
Third Exodus Assembly

Christ, The Mystery Of Light And Sound

30th March 2014

Vin A. Dayal

CHRIST, THE MYSTERY OF LIGHT AND SOUND

30th March 2014
TRINIDAD

FOREWORD

This is a sermon preached by Bro. Vin A. Dayal and is published through the freewill offerings of the members of the Third Exodus Assembly.

It is intended to edify the reader and make clear the Bride-Promises of God, which were revealed through the ministry of God's Prophet-Messenger, Bro William Marrion Branham, for the Elect in this Day. It is not meant to promote any special doctrine or person, save, the Lord Jesus Christ and His Divine Word.

The original video and audio recording can be accessed through our website www.thirdexodus.org

We pray the blessing of God upon each reader and may illumination by the Spirit of God be each one's special portion.

Excerpt:

That is what came down in this Day. That is the Seventh Seal. That is what we're in. That Book that was going to be handed is inside of us. That is what we ate, we who talk about Revelation 10:8-11: "I ate the Book." We who say we are the living sons of God, the manifested sons, that is us we're talking about.

Revelation 4, the Church caught up into Heaven saw, what? The Throne. And what was around that Throne, was a Rainbow around the Throne. Now a rainbow has seven colors. White light through a prism breaks up into seven colors, from red to violet. Do you understand that? Light, white light, there is a seven-fold mystery of this light. This is the Light that came back.

Each Age produced a ray: Paul, Irenaeus, Martin – red, orange, yellow, blue. But when you come back to the Pyramid at the top, it comes back. And this Light that has come back, is all those Seven Mysteries that became one Mystery, Christ, the Person Himself, to be reproduced in human beings – the Third Pull – Christ in you, the Hope of Glory; this great Glory. [Pages 78-79]

CHRIST, THE MYSTERY OF LIGHT AND SOUND

TRINIDAD
SUNDAY 30TH MARCH 2014

BRO. VIN A. DAYAL

[#1122 - Songs That Live -Ed.]

*Surely around here
The Throne comes down
Surely around here
The door to heaven is found
And we know we are standing on holy ground
He's here; He's all around*

One more time: *Surely around here.*
Surely around here,
Oh, confess that faith, hallelujah.
*Surely around here
The door to heaven is found
And we know we are standing on holy ground
He's here; [oh] He's all around*

He's here. Hallelujah!
The throne comes down
Oh, let it come down in every heart today. Hallelujah!
Let His mighty Presence fill every one today.
*And we know we're standing
On holy ground
He's here; He's all around.*

Hallelujah! Father, we thank You. We magnify Your great Name today for Your never-failing Presence, Your mighty Presence. Oh God, You promised You would be here and You are here. We thank You, dear God, for that sense of faith that could sense You, dear God; that

we could bump into those Angels, all the Angels gathered around us, You and Your great train of Glory, like Isaiah saw in the temple, oh God, (hallelujah!) where our souls, we who are associates with the Unseen World and candidates for the Supernatural can be so quickened, can be so aligned, can be so in tuned, dear God, (hallelujah!) when the vibrations of Heaven can come down into our souls and bring a charge of faith, bring an Anointing, oh God, to lift us up where Eagles can fly in that supernatural Atmosphere.

We thank You, oh God. Blessed be the Rock of our salvation. Glory to God in the Highest! Hosanna, Hosanna, Baruch Hashem Adonai, hallelujah! Glory to God. Blessed are You, oh God. You've come among Your people, oh God. Thank You, Jesus. You've come into the City, oh God. The Light is in the City. The King is in the City, a City built foursquare, with delegates, oh God; Heavenly Jerusalem, City of the Living God, the Lamb's Wife, spirits of just men made perfect, oh God, where the Voice of the Blood speaketh better things! Hallelujah! Oh, thank You, Lord. Glory be to God in the Highest! Thank You. Thank You. Thank You. Thank You, Jesus. How great is our God and greatly to be praised. You are worthy of all praise, and worship, and honor, and glory, and blessing (hallelujah!) for there is none like You; none can compare. Thank You, Jesus. Thank You, Lord. Thank You, Father. We praise You. We welcome You, Lord. We give honor and glory to You. How great is our God!

