New Blackhawk 8mm. Release!

PAUL REVERE—Man of Many Talents

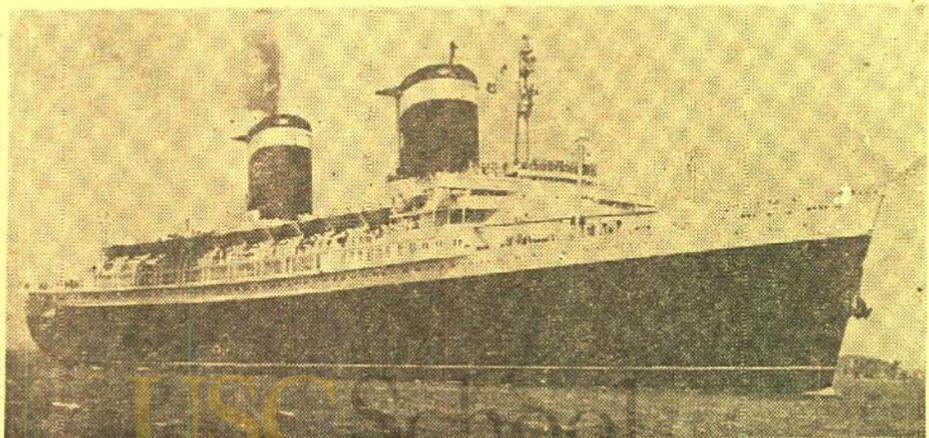

Here's a somewhat different type of 8mm. film subject—the study of one of America's almost legendary heroes through a review of many of the things he did by visiting these historic locations—and by viewing in close-up many items from almost priceless collections of things he made—church bells, silver and copper pieces, and many things of an extremely practical nature that seem to us to have been almost before their time. Not an action-filled film, but a subject of considerable satisfaction and enduring worth. *Prints are ready now!*

8mm. silent version, about 275-feet on two 200-foot reels **\$6.98**

New Blackhawk Release
in both 8mm. silent and 16mm. sound,
ready by or before June 15

SUPERLINER UNITED STATES

Here is the inside story of the planning and the building of the greatest ocean liner ever constructed in the United States—and the fastest ship afloat. We go along at the launching and christening, look in during the shakedown cruise and then—are we lucky—we're aboard for the first round trip trans-Atlantic run that brought two new world's records to the United States—both ship and country. And while all these thrilling events are taking place, we still have time to see everything important about the ship that military security will permit to be shown. One of the top films of all those yet released by Blackhawk!

16mm. sound version, about 700-feet on 800-foot reel, Blackhawk bargain priced at **\$19.98**

8mm. silent version, about 350-feet on two 200-foot reels, Blackhawk bargain priced at only **\$7.98**

BELGIUM--THE LAND AND ITS PEOPLE

This newest release in Blackhawk's 8mm. Travel Series—on which prints will be ready by or before June 1—shows us the picturesque countryside of Belgium—its historic spots—and the highlights of its famed cities—Antwerp and Brussels.

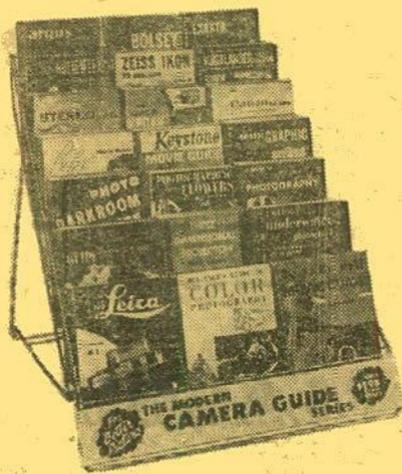

8mm. silent version, about 150-feet on 200-foot reel..... **\$3.49**

Slide Bargains 2" x 2"

Typical Single Frame Slide

This inventory of 2"x2" slides, most of them in color, represents an outstanding opportunity for you to acquire a fine line of specialized slide subjects at an ECONOMY price. All slides are either new—most of them are—or in excellent used condition. All slides are regular 2"x2" paper mounts—but a few are mounted in glass. The single frame slides—indicated as SF in the listing—have the transparent picture area four 35mm. perforations deep and about 3/4 the width of the standard double picture area which is eight 35mm. perforations wide. The slides shown at left and right indicate the differences. However, mount dimensions are the same, and either single or double frame slides work equally well in all 2"x2" projectors. The few double frame slides in this list are indicated as DF.

