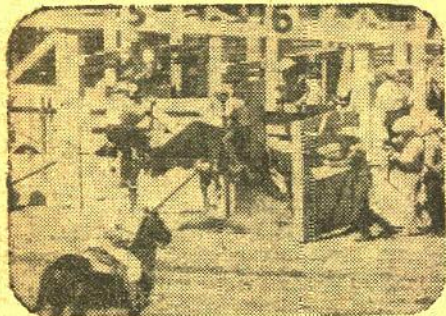

Dr. Frank O. Raasch, D.D.S.
Kearney, Nebr.

"A mighty big thank you for such speedy service for such a small order! Received my film today in plenty of time before shooting date!"

C. Chaves
San Leandro, Calif.

"I received your film, 'Narrow Gauge Train to Silverton', and also the film Bulletin. The film is wonderful and I want to congratulate Mr. Mac Owen and your company for having such a fine film of a wonderful rail trip in Colorado available. It is a wonderful movie and worth having in every film library."

BLACKHAWK'S NEW LINE OF 8mm. COLOR SUBJECTS

Blackhawk's 8mm. color prints in this new series are clear, sharp and brilliantly colored—not heavy or washed out or fuzzy. We've exhibited some of these 8mm. color prints to persons who felt they were as sharp and brilliant as the average 8mm. color film taken in the average 8mm. camera—a tremendous step forward for an 8mm. color print. Others have expressed the opinion that on a modest size screen, for which 8mm. is intended, the picture quality compares to that obtainable from a 16mm. print of the quality turned out only two or three years ago.

ZOO IN MEXICO CITY

Of course, almost every large city has its zoo, but from the standpoint of an American, a visit on a Sunday to Mexico City's famous zoo is a particularly interesting experience, not only because of the various species of wild animals represented in the collection, but for the picture it gives of a typical day in the lives of the people who are our good neighbors to the south. An extremely colorful and interesting film. Photographed by Tony Ruotolo.

FIESTA OF GUADALUPE

This is perhaps the most truly colorful of all of the new color films to be announced by Blackhawk, for the costumes of all of the native participants in the pageantry at the far-famed Fiesta of Guadalupe in Mexico are extremely elaborate and vividly colored. This film is a midjet-sized spectacular! Photographed by Tony Ruotolo.

ELEPHANTS and RHINOS

Photographed by James R. Simon in Africa's big game country, this short film picturing close-up and action shots of two of the biggest species of animal life on our planet is an interesting one. In sharp 8mm. color, we don't want to mislead you on this one, for there is not much colorful in the appearance of either elephants or rhinos—but color adds a realism not present in a black and white print.

THE C. & S. CLIMAX SPUR

High in the Colorado Rockies—the highest point of any standard gauge railroad in North America—is the C. & S. Climax Spur over which a lone Consolidation with a bright red snow plow is the only motive power unit. The spur provides an outlet to the outside world for the molebdenum mines at Climax via Leadville, on what was once a portion of the fabled C. & S. narrow gauge. Our film shows scenes in a day's operation. Photographed by Mac Owen.

HUDSONS of the NEW YORK CENTRAL

Photographed by Gene Miller

The striking excerpts from our longer black and white film of the same name that were originally photographed in color. You'll see a range of various rintages of the Central's Hudsons from some of the earliest units turned out until some of the last, including one or two with the sleek streamlined sheathing intended for the engines that were regularly assigned to the first streamlined Century.

DOUBLE-HEADERS on the BALTIMORE & OHIO

Photographed by Gene Miller

Here is a beautifully photographed short film that does not duplicate anything previously released by Blackhawk in 8mm. black and white form. It shows a number of B. & O. passenger trains, principally on the line between Vincennes, Indiana, and St. Louis, all powered by double-headers of the B. & O.'s graceful breed. Of special interest is the assignment of two Pacifics to take the Diplomat from Vincennes into St. Louis back in the days when only a few diesels were around. Our film shows the diesel being cut off, the Pacifics coupling on, and the train departing for the last leg of its run.

LOGGING RAILROADS OF THE WEST SOUTHWEST LUMBER and RAYONIER

This 8mm. color film incorporates most of the original scenes dealing with Southwest Lumber Mills of Flagstaff, Arizona, and the Clallam and Grays Harbor operations of Rayonier on the Olympic Peninsula in Washington State that are included in our 2-reel black and white film, "Logging Railroads of the West". You'll see 2-8-0 No. 2 and 2-6-6-2 No. 12 of Southwest Lumber; side-tank Mallet No. 8 of Rayonier's Grays Harbor operation; and 2-6-6-2 No. 38, Mikado No. 90 and saddle-tank Mallet No. 111 of Rayonier's Clallam operation—all in action!

LOGGING RAILROADS OF THE WEST WEST SIDE LUMBER

This 8mm. color film incorporates a substantial amount of the original material dealing with West Side Lumber of Tuolumne, Calif., that is included in our 2-reel black and white film, "Logging Railroads of the West". The West Side Lumber operation has, just this past year, transferred from railroad to highway trucks, and the picturesque logging road is no more. But you'll see the narrow gauge and standard power—the Shays and the Heislerts—the lines sharp curves and high trestles—its long trains of logs rocking and rolling along through cuts and gashes in the forest—just as they did for so many years in California's High Sierra country. Beautifully photographed by Mac Owen.

825-3, 8mm. color film, about 100-feet, 11-ozs. **\$8.99**

NARROW GAUGE TRAIN TO SILVERTON

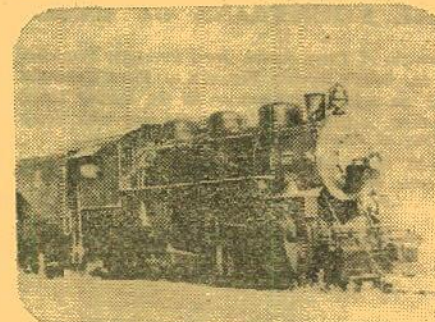

This is basically the same film as our 2-reel 8mm. black and white subject of the same name, but with all text titles removed and some of the scenes eliminated. The running text to cover all of the action pictured in the film is printed in a folder packed with the color print.

"Narrow Gauge Train to Silverton" is a film beautifully photographed by Mac Owen that tells the whole story of "The Silverton", the summer passenger train on the Denver and Rio Grande Western's Durango-Silverton Branch that last summer carried more than 38,000 tourists and rail fans.

Engine No. 476 is assigned to the run and our camera picks up this little Mikado in the yards at Durango as she moves onto the turntable and prepares to power the ten-coach train on this day's round trip to Silverton. There are detailed shots of both the locomotive and the train at departure time, and across the meadows north of Durango.

Our film shows the train as it passes "Ah Wilderness" ranch—as it takes on water—as it winds through the canyon of the Animas River—and as it pulls into Silverton. Then, after two hours for lunch and souvenir buying on the part of the passengers, the departure on the return trip is pictured. There are scenes along the rushing river, scenes inside the train and the final arrival back at Durango as the afternoon's shadows are lengthening. And, to wind up the film, we see the flagman removing the marker lanterns from the last coach, and No. 476 backing to the yards.

STEAM on the MAGMA ARIZONA

Some highlights in the steam operation of this little Arizona short line the star of which is the beautifully maintained 2-8-0 No. 5. Our film pictures sequences from one day's run of No. 5 and its train from Magma to Superior, Arizona, where it connects with the Southern Pacific, and its change of consist and return to Magma. Some very effective action shots are included. Photographed by Mac Owen.

WESTERN PACIFIC'S 4-6-0 No. 94

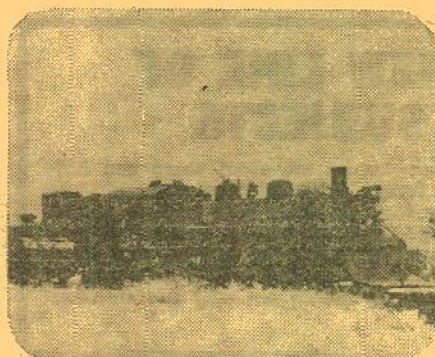

On the fiftieth anniversary of the opening of the Western Pacific, America's last transcontinental railroad, the line made up a special three car train which one of its little original 4-6-0's, No. 94, pulled east out of Oakland to meet the westbound California Zephyr. There No. 94 coupled on ahead of the Zephyr's diesel-electric locomotive and headed up the streamliner's run to its Oakland destination. Mac Owen has captured the action highlights for this 8mm. color film.