Oh, let's give Him a hand of praise. Amen. What a Mighty God! He is the Healer, the Savior, the Redeemer, the Deliverer, the King, amen; the immortal, the invisible, the only wise God be honor and glory forever and ever and ever, the Amen of God, the Beginning of the new creation, the faithful and true Witness. Hallelujah! Glory! Thank You, Lord. Oh, thank You, Jesus. Thank You, Lord. Oh, let every sound throughout the region from South America into North

America, amen, oh, where the saints of God are linked together, an invisible union of a church He has raised up in this region! Glory be to God in the Highest! Thank You, Lord. Hallelujah!

This is the Day that the Lord has made. We shall be glad and rejoice in it. Amen. His mercies are new every morning. Great is His faithfulness! Hallelujah. Oh, thank You, Lord. Thank You, Jesus. Thank You, Lord. Thank You, Father. Thank You. Thank You. Thank You, Lord. Hallelujah! Thank You, Lord. Blessed be His wonderful Name.

We're glad to be in His house, amen. Let's just bow our hearts one more time.

If you have a special request in your heart, hold it and believe. We have a couple of requests, written. Amen. Here we have one: Sis. Yuk-klyn Vera Barker requests prayer for she is to have an operation Tuesday for a reversible Hartmann. I don't know what exactly it is. The brother says her intestines had previously ruptured, and a first operation was performed to remove the ruptured piece, a portion of which remained outside of her body. This operation is to put everything back in place. So let's believe for our sister by the grace of God, knowing the almighty God, the Jehovah of miracles, the great Jehovah-Rapha, God Who is our Healer.

No matter what Your need is today, it might not be a need for healing for some of you, but you may have other needs; when the church can be united and we pray, even as the promise says: 'if two shall agree'; how much more we are more than two here and we can be in one mind and one accord. Moments like these should never be undervalued, amen. We should realize there's a power in prayer. And there is an authority invested in the Church of the Living God; the great Headship that has come down and this great union with the Bride. He knows how to direct things; we live under His leadership. We are believing even now He will lead and guide and direct because He's not an 'I was' or 'I will be';

God is an 'I AM THAT I AM'. He's the Eternal One Who we were speaking on there, on Wednesday night, the infinite God, an omniscient, omnipotent, omnipresent God. What a Great God He is and He loves us.

This was the God that was made flesh and died for us. We could stand and live in our God-given privileges, as the Church of the Living God restored in the last days, this great Lazarus Project, this de-extinction program, the Alpha and Omega be the same. The first Bride that went forth came back around a second time. That Bride is here in the form of the New Branch that comes from the Root. Hallelujah.

We love You, Jesus. We think of how glorious You are, how powerful You are. It is written of You that there was nothing made that was made. You made everything. You made it for Your good pleasure. All things were made by You. You are the only Creator that there is. What a privilege to stand in Your Divine Presence. You have unveiled Yourself in this Day. You broke the Seals off of Yourself so that everything about You that we need to know now is being made known to us. The great Secret in the back part of Your mind, You've put it in the hearts of Your Bride. We believe that because there are things in our hearts that we couldn't think for ourselves. There are Things, oh God, that we discover in the Scripture that we didn't know that were laying there, and the One Who knows leads and directs and teaches further on the Truths; bringing back to remembrance what You spoke through Your Prophet and teaching us all things, showing us things to come. I have this experience. It confirms and brings faith in our hearts that You keep Your Word.

When we as members of a living organism stand together like this on a memorial day every Sunday, we think of the resurrection; and we are living in this great Son Day after the Seven Ages run out. The mighty Angel descended and broke that Seal, "And right now we are in an Easter," Your Prophet says, "quicken and raised

up!" The Body that was laying in the grave during the time of Luther, and Wesley, and the Pentecostals. Then there was a rumor that Your Body was being raised up, but at the Evening time, You showed the same sign: You opened the Scriptures. You proved that You were not dead, but You are alive; the same Jesus (hallelujah!) coming back now in human flesh, doing the same things, being reincarnated in Your Church.

You vindicated It. There is not a person in the same mind who can deny those Things because the vindication stands there. You confirmed It and faith rests on the proven Word of God. Our soul is tied to that Absolute! You said, "Heaven and earth will pass away, but that Word will never pass away!" What a place You have given us to stand that David said, "You set us upon a Rock, we shall not be moved." How great is our God!

