Synthroid. The guidelines-approved treatment for hypothyroidism is thyroid hormone replacement with
a once-daily dose of synthetic thyroxine (T4), also referred to as L-thyroxine or L-T4. It is so important
to stand up for ourselves, to advocate for ourselves, and to speak up to our leaders and show them that
we need access to proper healthcare. So, many people have faced so many barriers when facing access
to healthcare such as gender, sex, race, disability and so much more, and I am privileged to have not
faced those barriers on a basis. ?? [see this](#)