BLACKHAWK'S 8mm. RAILROAD MOVIES in color!

Blackhawk's 8mm. color prints are clear, sharp and brilliantly colored—not heavy or washed out or fuzzy. Those in our "820" and "825" series are produced by the negative/positive process in brilliant Eastman Color. Those in our "805" and "815" series are printed by the reversal process in the traditional manner on Kodachrome-type color print stock.

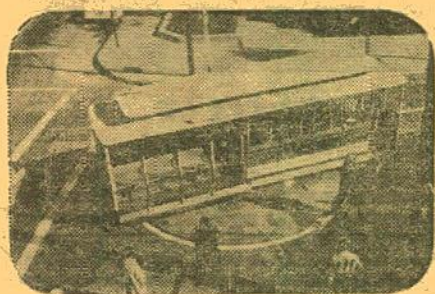

We've exhibited some of the 8mm. color prints in our "820" and "825" series to persons who felt they were as sharp and brilliant as the average original 8mm. color film taken in the average 8mm. camera—a tremendous step forward for an 8mm. color print. Others have expressed the opinion that on a modest size screen, for which 8mm. is intended, the picture quality of our "820" and "825" series films compares to that obtainable from a 16mm. print of the quality turned out only a few years ago.

CLIMB TO CUMBRES

Photographed by Mac Owen. Shows the Rio Grande's narrow gauge line along the Colorado-New Mexico border where it ascends from 7,863-feet at Chama to 10,015-feet at Cumbres, and how a little east-bound freight has to be put over Cumbres Pass in two cuts—little Mikado No. 499 on the head end, No. 488 as a pusher on the rear. A spectacular bit of railroading.

825-5, 8mm. color version, about 100-feet, 11-ozs. **\$8.99**

SAN FRANCISCO'S CABLE CARS

Both the Powell and California cable car lines—both from the outside as well as from aboard a car. In addition, we go inside the power house where the cables are propelled, and to the car barns to see how the cars are placed in service.

825-9, about 100-feet, 8mm. color (9-ozs.) **\$8.99**

THE CHALLENGERS AND BIG BOYS OF THE UNION PACIFIC

Selected scenes of the Union Pacific's famous 4-6-4 Challengers and 4-8-4 Big Boys photographed over fifteen to twenty years when these two types of steam locomotives were the real "power" of the U. P. The same scenes, in black and white form, are included in Blackhawk's long film, "Big Boy and His Brothers"

805-48, about 50-feet, 8mm. color (2-ozs.), only **\$3.99**

DONNER PASS

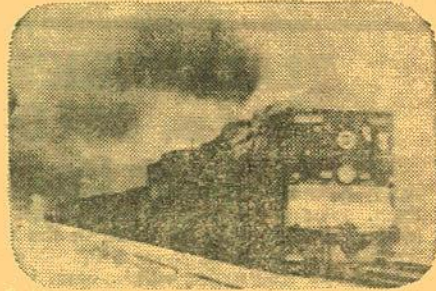

Up into the spectacular Sierras and over what has been one of the toughest stretches of railroading in the United States. We see heavy freights with 4-unit diesels on the head, another 4-unit locomotive cut into the train—just moving up the grade toward Norden. Snowsheds . . . Cape Horn . . . the Overland!

815-4, about 100-feet, 8mm. color (9-ozs.) **\$7.99**

THE UNION PACIFIC'S 4-8-4's

Here are some of the best scenes of the Union Pacific's famous 4-8-4 steam locomotives that were contained in our black and white two reel film, "Big Boy and His Brothers"—only these are printed in their original color form. No titles but the main end.

805-49, 50-ft., 8mm. color version, 2-ozs. **\$3.99**

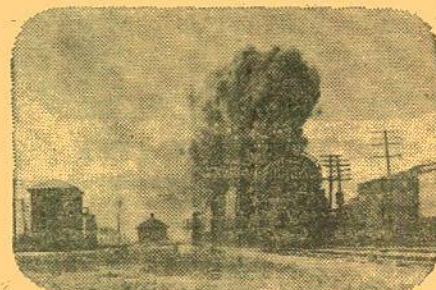

SOUTHERN PACIFIC STEAM LOCOMOTIVES

Here, in the operational area fanning out east of Oakland, we see some excellent examples of Southern Pacific steam power—the Daylight; two 4-8-4s on the Owl and the San Joaquin Daylight, 0-6-0 switchers, 2-8-0 Consolidations, a cab-in-front articulated on a westbound freight, 4-6-2 Pacific on the El Dorado, and a scattering of other units. All steam.

825-7, about 100-feet, 8mm. color (9-ozs.) **\$8.99**

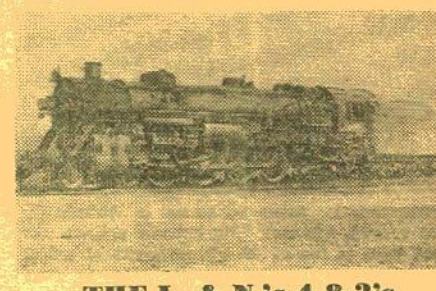

810-164, about 100-feet, 8mm. B&W (9-ozs.) **\$4.49**

PENNSYLVANIA STEAM LOCOMOTIVES

This new color film incorporates many of the action locomotive shots that appear in our black and white film, "Ten Wheeler to Duplex". Shown is a spread of Pennsylvania steam power from the ten wheelers and Consolidations to the mighty duplexes that had such a brief moment of glory. Excellent coverage on the Pennsy's famous K-4 Pacifics are included. While this color footage was taken back as far as the late 1930s, the color quality is surprisingly good nonetheless.

825-8, 8mm. color version, about 100-feet (9-ozs.), only **\$8.99**

THE L. & N.'s 4-8-2's

Effective close-up and action shots of several of the L. & N.'s 4-8-2 Mountain-type locomotives photographed by Mr. Miller over the past 25 years. None of the scenes contained in this color film are included in any of our other subjects—these scenes are all different.

805-41, about 50-feet, 8mm. color (2-ozs.), only **\$3.99**

SOUTHERN PACIFIC—FROM SAN FRANCISCO BAY TO ROSEVILLE

Here is that most interesting section of the Southern Pacific from Oakland—east, north and south—comes in for a close-up look by our camera. Trains shown are the San Joaquin Daylight, Shasta Daylight, El Dorado, Cascade, Overland, City of San Francisco and the Klamath. Several of the important trains are shown in both the eastbound and westbound sections.

815-6, about 100-feet, 8mm. color (9-ozs.) **\$7.99**

The BROAD-TAILED HUMMINGBIRD

Here is a close-up study of the broad-tailed hummingbird photographed by James R. Simon who has done more than an occasional contribution to Walt Disney's True Life Adventure series. No titles except the main and end.

805-37, 50-ft., 8mm. color version, 2-ozs. **\$3.99**

CLOSE-UPS OF THE FLICKER

Photographed in the New England region, this film showing close-ups of the flicker pictures this variety of North American woodpecker at and around the tree where its nest is reached through the entrance hole it has pecked into the trunk. Scenes, too, of the flicker in flight.

805-38, about 50-feet, 8mm. color 2-ozs., only **\$3.99**

COLORFUL BIRDS OF THE AMAZON JUNGLES

Included are close-up views of macaws, parrots, emu or ostrich (not colorful) and South American ducks.

805-33, about 50-feet, 8mm. color 2-ozs., only **\$3.99**

GRIZZLY!

The grizzly bear is not the gregarious type as is the Yellowstone black or cinnamon bear—the grizzly stays in the back country away from civilization and has no desire to come into contact with humans. This close-up film of the grizzly was photographed by Mr. Simon in the wild country of Wyoming.

805-47, about 50-feet, 8mm. color 2-ozs., only **\$3.99**

GULLS AND PELICANS OF YELLOWSTONE

Photographed by James R. Simon at the Molly Island Bird Nesting Area in Yellowstone National Park. Close-ups of both gulls and pelicans, their nests and young, and most effective shots of the birds in flight.

