## IMPORTANT! Read This Before Ordering.

We usually have only a few used prints of a title — sometimes only one. This means that within two or three weeks after the mailing of this catalog, more and more of these used titles will be sold out, keep this in mind when you order. Order early, and, in justice to yourself, give us an alternate list of titles. We'll never send an alternate unless your top choices are already out of stock. But remember—we can't sell what we don't have — and the used prints we offer are in great demand.

This section was the last part of the catalog to be printed. It was off the press only one or two days before the general mailing of the catalog was made. At the time it went to press, prints of all the subjects listed were in stock ready for shipment. Normally, within two or three weeks after mailing, 50% or more of the titles will have been sold.

As to the length of 16mm. film — cartoons average about 250 feet to a reel, other one-reelers run 300 to 350 feet. Two-reelers usually contain about 650 feet and longer subjects normally average not less than 800 feet to a reel. All films of one reel length and over are supplied on reels.

## SPECIAL IN R-I MUSICALS

At inventory time the end of May we turned up with an accumulation of good used 100' 16mm. reverse-image musicals that are slightly incomplete — otherwise in very good condition. Some of these prints are minus the main titles — others have a short length at the end missing — still others may be short a length in the film proper. However, most of them run 90 feet in length or over, and at our close-out price are a REAL bargain — particularly since the titles represented are a cross section of the entire library of Panoram musicals.

We also have a few hundred prints of these reverse-image 100' musicals on which we have but four to six prints of a title left in stock. These prints are complete and in first class condition.

We can't give you any choice of title for most of these films have no identifying stickers. Neither — particularly if you take several dozen prints from the group — can we guarantee against duplication. BUT — while this stock of incomplete and limited quantity reverse-image musicals remains on hand, you may buy as many prints as you want at only

**6 for \$1.98**

## MAINLINE U. S. A. (Used Kodachrome Prints)

Here is a 2-reel Kodachrome film in 16mm. sound that traces the impact of railroad construction over the last century as the prime means of the general development of our country — how the railroads today have a very direct effect on all our lives. Shows a great many spectacular shots of streamliners and freights at speed, across prairies, over bridges, against backgrounds of snow-capped peaks. Railroad fans can easily identify the trains of their favorite railroad. You'll see streamliners and freights of the Monon, Rock Island, Milwaukee, New Haven, Santa Fe, New York Central, Pennsylvania, Burlington, Southern Pacific, Erie, Missouri Pacific, North Western, and many another pike. You'll also see many a yard goat at work, and many other activities of the railroads in maintaining the far-flung and complex services that they render. Even those of you who aren't first of all railroad fans will find this an informative, absorbing, entertaining and very beautiful film to have in your collection. ## PHOTO SWEEP (ANTI-STATIC FILM CLEANER)

Here is a product that will be welcomed by each film user who realizes how much damage results from electricity on films. That static results from handling — when it, running it through the projector — and so dirt on your film is attracted to it by static. The key to wipe it away, the more static builds up, and easily dust and dirt particles are attracted to it near the film.

PHOTO SWEEP gets rid of that static — and of dirt on the film at the same time. Simply dampen (in a pool of soft cotton material) and draw your film it cleaning and coating both sides in one operation. Instantly. Your films will be clean and will also eliminate the static electricity that attracts most dirt. Also, the need for waxing is eliminated, films are kept and will not dry out, and any minor scratches already in the film will be masked and not appear in projection.

PHOTO SWEEP is also available in Aerosol Spray Can, use an transparency, glass cover slides, lenses, make them static free and non-dust attracting.

## MANSFIELD 8MM. MOVIE EDITOR

This Editor, consisting of Viewer, Gearing Rewinds, and Automatic Dry Splicer, all mounted on a metal base and beautifully finished in blue and gold, is just about the best buy in 8mm. equipment you'll find in many a day. It is easy to operate, handles 8mm. reels up to 400' capacity, and meets the requirements of both amateur and professional. The various parts are available individually as well as in the complete editor, so additional information on the set may be obtained by consulting the more detailed descriptions given below on the component parts. One of the most unusual things about this fine piece of equipment is its price. Regularly \$25.95, Blackhawk can bring the Mansfield Movie Editor (EN-33) to you for just . . . . . **\$19.95**

### MANSFIELD VIEWER

The optically ground and polished lens system and brilliant viewing screen on this viewer give sharp, clear, 1.33/18" x 1 1/4" images, free from distortion. Of die-cast metal construction, it is attractively finished in blue Hammerlaid. Illustrated above as center unit of Movie Editor. Regularly priced at \$18.50, the Mansfield Viewer Unit (EN-34) is available from Blackhawk at the low price of . . . . . **\$7.95**

