Crazy ABOUT IRON HORSES?

Maybe you are a little — and maybe you are a lot! But in either event, here is a group of three 16mm. sound films in FULL COLOR KODACHROME of which you'll want at least one in your collection.

All of the prints of these three subjects are used, but complete in every way, and in excellent general condition.

MAINLINE U. S. A.

Here is a 2-reel Kodachrome film in 16mm. sound that traces the impact of railroad construction over the last century as the prime means of the general development of our country — how the railroads today have a very direct affect on all our lives. Shown are a great many spectacular shots of streamliners and freights at speed, across prairies, over bridges, against backgrounds of snow-capped peaks. Railroad fans can easily identify the trains of their favorite railroad. And those of you who aren't particularly fans will find this an informative, absorbing, entertaining and very beautiful film to have in your collection. (Prints of this new are valued at \$150.00.) While our stock of fine used prints remains available, our price is only..... **\$24.95**

BIG TRAINS ROLLING

Another tremendously absorbing film about trains — this one 3-reels, in Kodachrome and 16mm. sound. While pictorially overlapping very slightly with MAINLINE U.S.A. (described above), BIG TRAINS ROLLING tells more the operational story of today's railroads, particularly an overnight train trip of some 1000 miles taken by two youngsters — brother and sister. It tells about the various types of cars that make up a passenger train — it shows the workings of a railroad post office car — how a dining car operates — the many types of accommodations available for overnight travel on a modern streamlined train. It also shows how a turntable operates, tells something about freight trains, shows how refrigerator cars are packed, and many, many other things of interest in connection with railroading. Even more shots of today's top trains are in evidence — all magnificently photographed in full color. (Prints of BIG TRAIN ROLLING are valued new at \$225.00.) While our stock of fine used prints remains available, our price is only..... **\$34.95**

LIFE LINE OF THE NATION

A 3-reel 16mm. sound film in full color Kodachrome showing the magnificent performance of our railroads during World War II. The emphasis in the film is more on the movement of freight than of passenger travel. As a result the emphasis is somewhat in contrast to either MAINLINE U.S.A. or BIG TRAINS ROLLING. The viewer, too, will note another big difference — the emphasis of the majestic steam locomotive which was still — during the war — the number one source of motive power for freight as well as passenger transportation. There is a marked contrast with today when diesel power is close to taking over most principal runs. So, for those of you who have a particularly soft spot in your hearts for the steam locomotive, here's your chance to see some of the big boys of the Santa Fe, Union Pacific, Norfolk and Western, Rio Grande, Southern Pacific and Pennsylvania in action. You'll see lots of others, too. (Prints of these films are valued at \$225.00 new). While our stock lasts, you may buy a good used print for only..... **\$39.95**

DELAYS IN FILLING ORDERS

Many of you probably know that we are sometimes a few days late in filling your orders. We don't like to get behind in handling your orders and most of the time keep up on our work - but this is what happens sometimes.

We mail our catalogs out on the 10th and that is due to the 10th of each month. The second Monday after those catalogs are mailed, we are literally buried by orders - they always come in the biggest numbers on that day. So, if your order reaches us about that time, we may be a little slow in getting your shipment out. We fill the orders in a "first come - first served" way, but we sometimes run two or three days behind during that second week after the catalogs are mailed. If you do find you're waiting a little longer than usual to get your films, we hope you'll understand that this is what probably happened and bear with us. We really are trying very hard to keep on schedule.

UNUSUAL BUYS IN ACCESSORIES AND SUPP

LOW PRICES ON PROJECTION LAMPS

There's never been a projection lamp bargain like this one! 750 watt, 110 volt, T-12, medium prefocus projection lamps at a saving of 1/3 from the prices you usually pay. These lamps are manufactured in occupied Japan and an American testing laboratory in Japan reports their performance compares quite favorably with standard brands made in this country — they are not the cheap, inferior type of merchandise that was turned out before the War. We hope to be able to offer these lamps on a regular basis. However, our immediate stock is limited, and we may periodically run out. Therefore, to try this bargain for yourself, get in your initial order now.

FEATURES AND SHORT SUBJECTS

All prints listed on pages 11 through 18 are good used 16mm. sound prints except for any small groups specifically identified as used 15mm. silent subjects.

We usually have only a few used prints of a title - sometimes only one. This means that within two or three weeks after the mailing of this catalog, more and more of these used titles will be sold out. Keep this in mind when you order. Order early, and, in justice to everyone, give us an alternate list of titles. We'll never send an alternate unless your top choices are already out of stock. But remember - we can't sell what we don't have - and the used prints we offer are in great demand.

