 - Supports life of varied species
2. Match each item in LIST A with responses in LIST B by writing the letter of the correct response below the corresponding item number in the space provided

LIST A	LIST B
i. Barometer	A. humidity
ii. Rain gauge	B. temperature
iii. Wind vane	C. wind direction
iv. Six's thermometer	D. atmospheric pressure

v. anemometer	E. Rainfall F. Sunshine G. Wind speed H. Clouds
---------------	--

SECTION B (70 Marks)

Answer all questions in this section

3. Ocean and sea are water masses of different characteristics. They are both important to human beings since they play a big role in social economic advantages

A. Outline five differences between ocean and sea

- i.
- ii.
- iii.
- iv.
- v.

B. Mention five social economic resources which obtained from ocean and sea

4. Study carefully data recorded from major weather station and answer questions below

Days	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
Temp °C	19	20	20	21	19	21	20
Rainfall (mm)	35	47	40	43	27	41	39

- i. Calculate the weekly average temperature
- ii. Compute the weekly rainfall
- iii. Find temperature range within the week
- iv. Which is the wettest day in a week? Why?
- v. What were the coldest days in a week? Why?

5. Convert the following scale according to the instructions given

- a) i. 1:100000 to statement scale
- ii. Change statement scale of one centimeter on the map representing a half kilometer on the actual ground distance to **representative fraction scale**
- b)** State either the direction or the bearing of the following:
 - i. 270°
 - ii. 135°
 - iii. NE
 - iv. WSW

c) Basing on the knowledge of locating position on topographical maps, how can you help a tourist to reach Serengeti national park? Two points.

- i.
- ii.

6. Discovering of natural gas in southern parts of Tanzania boosted economy of people in Mtwara, Lindi, Mtwara and also Tanzania as a country. Describe five economic advantages of natural gas in Tanzania