805-30, about 50-feet, 8mm. color 2-ozs., only **\$3.99**

MONKEYS OF THE AMAZON JUNGLES

Shown in close-up are three fetching varieties of South American monkeys photographed by James R. Simon—the spider monkey, the squirrel monkey and the woolly monkey.

805-31, about 50-feet, 8mm. color 2-ozs., only **\$3.99**

SLOTHS AND ANTEATERS OF THE AMAZON JUNGLES

Some of the strangest animals of the South American continent—the upside down animal, the three-toed sloth, moving at slow motion speed while hanging from limbs of tropical trees. The silky anteater—the variety of this strange animal that lives principally in trees. And the giant anteater—the variety living on the ground!

805-34, about 50-feet, 8mm. color 2-ozs., only **\$3.99**

SNAKES OF THE SOUTHEAST

Photographed by Dr. H. B. Bechtel, a variety of snakes of southeastern United States are shown in close-up. Included are the canebrake rattlesnake, corn snake, scarlet snake, eastern king snake, black snake, coachwhip snake, eastern garter snake and four-lined chicken snake.

805-32, about 50-feet, 8mm. color 2-ozs., only **\$3.99**

The TRUMPETER SWAN

Close-up coverage of the islands in Yellowstone National Park where the trumpeter swan has its nests—and where it's young come into the world. Scene in flight—nesting—and of the baby swans are all included.

805-36, 50-ft., 8mm. color version, 2-ozs. **\$3.99**

WILD ANIMALS ALONG THE AMAZON

Included in this unusual film are close-up shots of the coendu, the South American porcupine; a tayra—one of the weasel family; emerald green tree boa; and a mother jaguar and one of her young.

805-35, about 50-feet, 8mm. color 2-ozs., only **\$3.99**

film in color that's a
"hit" selection for
every 8mm. movie
projector owner...

INTERMISSION SLIDES FROM NICKELODEON DAYS

(Illustration shows animation on 16mm.
film but subject is released in
8mm. only.)

This 8mm. color film of about 50-feet contains the actual animation of intermission slides in groups of one to four so that any one of these sequences—starting with a black screen—can be spliced between reels or between subjects in your 8mm. vintage movie shows. The illustration shows how the conventional slide-change movement has been captured for the authentic effect. Such slides as: Welcome; Bring the Children; Ladies Kindly Remove Your Hats; and Buy Tickets For Your Children and Enjoy the Show Yourself; The Operator is Changing the Reel; You Kids Keep Quiet; New Pictures Every Day; One Moment Please To Adjust Machine; and Mary wore a great big hat, as other ladies do—and when she went to a picture show, she shut off all the view; Pardon the Delay—Will Resume in a Few Minutes; Don't Forget Our Amateur Night; and many others.

805-50, 8mm. color film of about
50-feet (2-ozs.) **\$3.99**

THE NATIVITY OF OUR LORD

Tells the story of the birth of our Saviour. It pictures the visions of Mary and Joseph, their trip to the town of Joseph's birth, the Wise Men, the Shepherds, the Babe in the Manger—all effectively filmed.

815-1, about 175-feet (11-ozs.) **\$19.98**

BULLFIGHT LA FIESTA BRAVA in black and white

Under the same title, in 8mm. black and white, we are also issuing a similar film edited from entirely different footage. You bull fight fans can therefore order the combination of our 50-ft. color film and our 50-ft. black and white film and get subjects that do not duplicate each other and are altogether supplementary.

800-29, 50-ft., 8mm. black and
white version, 2-ozs. **\$2.49**

BULLFIGHT LA FIESTA BRAVA

Action packed from beginning to end! Classic bullfighting at its best! See the foremost matador of Spain fighting in the bull ring at Mexico City! See the matador tossed by the bull in a dramatic sequence.

805-29, about 50-feet, 8mm. color 2-ozs., only **\$3.99**

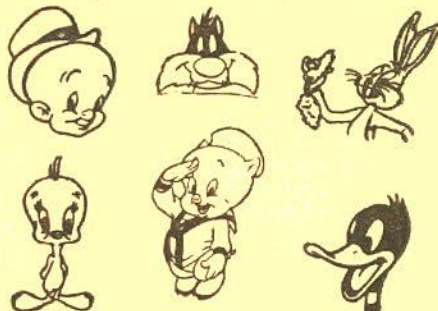

THE LITTLEST ANGEL

To the gates of Heaven came a small and very lonely little angel who, though he tried hard to look and act like a good little angel should, just couldn't seem to stay out of trouble. Then one day, the kindly old Understanding Angel granted the Littlest Angel's wish and from that day on the cherub's conduct and appearance were above reproach. Finally came the time when Jesus was born. All the angels of Paradise busied themselves with the preparation of their costly gifts. Yet it was the gift of the Littlest Angel that was chosen to shine as an inspiration for all men.

ABOUT "JUMPY" PICTURES IN 8mm. AND 16mm. MOVIES

There is nothing more disconcerting than a brand new film which refuses to run through your projector. And, while this is not as common an experience as it once was, it still happens. Every once in a while we still get a letter saying: "I just got my new print of so and so—and the sprocket holes aren't right. It won't run through the projector even though I have no trouble running all the other films I have."

The reason for all this is that the emulsion of a new film contains substantially more moisture than a film that has been printed for some time and has been projected with some frequency. This is a problem that has been with the movie industry since its very beginning. Today, Blackhawk and other leading distributors of 8mm. and 16mm. movies use a process called Vacuumate (or other systems). Vacuumate treats the fresh rolls of film just after they have come out of the developing machines. First a vacuum is created in a specially-constructed chamber into which is injected various liquid solutions which harden the film emulsion, lubricate it and, of course, replace much of the moisture that has been taken off during the vacuum treatment. One of these solutions makes the emulsion non-soluble in water under any ordinary conditions. This means that if a reel of film should accidentally come into contact with water, it probably could all be salvaged by proper drying.

But for all of these advanced treatments, some projectors still give trouble with some new prints. The heat at the aperture and the degree at which the aperture plates are set is still sufficient to create a drag on the new film which may cause the picture to jump, the film to chatter, to tear out sprocket holes or just to refuse to run through. This can usually be corrected by having a repair shop loosen the tension of the aperture plate, but the simplest way is to have a Filmagic Silicone Cloth on hand. Rewind the new film through this cloth, and polish the surfaces of both front and back aperture plates with the cloth. Chances are that 99 times out of a hundred this will eliminate the problem. The Filmagic Cloth is listed on page 25 of this Blackhawk Bulletin. Its regular use on all your new films—including the new films you photograph yourself—will make them less susceptible to scratching and abrasion and they therefore will show less wear through the years.

KNIGHT OF THE TRAIL starring WM. S. HART

Knight of the Trail is one of the dozen or more two-reelers starring Wm. S. Hart produced—along with several features—by Thomas H. Ince during 1915, Hart's first year in the films. In this well-organized and action-packed two-reeler, Bill is cast as Jim Treen, who appears to be the most eligible bachelor in Canyon City but who, in reality, is the bandit that has made a long series of successful stage holdups in the area. Bill is in love with Molly Treen. The villain in the piece is W. Sloane Carey, a mining promoter with an easy way of getting other people's hard-earned money.

But one day before they are married, while Bill is "away", Molly goes to his cabin to neat up the place a bit. While there, she discovers a big cache of stolen money, and the realization comes to her that Hart is the mystery bandit. Bill returns with his latest haul while Molly is still in the cabin. He explains that he meant to go straight, but Molly says: "I could never marry a bandit—a thief." So the engagement is broken and in time, Carey convinces Molly that she should marry him. In the meantime, the sheriff receives a package containing a quantity of money with a note that said that all that is missing is money the bandit has spent, but that it, too, will be repaid.

Molly's wedding day arrives, but the hour of the ceremony finds Carey bribing a stage driver to get him to the railroad in time to board the East Bound Limited. He has gotten Molly's bankbook and withdrawn her considerable savings. Bill hears of the situation and heads across Thunder Mountain on the shortcut to the rail station, and gets there just as the train is pulling in. A fight ensues, typical of the real-looking ones that Hart always staged, and Hart, the victor, turns away only to have the downed Carey pull a gun and shoot him in the shoulder. But Bill makes it back to Canyon City by midnight, returns Molly's funds and our film ends with Molly forgiving Bill.

