USED 16mm. SOUND PRINTS

IMPORTANT! Read This Before Ordering.

We usually have only a few used prints of a title - sometimes only one. This means that within two or three weeks after the mailing of this catalog, many and more of these used titles will be sold out. Keep this in mind when you order. Order early, and, in justice to ourselves unless your top choices are already out of stock. But remember - we can't sell what we don't have - and the used prints we offer are in great demand.

This section was the last part of the catalog to be printed. It was off the press only one or two days before the general mailing of the catalog was made. At the time it went to press, prints of all the subjects listed were in stock ready for shipment. Normally, within two or three weeks after mailing, 30% or more of the titles will have been sold.

As to the length of 16mm. films - cartoons average about 250 feet to a reel, other one-reels run 100 to 350 feet. Two-reels usually contain about 650 feet and longer subjects normally average not less than 1000 feet to a reel. All films of one reel length and over are supplied on reels.

The story of the little Christmas tree...

A CHRISTMAS RHAPSODY

The heart-warming story is reminiscent of the Hans Christian Anderson fairy tales which have long delighted children and grown-ups alike. Photographically, the film abounds in exquisite winter views and beautiful Christmas scenes. Musically, it offers an original score, beautifully performed by a chorus and full symphony orchestra.

16 SDN 85851 16mm. sound version, about 400 feet; list price \$30.00, very special at **\$16.89**

Television's Popular Character in

HOWDY DOODY'S CHRISTMAS

It is Christmas Eve! Howdy Doody, Buffalo Bob and Clarabelle have their stockings hung and the Christmas tree all ready. Santa is overdue. Howdy insists that they all go to the North Pole in his rocketship and look into the matter, and off they roar! They find Santa a prisoner of Ugly Sam who has been out hunting a bandit with a white beard. Ugly Sam had never heard of Santa Claus. The awful mistake is cleared up and Santa promises Howdy Doody that not a single child will be disappointed.

about 150 feet

Known variously as "the most beautiful," "the best loved" and "the most talked about" train in the country, The California Zephyr and the country through which it passes is certainly one of the most photo-genic subjects yet to be featured in Blackhawk's Railroad Series. And we've worked harder and longer on this than on any of the other films yet released in the series. We feel the result is worth the effort.

The California Zephyr, operated jointly by the Burlington, Rio Grande and Western Pacific railroads is the most revolutionary train of the post-war era. A trip on it is more than getting from here to there — it's a vacation in itself. And our film not only shows you the train — but the spectacular route it travels.

We see this 12-car stainless steel streamliner, five of its cars with vista-domes, as it leaves Chicago's Union Station for its run to Denver over the Burlington — through the cornfields of Illinois — across the Mississippi River just before entering Burlington, Iowa, the flashing of the signal lights from a vista-dome — the diner, the lounge and the Pullman accommodations — then early the next

morning when the entire train goes to being backed into Denver's Union Station the run to Salt Lake City.

The train starts climbing the Front Range of the Denver city limits—through dozens of feet above sea level. Then through Divide at more than 9,000 feet. Then Canyon and out into the pastoral high City where it reaches Western Pacific Chicago.

The next morning, The California Zephyr of Nevada at night, enters California Feather River Canyon for a thrilling last

For every train-lover and every train release in Blackhawk's Railroad Series —

BATHING GIRLS--- THEN AND NOW

A fascinating subject showing the evolution of today's swim suit from the "bathing costume" of the 1890's. You'll see the rather quaint cotton costumes of the late 90's, the diving suits of the early 1900's, the two-piece suits of the mid-20's, and then developments in the modern trend with sun backs and figure-controlling fabrics. You'll get more than one chuckle out of the old-timers. And, as for the new ones — well, as our narrator says in the sound version: "No matter how handsome a man may be, he can never compete with bathing girls for attention on the beaches."

WESTERN PACIFIC FAST FREIGHT

Here's a high-speed action-packed fare, and a good many others besides. It's the story of No. 62, The Fruit-Loose, an 11-car train from Oakland, Calif., to Salt Lake City. With all the way covered in 6,000 impressive slides, we've filmed the exciting travel of the fast freight through the Feather River Canyon. Other Western Pacific tackle the Sierra Nevadas and some of the footage shot in the canyon was photographed from a helicopter. Mighty spectacular stuff it is, too. One extremely interesting sequence shows the working of Centralized Traffic Control, the modern train dispatching system that permits a man at one control panel to direct trains over a 400 to 500 mile length of main line. A whiz of a film.

BARNEY OLDFIELD'S RACE FOR A LIFE

The first 8mm. silent film in our Blackhawk Collectors Series—a 1-reel comedy produced in 1914, and containing just about everything that characterizes the slapstick comedy of those early silent days. Mabel Normand is the girl, Mack Sennett is the boy, Ford Sterling is the villain and Barney Oldfield the hero. The film does have special interest to motor fans because of Barney Oldfield and his racing car of four decades ago. And for railroad fans because of the shining Santa Fe mired locomotive that appears so prominently in the film. Of its type, it's a gem of a film.

