[Designed to be more comfortable & customizable than other ED devices & treatments. Testimonies, guidance, and at-home exercises from experts in sexual health and wellness.](#)

Testosterone cypionate is a prescription drug. It comes as an injectable solution given into the muscle. Testosterone cypionate is a self-injectable drug. You can give this medication to yourself... Testosterone Cypionate Injection, USP for intramuscular injection, contains Testosterone Cypionate, USP which is the oil-soluble 17 (beta)- cyclopentylpropionate ester of the androgenic hormone testosterone. Testosterone Cypionate, USP is a white or creamy white crystalline powder, odorless or nearly so and stable in air. Testosterone cypionate (Depo-Testosterone) is an inexpensive drug used to support normal male development such as muscle growth, facial hair, and deep voice. This drug is more popular than

comparable drugs. It is available in generic and brand versions. How is this medicine (Testosterone Cypionate Injection) best taken? Use testosterone cypionate injection as ordered by your doctor. Read all information given to you. Follow all instructions closely. It is given as a shot into a muscle. If you will be giving yourself the shot, your doctor or nurse will teach you how to give the shot.