So, Father, knowing that there are many needs even in our midst, and no doubt in the other assemblies that are gathered together with us, but we all have the privilege to go beyond the Veil as sons and daughters. You've given us access by faith into this grace in which we stand, where that Voice of the Blood speaks; that Shekinah Glory where that Blood sprinkled Mercy Seat, that Voice that speaks and reflects Itself even through the inner man in this tabernacle, Your temple today, the body of Your Bride, lively stones building up this spiritual house, the habitation of the Spirit. What a place, Father.

As Your children would believe in their hearts with this consciousness, holding their requests, having this clear understanding that You have revealed Yourself in this Day when the Book is to be opened as the God of the Amen, the God of the unfailing promise, the God of finality, the God of Truth, it's impossible for You to lie. No wonder Your Prophet preached to us *The Absolute* [1962-1230M -Ed.]. In this dark hour, You revealed to us so that we can have the Compass, the Holy Spirit, the

North Star that never moves, the Word. That Compass will point to that North Star every time, no matter where we are, what condition it is, oh God, we can have direction. We can know how to move, no matter how dark it is, no matter how unstable things look, Lord! We can have stability, no matter how stormy the seas are. We can sail life's solemn main knowing that You are our Captain.

As we believe with our hearts and confess with our mouths, Lord, that truly Your promises are yea and amen, believing that we have received what we asked for, we shall have it. Those are Your Words. We take our stand upon It now with faith, and we believe and we confess that in our hearts with the things that we are praying for. We have already been blessed with these blessings in Heavenly Places in Christ. We're accepted in the beloved. In You, we have redemption through Your Blood and the forgiveness of sins according to the richness of Your grace. That is why we can stand without condemnation.

Let us come Your provided way. Let us come this Divine way, Father. Let us come by this new and living way through Your Blood; we shall obtain mercy and find grace to help us in time of need, just what we have need of in this Hour, in the Name of Jesus Christ. To all that believe, dear God, may they receive it! Speak it in Your Name for the glory of God, the All-sufficient and the Almighty Name of the One Who gave the promise, that we are heirs of the promises of God. Through faith and patience, we inherit these promises. Let that blessing drop down into every heart today.

We thank You, Father. May as it settles in, the mind becomes clear, and in their heart, they can say amen to the Word of God and know it's done; it's a finished thing. They'll walk giving you praise and thanks, Father, knowing that You are faithful.

Speak Your Word to our hearts today. Lord, at the last moment going in a different direction just feeling

led of You, even to help me relax a little bit, dear God. Sometimes we go into some Things kind of, so deep that the intensity of It continually, oh God, it seems that the human mind and the human spirit sometimes have to be in an atmosphere where they could meditate, and digest, and get a hold, and regurgitate until these Things become Spirit and Life in everyone's heart that we can fellowship with these Things. But just something a little lighter and a different direction, Lord, how we ask that Your Holy Spirit... feeling kind of unprepared little bit to speak It, Lord, but stepping out by faith just to follow You, knowing You are faithful even in the desk, Lord, to give the unction and the utterance that, Lord, You could bring an understanding to our hearts. May You grant it, Father. We believe in You and we trust in You. We just want to do Your will, Father. We just want to be able to be a blessing to Your people.

Lord, expand our minds, our thinking a little bit, where we can really get into the supernatural realms of Your Spirit, where we can know that You are the omniscient, omnipotent, omnipresent God in our lives. You created all things, Father. All the Devil can do is pervert; and how You allowed Him to pervert but with boundaries, that even through these things, by a law of contrast, the darkness can only make the Light shine greater. You could only show the real, the positive from the negative, the original from the perversion so the Elect will not be confused.

May You bless each one, Father. Bless all Your people today. We ask it for the glory of God in the Name of Jesus Christ. Amen. Praise His wonderful Name.