Several years ago we set out to determine from our customers what range of interests they had—next to motion pictures and things photographic. The evidence was overwhelming that the next range of interest was model building and operation.

But until now, we have not been in a spot where we could adequately represent additional hobby lines such as ship and plane models, and model trains, either from the standpoint of cataloging or warehousing. Now we can, and in the months ahead we expect to regularly stock a wide range of the upper grade items in these areas.

This catalog is our start—and we believe it will offer intriguing possibilities for many of you—whether you are interested in simply constructing a display model for your den or mantle—or an actual operational model of a boat or plane.

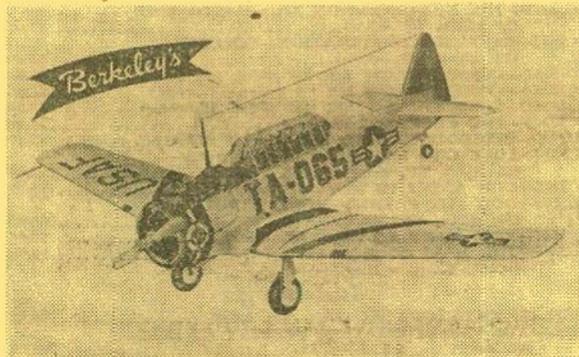

We'll appreciate your comments!

Special New 8mm. Release!

ONE OF THE ORIGINAL "PERILS OF PAULINE"

PEARL WHITE

in
"DEADLY TURNING"

Here's a prize collector's film—one of the episodes from the original serial, "The Perils of Pauline" starring the Queen of the Serials, Pearl White. Unlike the later chapter plays or "cliff-hangers" these first serials were related episodes each complete in itself, and "Deadly Turning" has Pearl—cast as the ward of a wealthy industrialist—as a participant in a cross country automobile race—way back in 1914. The prize title is an exclamation on the part of one of the villains that goes something like this: "With these we can puncture the pneumatics!"

8mm. silent version, about 200'\$4.98

One of the funniest and most typical of all the Ben Turpin comedies we have released to date. Ben is cast as Rodney St. Clair, heart-breaker, bon vivant and, in addition, one of the greatest swordsmen in Europe—some kid! Ben's big trouble is getting mixed up with the Passion of some Pasha, from Persia—or someplace—and being on the receiving end of a little swordplay. The Sennett Girls appear prominently in one swimming pool sequence—in addition to the harem.

Adapted from their feature picture, "Way Out West," this is one of our best 8mm. releases with Mr. L. and Mr. H. They get mixed up with Mickey Finn, saloonkeeper, in whose care has been left the daughter, Mary... Lola Marcel, one of the dancehall girls who poses as Mary... and finally they figure it out. In the meantime, the laughs have been big and frequent.

8mm. silent version, about 500' on 3-200' reels\$9.98

The first thing they do is to rent a car—a Model T roadster (for this film was made in 1928)—and set out to make the acquaintance of two nice girls—which they do. They then get mixed up in a traffic jam with a lot of cars of 1920-vintage, and end things up by wrecking just about every car in sight. Real silent slapstick! Edgar Kennedy is in it, too!

8mm. silent version, about 500' on 3-200' reels\$9.98

TWO ON A TEAR

Here's our first 8mm. feature release—cut from Stan and Ollie's feature, "Blockheads." It's the story of Private Laurel, so dumb he didn't know when to come out of the trenches—found twenty years later when he tried to machine gun a low-flying French plane. Back in the states, his old buddy, Oliver Hardy, sees his picture in the paper, and goes around to see him at the Soldiers' Home. For his own good, Ollie shouldn't have done it! The association wrecks his car, ruins his garage and breaks up his home! But for the audience, it's one big laugh after another!

BATHING GIRLS—THEN AND NOW

A fascinating subject showing the evolution of today's swim suit from the bathing costume of the 1890's. You'll get more than one chuckle out of the old-timers, and, as for the new ones—well, as our narrator says in the sound version, "No matter how handsome a man may be, he can never compete with bathing girls for attention on the beaches."