Down the years, Knight of the Trail was reissued by W. H. Productions in 1918 and by Tri-Stone Productions in 1923. Our version is copied from the Tri-Stone release of 1923, and print quality is generally excellent.

FLIRTING with FATE starring DOUGLAS FAIRBANKS

Flirting with Fate, Doug's seventh film, hit the screens of the country's growing number of movie palaces in the summer of 1916. In less than a year, so sensational had been Fairbanks' rise in popularity that he was already one of the top stars of the screen.

In *Flirting with Fate*, Doug is August Holliday, an artist by profession, long on temperment and short of funds. A sub-title tells us that he can draw everything except a salary. August has painted a picture of a girl that he calls "the most beautiful girl in the world". But he doesn't know who she is—he just happened to see her in the park. His friend, Harry Hansum, tells Doug that he knows the girl and will get him an introduction, which

he does. But Gladys—that's the girl's name—is already sort of engaged to a wealthy prospect, and comes from a wealthy family herself, and her auntie says, "Why consider a penniless artist when you can marry a lot of money." So, it looks like Augie is out of luck. He's so depressed, he hunts up a professional assassin named "Automatic Joe" to do him in—anywhere, anytime—just make it quick. Just then Augie's fortunes change. His paintings begin to sell and on top of it all, his step-mother dies and leaves him a million dollars. So now he has a chance—but he can't find Automatic Joe. (It just happens that the Salvation Army has gotten through to Joe and he's reformed. And, he's out trying to find August to pass the word.)

From here on, almost half of the film is devoted to the acrobatics and action for which Fairbanks became famous, races in cars, climbs over buildings and the like. Augie assumes all kinds of disguises to avoid his hired killer. But on his wedding day, Automatic Joe arrives with the rice and Augie figures he's had a short honeymoon. Finally the word gets through and our story ends with a happy fade-out of the reception and Automatic Joe with Augie and Gladys! (The original 35mm. negative was available for the preparation of our pre-print material. Prints are excellent.)

810-285, 8mm. version, about 900-feet on 5 reels, 3-lbs., **\$24.98**

A CURE FOR POKERITIS starring JOHNNY BUNNY with FLORA FINCH

John Bunny's face and girth were the key to his success. At Vitagraph, from his first appearance in 1910 until his passing in 1915, he appeared in scores of one and two reel comedies. And, almost always, Flora Finch was cast opposite him as his shrewish wife.

Yet, few of the films in which Bunny appeared exist because of Vitagraph's policy, at that time, of destroying the negatives of its productions once they had played out in general release. A vintage 35mm. positive in the hands of an individual collector is what made possible our bringing A Cure for Pokeritis to you. And, through Blackhawk's new copying process, we bring it to you in a quality so good that much of it looks as though the original negative might have been available for printing.

In this most appealing comedy, Bunny plays the husband addicted to playing poker at the club—and usually losing. He swears to his wife, Flora, that he'll give it up—but he, at least, has his fingers crossed mentally when he makes the promise, and in no time at all he's conspiring with a fellow poker-player on a way to get out of the house for the next game. But Flora and a group of her friends band together to stage a raid—rent police uniforms—and move in. When the "policemen" place all of the poker-playing males on probation to their wives, it looks like the gals have won at last—or have they?

D-DAY LANDINGS IN NORMANDY

It seems quite appropriate at this time, with Zanuck's new Cinemascope production, "The Longest Day," going into release across the country, for us to provide a film edited from official U. S. Department of Defense footage showing many of the authentic Signal Corps and Navy shots taken of the armada that crossed the channel and the troops that landed on the Normandy coast on D-Day, June 6, 1944. Here, in this single reel film, are some of the highlights captured by motion picture cameras on that first day of the Allied invasion of Europe.

Length approximately 4000-feet, 16mm. silent and 2000-feet, 8mm. silent

Here is the great Lon Chaney feature of 1923 complete and substantially as it was when it was first released. While Chaney had first attracted more than casual attention in "The Miracle Man" in which he appeared at Paramount in 1919, it was unquestionably his performance in "The Hunchback" and in "The Phantom of the Opera", which followed at Universal in 1925, that laid the groundwork for his highly successful career at M-G-M for the remainder of the silent era. And, without question, "The Hunchback of Notre Dame" stands out as one of the greatest films of the silent era.

It will be of interest to film collectors everywhere to learn that our fine grain master positive (from which our printing negatives are made) struck from the original 1915 35mm. negative of "The Birth of a Nation" is likely to be the last use to which this original negative is put. Down the years, hundreds of prints have been made from it and shrinkage, perforation wear, and the extreme difficulty of getting the timing notches to trigger light changes properly have now brought on its permanent retirement. Our fine grain master positive and the fine grain in the possession of The Museum of Modern Art in New York are now the two authentic records of this historic film in its true original form.

Complete and authentic—every scene and title intact just as when "The Birth of a Nation" was originally released in 1915!

THE SECOND 100 YEARS

starring

LAUREL & HARDY

with **JIMMY FINLAYSON and EUGENE PALLETTE**

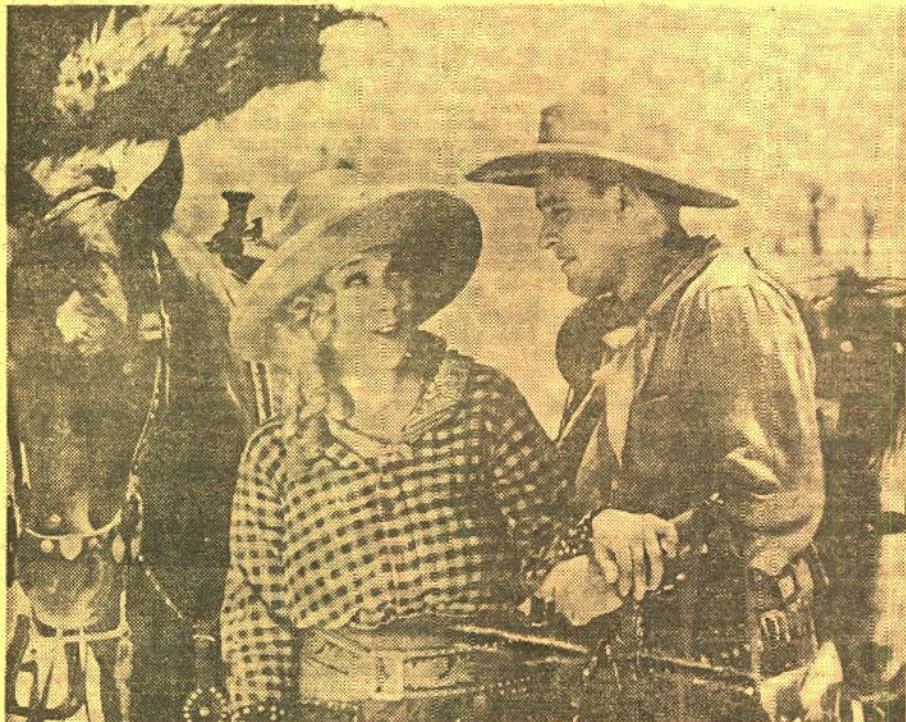

The *Second 100 Years* was the second of the Hal Roach Comedies starring Laurel & Hardy to be released theatrically by Metro-Goldwyn-Mayer when that organization took over distribution of the output of the Roach studio in the summer of 1927. In it, Stan and Ollie are cast as two convicts—cellmates—who must be in for considerable stretches but who really don't look they could have done anything deserving such a penalty.

It turns out that the boys are resourceful—they've been working nights on a tunnel—and the evening they decide to push the job through to freedom they come up right in the middle of the warden's office. On another day when one of the guards is giving a whole group of workmen in the lot, in the course of a drill the boys don't make a turn but keep on straight to a spot where two painters are winding up the mornings work. Mr. L and Mr. H decide to turn their prison clothing inside out to look like painters, and they proceed to paint themselves right out of prison.

