Ilium Stanabolic is the Troy Laboratories version of Winstrol (Stanozolol). It comes in a 10ml multi-use vial. Though it seems most of the vials have about 11-12 MLs of product. Tested in the past revealed it has about 78mgs of winstrol/ml not the 100mgs claimed on the label. Ilium Stanabolic is the Troy Laboratories version of Winstrol (Stanozolol). Stanabolic (Stanozolol) 50mg/ml, 20 ml vial, Ilium - Steroid Portal. Description. Reviews (0) One obvious difference between Winstrol Depot and other injectables is that it is not esterified, being sold as aqueous stanozolol suspension. (It should not be called water-soluble: virtually none of it is dissolved in the water.)

Buy ilium stanabolic 50mg/ml 20ml vial. High quality ilium stanabolic 50mg/ml without prescription for sale at musclebuildingsteroids. Buy winstrol injectable the average dose of stanozolol during the drying cycle ranges from 25 mg to 50 mg per day.

Winstrol or Stanozolol is a structurally altered form of Dihydrotestosterone (DHT). Also called Winny, Winnie, Stanol & Azolol, it is a C17-alpha alkylated (C17-aa) anabolic steroid which means that the unique structural alterations in the DHT hormone, make it more anabolic than androgenic.

MUSCLE-GEAR.NET

I used the illium Stanabolic and RWR Stanazol. They were identical except that the Illium is a thinner fluid so you can use a fine guage needle. Both gave me good quality solid muscle gains and huge increases in strength. The box in your picture looks a little different than mine. Mine does not have the 'white band' with caution S4 on it. 74. Rep Power. 19. it's a 20ml bottle with 50mg's/ml. i'm on week two of their winstrol and masteron. seeing some good results, muscles harder and strength going up steady. also looking leaner. 12-23-2003, 02:21 PM #8.

Welcome to the EliteFitnessm

Bodybuilding Site! Please join this discussion about Ilium Stanabolic??? within the Anabolic Steroids category. Excerpt: I have gotten 10ml bottles from a friend with Trenbolone 50mg/ml Drostanolone 100mg/ml he also offers Stanazolol 20ml 50mg/ml and 10ml Enchate (spelling??) 250mg/ml I can't find any info on them..