### MANSFIELD REWINDS

The rewinds will handle reels up to 800' capacity. They are equipped with fingertip controlled drag levers, and their gear ratio of 3 to 1 makes for easy winding. They are of metal construction and have a gold anodized finish. The regular price of these rewinds is \$7.50. Blackhawk offers them to you (somewhat similar to those pictured above as part of the Editor), unit EN-35, for only . . . . . **\$5.95**

### MANSFIELD AUTO-SPLICER

It has dual scraping blades with radial pivoting action, through steel film cutters shielded for distraction-free operation, an automatic spring release when splicing is completed, and a wax-proof molded rubber base. The body is finished in blue Hammerlaid. It gives a faster, cleaner splice, and film enthusiasts know that dry-scrapping produces a really permanent splice. All this (illustrated as part of the Editor above) would regularly be \$7.95. Blackhawk has the Auto-Splicer (EN-31) at the astonishing price of . . . . . **\$5.95**

### MANSFIELD JUNIOR SPLICER

A precision-made splicer at a remarkably low price, and one that will give years of satisfactory use. It comes complete as pictured, with splicer, bottle of film-splicing Cement, water bottle and scraping blade which is inserted in bottle cap, all mounted on a wooden base. The splicer itself is of heavy gauge metal construction anodized in silver and gold. The usual price is only \$3.50, but Blackhawk is able to offer you the Junior Splicer (EN-32) at the even more surprising price of only . . . . . **\$2.79**

### CINELAC

Cinelaq protects film emulsion — either black and white or color — motion picture film, slides and stills — against the hazards of scratches, abrasions and finger marks. A new anti-static element minimizes the effects of static electricity in attracting dust and lint to the film surface. A 2 oz. bottle is enough to coat 1,500 feet of 16mm. film, 2,500 feet of 8mm. film, or approximately 3,000 square inches of film surface. For best results, it should be applied to the emulsion side of new prints before they are placed in service. EN-52 2 oz. bottle complete with applicator . . . . . **\$1.98**

### SPLICER SPECIAL!

**FRESTO DRY SPLICER** for 16mm. sound and silent, and 8mm., film. Here's a dry-scraper splicer that the job you normally expect of a unit selling for \$5.00 to \$10.00. Film cement not included. Our item A.1. Very special at only . . . . . **\$1.98**

## LIFELINE OF THE NATION

(Used Kodachrome Prints)

A 2-reel 16mm. sound film in full color. Now in your hands is the magnificent performance of our railroads during World War II. The emphasis in this film is more on the movement of freight than of passenger travel. As a result the film is somewhat in contrast to either MAINLINE U.S.A. or BIG TRAINS ROLLING. The viewer, too, will note another big difference — the emphasis of the majestic steam locomotive which was still — during the war — the number one source of motive power for freight as well as passenger transportation. There is a marked contrast with today when diesel power is close to taking over most principal routes. So, for those of you who have a particularly soft spot in your hearts for the steam locomotive, here's your chance to see some of the big boys of the Santa Fe, Union Pacific, Norfolk, and Western, Rio Grande, Southern Pacific and Pennsylvania in action. You'll see lots of others, too. (Prints of these films are valued at \$150.00 new.) 16 SDU 76C4. Price only . . . . . **\$24.95**

known variously as "the most beautiful," "the best loved" and "the most talked about" train in the country, The California Zephyr and the country through which it passes is certainly one of the most photo-genic subjects yet to be featured in Blackhawk's Railroad Series. And we've worked harder and longer on this than on any of the other films yet released in the series. We feel the result is worth the effort.

The California Zephyr, operated jointly by the Burlington, Rio Grande and Western Pacific railroads is the most revolutionary train of the post-war era. A trip on it is more than getting from here to there — it's a vacation in itself. And our film not only shows you the train — but the spectacular route it travels.

We see this 12-car stainless steel streamliner, five of its cars with vista-domes, as it leaves Chicago's Union Station for its run to Denver over the Burlington — through the cornfields of Illinois — across the Mississippi River just before entering Burlington, Iowa, the flashing of the signal lights from a vista-dome — the diner, the lounge and the Pullman accommodations — then early the next

morning when the entire train goes to being backed into Denver's Union Station to the run to Salt Lake City.

The train starts climbing the Front 10 the Denver city limits—through dozens feet above sea level. Then through Divide at more than 9,000 feet. Then Canyon and out into the pastoral high City where it reaches Western Pacific Chicago.