Then they get involved with switching clothing with two visiting police officials from France who are in this country to visit the governor and the warden of the penitentiary. Only, in switching clothing in the limousine and in pushing the Frenchmen out, the chauffeur is unaware of the change, and drives the substitute visitors on to the dinner and reception in their honor. They get through the dinner during which the audience is bound to have some hilarious moments—but the visit to the warden's penitentiary crosses them up when they find the visiting Frenchmen locked in their cell.

This one is a Laurel & Hardy we can definitely recommend, and one that we think most of you will feel is in the top bracket of their comedies from the silent era.

FARO NELL; or, IN OLD CALIFORNY

starring **LOUISE FAZENDA**

with **JACK LUDEN, FRANK RICE and HARRY WOODS**

One of the first great comedies of the Talkies, produced by Al Christie in 1929 and originally distributed by Paramount. This comedy short subject was so sensationally good that Photoplay Magazine classed it as one of the six or eight best films of the month, a rating up until that time reserved only for feature pictures.

Blackhawk's release of this subject, for which the original 35mm. negative was available, makes use of a completely re-recorded track to improve the level of sound and eliminate much of the background noise that would otherwise be apparent in a film of this vintage.

It's the story of Little Nell, sweetheart of the diggings, in love with Jack. A Stranger shows up at the saloon and claims to be Nell's long-lost husband. Nell laughs it off—but then admits that she had thought him dead—that she had been forced to marry him to save her father. Jack sees red, and goes after the Stranger with a gun. Then the diggings are in for a necktie party—but Nell discovers that the Stranger had a gun in his hand all the time and that Jack shot in self-defense. And Nell gallops across the plains, takes aim at the rope that has just stretched tight and justice is done!

Recommended as a gem from that early year of the Talkies . . . 1929!

CRAZY HOUSE

with

**HAL ROACH'S
LITTLE RASCALS**

Here's one of the original Hal Roach Comedies that were known as the "Our Gang" Comedies back in the 1920's and 1930's. This particular number is one of those that were of the most popular type in which the gang ever appeared, the "house of mystery" or "crazy house" variety of film with more goings-on than a carnival side-show. In it, Jean and Percy live next door to each other in what, in those days, was known as the "right side of the tracks." The gang lived on the "wrong side of the tracks." But playing with the gang is a lot of fun, so one afternoon when her mother and father are away from home, Jean invites the gang—and Percy—over to her house for a party.

It just happens that Jean's father has just gone to considerable expense to have the house wired up with scores of gadgets to pull an April Fool's party on a bunch of his friends from the club—Jean knows this—but the gang doesn't. So, you can—or can you?—imagine what pandemonium breaks loose when the gang arrives and the buttons are pushed. This is fast action from the beginning to the end. Kids will like it anytime—and it will be an especially good item to run for family New Year's parties!

BURN 'EM UP BARNES

starring

JOHNNY HINES

with **J. BARNEY SHERRY, EDMUND BREEZE, GEORGE FAWCETT, JULIA SWAYNE GORDON, RICHARD THORPE, HARRY FRAZER, MATTHEW BETZ**

Johnny Hines, one of the screen's top comedy stars of the 1920's, came to the movies by way of the stage. His first screen appearances were in William A. Brady's World Pictures from 1914 to 1917. He returned to the stage in a play called *Just a Minute*. C. C. Burr was casting about for a star to feature in a series of two reel comedies which he intended to produce independently, based on the Torchy stories by Sewell Ford. Burr saw Johnny in *Just a Minute* at the Court Theatre in New York, and knew he had found the star for his comedies. Burr and Hines joined forces, and the Torchy comedies became a highly successful series extending over a three year period.

By 1921, both Burr and Hines thought the time was right for a shift to feature production, and *Burn 'Em Up Barnes* was the first of a long series of films produced by Burr and starring Hines. In it, Johnny is cast as the brash young son of an automobile magnate who is so fast on the road, he's constantly getting arrested for speeding and thus almost always late to the office. His father (J. Barney Sherry) is getting fed up with this and on the morning on which the film opens, says to Johnny: "You couldn't get a job as street sweeper in a one horse town." To this, Johnny replies: "Why would a one horse town need a street sweeper?" All of which gives you some idea to the change that has taken place in 41 years, and sets the stage for what is to follow. Johnny gets hi-jacked in his car, kidnapped and carried away on a Lackawanna freight train, and ends up in a small midwestern town where he sets out to make good to prove to his father that he can amount to something after all.

This is a fast-moving and down-to-earth comedy of the type for which Hines became famous and, of course, the climax is an auto race with Johnny the winner. It's a film that is an excellent example of its period, and one we can highly recommend.

Johnny, incidentally, now spends a very comfortable retirement in Hollywood and owns the original 35mm. negative from which our pre-print material on *Burn 'Em Up Barnes* was struck. Print quality on this release is outstandingly good.

WRONG AGAIN

starring

**STAN LAUREL &
OLIVER HARDY**

Produced by Hal Roach in 1929, the last year of the silents, this Laurel and Hardy comedy, for our money, is one of their better ones. It is a subject that Blackhawk has had available in 8mm. release for a period of years, but now, for the first time, is releasing also in 16mm. silent. A new fine grain master positive has been struck from the original negative, and new printing negatives made for both 16mm. and 8mm. use. Quality therefore, should be excellent, and 8mm. prints substantially better than those heretofore available.

Wrong Again has the boys employed at a stable where the famous race horse, "Blue Boy", is quartered. But 1929 was a year when the famous painting, "Blue Boy", was much in the news—but neither Stan nor Ollie had ever heard about the painting. So, when the owner of the painting, "Blue Boy", reports that it has been stolen, the boys immediately reach the conclusion that "Blue Boy" is the horse they've been taking care of and immediately set out to return the property and receive the reward. When telephoned instructions about the return of the painting are interpreted in terms of a horse, you can imagine the situations resulting—or can you? The result is hilarious fun, and the subject is a Laurel and Hardy that we highly recommend.

D. W. Griffith's

THE BATTLE AT ELDERBUSH GULCH

with **LILLIAN GISH, MAE MARSH,
LIONEL BARRYMORE and
HARRY CAREY**

When D. W. Griffith made *The Battle of Elderbush Gulch* in the early summer of 1913, his association with Biograph was nearing its end. This pioneer company had given him his opportunity, and had become the industry's dominant producing company because of it. But Biograph was a cornerstone in the Motion Picture Patents Company—the Trust—and its almost inflexible adherence to films of one or two reel length was throttling the future narrative and artistic developments of Griffith's films.

The Battle of Elderbush Gulch was the "master's" try at a Western, and in its two reels he came out with a build-up of suspense and tension perhaps not rivaled in a film of this type until John Ford's *Stagecoach* some twenty-six years later.

THE MAKING OF BRONCHO BILLY

with

G. M. ANDERSON

Between February, 1907, when G. M. Anderson joined forces with George K. Spoor, pioneer exhibitor and exchange operator in Chicago, to form Essanay, and 1915, the series of one and two reel films—mostly Westerns—in which Anderson starred and which had become to be known as "Broncho Billy" subjects, totaled something more than 350 different productions. Yet, strangely, for all the different titles, and the vast number of prints that were struck on each, very few of these subjects have turned up in the hands of collectors of 35mm. prints and the negatives, for the most part, have vanished.

Blackhawk feels particularly fortunate, therefore, in bringing to you this one reeler which came out originally on Feb. 1, 1913. This is a fairly typical "Broncho Billy" Western, and one we're sure you will enjoy more than just casually.

SIGHTSEEING IN WASHINGTON, D. C.

(Mainliner Vacation Series)

To our knowledge this is the most comprehensive set of color slides ever issued on America's capitol city, and one that incorporates scenes of many subjects, including interiors, that the average tourist or traveler would not have the opportunity to photograph. All of the major attractions of this great city are pictured and, in addition, there are interiors of the Capitol Building, the White House, National Archives and the F. B. I. All in all, this is a set that will be of considerable interest to almost every purchaser, a set of real value for school use, and one that will offer considerable supplementary material for slides you may have taken yourself.