THE FIRST 500-MILE INDIANAPOLIS SPEEDWAY RACE, 1911

One of the most interesting films we've yet released in 8mm. We see the first of the Indianapolis Speedway Classics in amazing detail, considering the year in which it occurred. There are good shots of the cars in line, circling the track in platoon formation before the race and then taking off at what was a terrific speed for the day (about like what we expect on our highways today). There are some good shots of tires parting with wheels, a crack-up, and the winner—Ray Harroun—who did it in a Marmon.

GOING BYE BYE

Tough guy, Walter Long, is sent up for life as a result of evidence presented to the court by Stan and Ollie. But Stan talks once too much as sentence is about to be pronounced, saying: "He ought to be hung!" Long vows no bars can hold him, and that he'll get Mr. L. He does get loose, and things really get into gear—great on action, suspense and laughs!

16mm. sound version, about 700-feet on
800-foot reel

THE MUSIC BOX

We think this is one of the best comedies this team ever made. It's the story of Laurel and Hardy, Piano Movers—equipment being a horse-drawn express wagon of the early 30s. The piano they have to deliver is a birthday present for Billy Gilbert from his wife. It just happens that Billy lives in a house at the top of a flight of about 200 steps—and you can imagine all the things that can happen to that piano under those circumstances!

16mm. sound version, about 1000-feet on
1600-foot reel

OLIVER THE EIGHTH

Stan and Ollie are barbers in this one—both with a yen to marry a rich widow. So they start corresponding—at least Ollie does, for he ducks Stan's letter in the waste basket. But the rich widow is a vampire-like creature, very well played by Mae Busch, who is out to do away with everyone by the name of Oliver—and our Ollie is the eighth. It's a good one!

16mm. sound version, about 1000-feet on
1600-foot reel

THEM THAR HILLS

Ollie has the worst case in the memory of Dr. Billy Gilbert who recommends that he goes to the mountains and cut out the high living. So, the boys rent a trailer and set off for higher altitudes. And the spot they pick is the site of a just-abandoned still where all the evidence has been dumped into the well. The iron in that mountain water does some amazing things for the two lads, particularly when they meet up with a touring couple, played by Mae Busch and Charley Hall, who are fresh out of gas.

16mm. sound version, about 700-feet on
800-foot reel

THICKER THAN WATER

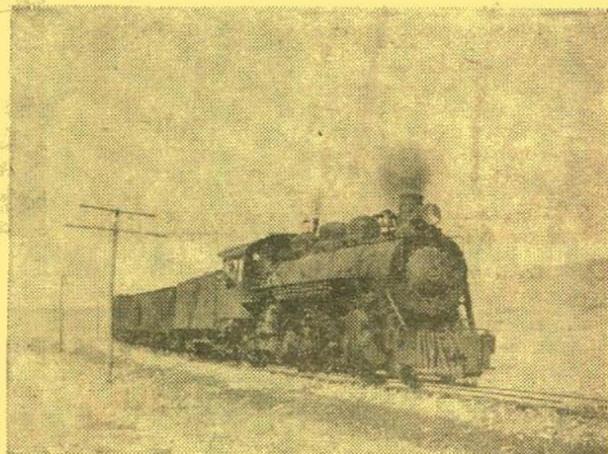

Ollie is married to Daphne Pollard and Stan is their star boarder. Scotsman Jimmy Finlayson owns the furniture store, and Ollie and Daphne are making weekly payments. It's a much-mixed-upness when Daphne gives Ollie the money to make the week's payment, Ollie gives it to Stan to pay for him. Stan gives Ollie back the money to pay his week's rent, Ollie gives the dough to Daphne and Jimmy walks in demanding the money that is due him. But it's more mixed up, when Stan talks Ollie into withdrawing his savings from the bank and paying off the furniture bill in full—because instead of doing this, Ollie gets roped into bidding on a grandfather's clock. And, grandfather, is that something!

16mm. sound version, about 700-feet on
800-foot reel

TIT FOR TAT

Stan and Ollie are all set to open an electrical appliance store right next to Charley Hall's grocery. And as a result of "Them Thar Hills," Charlie just loves the boys. Stan and Ollie try to be nice, but one thing leads to another until we have retaliation of the first magnitude. And while all this is going on, there's some plain and fancy shop-lifting taking place in the unopened electrical shop. Tops!

