USED 16mm. SOUND PRINTS

IMPORTANT! Read This Before Ordering.

We usually have only a few used prints of a title - sometimes only one. This means that within two or three weeks after the mailing of this catalog, more and more of these used titles will be sold out. Get this in mind when you order. Order early, and, in justice to yourself, give us an alternate list of titles. We'll never send an alternate unless your top choices are already out of stock. But remember - we can't sell what we don't have - and the used prints we offer are in great demand.

This section was the last part of the catalog to be printed. It was off the press only one or two days before the general mailing of the catalog was made. At the time it went to press, prints of all the subjects listed were in stock ready for shipment. Normally, within two or three weeks after mailing, 50% or more of the titles will have been sold.

As to the length of 16mm. films - cartoons average about 250 feet to a reel, other non-reels run 300 to 350 feet. Two-reels usually contain about 650 feet and longer subjects normally average not less than 900 feet to a reel. All films of one reel length and over are supplied on reels.

PHOTO SWEEP (ANTI-STATIC FILM CLEANER)

Here is a product that will be welcomed by each film fan who realizes how much damage results from electricity on films. That static results from handling — waxing it, running it through the projector — and no dirt on your film is attracted to it by static. The electricity to wipe it away, the more static builds up, and easily dust and dirt particles are attracted to settle near the film.

PHOTO SWEEP gets rid of that static — and of dirt on the film at the same time. Simply dampen (do not use oil) a soft cotton material and draw your film through it, cleaning and coating both sides. In one operation, instantly, your films will be clean and will stay that way because the static electricity that attracts most dirt and will not dry out, and any minor scratches already in the film will be masked and not appear in projection.

PHOTO SWEEP is also available in Aerosol Spray form on transparencies, glass cover slides, lenses, negatives, and other photographic accessories.

Special on 8mm. Film Cans

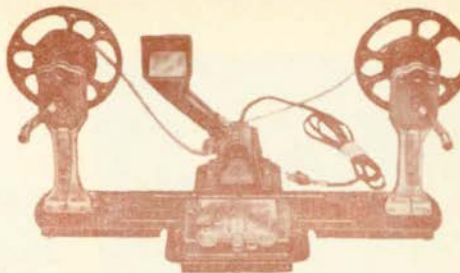

We made a lucky buy on 8mm. cans, and look at the bargains we can give you in these items! These cans are made of a light grade of steel that is powder coated, and finished in gun metal baked enamel. The embossing on these cans is in a center ridge that makes the cans interlock lightly when they are stacked — preventing slipping, sliding stacks of five. When you stack these cans, they stay stacked! They are new, but slightly shopworn — some scratches or nicks in finish. It won't impair the good use you'll get from them.

The various parts are available individually as well as in the complete editor, so additional information on the set may be obtained by consulting the more detailed descriptions given below on the component parts. MANSFIELD REWINDS

The rewinds will handle reels up to 800' capacity. They are equipped with fingertip controlled drag brakes, and their gear ratio of 3 to 1 makes for easy winding. All this (illustrated as part of the Editor above) would regularly be \$7.95. Blackhawk has the Auto-Splicer (EN-31) at the astonishing price of **\$5.95**

MANSFIELD JUNIOR SPICER

CINELAC

Cinelaq protects film emulsion — either black and white or color — motion picture film, slides and stills — against the hazards of scratches, abrasions and finger marks. A new anti-static element minimizes the effects of static electricity in attracting dust and lint to the film surface. A 2 oz. bottle is enough to coat 1,500 feet of 16mm. film, 2,500 feet of 8mm. film, or approximately 3,000 square inches of film surface. For best results, it should be applied to the emulsion side of new prints before they are placed in service.