This section printed on yellow paper is devoted exclusively to used prints. It was the last part of this catalog to be printed. It was off the press only 1 or 2 days before the general mailing of the catalog was made. At the time it went to press, used prints of all the subjects listed were in stock ready for shipment. Normally, within two or three weeks after mailing 50% or more of the titles will be gone.

Incomplete 100' 16mm. Sound Lengths of Features, Serials, Shorts

These incomplete 100' 16mm. sound lengths from feature pictures, Westerns, series, comedies, travel films, musicals, documentary subjects, sport films, international films, and other types of subjects, have long been an extremely popular item with black-and-white customers. These lengths, while incomplete and start anywhere and end anywhere, are consecutive in themselves - are not made up of short scenes spliced together. They are not identified individually as to the type of subject, so there is no way we can fill an order for so many rolls of "Westerns," "comedies," or any other specific type of content. All footage is regular image material (no B-I sound musicals are included). And all footage is in good runnable condition.

Incomplete 100' 16mm. Sound Lengths of Features, Serials, Shorts

These incomplete 100' 16mm. sound lengths from feature pictures, Westerns, serials, comedies, travel films, musicals, documentary subjects, sport films, informational films, and other types of subjects, have long been an extremely popular item with Blackhawk customers.

These lengths, while incomplete and start anywhere and end anywhere, are consecutive in themselves - are not made up of short scenes spliced together. They are not identified individually as to the type of subject, so there is no way we can fill an order for so many rolls of "Westerns," "comedies," or any other specific type of content. All footage is regular image material (no I-I sound musicals are included). And all footage is in good runnable condition.

DE LUXE PACKAGES of USED 100' 16mm. R-I SOUND MUSICAL FILM

These films were originally produced by some of the leading 16mm production companies in the country for projection in coin-operated Panoram machines. When projected on ordinary 16mm projectors, the image is reversed on the screen. Usually, the only place you will notice any difference is in the titles—the lettering will appear backwards on your screen. For many uses, the titles may be reversed.

Blackhawk offers you a saving in these packages of related films of 40% to 50% from the price you pay when buying them individually.

There may be, without notice, occasional substitutions of one or more titles in any package because we are temporarily out of stock on a particular film. However, we assure you that any substitutions will be of similar type and of the same or greater value.

In these DeLuxe Packages, you may replace not only units in one package with units of your selection, if the consists of twelve or thirteen units. In packages of the units, one unit may be replaced. The charge for each rep is \$1.00. For example, you may substitute two units in package and your total cost will be \$15.95; or one unit 1 package to make your total cost \$10.95. In this way, you advantage of the special package prices without duplicating your already own. Replacements must be made at the place your original order.

We offer these packages at special bargain prices and cannot force, give pro rata credit for the return of part of a pack, and

These films may be used for any theatrical, non-theatrical commercial purpose, except that they may not be televised.

Read This Before You Order!

Blackhawk can continually offer you these exceptional buys only by eliminating the possibility of credit losses, and by operating our business on a cash basis. To insure prompt payment, we require a cash order payable to us, or a check drawn on a bank in the United States, or a money order payable to Cash With Order, or (inside continental United States) C.O.D. However, even under continental United States C.O.D. orders, we do not ship to Alaska, Hawaii, Mexico, Porto Rico and the Panama Canal. In all cases, we urge you to contact your local office in full or partial payment, or for bank drafts. Foreign orders must be in U. S. funds. Do not send currency or coin—over or registered mail—for you do so at your own risk.

We have found that we cannot economically handle orders totaling more than \$250 or less than \$10.00 from outside the Continental United States, so we have established a minimum order of \$10.00 and a maximum of \$250.00. You will see footnotes reminding you of this throughout the catalogue. Just remember, if you live in the United States, you may order for a minimum of \$10.00 and may be paid in U. S. funds. (This includes orders from Canada and Mexico.)

Purchasers in Iowa must pay the 3% Iowa State Retail Sales Tax except in the case of retailers who are purchasing materials for resale, in which case this fact must be clearly stated on the order.

Blackhawk prices do not include postage except in a few instances where films are shown as "postpaid" at the prices listed. On C.O.D. shipments, postage will be collected along with the cost of the films. However, if you wish to remit in full with your order, you may, of course, prepay postage. Postage is not included in the following prices, irrespective of point location in the United States:

Shipment of two 100' reels.....	20c
Shipment of three or four 400' reels.....	30c

Our many classes of films listed here, additional savings can be made by ordering 7½, twelve or more prints at a time. These discounts, however, apply only to quantities purchased within that class, and not to assortments of several classes of films. Discounts do not apply to any one or more film orders specifically offered in the *Blackhawk*. There are no dealer discounts, any kind offered by Blackhawk—the prices quoted in this Bulletin, and the quantity discounts available on certain types of films, apply to all classes of purchasers.
