## Oral Steroids

- Also known as systemic corticosteroids.
- May be taken as a controller medicine to treat severe asthma.
- Are usually prescribed for a patient to take home after an asthma flare up.
- An example is Prednisone.
- Patients should be reminded to take with food to prevent an upset stomach.

A photograph showing several white and yellow pills and capsules scattered on a light-colored wooden surface. One white pill is in the foreground, and a yellow capsule is in the background. The text 'Oral Steroids' is overlaid on the image.