LIFELINE OF THE NATION

(Used Kodachrome Prints)

A 2-reel 16mm. sound film in full color, showing the magnificent performance of our railroads during World War II. The emphasis in this film is more on the movement of freight than of passenger travel. As a result, the film is somewhat in contrast to either MAINLINE U.S.A. or BIG TRAINS ROLLING. The viewer, too, will note another big difference — the emphasis of the majestic steam locomotive which was still — during the war — the number one source of motive power for freight as well as passenger transportation. There is a marked contrast with today when diesel power is close to taking over most principal runs. So, for those of you who have a particularly soft spot in your hearts for the steam locomotive, here's your chance to see some of the big boys of the Santa Fe, Union Pacific, Norfolk, and Western, Rio Grande, Southern Pacific, and Pennsylvania in action. You'll see lots of others, too. (Prints of these films are valued at \$150.00 new.) 16 SDU 76C4. Price only **\$24.95**

CHILDREN OF RUSSIA

Produced by Julien Bryan

This is an American made production photographed just after the close of World War II. You wouldn't expect to see a dramatization of "Huckleberry Finn" in this film, but it's there because this American classic is included in the Russian school curriculum. In this production we see Russian children engaged in their typical activities — going to school, tending their gardens, marching in parades, playing their favorite games, visiting museums and art galleries, and living in the summer Pioneer camps which — except for the ideology they teach — are somewhat comparable to summer camps in this country. Length 1 1/4 reels, 16mm. sound.

Newest film in Blackhawk Collectors Series—and a collectors' film if there ever was one. For the most part, the motion picture scenes making up THE DAYS OF McKINLEY, BRYAN and TEDDY ROOSEVELT were photographed in the 1890's—the very early days of the motion picture. You'll see The Bowery in New York—crossroads of the world in the 1890's; typical scenes of the great orator, William Jennings Bryan; Teddy Roosevelt and the Rough Riders on return from Cuba; Admiral Dewey's Flagship home for repairs after the Battle of Manila Bay; McKinley's Inaugural Parade—and the Famous Black Horse Cavalry; a Tammany outing; Columbus Circle, New York; McKinley's funeral procession and Teddy Roosevelt as President of the United States. There aren't many films that offer such a wealth of really historical motion picture scenes — and particularly not at Blackhawk's "priced like wholesale" prices.

**BATHING GIRLS---
 THEN AND NOW**

A fascinating subject showing the evolution of today's swim suit from the "bathing costume" of the 1890's. You'll see the rather quaint cotton costumes of the late 90's, the diving suits of the early 1900's, the two-piece suits of the mid-20's, and then developments in the modern trend with sun backs and figure-controlling fabrics. You'll get more than one chuckle out of the old-timers. And, as for the new ones — well, as our narrator says in the sound version: "No matter how handsome a man may be, he can never compete with bathing girls for attention on the beaches."

**WESTERN PACIFIC
 FAST FREIGHT**

Here's a highly unusual, but very good, and a good many others besides. It's the story of No. 62, The Fruit Fly, on its run from Oakland, Calif., to Salt Lake City. You'll see all the way along. A high speed train, driven by a diesel locomotive, and the footbrake men of the Western Pacific. You'll see the Western Pacific tuckies, the Sierra Nevada and some of the footage shot in the canyon was photographed from a helicopter. Mighty spectacular stuff it is, too. One extremely interesting sequence shows the working of Centralized Traffic Control, the modern train dispatching system that permits a man at one control panel to direct trains over a 400 to 500 mile length of main line. A whole of a film.

BARNEY OLDFIELD'S RACE FOR A LIFE

The first 8mm. silent film in our Blackhawk Collectors Series - a 1-reel comedy produced in 1914, and containing just about everything that characterizes the slapstick comedies of those early silent days. Mabel Normand is the girl, Mack Sennett is the boy, Ford Sterling is the villain and Barney Oldfield is the hero. The film does have special interest to motor fans because of Barney Oldfield and his racing car of four decades ago. And for railroad fans because of the shining Santa Fe round locomotive that appears so prominently in the film. Of its type, it's a gem of a film.