We have a couple notes of thanks. Bro. Isaac and Sis. Michelle John would like to thank the Lord for the safe delivery of a baby girl this morning. Amen. Praise His wonderful Name. She went in [to the hospital -Ed.], I think Wednesday or Thursday; Thursday night I believe, and just had it this morning. Sometimes labor could cause

distress and pain and agony, but then it brings joy. Amen. Maybe more joy sometimes when it's a man child, but it brings good joy when it's a girl child too because we live in a Day when the man is in Bride form. So, we don't just see natural. This is the Day the woman is elevated. Man tried to elevate, but the Queen of Heaven is being raised up, restored to Her rightful position, and He'll do the greater works through Her in Bride form. That is the promise.

Bro. Kibwe and Sis. Dina Dick would like to thank the Lord for the safe delivery of a baby girl on Friday. Amen. So, God bless them. More girls; that is prophecy too, in the Bible. This is the day when there are more women than men. You know that. So, we can't help that; churches everywhere; sometimes more than preachers too. But by God, we are grateful to be here, and God bless you; trust you feel good this morning and everybody is happy.

Turn around and greet each other and make everybody feel a little welcomed. You don't have to walk around too much, but just stretch forth and greet your brother and sister. Tell them God bless them. Amen.

I laid my eyes on Bro. Wesley. I had a few minutes to talk to him before service, Bro. Wesley Furlong. Bro. Wesley is one of the old patriarchs and I have not seen him for so long. He was out in Tucson, Arizona where a lot of his family is there, and his children, and he goes to spend time with them. It was so nice to see him in the house of God.

Our beloved Sis. Jean, she is still going through that pain. She can't sit for long but she's always there attentive, in the streaming of the service. So, we are grateful for that also.

When we think of the believers from Guyana to Toronto, all the assemblies of believers we call, Third Exodus Assembly, there is nobody in the Message before Bro. Wesley. He is the one that is the oldest in the Message. When the Message came in Trinidad

1967, he was walking in the Message from then. So he's way back and we are glad to have that even among us here. [Congregation applauds -Ed.] These kinds of things have to be where the original Word is if you understand spiritual things. You understand.

So God bless him. He's still standing, has his aches and pains and has reached this kind of age, but faith overcomes that. We are glad. Simeon, I don't think he may have reached quite where Simeon was yet, but he's kind of approaching there coming into the vicinity but Simeon, in that hour, had great expectations, expecting to see the Lord's Christ in the temple.

Do you understand that? You have to see Christ in the temple, inside this temple [Bro. Vin indicates the human body. -Ed.]. In that day, you will know I in you and you in Me. And not just, "Well, I know I have the Holy Ghost and I know I love God." No, no, no. The living manifested Word in oneness with Him. Amen. We're all looking to see Him in the temple. Glory be to God. Thank You, Jesus.

I want to read out of Hebrews Chapter 11, verse 31; start there. I would like to call it "**CHRIST, THE MYSTERY OF LIGHT AND SOUND**". When I'm thinking of Light, I'm thinking of lightning and thunder. Amen. You see God is Light (amen) and the first sound I believe—you know the saints have been in a little kind of a retreat and they're going into the study of sound and all these things. But the first sound in the universe was the Spoken Word of God because that broke the silence. The scientists call it the big bang. But it's when God began to speak, from Elohim when He had only thoughts, self-existing, everything set, but silence. Nothing was happening, nothing moved. There was nothing to move because God was there with His thoughts. But when everything was settled and it was time to speak (amen), and God spoke, that was the first sound. The first sound, the big bang, because out of

that Spoken Word came worlds, visible and invisible. Amen. What a great thing! Amen.

THE MYSTERY OF LIGHT AND SOUND and I want to kind of go into that mystery of sound and things that are happening in the world today, and to kind of realize how all these things are in the Bible.

You know, the other night, not to keep you long, but just to say this here while we're standing. Last week Sunday I preached; I was tired. I went until early in the morning and then I came and preached. I went in and then I got talking to some people, and saints there for so long. Then someone was with me when I was leaving and I was getting ready to—they kind of told me, "Now, go into your bed. You're already totally worn down." I got to find out—somebody came and told me. I think Bro. Junior or somebody came and told me they were having a meeting over there in Rebekah, so I said let me walk over and see.

Then I began to be cautioned: "Look, we are trying to advise you. Be careful. Do not go out there. When you go there, they will detain you. You will be going to your bed, at two o'clock in the morning."