350-415, 100 35mm. 2"x2" color slides, 14-ozs. \$9.99

CHICAGO, NORTH SHORE and MILWAUKEE ELECTRIC RAILROAD

A definitive 35mm. 2"x2" color slide set in the

Trains Magazine/Blackhawk Films Series

photographed by A. C. Kalmbach, publisher of Trains, Model Railroader and Model Trains Magazines

This king-size set of 100 35mm. 2"x2" color slides, comprehensive coverage of the North Shore Line, is being issued because of the impending abandonment of this high speed electric line running from Chicago to Milwaukee that had its beginning back in interurban days. When the set was planned this spring, it was fully expected that the North Shore would be abandoned before the slides were ready, for the I. C. C. had given approval for discontinuance of service late in June. But an extension, probably of only short duration, has been granted and, as we go to press, the North Shore is still in operation. It is not presently planned to keep this big set on the North Shore in distribution indefinitely so now is the opportunity for all of you juice fans to acquire the broad pictorial coverage it presents.

MEMORIES OF THE NARROW GAUGE

Photographed by Robert A. LeMassena

So many slide sets have been issued dealing with the narrow gauge lines of the Rio Grande that it seems almost impossible to come up with another group that could add anything not already covered—but this set does. Photographed over the last twenty years, this assortment of slides is predominantly devoted to the sections of the Rio Grande that are now abandoned, including some shots of the wrecking trains. You'll see steam in operation on the Monarch Branch, Baldwin Branch, Crested Butte Branch, Gunnison Branch and Baldwin Branch—as well as scenes on some sections still in operation. And, you'll have glimpses of some of the narrow gauge locomotives that have now been scrapped including Nos. 268, 278 and 310.

FIRE IN KOKOMO

Photographed by Robert O. Wagner

This assortment of eighteen slides is being offered as somewhat of an experiment by Blackhawk in response to requests from fire fighting buffs all over the country. This particular fire started about 1:15 P. M. on Dec. 12, 1960, in a downtown Kokomo, Indiana, building housing a furniture store. It started when a bucket of hot tar, being used to repair the roof, was spilled and ignited. The workmen repairing the roof tried for twelve minutes to extinguish the fire before calling the fire department, which was located just around the corner. But by the time the fire department arrived, the fire had gained such headway that it was impossible to save the building, and only after successive alarms were sounded—to prevent its spreading further. Water and ice covered everything in the vicinity. Six million gallons of water were used with each pumper truck consuming fifteen gallons of gasoline an hour. It was 4:00 A. M. the next morning when fire fighting ended. The loss was \$350,000.00.

BLACKHAWK'S NEW LOW-PRICED SERIES of 35mm. 2"x2" COLOR SLIDES

ONLY 10c PER SLIDE (SOLD IN COMPLETE SETS ONLY)

This particular group of Blackhawk 35mm. 2"x2" color slides was on sale at these prices during September and October. Now, installation of new automatic equipment is enabling us to reduce our manufacturing cost on these sets, and we are continuing what was a sale price as our regular price. Quality in every way continues at the high standard you have come to expect from Blackhawk—the only thing that has changed is the price! And, at 10c per slide, this makes a BEST BUY by any comparison.

quik splice 8mm. MOVIE EDITOR DIRECT VIEW . . . AUTOMATIC ACTION

Designed for viewing and editing 8mm. color or black and white movie film, the new Quik Splice Direct View 8mm. Editor is developed around a microscopic-style optical system (272X area magnification) that allows the user to carefully inspect his film in motion, forward or reverse, and view single frame stills. The micro-optics with its built-in light source (110-volt AC-DC) allow the user to see a brilliant image regardless of how bright the room lights are, thus eliminating the discomfort of editing in a darkened room. A built-in film notcher allows marking film for point of cutting. The Quik Splice Automatic Butt Splicer, built into the base, cuts the film automatically on the frame line (in the professional manner) to eliminate splicing frames by cutting into them. The new editor is designed to hold all 8mm. film reels from 50-feet to 200-feet. The geared drive system is simply operated by a single crank.

34-17, 2-lbs., Blackhawk's price, only **\$12.99**

KALIMAR COMPACT 8 8mm. MOVIE CAMERA

ELECTRIC DRIVE FROM TWO PENLIGHT
BATTERIES—BUILT-IN AND COUPLED
PHOTO ELECTRIC EXPOSURE METER!

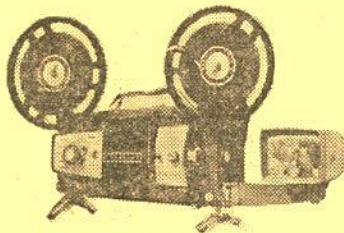

GET SET NOW FOR 8mm. SHOOTING WITH THIS MODERN ELECTRIC MOTOR CAMERA!

This original model of the Kalimar Compact 8 is being discontinued and Blackhawk has purchased a substantial portion of the importer's remaining stock to bring it to you at savings of 50% from Blackhawk's last season's prices.

The Kalimar Compact 8 is the smallest and lightest of all 8mm. movie cameras. Extremely easy to handle, permitting steady, single-hand operation. The entire unit is small enough to fit in the pocket—only 1 1/8-inch thick, 4-inches wide and 5 1/4-inches tall. It weighs only a pound and two ounces.

The Kalimar Compact 8 has F:1.8 lens with focusing range from 3-feet to infinity. Electric motor is speed controlled by governor, and is set to take pictures at 16-frames-per-second. No spring motor to wind—you can shoot an entire 25-ft. side of a double 8mm. roll film without stopping! Snap-up type clear viewfinder folds flat when not in use. Two penlight batteries are adequate for at least five rolls of film. (Batteries are not included.) Complete with zippered leather carrying case and wrist strap.

**SAWYER'S 500EE
2"x2" ELECTRIC EYE
SLIDE PROJECTOR**

The first electric-eye slide projector. Has all the features of the popular Sawyer's 500R projector plus an electric eye aperture control. Located directly behind the lens the electric eye reads the density of each slide and automatically adjusts the aperture built into the lens barrel. If the slide is underexposed, and thus dark, the aperture is opened fully to permit maximum light through. Conversely if the slide is overexposed and thin, the aperture is closed down proportionately to reduce brightness and glare. Features 5" f3.5 lens.

**SAWYER'S 500T
2"x2" SLIDE PROJECTOR**

Has built-in automatic timer mechanism that will change slides forward or reverse, in 5, 10, 15 and 30 second intervals. Also has remote control at the end of 10-foot cord that can be used to over-ride the timer and eject or hold any slide for longer or shorter periods. Remote control can be used to focus lens and to change direction of slide tray movement, forward or reverse. Optionally, projector can be operated from control panel on projector and slide changer can be operated manually at any time. Features 5" f3.5 Anastigmat lens, turbine cooling.

16-75, 19-lbs., Blackhawk priced at **\$77.77** only

**SAWYER'S 500R
2"x2" SLIDE PROJECTOR**

**Sylvania's
REVOLUTIONARY
NEW
SUN
GUN**

The first new development in home movie lighting in many years!

The Sun Gun makes use of a quartz iodine lamp with light output equivalent to four R-30 photofloods. It gives 35,000 center beam candlepower, using only 650-watts, as opposed to 1,600-watts required by four photofloods. It operates on 110-120-volt AC, and draws 6-amperes. The life of the Sun Gun ranges between 10 and 15-hours, compared to only 4-hours for photofloods. Further, the Sun Gun maintains both its light output and color temperature over its entire life.

The beam from the Sun Gun is broad enough to be used with most wide angle lenses. It provides adequate light for shooting with indoor Kodachrome. Camera shown in illustration not included.

**WESTINGHOUSE
STUDIO ONE
CAMERA LIGHT**

A single, safe, compact light source for theatre quality movies! With the Studio One Camera Light indoor picture taking is easier, simpler, more fun! Gone is the old-fashioned multiple light bar that's not only awkward to handle but hampers picture-taking by its size and weight!

The Studio One Camera Light in lustrous black plastic connects to any movie camera by means of a strong, lightweight aluminum mounting bracket. The 10-ft. UM approved cord permits freedom of camera movement while photographing, while swivel joint design tilts the lamp for bounce lighting when desired. The smooth, easy-grip handle assures steady light on the subject for brighter, sharper pictures every time!