DAINGEROUS FEMALES

The first 16mm. sound film in our Blackhawk Collectors Series—a 2-reel comedy produced in 1929 by Al Christie and originally released theatrically by Paramount. The only production Marie Dressler and Polly Moran ever made, as a team, for a company other than MGM. It's a comedy absolutely typical of the Dressler-Moran team, broad and funny. For its day the recording was excellent and the speech is completely intelligible. For what it was, and for what it is, we recommend it.

WHEELS A' ROLLING

Here's the film that shows the cavalcade of railroad motive power from its earliest beginnings up to today. You'll see the Tom Thumb, the Best Friend of Charleston, the John Bull, the DeWitt Clinton, the Cumberland Valley (now Pennsylvania) Pioneer, the Lafayette of the B. & O., the John Hancock, the C. & N. W. Pioneer, the Benben Wild, Lincoln's Funeral Coach, the Minnetonka, the William Crooks, the Santa Fe's Little Buttercup, one of the Burlington's Immigrant Trains, Old 999 of the Empire State Express, the Burlington's Pioneer Zephyr of 1934 — the first diesel-electric stainless steel streamliner. All of the romance of American railroading is captured in this WHEELS A' ROLLING program, photographed just as it was presented at the 1948 and 1949 Chicago Railroad Fair. The GOLDEN ARROW

The story of one of Europe's great trains — THE GOLDEN ARROW operated jointly by British Railways and French National Railways. The Golden Arrow service is the fastest service route between London and Paris less than seven hours. You'll see the train in operation on the British Golden Arrow for the first time in England. Then, the train is transferred to the French Golden Arrow for the first time in France. At the dock in Calais, the French Golden Arrow, the Pêche d'Or, is awaiting the arrival of the ferry, and twenty minutes after the ferry docks it departs for the 3-hour, one-stop run to Paris. PHOTO SWEEP (ANTI-STATIC FILM CLEANER)

Here is a product that will be welcomed by each user of film who realizes how much damage results from static electricity on film. That static results from handling the wiping it running it through the projector — and most of all dirt on your film is attracted to it by static. The more you try to wipe it away, the more static builds up, and the more dust and dirt particles are attracted to scratch your film.

PHOTO SWEEP gets rid of that static — and of dirt and on the film at the same time. Simply dampen (do not use a pad of soft cotton material) and draw your film through cleaning and coating both sides in one operation. It instantly your films will be clean and will stay so because the static electricity that attracts most dirt is eliminated. The need for waxing is eliminated. Films are kept pliant and will not dry out, and any minor scratches already present in the film will be masked and not appear in projection.

PHOTO SWEEP is also available in Aerosol Spray Can for use on transparencies, glass cover slides, lenses, negatives, and make them static-free and non-dust attracting.

Special on 8mm. Film Cans

We make them buy on 8mm. cans, and look at the bargains we can give you in these items! These cans are of high quality, made of a light grade of steel that will protect your films for years and finished in gun metal gray. The embossing on these cans is in concentric rings that makes the cans interlock lightly when they are stacked — preventing slipping, sliding stacks of films. When you stack these cans, they stay stacked! They are all new, but slightly shopworn — some scratches or nicks in the finish. It won't impair the good use you'll get from them.

MANSFIELD 8MM. MOVIE EDITOR

This Editor, consisting of Viewer, Gearing Rewinds, and Automatic Dry Splicer, all mounted on a metal base and beautifully finished in blue and gold, is just about the best buy in 8mm. equipment you'll find in many a day. It is easy to operate, handles 8mm. reels up to 400' capacity, and meets the requirements of both amateur and professional. The various parts are available individually as well as in the complete editor, so additional information on the set may be obtained by consulting the more detailed descriptions given below on the component parts. One of the most unusual things about this fine piece of equipment is its price. Regularly \$25.95, Blackhawk can bring the Mansfield Movie Editor (EN-53) to you for just

CINELAC

Cinelaq protects film emulsion — either black and white or color — motion picture film, slides and stills — against the hazards of scratches, abrasions and finger marks. A new anti-static element minimizes the effects of static electricity in attracting dust and lint to the film surface. A 2 oz. bottle is enough to coat 1,500 feet of 16mm. film, 2,500 feet of 8mm. film, or approximately 3,000 square inches of film surface. For best results, it should be applied to the emulsion side of new prints before they are placed in service.