So, I said, "No, I'm just going to look and see. If believers are there, I will just like to pass around."

I passed, I looked there. I stood up. I was listening and I started to get glued. When I realized I started to get glued, I wanted to get unglued. Same time the phone rang, so I kind of slipped out the door. I slipped out the door to answer the phone. While I'm getting ready to—I'm outside just by the door there, and Bro. Bishop [Bro. Wrenrick Bishop -Ed.] was coming because I was looking for him and I didn't see him.

I said, "Where were you? I was looking for you."

He said, "I was in the washroom. I was here all the time but I just went to the washroom."

So, I walked in behind him and I stood up there in the corner still, took up my position. They were talking about sound and this and that and you know. So, then

he turned around and he asked me a question, asked something and that fulfilled the prophecy of the daughters who were prophesying, telling me, you know. But I started to say something there about the lepers, how they were hoarding all of this, and they wanted to share. They realized, "We have all this; we should share it." You know the story in 2nd Kings about in the time of famine.

When this struck me later about some days after, I said, "Oh my God! I was there in the meeting where they were talking about sound, they asked me to say something, and the Spirit in talking went straight..." because I was conscious I was anointed that even after, I said: "Could I pray and close the meeting? Would I be permitted to?" Because I felt so anointed, I said "Well, it might be good if I prayed." So I asked them, so they gave me permission; they said I could pray. Because remember, I kind of barged in the meeting. I didn't barge in... I mean I didn't really go in to become part of the meeting. I was just standing on the fringe, taking a little look.

When I prayed; days after it came back, I said, "My goodness! This God we have to deal with is something else." Because right in the Scripture, I found something and that made me marvel. I started to think, well, how did that... Why did I use that Scripture there, that reference? And the only thing I could think of, they were talking about sound and the mystery of sound and different things for the ministry because they're all involved in sound and singing and all the different music and things. And here it is, right in there had something and I said, "Well, that is how God is."

I walked in there because I have the components from in my tabernacle. I am wired for certain things (you see?) to pick up certain things. So it will be interpreted in me a certain way. It will be interpreted in a singer as singing. It will be interpreted in a musician as music.

It will be interpreted in me as something to preach. Do you understand what I am saying?

So when I go there, (boom!) It strikes in the Bible. Now, I'm talking about that there, without the consciousness. And this is the thing: *atmosphere*. You get around—now remember, while they are talking they're in a channel. They're talking in a certain... it's like if businessmen sit and talk about markets and the stocks and the stock exchange, they're businessmen; that is normal. If farmers are talking about the rain, things are hard these days, and the kind of fertilizers and, they need seeds, and the crop. That is normal for them to talk so they're in the channel. Words are spirits. They are all tuned in because they gather for that. That is birds of a feather that were flocking together there and they're talking in a certain atmosphere. Do you see? And so, it makes you sensitive to spiritual things.

It's a way to walk in your life and believe, to be aware of how God is, and there are laws in the universe and everything moves. That is why faith is a great thing. Faith is not a kind of 'voops' [wild shot -Ed.], you know, like Twenty20 cricket, where you just try to lose the ball. No. There are laws, there are techniques, there are principles because faith must be based on the Word. Faith must be a revelation of the will of God. Faith doesn't work with things outside the will of God because faith is a revelation of the will of God, and the will of God is the Word of God. Do you understand? That is why you could be fearless when you have faith. Do you see? That is why you are victorious when you have faith.

You see faith is not a feeling. Faith produces a feeling because when this comes to you, it affects the emotions and it affects everything inside of you. You feel charged! Do you understand? But what is making you feel charged? It is not emotion making you feel charged. It is faith making you feel charged. That's why when faith

says, “Shut up!” reasoning, imagination, everything shuts up.

So faith, and that is what it takes to please God in this Hour.

So let’s read Hebrews 11:30, one verse here.

*³⁰ By faith the walls of Jericho fell down,
after they were compassed about seven
days.*

The Bible tells us it was by faith the wall fell down. What does it mean? Well, faith comes by hearing the Word. They didn’t just go out there and walk around for seven days. Their Captain brought a Word down to them. Their Captain told them I have given you the city already, but you do this. In other words, they heard something from God; they heard God’s Word. They believed It and they acted upon It with the obedience and the precision that was required and they carried it out with exactness. And what God said was going to happen, happened. Do you understand?

