Special on Film Cans

We made a lucky buy on 8mm. cans, and look at the bargains we can give you in these items! These cans are of high quality, made of a light grade of steel that will protect your films for years, and finished in gun metal gray baked enamel. The embossing on these cans is in concentric rings that makes the cans interlock lightly when they are stacked — preventing slipping, sliding stacks of film. When you stack these cans, they stay stacked! They are new, but slightly shopworn — some scratches or nicks in the finish. It won't impair the good use you'll get from them.
