

# Mod GRF (1-29) (CJC-1295 no DAC) Price EU (1 vial). Generic Modified Growth Releasing Factor

Product Name: Mod GRF (1-29) (CJC-1295 no DAC)

Category: Peptides

Ingredient: Modified Growth Releasing Factor

Manufacturer: Sinoway

Qty: 1 vial

Buy online: <https://t.co/6TbW9ehu71>

Mod GRF (1-29) 5mg (CJC-1295 no DAC) Modified GRF is a truncated peptide analogue of growth hormone releasing hormone (GHRH). First developed in the 1980s, research studies with modGRF have shown it to improve muscle repair and growth, accelerate wound healing, strengthen bones, increase fat burning, and improve metabolism. CJC-1295 NO-DAC 5mg (MOD GRF 1-29) Be the first to review this product. Availability: In stock. Special Price \$57.95 Regular Price \$64.95. Qty. Add to Cart. OR Add to Wish List. Research Grade CJC-1295 NO-DAC 5mg (MOD GRF 1-29) Free Priority Shipping.

Modified GRF (1-29) is also known as mod GRF or tetra-substituted GRF (1-29). The latter name makes it clear that the modified peptide differs from GRF (1-29) as a result of changes in four of its amino acids. Modified GRF (1-29) is identical to CJC-1295 without DAC. Research related to Mod GRF (1-29) Modified GRF 1-29 (MOD GRF 1-29) is also known as CJC-1295 without DAC. This chemical is a synthetic analogue of the endogenous growth hormone releasing hormone (GHRH) which has approximately 44 amino acids in its chain structure. Essentially, MOD-GRF 129 is a synthetically made version of GHRH [i] and is responsible for stimulating natural GH.

As a result, researchers modified GRF (1-29) to give it a longer half-life and thus greater therapeutic potential. Modified GRF (1-29) is occasionally referred to as mod GRF or tetrasubstituted GRF (1-29). The latter name makes it clear that mod GRF differs from GRF (1-29) as a result of four amino acids being changed. [super fast reply](#)