They didn’t understand maybe the science, but God Who made the science and the laws of science, God knew this what I am telling you here will bring that wall down; you just do it. You are on a need-to-know basis, you just do it. I am the Head here. You just carry it out. Do you get that?

When the Prophet was watching the Word and trying to change It around and saying, “Well, that is power God gave before the Atonement, no man could really do that.”

God said, “Stand to your feet. Let me give you a physical demonstration so it will shut up all this reasoning and imagination you want to go into.”

When he carried It out as God said It; he saw the Spoken Word create. Do you understand? Remember, every time it is God Who told him. He never did anything on his own: “Speak to the fish, speak to the storm, give Hattie what she wants, right now.” Do you see? “Stand and speak to the tumor on your wife.

Speak for the squirrel.” It was the sovereignty of God. He was hearing, he believed It, and he carried It out.

He said, “God challenged me, and I took the challenge.”

He dropped his reasoning and he started to walk with God in what God said to do. Like when God told Peter, “Come out of the boat!” It’s like he had never walked on water yet but he dropped his reasoning. The rest stayed in the boat but he stepped out of the boat and started to walk. That was faith. You see, that is faith but it starts with you hearing the Word from the Word.

*³⁰ By faith the walls of Jericho fell down,
after they were compassed about seven
days.*

Joshua Chapter 6. Now we’re going to look and see what God told them. We see their faith expressed, but now we’re going to see God’s intelligence being imparted to them. God wanted to demonstrate the power that can be unleashed by sound. What was the first Word spoken? ‘Let there be Light’ that we have in the Bible of God speaking. God created by His Spoken Word, so that means there is power in the Spoken Word. When the Prophet spoke into existence in this Day, we saw the power of the Spoken Word. [Joshua 6:1 –Ed.]

*¹ Now Jericho was straitly shut up
because of the children of Israel: none went
out, and none came in.*

*² And the LORD said unto Joshua, See, I
have given into thine hand Jericho, and the
king thereof, and the mighty men of valour.*

Before God gave the instruction, God said, “I already give you the city; I give it to you.” You know how they had crossed over, right? We went through all those things in the *Ephesians series*, just at the end of last year. In Gilgal, they kept the Passover, God changed the diet, the Captain came down. Is that right? They circumcised the church and now when God took the

headship, then the first thing He told them here, “I give you the city.”

Jericho wasn't just a normal city. I think in that series I mentioned to you how they built Jericho. That is why the people had such confidence in their security and they were watching Israel and they felt that “We are an impregnable fortress; nobody can come through here.” It was so high that they didn't even contemplate trying to scale that wall. God had to come down to reveal how that city will be taken.

Now, remember that is the Ephesians. Remember that is the opening of the Seals and you, coming into your inheritance, and the Captain, the mighty Angel came down with the drawn Sword, the revealed Word. Understand that's how I'm talking. I can't make every statement and explain, because all of this series we have gone through. So I'm just might make a statement here and there to show you, but follow the thoughts.

² And the Lord said unto Joshua, See, I have given into thine hand Jericho, and the king thereof, and the mighty men of valour.

God did not tell that to the whole church. God told Joshua that. You see sometimes a minister has to walk with a congregation. That is why God told Joshua, “This day I will magnify you in the sight of the people.” [Joshua 3:7 -Ed.] If God didn't magnify him in the sight of the people, they could not believe that the same Spirit that was with Moses was with him. That is what God has to do with ministries in this Hour, in the Ephesians; otherwise, people could never come into their inheritance. They sit there, all of them skeptical and each one trying to do their own thing, and trying to go in their own way, and they are not coming God's provided way.

Remember this is a restoration. Remember this is a pattern of the exodus. Remember this is redemption out of and into. Remember I have been teaching you, it doesn't matter what revelation you have, it must come

back to redemption. The Book is a Book of redemption. It's Seven Seals on a Book of redemption and it's a redeemed people! Amen. These are keys. When you miss this, you can't put the picture together. You're going to go haywire asking all kinds of strange questions, having all kinds of strange understandings. It must be redemption.