REMEMBER THE ALAMO

Also adapted from the feature motion picture, "Heroes of the Alamo," this thrilling 16mm. sound film gives the interplay of historical forces which brought about the Texas War of Independence. The year 1833 finds 30,000 American colonists in Texas, then a part of Mexico. The settlers grow restive when liberal grants and guarantees of the new Mexican Republic are repudiated by a dictatorial president, General Santa Anna. Despite the conciliatory efforts of Stephen F. Austin and other leading Texans, a rebellion develops. Santa Anna's army enters Texas, but finds its way blocked by the heroic little garrison of the Alamo, among whom were Col. Travis, Davy Crockett, Jim Bowie, and American Dickinson. The tragic siege inspires the famous battle cry, "Remember the Alamo."

BLACKHAWK'S PROJECTOR MART

USED 16mm. Sound PROJECTORS

ANY ONE OF THESE FINE USED 16mm. SOUND PROJECTORS MAY BE PURCHASED ON BLACKHAWK'S EASY MONTHLY PAYMENT PLAN - - - SEE GENERAL INFORMATION PAGE FOR FULL DETAILS!

A good used 16mm. sound projector is the ideal investment for an individual or organization who wishes to have a unit available for once or twice a week use. If your requirements are for a projector for day-in and day-out use, a new projector might be a better buy for you. Blackhawk Films does not presently supply new 16mm. sound equipment, but can recommend to you a reputable audio-visual dealer in your own community from whom you can obtain a new unit and in whom you can have confidence. We'll be glad to furnish this information on request. Blackhawk is the nation's clearing house for top grade used 16mm. sound projectors. We have customers in every state of the nation—in Alaska, Hawaii, the West Indies, South America, Asia and in the Pacific. Some one near you is probably the happy purchaser of one of Blackhawk's used machines.

We don't buy junk, and we don't buy models on which the manufacturer is no longer prepared to supply repair parts. Machines we buy are principally trade-ins from the country's audio-visual dealers, and most of them have been used by schools. We require that units we buy be complete and in operating condition, with good castings and good cases. We then clean them and adjust them in our own department or at a qualified service station operating with us on contract.

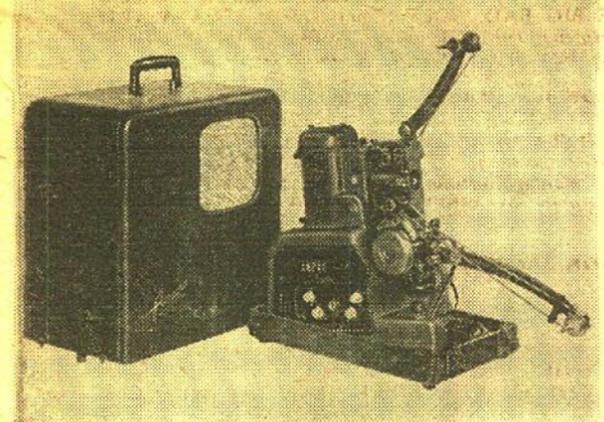

Projectors will be shipped C.O.D. to points in Continental United States (Alaska excepted) providing a \$25.00 deposit accompanies your order to guarantee transportation charges. Projectors will not be shipped C.O.D. unless we have this deposit.

Although empty reels are usually included with new projectors, we no longer attempt to supply an empty film reel with the purchase of a used projector. Therefore, if you wish an empty reel, order the size you want from either our new or used stock.

You have five days after you receive a projector to determine whether or not it meets your requirements. You may return it within this five day period for exchange or refund if for any reason you do not wish to retain it.

Unless specifically otherwise noted in the listing, each model of 16mm. sound projector offered here is a two-case unit (projector and amplifier in one case, speaker in a second case) operating on 60 cycles, AC only; is equipped with a 750-watt projection lamp and a 2" focal length projection lens; has a motor-driven rewind and takes film reels up to 1600' capacity. Where specifications differ, they are shown in the descriptive paragraph.

