

Practical Principles for Biological Farming

1/11/2022 Virtual Seminar

Click icons below
to watch the videos

	Beginning with the Basics <i>Ken Musselman</i>	20 m
	How to Build Your Soil Biology <i>Gary Campbell</i>	10 m
	Creating Pore Spaces, Rhizodeposition, and the Importance of Fertility <i>Ken Musselman</i>	8 m
	Reducing Fertilizer Costs with Effective Starter Programs <i>Gary Campbell</i>	15.5 m
	Fertilizer Application Options — Banding, Strip Fill, Side Dress, Stream, and Foliar, Program Highlights — Alfalfa, Soybean, Produce <i>Ken Musselman</i>	13 m
	Foliar Feeding Guidelines <i>Gary Campbell</i>	5 m
	Necessities for Healthy Plants <i>Ken Musselman</i>	8.5 m
	Biological - MVP <i>Gary Campbell</i>	15 m
	Biological – MST Myco Seed Treat <i>Ken Musselman</i>	3.5 m
	Biological – MT-17 <i>Gary Campbell / Ken Musselman</i>	10 m
	Biological – Residue <i>Ken Musselman</i>	17 m
	Biological – EcoVam GXT - Rhizobium - Exceed - BlueN <i>Gary Campbell</i>	7.5 m