The entire Bible is the expression of one goal and one purpose, even this part of It right here. It's part of the plan for the last days, how the hand came down by vision, went down through Joshua. Is that right? The Ephesians parallels Joshua, the Ephesians at the end of the Ages. He came back from beyond the curtain of time, went straight to the Book of Ephesians. We went through all these Things, so keep this in your mind.

³ And ye shall...

Now He's giving him how the city is given and will be taken.

³ And ye shall compass the city, ...

It's the same way God gives you healing. All your healing is given already but when you get instruction, you have to carry it out. This is the thing with people, they say, "Well, I am trying. Bro. Vin said that, but this sister told me something else." And the sister carries them off in another direction. Then they go now and they get a thing from a nurse or a doctor, which is fine, we all do that. But when you are leaving the Word of God for that, you're on your own. You just left God because God is that Word.

See, it matters not the profession. What you are doing there, you are exalting somebody else's knowledge above God's Word, but you do not see it's that you are doing because you're taken up with your condition. So God can't be glorified in that at all. You decided to work it out your own way, on a human level with other human beings, and you dropped down from faith to sight. Remember, it is realms, living in a world of Perfect Faith, knowing you are part of the Word. When

you are walking that way, you forget that you are part of the Word, you know.

Remember Bro. Branham and his wife? “Meda, Margie is not our God,” because Margie was the nurse and Margie was her friend. So, she was only on what Margie said, and Margie could tell her what the doctor that she was working with said, and a patient came in, and different things. That is good too, but he knows it’s a test in the family. He knows his earthly journey, going on to his eternal destination, he knows it’s a preplanned life so he’s trying to pull her back here. He knows earth is the testing ground. Do you understand? When you drop out of that, you’re in the humanistic realm.

³ And ye shall compass the city, all ye men of war, and go round about the city once. Thus shalt thou do six days.

Could you imagine what went through Joshua’s mind when he heard that first thing? First, he heard, “I give you the city,” and he’s waiting now for the battle plans. He started to get the battle plans. It’s like what on earth this has to do with taking this city? The instruction doesn’t seem logical to the human mind.

⁴ And seven priests shall bear before the ark seven trumpets of rams’ horns:...

Not the two silver trumpets. The two silver trumpets blow for an alarm in case of a war, feast and different things; but God changed that here. He said, “Rams’ horns.” Specific! Now when God... like the Prophet said, “God told Moses, take off your shoe.” He didn’t say, “Take off your hat,” you know.

And Moses didn’t say, “Well, I guess I could keep on my shoe; I will take off my hat.”

No. He said, “What God tells you, you do.”

“Go wash in the Jordan, seven times.”

“Well, the rivers of Abana and Pharpar are closer to my home.”

“No, no, no. Jordan, seven times,” the instruction.

...ye shall compass the city seven times, and the priests shall blow with the trumpets

⁴ And seven priests shall bear before the ark seven trumpets of rams' horns: and the seventh day ye shall compass the city seven times, and the priests shall blow with the trumpets.

He already did the math there, thirteen times: one for six days and seven; that is thirteen. The human mind already started to say, "But seven days, why He didn't say, you know, do it two times for six days and the last day we do it once?" See, a next mathematician, but God doesn't want his mathematics mixed up with God's mathematics. Why? Because God is on something. The God Who created the universe is on something. His thoughts are on a next level.

Now, that is what human beings do. He's working with laws of the universe, but the human mind is trying to bring God down to their human thinking and not realizing the One Who came there is the One Who created the universe and created them. And He is not just to give them the land; He is to show the gods of all those nations that He is the true and Living God because He just did that to the children of Egypt. He did that to the Egyptians. He said, "I will execute My judgment against the gods of Egypt."

And when they did all those different things and the priests blessed them now and they went and took the slaves back, He told Moses, "You camp here because Pharaoh is going to think you leave yourself no retreat."

Moses, a General, looked and said, "How am I camping here? The Red Sea is before me, mountains are on both sides of me, the Egyptians are in the back of me, and you want me to camp there? That is not a good place to camp when you are fighting a war!"