PROJECTORS ARE NOT SHIPPED PREPAID, and for the most part they are not available. You pay transportation charges on receipt. Most 2-case projectors weigh, when packed, just under 100 pounds. Most single-case projectors, about 40 pounds. Between Davenport, Iowa, and most Post Offices, the weight limit is 20 pounds, to some others it is 40 pounds. Only to a relatively few destinations may parcel post shipments of up to 70 pounds now be made. This means that projector shipments must go by Railway Express, rail or truck freight. Then can also, within the United States, go by air freight for but little more than Railway Express. As examples of transportation charges, the average projector from Davenport to New York, by Railway Express, will run about \$10.00; by truck or rail freight, about \$4.50; and by air freight, about \$11.00. C.O.D. shipments can be made by Railway Express, by some truck routes and by Air Freight. Between Davenport and San Francisco, Railway Express charges would be about \$15.00; truck or rail freight charges about \$10.00; and air freight about \$21.00.

16mm. SOUND FILMS

Here's one of our best buys yet in good used 16mm. sound films. This line of films—either one reel 16mm. sound subjects on which the main titles or some miscellaneous footage is missing in the reel—or odd reels of multiple reel subjects—offers some of the best for just about the least. These are boxed without identification so we cannot give any selection of subjects. However, cartoons, musicals, Westerns, sports, serials, dramas, travels and other popular subject types are included. The average footage per reel, except for cartoons, runs at about 275-feet to 350-feet. Cartoons run between 200-feet and 250-feet.

Order as many one reel lengths as you wish. And be sure to specify "INCOMPLETE ITEM No. 3"—each 200 to 350-foot length priced at only....

SHORT MUSICALS FROM TELEVISION

Here is a group of 100-foot and 200-foot used 16mm. sound musical prints—largely new to the 16mm. field—just withdrawn from station libraries. Prints, for the most part, are like new, for television films are never put through a projector very many times. There is a wide variety of subjects, ranging from light classical to popular to cowboy and hill-billy numbers. Our stock is extreme as to depth—on some subjects we have but a print or two—on others several dozen copies. We recommend, therefore, that you give as many alternate title choices as you can—at the time you order. We'll send your top choices in the exact order in which they remain available. Some of the 200-foot subjects are combinations of the 100-foot films—some are longer versions of the same number—some are completely different.

THE BLACK RIVER

Good used 16mm. sound prints, about 500 feet in length.

Here's a most unusual film in the Armchair Adventure Series telling of a river in southern France that disappeared into the earth, and into whose caverns a daring group finally made its way. They found that the river travelled for miles under the ground, and while even yet its entire underground course is not charted, by means of fluorescent dyes they ultimately found where it again came above ground and thus revealed that what had been thought to be two rivers was in reality but one. Excellent underground scenes.

These excellent used 16mm. sound prints are very specially priced at..... **\$14.95**

THE ICE SCULPTOR

Length about 500 feet, 16mm. sound

Here's an interesting film in the "American Portrait" series, the unusual story of Paul Hoyt—sculptor, photographer, artist! Hoyt, as a means toward gathering experience in sculpturing, devised a method of working with blocks of ice at below freezing temperatures and thus gained for himself in a few seasons what would have taken him fifteen or twenty years to do by traditional means. It's fascinating to see him work—and also to get in on his experiments in third dimension photography.

Excellent used prints of THE ICE SCULPTOR, about 500-feet in length, 16mm. sound, were priced at \$14.95. Now only..... **\$12.95**

OIL—THE STORY OF IRAN

Length about 550-feet, 16mm. sound.

In recent years, the country of Iran has appeared most frequently on the front pages of our newspapers. Except in the United States, oil in volume is found only in out of the way places around the world. In Iran, the story of oil began about fifty years ago. Transportation was the toughest problem, for it meant hacking miles of new roads through rocky mountains and miles of new pipe line. The British Navy was the first big customer, and new methods had to be devised and new machinery built to get the refined oil to them in quantity. New ships had to be designed to carry oil to every corner of the earth. After the Second World War came growth and expansion, and the economic problems it brought to Iran have gradually been solved by progress. This film contains many historical motion picture shots from the early part of the century, as well as recently filmed footage.