The next morning, The California Zephyr Nevada at night, enters California Feather River Canyon for a thrilling last

## BATHING GIRLS--- THEN AND NOW

A fascinating subject showing the evolution of today's swim suit from the "bathhouse costume" of the 1890's. You'll see the rather quaint cotton costumes of the late 90's, the diving suits of the early 1900's, the two-piece suits of the mid-20's, and then developments in the modern trend with sun backs and flame-retarding fabrics. You'll get more than one chuckle out of the old-timers. And, as for the new ones — well, as our narrator says in the sound version: "No matter how handsome a man may be, he can never compete with bathing girls for attention on the beaches."

## WESTERN PACIFIC FAST FREIGHT

Here's a highly satisfying film for railroad fans, and a good one for general audiences. It's the story of No. 62, The Fast Freight, on its run from Oakland, Calif., to Salt Lake City, Utah — all the way through the 1900's. You'll see the train make its way through the Feather River Canyon, where the Western Pacific makes the Sierra Nevada, and some of the footage shot in the canyon was photographed from a helicopter. Mighty spectacular stuff it is, too. One extremely interesting sequence shows the working of Centralized Traffic Control, the modern train dispatching system that permits a sum of one central panel to direct trains over a 400 to 500 mile length of main line. A whiz of a film.

## BARNEY OLDFIELD'S RACE FOR A LIFE

The first 8mm. silent film in our Blackhawk Collectors Series—a 1-reel comedy produced in 1914, and containing just about everything that characterizes the slapstick comedy of those early silent days. Mabel Normand is the girl, Mack Sennett is the boy, Ford Sterling is the villain and Barney Oldfield is the hero. The film does have special interest to movie fans because of Barney Oldfield and his racing car of four decades ago. And for railroad fans because of the shining Santa Fe mogul locomotive that appears so prominently in the film. Of its type, it's a gem of a film.

## DANGEROUS FEMALES

The first 16mm. sound film in our Blackhawk Collectors Series—a 2-reel comedy produced in 1929 by Al Christie and originally released theatrically by Paramount. The only production Marie Dressler and Pally Moran ever made, as a team, for a company other than MGM. It's a comedy—totally typical of the Dressler-Moran team, broad and funny. For its day the recording was excellent and the speech is completely intelligible. For what it was, and for what it is, we recommend it.

# USED 100' R-1 MUSICALS IN PACKAGES

These films were originally produced by some of the leading 16mm production companies in the country for projection in non-optimal Panoram packages. When projected on ordinary 16mm projectors, the image is reversed on the screen. Usually the only place you will notice any difference is in the titles—the opening will appear backwards on your screen.

There may be, without notice, occasional substitutions of one or more titles in any package because we are temporarily out of stock on a particular item. However, we assure you that any substitutions will be of similar type and of the same or greater value.

If you decide, after viewing any of these packages, that you would like to keep any part of the package, we will charge you \$1.98 for each R-1 Sound Musical Film you return. Also, if you would like to order individual films from any of these packages, we will be glad to fill your order at \$1.98 per film so long as we have a stock of the title that has not been assembled into packages.

These films are licensed for non-theatrical use only, and cannot be shown on television or theatrically.

These films, identified as 100' R-I Sound Musical Films, are used productions made originally by such producers as E.C.M. (Hollywood, Millie) Music, Cameo, Screencraft and Globe for exhibition on the coin-operated machines. These machines, projecting from the rear-ground-glass screens, require the photographic image reversed. Yet with show quite acceptably on one regular 16mm. sound projector. Only one point where the reversal is usually noted in on the main end, which you may eliminate at the time you assemble your library. Over 2 1/2-years, we have sold many scores of thousands of prints, and have satisfied customers reorder regularly.

The films listed here may be selected by individual title. Good stocks hand of most of these subjects - but the listing of a few alternatives is desirable. We never substitute unless your first choices are out of stock. These 100' R-I Sound Musical Films are not supplied on reels, but individual rolls.

These films are licensed for non-theatrical use only, and cannot be shown television or theatrically.

## Our Guarantee

This guarantee provides that if for any reason you do not wish to retain any films or merchandise you order from Blackhawk, you may ship them back to us, transportation paid, within five days after you receive them, together with a copy of your invoice, and we'll give you full credit. Of course, returned merchandise must be in substantially the same condition when returned as when you received it. If films are returned or sent for trade-in, it will usually be ten days to two weeks before exchange merchandise or refund check will reach you.