The exclusive DXY 650-watt sealed beam type lamp with useful life of 8-hours (twice that of conventional movie floods) has a color temperature of 3400-degrees K. for perfectly balanced color pictures. The lamp can be changed quickly and easily, and because the reflector is built-in, a bright new reflector system is automatically installed when the lamp is replaced.

**FILMAGIC
SILICONE CLOTH
USE IT TO CLEAN, POLISH AND
PROTECT YOUR FILMS**

This Filmagic Silicone Cloth is treated with silicone to apply an invisible but highly lubricated surfacing to your 16mm. and 8mm. films. This makes them more resistant to scratches and blemishes. New prints so treated will run through the projector much more steadily than a "green" untreated print. Polishing both sides of the film channel at the film gate of your projector with this Filmagic Cloth will also give further protection to your films and make for steadier projection of new prints.

THE FABULOUS NEW PLIO-MAGIC big capacity 16mm. PLASTIC REELS

These reels are made of a special formulation of high impact plastic which resists breakage, has a high memory factor which tends to return reels to original shape after periods of abuse. These reels are flame resistant and will withstand higher heat than the film they carry. Colors are molded in and cannot peel or chip. They will not crimp or deform when dropped, nor will they form burrs or sharp edges at point of contact. They have been designed to give the user true-running concentricity and perfect balance. These reels are unconditionally guaranteed by the manufacturer to outperform any other reels now on the market. Savings in weight over other reels of the same capacities vary from 50% to 150%. Available color: gray.

A PICTORIAL HISTORY of the SILENT SCREEN

by Daniel Blum

Over three hundred 9x12-inch pages, literally thousands of illustrations! Covers the movies from their very beginning until the coming of sound. One of the most absorbing volumes about the silent days of the movies—and one of the very best reference books about pictures and players.

62-21, 5-lbs., only \$5.95

A PICTORIAL HISTORY OF THE TALKIES

by Daniel Blum

Over three hundred 9x12-inch pages, and illustrations by the thousands. Covers the movies from the very beginning of sound until the coming of Cinemascope and Cinemascope. A volume of tremendous interest—and an equally good reference book to Blum's "A Pictorial History of the Silent Screen".

62-22, 5-lbs., only \$5.95

A PORTRAIT OF JOAN

by Joan Crawford and
Jane Kessner Ardmore

Blackhawk's good friend, Dr. Frederick B. Shroyer, who is, among many things, Professor of English and American Literature at Los Angeles State College; TV moderator and panelist; author of several published books; and Book Columnist for the Los Angeles Herald-Examiner, recommended that we add this volume to the group of books we are making readily available to film fans everywhere. In his review in the Herald-Examiner, Dr. Shroyer wrote: "A Portrait of Joan" . . . is a warm, honest, nostalgic rags-to-riches story of Lucile LeSueur—former dish-washer, floor-scrubber and back row chorus girl—who came, frightened and alone, to Hollywood in 1925 at the age of 17.

"During the years that followed her arrival in Hollywood, Miss Crawford appeared with leading men whose names filled a roster that constituted a movie popularity fever chart. Looking over the list, one can almost visualize four decades of the Hollywood cavalcade.

"Miss Crawford's eyes were always wide open, and through their windows the reader gains a wide screen view of the mad, fabulous years of Hollywood's Golden Age."

MR. LAUREL AND MR. HARDY by John McCabe

The informal and entertainingly written dual biography of Stan Laurel and Oliver Hardy who became the funniest clowns in the movies after Chaplin. The great number of copies of this volume that we have sold since its publication over a year ago is what has prompted us to expand our lines of books about the movies. If you're just a little bit of a Laurel and Hardy fan, you should have the book!

BLACKHAWK WILL BUY USED 16mm. SOUND PROJECTORS

Yes, Blackhawk is always in the market for used 16mm. sound projectors—one or a hundred. Units must be complete and in operating condition, but need not be completely repaired or overhauled as we do this in our own shop. But, projectors shipped to us must be in condition to project and picture and reproduce sound. We do not buy models on which it is no longer possible to obtain repair parts. Write us what you have stating make and model. We'll immediately send our offer!

TAKE ADVANTAGE OF THIS UNUSUAL SALE OF FILMS OF THE NATIONS

Some prices reduced more than 20%

Films of the Nations has for many years specialized in films dealing with the scenic attractions, the history and culture, of the nations of the world. We are fortunate in being able to offer a wide selection of films from their catalog which, new, sell for several times over the prices of these good used copies.

A great many of the prints in this current lot are from television. There are, as a result, several different versions of the same subject—tailored for different running times. These are completely re-edited versions—not just the basic film with a major sequence removed.

BLACKHAWK'S NEWSREEL

8mm. COLOR PRINTS

A number of individuals who get our Blackhawk Bulletin for the first time write and ask us: "Are your 8mm. color prints any sharper or brighter than those put out by other companies?" We can and do reply that they definitely are sharper, brighter and with more realistic color than other 8mm. prints that we have seen, and we go on to tell them why:

In competitive enterprise, to many people, the matter of price seems to be the factor of greatest importance. Price is something that many manufacturers in many lines strive for in varying degrees. In the line of 8mm. motion picture subjects, many organizations providing films are geared for two step distribution: (1) to dealer, (2) then to final purchaser. Still others distribute on a three step pattern: (1) to distributor who wholesales, (2) then to dealer who retails, and then (3) to the final purchaser. This means that a profit margin must be built into the final selling price for the producer, the distributor and the dealer, and in addition, very often, for a film laboratory which manufactures the print. So, in order to come out with a retail price that is attractive, the most expensive and most economical method of making the 8mm. color prints is a requisite. And this process is to make a double 8mm. color internegative or a double 8mm. color master, depending on whether printing is negative-positive or reversal, and to make 8mm. prints by contact from this internegative or master, printing on a high speed, continuous printer.

But here at Blackhawk we sell directly to the final purchaser, and our subjects are not priced to allow for distributor or dealer profit. Further, we do our own 8mm. color printing—not by the least expensive method—but by the most expensive method—direct frame-by-frame reduction from a 16mm. color internegative to the 8mm. positive (or from a 16mm. color master to an 8mm. color reversal print). This is a process so relatively slow and thus expensive that it is not used, to the best of our knowledge, by any other major producer of 8mm. color prints.

By the end of 1963 we're hoping to speed up our release of material in 8mm. color form so that eight to twelve new subjects can be made available each month. About two thirds of this total will fall in the travel line, with one or two new railroad films each month and the balance in the area of wild life and other specialized subjects.

WHAT'S NEW IN RAILROAD MOVIES?

Blackhawk has coming up, over the months ahead, an outstanding group of new releases in the railroad line, many of which will be issued in 8mm. color as well as 8mm. black and white, and some of which will also be made available in 16mm. sound.

One of the outstanding new films now in preparation is *Rio Grande Southern* and the *Trestles of Ophir* edited from 16mm. color original photographed by Woodrow Gorman before World War II and in 1950 in the fading days of the R. G. S. We're expecting to have this film ready in February in both an 8mm. color and an 8mm. black and white version, and a month or two later in 16mm. sound.

Also coming up during the winter is an 8mm. black and white film edited from original 35mm. negative shot of the Reading's operations about 1930. And, in early stages of preparation is a one reel film of some outstanding steam railroad action shots of the 1930's and 1940's taken by Gene Miller—a film we expect to release in both 8mm. color, and black and white—and which, also, may later come out in a sound version. This film will show a wide variety of steam power on many lines, including branch and short lines, and will be somewhat the counterpart of our slide set which we called "When Steam Was King".

There are more 8mm. color films on rail subjects photographed by Mac Owen on the way, and a group from Glenn Beier who has a considerable amount of 16mm. color footage on which we are just now beginning to work. More—specifically—about new films from these two rail photographers in the next month or two.

Now... for the first time... individual "30 day" charge accounts are available for Blackhawk's customers!

HOW TO OPEN A BLACKHAWK CHARGE ACCOUNT

Open account billing is now available to individuals in the United States (Alaska and Hawaii, for the time being, are excepted) on the payment of an annual fee of \$2.00 and the submission of satisfactory credit information. On this basis, upon the opening of a Blackhawk charge account, you will be provided with an account number which should appear on all orders from you. Payment for orders shipped and billed during a month are due in Davenport not later than the 15th of the month following. As an example, orders which are shipped and billed to you in December must be paid in full not later than January 15, etc., etc. A Blackhawk charge account

will be a particular convenience to our regular customers in that it eliminates the pre-figuring of remittance for postage, and the writing of several checks or the securing of several money orders during a single month.