Good used 16mm. sound prints of OIL, THE STORY OF IRAN, are priced at only . . **\$14.95**

ROYAL WEDDING PRESENTS

Used 16mm. sound prints, IN FULL COLOR TECHNICAL COLOR running about 1000-feet

This is a beautiful historical record that is a definite collector's item. For very few of these genuine Technicolor prints were imported from England for distribution in the United States. The film opens with exterior shots of St. James Palace and then goes inside to show the various gifts presented to Elizabeth and Philip by the various countries around the world. Striking flag shots of each of the countries often introduce the gift of the country. Beautiful floral settings are shown in connection with the gift displays. Later in the film, a scene or two of the wedding ceremony is shown, and then there are relatively informal scenes of the bridal party and the families of Elizabeth and Philip as they posed for photographers.

TWO GREAT SPORTS FILMS

by Van Campen Heilner

You've seen Van Campen Heilners work in sport and adventure films for years in the many films he produced for Hawley-Lord. More recently, you've seen his material in CinemaScope and Warner Color in his great series of Warner Brother shorts in the sport and adventure line.

The two subjects by Mr. Heilner that we offer here are neither in CinemaScope or Warner Color—just regular screen size and just regular black and white—but very, very satisfactory films to Mr. Heilner's usual high standard.

HORSES

The story of the famous W. K. Kellogg Arabian Horse Farm in Southern California—a horse show in Mexico—and some of the thrills at a horse race. Length about 500 feet, 16mm. sound, black and white. Our excellent used prints are priced at only.....\$14.95

JUMPERS

Just about every kind of jumping that is found in sports—ski jumping—broad jumping—the jumping of hazards in a horse race—and many, many others. All done in Mr. Heilner's fine style. Length about 500 feet, 16mm. sound, black and white. Excellent used prints are available, priced at, each\$12.95

One print each of HORSES and JUMPERS, purchased at one time, only\$24.95

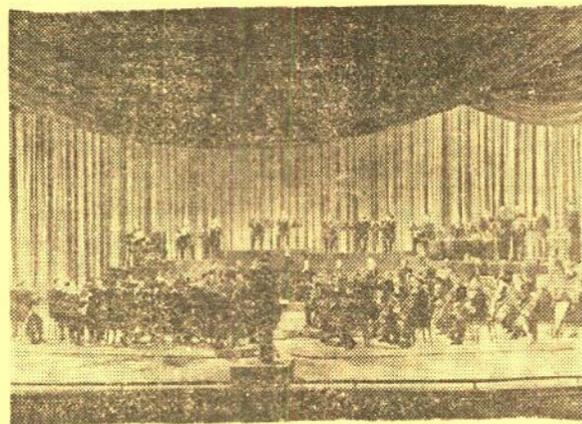

MACBETH

with Cathleen Nesbitt, Wilfred Lawson and Felix Aylmer

Used 16mm. sound prints, length about 550-feet

Two famous scenes from Shakespeare's powerful tragedy, Macbeth, are combined in this valuable production. First we are given a gripping rendition of Act II, Scene 2, in which Macbeth, urged on by his ambitious wife, murders Duncan, King of Scotland. Then we witness a masterly performance of Act V, Scene 1, in which Lady Macbeth appears in her weird and dramatic sleepwalking scene. The musical score is played by the London Symphony Orchestra.

Excellent used 16mm. sound prints, each only\$19.95

INSTRUMENTS OF THE ORCHESTRA

with The London Symphony Orchestra conducted by Sir Malcolm Sargent

Used 16mm. sound prints, length about 600-feet.

In this cleverly conceived and brilliantly conducted film, Sir Malcolm Sargent explains that a symphony orchestra can be likened to a single great musical instrument with four parts—the wood winds, brass, strings and percussion. To illustrate this, he leads the London Symphony in Benjamin Britten's specially written music consisting of variations and a Fugue on a theme by Henry Purcell. First, Sir Malcolm "takes the orchestra to pieces" and shows how music is produced by each of twenty-six different instruments. Then he "puts the orchestra together again" and conducts the lovely Fugue.

Excellent used 16mm. sound prints, each only\$19.95

ON THE TRACK

700' 16mm. sound, in full color Kodachrome. Prints are used but in excellent general condition.

This is a Dudley Pictures Corporation production showing a cross section of railroad activity in the United States. You'll see streamliners and freights of most of the nation's railroads—action shots against a background of mountain and prairie—over bridges—along the main! It's filled with just what every railroad enthusiast enjoys most.