## Read This Before You Order!

Blackhawk can continually offer you these exceptional buys only by eliminating all possibility of credit losses, and by operating our organization at the utmost efficiency. Therefore, irrespective of your credit rating, our terms are CASH WITH ORDER, or (inside continental United States) C.O.D. However, even inside continental United States, a 10% deposit must accompany all C.O.D. orders of \$50.00 or more. Outside continental United States — and this includes Alaska, Canada, Hawaii, Mexico, Porto Rico and the Panama Canal Zone — we can handle orders only when remittances in full are included. In all cases, we urge you to send remitt by postal or express money orders, or by bank drafts. Do not send currency or coins — even by registered mail — for you do so at your own risk.

Foreign shipments — excluding Canada and Mexico — must total a minimum of \$10.00. And, all foreign orders, including Canada and Mexico, must be paid in U. S. funds unless arrangements have been made in advance for payments in the currency of the purchaser's native country. Purchasers in Iowa must pay the 2% Iowa State Retail Sales Tax except in the case of retailers who are purchasing materials for resale, in which case this fact must be clearly stated on the order.

Export shipments, other than those by parcel post or air, should be packed in wooden boxes for shipment by sea. An additional charge of \$6.00, over the cost of merchandise and actual transportation, is made for each such box required, and for packing therein in waterproof paper.

Under the new postal regulations, parcels may not exceed 20 lbs. in weight nor 72 inches in length and girth combined. This means generally that all moderate to large shipments of films must be shipped to you by Railway Express, and that shipments of projectors, screens (except one folding cloth screen) and moderate to large quantities of reels and cans must go by express instead of parcel post. Whenever an item has to be shipped by express, we will send it express collect for the transportation, which you will pay on delivery.

However, on small moderate size shipments of 16mm. films, which may be sent by parcel post, if you wish to remit in full with your order, you may include the appropriate amount to cover for packing, postage and insurance, based on your address, as covered by the following three territorial groupings:

	GROUP A	GROUP B	GROUP C
Shipment of one 100' print	.10	.10	.10
Shipment of two 100' prints	.20	.25	.30
Shipment of one 400' reel of film	.25	.40	.45
Shipment of two 400' reels of film	.30	.50	.55
Shipment of three 400' reels of film	.35	.60	.70
Shipment of four 400' reels of film	.40	.75	.85
Shipment of five 400' reels of film	.45	.85	1.00
Shipment of six 400' reels of film	.50	.95	1.15
Shipment of seven 400' reels of film	.55	1.10	1.25
Shipment of eight 400' reels of film	.60	1.20	1.40
Shipment of nine 400' reels of film	.65	1.30	1.55
Shipment of ten 400' reels of film	.70	1.40	1.70
Shipment of eleven 400' reels of film	.75	1.55	1.85
Shipment of twelve 400' reels of film	.80	1.65	1.95

Most shipments of more than twelve reels will exceed twenty pounds and must therefore be shipped by express.

GROUP A — applies to Arkansas, Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Missouri, Nebraska, Ohio, Oklahoma, South Dakota, Tennessee, West Virginia and Wisconsin.

GROUP B — applies to Alabama, Arizona, Florida, California, Colorado, Connecticut, Delaware, District of Columbia, Idaho, Georgia, Idaho, Louisiana, Maine, Maryland, Massachusetts, Mississippi, Montana, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Oregon, Pennsylvania, Rhode Island, South Carolina, Texas, Utah, Vermont, Virginia, Washington and Wyoming.

GROUP C — applies to Alaska, Canal Zone, Hawaii and Porto Rico, together with all other U. S. territories and possessions, Canada, Mexico, Central American and European Countries. Three 100' 16mm. prints count as one 400' 16mm. reel in figuring postage and insurance.

Each feature picture counts as eight 400' 16mm. reels in figuring postage and insurance. For empty reels, cans, cases, etc., allow 20% of purchase price for postage and insurance.

In figuring transportation charges for 8mm. films, consider two films subjects to be the equivalent of one 16mm. subject of the same length.

On many classes of films listed here, additional savings can be made by ordering six, twelve or more units at a time. These discounts, however, apply only to quantities purchased within that class, and not to assortments of several classes of films. Discounts do not apply to any new or used films unless specifically offered in the listing.

There are no dealer discounts of any kind offered by Blackhawk — the prices quoted in this catalog, and the quantity discounts available on certain types of films, apply to all classes of purchasers.

Our Office is open from 8:30 to 4:30 Monday through Friday. We are closed all day Saturday and Sunday. During office hours, we can be reached by phone at 7-9394 or by personal call at the Putnam Building, Second and Main Streets.