Fill in completely (type or print) the BLACKHAWK CHARGE ACCOUNT APPLICATION below, sign and return to us with the \$2.00 annual charge account fee (refunded in the event an account is not opened by us). We'll immediately confirm receipt and let you know as soon as the account is open—and your account number.

Shipping weights are now given with each item and you can compute the approximate total weight and postage charges by referring to the postage table given below. While weights of a single shipment to virtually all post offices in continental United States are limited to 20 pounds, shipments to the states of Alaska and Hawaii may run as heavy as 70 pounds. These two states are in the eighth zone, and Blackhawk customers can approximate the correct postage to remit by figuring 18c per pound for each pound above twenty. The same formula applies to all U. S. Territories and Protectorates.

Some larger and heavier items, because of size and weight, are not mailable and will thus be shipped to you by express or freight, you paying the transportation charges on delivery. In general, shipments of size and weight requiring express or freight transportation will not be forwarded on a C.O.D. basis.

Customers ordering films for shipment to points in the State of Iowa must also add 2% for the State Sales Tax.

C.O.D. SHIPMENTS
Except where noted, Blackhawk will gladly make shipments of merchandise on a C.O.D. basis to any point in the United States. However, on C.O.D. shipments, the purchaser pays all transportation charges, insurance and C.O.D. fees, and money order fees, in addition to the cost of the merchandise. Because of the weight involved, we will not forward projectors on a C.O.D. basis unless a deposit of \$25.00 is enclosed to guarantee transportation charges.

None of the motion picture prints offered herein, either new or used, may be used for television or theatrical purposes, as these rights are specifically reserved. All new 6mm., 8mm. and 9.5mm. short subject prints (comedies) Laurel and Hardy and other Hal Roach comedies) may be shipped by us to any destination in the world. Certain feature picture prints, both used and new, and a few short subjects on which used prints are available, are restricted as to the territories in which they may be used.

On orders that may be shipped by parcel post in a single package, customers in countries outside USA may have postpaid delivery. A surcharge of 10% is made to cover postage, insurance and the preparation of the necessary customs forms. Remittances in full must accompany orders by International Money Order or Bank Draft. Minimum order for shipment outside USA is \$10.00.

Customers in the United States (excluding Alaska, Hawaii and other territories) may now purchase anything listed by Blackhawk on convenient time payments. Special time payment order blank is printed on the opposite page of this issue of the Blackhawk Bulletin. Furthermore, our convenient add-on payment service is available to those of you already having satisfactory time payment accounts in operation. (See "D" below.)

Below are the minimum down payments required based on the total amount of your purchase.

On orders totaling	\$25.00	to	\$50.00	\$ 5.00
On orders totaling	\$50.01	to	\$100.00	\$10.00
On orders totaling	\$100.01	to	\$150.00	\$15.00
On orders totaling	\$150.01	to	\$200.00	\$20.00
On orders totaling	\$200.01	to	\$250.00	\$25.00
On orders totaling	\$250.01	to	\$300.00	\$30.00
On orders totaling	\$300.01	to	\$350.00	\$35.00

The amount of your time payment charge and the amount of your monthly payment is determined by the unpaid balance remaining after we have deducted your down payment from the total of your purchase. Thus, the larger you can make your down payment, the lower will be your time payment charges and the smaller will be your monthly payments.

Time payment charges are based on the unpaid balance remaining after the deduction of your down payment from the total of your purchase. Here they are scheduled:

are scheduled:

On unpaid balances	totaling	\$25.00	to	\$50.00	..	3	5.00
On unpaid balances	totaling	\$50.01	to	\$100.00	..	10	10.00
On unpaid balances	totaling	\$100.01	to	\$150.00	..	15	15.00
On unpaid balances	totaling	\$150.01	to	\$200.00	..	20	20.00
On unpaid balances	totaling	\$200.01	to	\$250.00	..	25	25.00
On unpaid balances	totaling	\$250.01	to	\$300.00	..	30	30.00
On unpaid balances	totaling	\$300.01	to	\$350.00	..	35	35.00

As is explained above, the size of your monthly payment is based upon the unpaid balance (including the time payment charge) remaining after deducting your payment from the total of your purchase. Here is the schedule:

On unpaid balances totaling	\$25.00	to	\$50.00	\$ 5.00
On unpaid balances totaling	\$50.01	to	\$100.00	\$10.00
On unpaid balances totaling	\$100.01	to	\$150.00	\$15.00
On unpaid balances totaling	\$150.01	to	\$200.00	\$20.00
On unpaid balances totaling	\$200.01	to	\$250.00	\$25.00
On unpaid balances totaling	\$250.01	to	\$300.00	\$30.00
On unpaid balances totaling	\$300.01	to	\$350.00	\$35.00

We're always glad to add additional purchases to time payment accounts already outstanding. The additional time payment charge will be based on the amount added to the time payment contract. The charge itself will be determined from schedule B up above.

The amount payable monthly, when an add-on is made, will be based on the total amount still due including the unpaid balance of the original account plus the unpaid balance on the add-on. When these two are combined, the total will fall into one of the brackets indicated in C.

We've provided this information so that you will know exactly the amount you will owe. However, to help you further, we prepare a time payment schedule for you at the time we ship the merchandise. We show you the exact amount due and the dates on which the amount should be received here in Davenport. So—do not let the details bother you. We'll do the figuring.

Blackhawk's Lay-Away Plan costs you not a penny more than Blackhawk's regular cash prices—you pay 10% of the cost of the merchandise with your order, the balance within 90 days at your convenience. As soon as the balance is paid, Blackhawk ships the merchandise! And, Lay-Away is an easy way for you to get those limited availability bargains and sale items, for the moment we get your order, it is physically pulled and set aside for you! Remember—no interest or carrying charges on Lay-Away!

Shipping weights are given on all mailable merchandise so that you can remit approximate postage charges with your order. Just add up shipping weights on all items to be shipped by Parcel Post and figure total pounds (16 ounces to a pound).

All Addressograph plates on Blackhawk's regular list now carry an indicator in the lower right corner keyed: Z-2, Z-3, Z-4, etc. The numeral after the Z indicates your parcel post zone from Davenport. If, however, you are ordering from a Blackhawk Bulletin that is not plate addressed to your town or locality, a phone call to your local post office will get you information as to your zone from Davenport, or you can estimate it on the basis of distance as given in the table below. Alaska, Hawaii and all territories of the United States are in the 8th zone from Davenport.

Then, having determined the total shipping weight of your order and the zone in which you are located from Davenport, refer to the table below to determine the amount of postage to include when placing your cash order. (There is no need to figure this in advance on C.O.D. or Time Payment orders as actual postage charges will be billed to you.) We will send credit voucher for any overpayments of postage which may be applied on your next order.

TRAINS OF FRANCE

Photographed by J. B. Snell

Outstanding and comprehensive coverage of the railway system of France as evidenced by its trains, its wide range of locomotive types and classes, and its unusual features. The Eastern, Northern, Southeastern, Mediterranean and Western Regions of French Railways are covered including several scenes of remaining privately-owned short lines.

Among some of Europe's great trains that are shown are the *Trans-Europ-Express* and the Paris-Nice *Mistral*. There are many French express trains pictured, mostly with steam power, although some with diesel and some with electric locomotives. Included are expresses on these runs: Lyon-Strasbourg, Paris-Basle, Dunkirk-Basle, Calais-Paris, Paris-Marseilles, Marseilles-Rome, Brest-Paris, Cherbourg-Paris, Paris-Deauville, and a number of various classes of freight trains.

In the locomotive line you'll see 4-6-2's, 2-8-2T's, 4-8-2's, 4-6-0's, 4-8-4T's, 2-8-2's, an 0-4-4-0 Mallet, 0-6-0T's, a number of different classes of electrics, a variety of diesels, and some of France's different types of MU train-sets and rail cars.

Beautifully photographed and of unusual general interest to every rail fan.