THE HALF-BILLION DOLLAR MOSQUITO

in the series: "The World Through Postage Stamps"

Length about 500 feet, 16mm. sound

How many of you, in addition to being movie fans, are also stamp collectors? Whether you're one or both, this is a most unusual subject. It takes the whole story of the Panama Canal, from the time of its attempted construction by the French, and shows how postage stamps have played a part—both in the planning of its construction and on the chronicling of its history. The film also shows many actual construction scenes, shows us how the canal and locks operate, through animated diagrams gives us an idea of the lift necessary to get a ship across the Isthmus. In short, it's a most unusual subject—fine for any audience—and adaptable for either entertainment or education. It is effectively narrated by Bob Trout.

Excellent used prints of THE HALF-BILLION DOLLAR MOSQUITO, about 500 feet in 16mm. sound, are available for only\$19.95

In this superb picturization of Act III, Scene 2—The Forum Scene—of William Shakespeare's famous tragedy, we are first given an intriguing glimpse of the Roman Forum. News of Caesar's murder is excitedly spread. Brutus and his fellow conspirators emerge from the Senate House to harangue the gathering mob. Caesar's body is brought forth, and finally Mark Antony delivers the famous funeral oration which has become a standard of eloquence to the English-speaking world. A NOTE ABOUT SCREEN FABRIC: All screens of whatever make are limited to a fabric of 50" width. This means that on medium and large size screens where both dimensions exceed 50", one or more seams will be necessary in the screen. The screen manufacturers position these so that they will be in the least noticeable area—but you can't buy 60" x 50" or larger screens without one seam in the fabric.

These screen prices are not postpaid—and screens of these sizes are not available. You pay transportation charges for express or freight on receipt.

FILMAGIC SILICONE CLOTH

Lubricates - Polishes - Protects

Here is the modern way to treat your film for trouble free showings—takes away that jump in new prints—guards against surface scratches—protects from finger marks. And the easiest thing in the world to use—FILMAGIC CLOTH can be used on a table rewind, or as film is rewound between showings on the projector itself.

An April 28, 1955, report from the Test and Evaluation Department, U. S. Naval Photographic Center, Anacostia, Washington, D. C., says substantially: "Of the conditioners tested, FILMAGIC CLOTH is considered superior for positive motion picture film. Only FILMAGIC CLOTH was considered satisfactory for cleaning magnetically striped film. The manufacturers of FILMAGIC CLOTH claim it to be useful in cleaning lenses. Accordingly, a special reflection test was made. . . results indicated use of the FILMAGIC CLOTH increased light transmission 7.7 per cent through clean, clear glass. No increase or decrease was noted when used on a clean, fluoride coated glass. The FILMAGIC CLOTH may be washed twice without serious loss of film cleaning ability. Based on the retail price of \$2.00 per cloth, the cost of cleaning a 400-foot roll of 35mm. film is approximately three cents."

IMPORTANT BLACKHAWK INFORMATION

Read Before You Order!

OUR GUARANTEE

This guarantee provides that if for any reason you do not wish to retain any films or merchandise you order from Blackhawk, you may ship them back to us, transportation paid, within five days after you receive them, together with a copy of your invoice, and we'll give you full credit less delivery postage. Of course, returned merchandise must be in substantially the same condition when returned as when you received it. If films are returned or sent for trade-in, it will usually be two to three weeks before exchange merchandise or refund check will reach you.

BLACKHAWK NOW PAYS THE POSTAGE ON MOST ITEMS!

Blackhawk now pays the postage on most items listed in this circular when remittance in full accompanies order, and when shipment goes to a point served by the U. S. Postal Service. The items that are not postpaid or prepaid, and which are not mailable, are clearly marked. On these, you pay the transportation charges when the item is delivered to you by express or freight.

Customers ordering films for shipment to points in the State of Iowa must also add 2½% for the State Sales Tax.

C. O. D. SHIPMENTS

Blackhawk will gladly make shipments of merchandise on a C. O. D. basis to any point in the United States or to U. S. territories and possessions. However, because of the weight involved, we will not forward projectors on a C.O.D. basis unless a deposit of \$25.00 is enclosed to guarantee transportation charges, and then only within continental United States.