WHEELS A' ROLLING

Here's the film that shows the cavalcade of railroad motor power from its earliest beginnings up to today. You'll see the Tom Thumb, the Best Friend of Charleston, the John Bull, the DeWitt Clinton, the Cumberland Valley (now Pennsylvania) Pioneer, the Lafayette of the B. & O., the John Hancock, the C. & N. W. Pioneer, the Boston Mail, Lincoln's Funeral Coach, the Minnetonka, the William Croft, the Santa Fe's Little Buttercup, one of the Burlington's Insurgent Trains, Old 999 of the Empire State Express, the Burlington's Pioneer Zephyr of 1934 - the first diesel-electric, stainless steel streamliner. All of the romance of American railroading is captured in this WHEELS A' ROLLING pageant, photographed just as it was presented at the 1948 and 1949 Chicago Railroad Fair. The commentary and the score of the pageant are the commentary and score of the film.

DANGEROUS FEMALES

The first 16mm. sound film in our Blackhawk Collectors Series - a 2-reel comedy produced in 1929 by M. Christie and originally released theatrically by Paramount. The only production Marie Dressler and Polly Moran ever made, as a team, for a company other than MGM. It's a comedy absolutely typical of the Dressler-Moran team, broad and funny. For its day the wording was excellent and the speech is completely intelligible. For what it was, and for what it is, we recommend it.

INCOMPLETE 100' USED 16mm. SOUND LENGTHS IN COLOR

These incomplete 100' sound lengths of 16mm. film from feature pictures, Westerns, serials, comedies travel films, musicals, documentary subjects, sports films, and other types of subjects, have long been an extremely popular item with Blackhawk customers.

These lengths, while incomplete and start anywhere and end anywhere, are "complete" in themselves; they are not made up of short scenes spliced together. They are not edited, but are usually as to the type of subject, so there is no way you can tell all at once for so many titles of "Westerns," "Comedies," "Musicals," and "Sports" or "documentary." And all footage is regular film material (no B-1 sound material is included). And all footage is in good running condition.

100 lengths of 16mm film each, **\$2.49**

USED 100'-R-I SOUND MUSICALS IN PACKAGES

These films were originally produced by some of the leading 16mm production companies in the country for projection in coin-operated Panoram machines. When projected on ordinary 16mm projectors, the image is reversed on the screen. Usually the only place you will notice any difference is in the titles—the lettering will appear backwards on your screen.

There may be, without notice, occasional substitutions of one or more titles in any package because we are temporarily out of stock on a particular film. However, we assure you that any substitutions will be of similar type and of the same or greater value.

If you decide, after viewing any of these packages, that you want to keep only part of the package, we will charge you \$1.98 for each R-I Sound Musical film you retain. Also, if you would like to order individual films from any of these packages, we will be glad to fill your orders at \$1.98 per print so long as we have a stock of the title that has not been assembled into packages.

These films are licensed for non-theatrical use only, and cannot be shown on television or theatrically.

These films, identified as 100' R-I Sound Musical Films, are used prints of productions made originally by such producers as R.G.M. (Roosevelt, Conroy, Mills); Minox; Camera; Screencraft and Globe for exhibition on Panoram camera-operated machines. These machines, projecting from the rear onto ground-glass screens, required the photographic image reversed. Yet, these prints show quite acceptably on any regular 16mm. sound projector and the only point where the reversal is usually noted is on the main and end titles which you may eliminate at the time you assemble your library. Over the last 25+ years, we have sold many scores of thousands of prints, and hundreds of satisfied customers reorder regularly.

The films listed here may be selected by individual title. Good stocks are on hand of most of these subjects — but the listing of a few alternatives is desirable. We'll never substitute unless your first choices are out of stock. These 100' R-I Sound Musical Films are not supplied on reels, but on individual rolls.

These films are licensed for non-theatrical use only, and cannot be shown on television or theatrically.
