RAILROAD FILMS IN KODACHROME

MAINLINE U. S. A.

16 SDU 76C2

Here is a 2-reel Kodachrome film in 16mm. sound that traces the impact of railroad construction over the last century as the prime means of the general development of our country — how the railroads today have a very direct effect on all our lives. Shown are a great many spectacular shots of streamliners and freights at speed, across prairies, over bridges, against backgrounds of snow-capped peaks. Railroad fans can easily identify the trains of their favorite railroad. You'll see streamliners and freights of the Monon, Rock Island, Milwaukee, New Haven, Santa Fe, New York Central, Pennsylvania, Burlington, Southern Pacific, Erie, Missouri Pacific, North Western, and many another pike. You'll also see many a yard goat at work, and many other activities of the railroads in maintaining the far-flung and complex services that they render. Even those of you who aren't first of all railroad fans will find this an informative, absorbing, entertaining and very beautiful film to have in your collection. (Prints of this new are valued at \$150.00.) While our stock of fine used prints remains available, **\$24.95** our price is only.....

LOADED FOR WAR

16 SDU 76C6

The thrilling story of the American railroads performing the greatest war job in history, in a 2-reel, 16mm. sound film in full color kodachrome. The film shows how essential was the wartime job of the railroads and how they contributed to Allied victory. Shown are many of the special tasks the railroads had during World War II — the moving of troops and their equipment; raw materials; tanks, guns and major parts for ships and planes — and how many of their normal jobs were filled by women and retired employees who returned to work. But, in addition to all this, we see some of the most effective shots of steam locomotives, sometimes three in a row, boosting tonnage over one of the Santa Fe's steep passes in the West. This film does not overlap pictorially with either MAINLINE U.S.A. or LIFE-LINE OF THE NATION, nor with BIG TRAINS ROLLING, prints of which we have been offering up until recently. While our stock of good used prints remains available, you may purchase one **\$19.95** for only.....

LIFELINE OF THE NATION

16 SDU 76C4

A 2-reel 16mm. sound film in full Kodachrome showing the magnificent performance of our railroads during World War II. The emphasis in this film is on movement of freight rather than of passenger travel. As a result the film is more contrast to either MAINLINE U.S.A. or TRAINS ROLLING. The viewer, note another big difference — the use of the majestic steam locomotive was still — during the war — the main source of motive power for freight as passenger transportation. The marked contrast with today when power is close to taking over most runs. So, for those of you who have a particularly soft spot in your hearts for steam locomotive, here's your chance to see some of the big boys of the Santa Fe, Pacific, Norfolk, and Western, Rio Grande, Southern Pacific and Pennsylvania. You'll see lots of others, too. (Prints films are valued at \$150.00 new.) While stock lasts, you may buy a good used print for only.....

COMBINATION SPECIAL: Prints of MAINLINE U.S.A. and LIFE LINE OF THE NATION regularly totaling \$54.90 — when purchased together at one time, only \$49.95

HERE IS A RARE BUY IN TWO, BRAND NEW, 3-REEL 16MM. SOUND PRINTS IN FULL COLOR KODACHROME of **SOUTHERN CALIFORNIA HOLIDAY** and **TEXAS — THE BIG STATE** — in full color Kodachrome — prints that would sell for \$235.00 each if they were not very slightly imperfect (and most of you won't be able to detect the points of imperfection in most prints, the deficiencies are so slight.)

SOUTHERN CALIFORNIA HOLIDAY

Here we see just about everything that is important in and to southern California — its historic and cultural points, its industries, cities and towns, universities. This is a new production, completed this year, and up-to-date in every way. It is so suitable for instructional use in school as it is for entertainment use at home — and a film that will please almost everyone. 16 SDN 27C1 **\$49.95**

TEXAS — THE BIG STATE

And this is a big film about The Big State — just completed and the latest developments in the fabulous Texas city of Houston, as well as Fort Worth, San Antonio, El Paso, Waco, Austin and most of the other communities. It shows Texas industry and agriculture — business and cultural life in many of our towns. Like SOUTHERN CALIFORNIA HOLIDAY, suitable for school or home use. 16 SDN 27C2 **\$49.95**

USED 8mm. SOUND SUBJECTS

Light and Serious Musicals

All prints listed on this page are good used 16mm. sound prints. We usually have only a few used prints of a title — sometimes only one. This means that within two or three weeks after the mailing of this catalog, more and more of these used titles will be sold out. Keep this in mind when you order. Order early, and, in justice to yourself, give us an alternate list of titles. We'll never send an alternate unless your top choices are already out of stock. But remember — we can't send what we don't have — and the used prints we offer are in great demand.

This section uses the last part of the mailing to which it was all the prices only one or two days before the general mailing of the catalog was made. At the time it went to press, prints of all the subjects listed were in stock ready for shipment. Normally, within two or three weeks after mailing, 50% or more of the titles will have been sold.

As to the length of 16mm. films — cartoons average about 250 feet to a reel; other one-reelers run 300 to 350 feet. Two-reelers usually contain about 650 feet and longer subjects normally average not less than 900 feet to a reel. All films of one reel length and over are supplied on reels. 8mm. films measure just one-half the length of 16mm. subjects.

USED 100' R-1 MUSICALS IN PACKAGES

These films were originally produced by some of the leading film production companies for projection in ciniscope and Panoram machines. When projected on ordinary film projectors, the image is reversed on the screen. Usually the only place you will notice any difference is in the titles—the lettering will appear backwards on your screen.

There may be, without notice, occasional substitutions of one or more titles in a package because we are temporarily out of stock on a particular film. However, we assure you that any substitutions will be of similar type and of the same or greater value.

If you decide, after viewing any of these packages, that you want to keep only part of the package, we will charge you \$1.98 for each R-1 Sound Musical Film you retain.

These films may be used for any theatrical, non-theatrical, or commercial purpose, except that they may not be televised.

These films, identified as 100' R-I Sound Musical Films, are used prints of productions made originally by such producers as R.C.M. (Rouvenoff, Conlay, Millit, Minnow), Cannon, Screencraft and Globe for exhibition on Panoram controlled machines. These machines, projecting from the rear onto ground-glass screens, required the photographic image reversed. Yet, these prints show quite acceptably on any regular 16mm. sound projector and the only point where the reversal is usually noted is on the main and end titles, which you may eliminate at the time you assemble your library. Over the last 2½ years, we have sold many scores of thousands of prints, and hundreds of satisfied customers render regularly.

The films listed here may be selected by individual title. Good stocks are on hand of most of these subjects — but the listing of a few alternates is always desirable. We'll never substitute unless your first choices are out of stock. These 100' R-I sound Musical Films are not supplied on reels, but in individual rolls. They may not be used for television purposes.