LIFELINE OF THE NATION (Used Kodachrome Prints)

A 2-reel 16mm. sound film in full color Kodachrome showing the magnificent performance of our railroads during World War II. The emphasis in this film is more on the movement of freight than of passenger-travel. As a result the film is somewhat in contrast to either MAINLINE U.S.A. or BIG TRAINS ROLLING. The viewer, too, will note another big difference — the emphasis of the majestic steam locomotive which was still — during the war — the number one source of motive power for freight as well as passenger transportation. There is a marked contrast with today when diesel power is close to taking over most principal runs. So, for those of you who have a particularly soft spot in your hearts for the steam locomotive, here's your chance to see some of the big boys of the Santa Fe, Union Pacific, Norfolk, and Western, Rio Grande, Southern Pacific and Pennsylvania in action. You'll see lots of others, too. (Prints of these films are valued at \$150.00 new.) 16 SDU 76C4. Price only **\$24.95**

CHILDREN OF RUSSIA

Produced by Julian Bryan

This is an American made production photographed just after the close of World War II. You wouldn't expect to see a dramatization of "Huckleberry Finn" in this film, but it's there because this American classic is included in the Russian school curriculum. In this production we see Russian children engaged in their typical activities — going to school, tending their gardens, marching in parades, playing their favorite games, visiting museums and art galleries, and living in the summer Pioneer camps which — except for the ideology they teach — are somewhat comparable to summer camps in this country. Projection Lamp Sale

We have a small supply of 750 watt, 110 volt, T12 projection lamps made by Westinghouse that we can offer at a special price. These are all first quality lamps, made by one of the outstanding lamp manufacturers in the country, and normally they are priced at \$4.53 each. We can bring them to you, while our small stock lasts, **\$3.49** at the low price, each.

PROJECTION LAMPS

There's never been a projection lamp bargain like this one! 750 watt, 110 volt, T-12, medium pressure projection lamps at a saving of 1/3 from the prices you usually pay. These lamps are manufactured in occupied Japan and an American testing laboratory in Japan reports their performance compares quite favorably with standard brands made in this country - they are not the cheap, inferior type of merchandise that was turned out before the war. We hope to be able to offer these lamps on a regular basis. However, our immediate stock is limited, and we may periodically run out. Therefore, to try this bargain for yourself, get in your initial order now.

INCOMPLETE 100' USED 16mm. SOUND LENGTHS

These incomplete 100' sound lengths of 16mm. film from feature pictures, Westerns, serials, comedies travel films, musicals, documentary subjects, sports films, and other types of subjects, have long been an extremely popular item with Blackhawk customers.

These lengths, while incomplete and start anywhere and end anywhere, are consecutive in themselves - they are not made up of short scenes spliced together. They are not identified individually as to the type of subject, so there is no way we can call an order for so many reels of "Westerns," "Comedies," or any other specific type of content. All footage is regular image material (no B-roll musicals are included.) And all footage is in good reusable condition.

100' lengths of black and white film **\$3.98**

MAINLINE U. S. A. (Used Kodachrome Prints)

Here is a 2-reel Kodachrome film in 16mm. sound that traces the impact of railroad construction over the last century as the prime means of the general development of our country — how the railroads today have a very direct effect on all our lives. Shown are a great many spectacular shots of streamliners and freights at speed, across prairies, over bridges, against backgrounds of snow-capped peaks. Railroad fans can easily identify the trains of their favorite railroad. You'll see streamliners and freights of the Monon, Rock Island, Milwaukee, New Haven, Santa Fe, New York Central, Pennsylvania, Burlington, Southern Pacific, Erie, Missouri Pacific, North Western, and many another pike. You'll also see many a yard goat at work, and many other activities of the railroads in maintaining the far-flung and complex services that they render. Even those of you who aren't first of all railroad fans will find this an informative, absorbing, entertaining and very beautiful film to have in your collection. (Prints of this new are valued at \$150.00.) 16 SDU 76C3.

These 1-reel films are the last two series of comedies made by Hal Roach as "The Comed" comedies before he discontinued production and disposed of his rights to this registered trade mark to M-G-M. And, they're some of the best he ever made with Spunky, Styvis, Alfalfa and many of the other characters of the 1935-1937 period.

Our Guarantee

Normally, our guarantee provides that if for any reason you do not wish to retain any films or merchandise you order from Blackhawk, you may ship them back to us, transportation paid, within five days after you receive them, together with a copy of your invoice, and we'll give you full credit. We realize, however, that it is not always possible for schools, institutions, and other such organizations to complete checking within five days. Therefore, we will extend this screening and checking period to a reasonable length of time based upon the quantity of materials ordered, which might require a longer period

than five days. Of course, returned merchandise must be in substantially the same condition when returned as you received it.

Our Terms to Schools

Blackhawk's terms to schools and institutions provide payment within ten days after receipt and approval of materials. Orders should be placed on official purchase order blanks or requisition forms. Payment on a monthly basis can be arranged upon request for schools for which Board of Education approval is required before payment is made.