RIGHTS OF USE ON MOTION PICTURES

None of the motion picture prints offered herein, either new or used, may be used for television or theatrical purposes, as these rights are specifically reserved. All new 16mm. and 8mm. short subject prints (except our Laurel and Hardy comedies) may be shipped by us to any destination in the world. Certain feature picture prints, both used and new, and a few short subjects on which used prints are available, are restricted as to the territories in which they may be used.

SHIPMENTS TO CANADA AND MEXICO

Customers in Canada and Mexico should add 10% to the prices of all items which are normally postpaid in the United States for postpaid delivery to them. On non-postpaid items, Canadian and Mexican customers should inquire in advance as to transportation charges unless those charges may be collected on delivery. Remittance must be in U. S. funds. Minimum order is \$10.00.

FOREIGN SHIPMENTS (Other Than To Canada or Mexico)

On small orders that may be shipped by parcel post in a single package, customers in all foreign countries (as well as Canada and Mexico) may have postpaid delivery by adding 10% to the prices of the items making up the shipment, providing the items are within the size and weight limits permitted for parcel post shipments to their country. Minimum order is \$10.00.

On all such foreign shipments that cannot be sent by parcel post in a single parcel, foreign customers must remit 5% in addition to the catalog prices of the merchandise to cover our cost of handling the necessary Customs Declarations, Letters of Credit, Pre-Form Invoices and Insurance on the Shipment. The customer must pay in addition (1) the cost of special packing for export shipment when material is to be prepared in waterproof paper and/or in wooden boxes to move by ship or air, (2) the actual cost of any Consular Invoices which the customer or his country may require and (3) transportation charges.

All foreign orders must be paid in U. S. funds. Individuals sending in small orders for their own personal use may prefer to remit by International Money Order or by Bank Draft payable in New York, Chicago, San Francisco or some other city in the United States. Other foreign customers ordering large shipments of merchandise should establish a confirmed, irrevocable letter of credit in favor of Blackhawk Films, Division of The Eastin-Phelan Corporation, Davenport, Iowa, U. S. A., at First National Bank of Chicago (Illinois, U. S. A.), and send such letters through that bank and, in turn, through First Trust and Savings Bank, Davenport, Iowa, U. S. A., for payment to Blackhawk Films.

Foreign customers can secure full information as to Blackhawk Films' credit and reliability by having their banking houses check with Dun and Bradstreet in the United States, and with either Davenport Bank and Trust Company or First Trust and Savings Bank here in Davenport.

Buy Anything Offered By Blackhawk On Convenient Monthly Payments!

Customers in Continental United States (the 48 states and the District of Columbia) may now purchase virtually anything listed by Blackhawk on convenient and liberalized time payments.

Effective January 1, 1956, our down payments are reduced and any item or combination of items having a total price of \$25.00 or over may now be purchased on Blackhawk's Monthly Payment Plan. Furthermore, our convenient add-on time payment service is available to those of you already having satisfactory time payment accounts in operation. This add-on service provides that any additional merchandise may be selected from our catalogs or bargain bulletins and added-on to that merchandise already being paid for on a time payment account—up to certain limits. A time payment charge of 10% is made over the cash price for these additional items. Monthly payments will graduate upward depending on the total amount outstanding on the time payment account after the addition of the add-on amount.

**BRAND NEW, ARMY SURPLUS
 RADIANT FOLD-PAK SCREENS
 Size 7' 6" by 9' 10"**

This is a fine quality screen for use outdoors and indoors under a wide range of conditions. The screen itself is a heavy, white plasticized fabric with black border fitted with grommets for lacing to the portable tubular steel frame. It comes complete with tubular "V" fittings and both long and short legs. The long legs are for outdoor use where there is no platform or stage—the short legs for platform or stage use. The screen may also be used indoors and suspended from a ceiling using the same tubular frame. This unit comes complete with all fittings and is conveniently housed in a foot-locker type of case making transport and storage clean and easy. The unit purchased new through normal channels would sell at between \$150.00 and \$200.00. Full, well-detailed assembly instructions are shown on the under side of the case top (see illustration).

At Blackhawk, while our limited stock holds out, this Radiant Fold-Pak Screen and Assembly, complete with Case, costs only . . . \$49.98

(These units are extremely well-packed in wooden boxes for warehousing and storage. Because of this, we recommend freight or truck as the most economical means of transportation as they are too large to be shipped by parcel post, and are not priced on a transportation paid basis.)