If you are fighting a war in your strength, that is not a good place to fight a war, but the God Who is fighting the war already sees, "It's I opening the Red Sea and

drowning the whole army in one.” But he can’t think: “Open the Red Sea,” because that’s a Divine Power in operation. That is the God Who created the water could speak to the water. Just like He said, “Peace, be still” and the big waves became calm, so He could say, “Open” and they opened and walled up because He was controlling gravity, everything. The same God Who made that water cling on to the earth, that same God makes that water stand up straight too. Do you understand? But God wants to reveal Himself.

Verse 5:

⁵ And it shall come to pass, that when they make a long blast with the ram’s horn,

Now, we just get... Here is not giving us all the details. Here is just giving us an account of a conversation because normally, it’s like he would say, “Well, how long is long? How long a blast? And a blast, what note are we making that blast in?” Do you understand what I am saying? Because a trumpet has notes and the men who are blowing it, the kind of blast you want, it might take... we might only have five or seven men in the camp who could blow that note. Are you getting where we are going now?

His focus is on the wall. His weapon is sound. He is going to move the wall by sound. Well, Jericho doesn’t know anything... well, they had known that from one side but they don’t know the One Who made the laws for those things. You see those laws were known in the world. The pyramid that you could go to Egypt and see was there before the flood. I wonder if that is making sense to you. And in the type of civilization for the last hundred and something years to this present time, they can’t understand how those stones could fit there and go to that height. How did they carry them up there?

The normal man can’t conceptualize that because when they read, they can’t believe man used to live nine hundred years before the flood. They used to levitate those stones. They used to cut that stone with such

precision and raise that stone up; levitate those stones. Well, when they build that, that's a big structure; that's a powerful structure. They build that for security and safety. They build that for protection. They build that as a defence in a hostile environment with hostile nations.

I have to get you off your feet, so let me finish reading quickly because I want to show you everything that existed there, exists here. If you remember my message is 1989 from *Smoke Signals To Satellite Signals*, from the runner running with the message to message here at the speed of light in the Age that we are living in. That evolved to here. And my message on warfare, when they hurled the stone with the catapult, now it's Intercontinental Ballistic Missiles [ICBMs -Ed.], the same thing. And when they put the fire on the arrow's head, it is really now a warhead to burn cities, when they used to burn a building. Because the bow is a launching system; the arrow is a weapon, and the fire is a warhead that could burn. Well, that is the same principle today.

They are planning to go to Mars, the same way you drive to come here because when you leave home, you are coming to a destination. You know your destination and you have to take a specific route to reach here. You have to look in your tank and know you have enough gas and know your car could make this journey. If it's certain times of the year, traffic could pile up in certain places, you have to know alternative routes to get on time. Because if you don't get here on time and you arrive when the service is over, it's not good for you because you're coming with objective and purpose.

The same way you do that in your normal, little earthly trip as I explained for you from point A to point B, well, you are coming through a road and that is to give you access. They fly in the air through space. That is a flight path, a certain altitude; certain longitude and latitude on a ship if you are sailing and these things to

get to your destination, no matter what form of transport. Do you understand?

Okay, praise the Lord. You are doing good. I think this will help the school students here too. You see, their teacher teaches but when you apply your teaching that is a different thing.

You see, we are trying to bring this in an applicable way to show you're living in those laws, and we can live in those laws if we are not living in those laws. That determines victory or defeat: where you live, how you live, what consciousness you are living in.

Verse 5:

⁵ And it shall come to pass, that when they make a long blast with the ram's horn, and when ye hear the sound of the trumpet, all the people shall shout with a great shout; and the wall of the city...

This is God giving the instructions to Joshua.

...and the wall of the city shall fall down flat,
[See?]

⁵ And it shall come to pass, that when they make a long blast with the ram's horn, and when ye hear the sound of the trumpet, all the people shall shout with a great shout; and the wall of the city shall fall down flat...

Now, there are all kinds of shouts; again. People in a stadium seeing a man score a goal, they could shout. That is why I read Hebrews first – by faith. They followed a principle of the revealed Word. Those people going around there were going around now in accordance and in harmony with the Word revealed to them to bring the desired result. They're conscious that is what they're doing.

That's why a person says, "Well, I am now getting warmed up."

He says, "No, you have to stop now. Time, we get everybody, because it's once a day."

Everybody has to go, and the thing is you have to go in silence. Nobody says a word. They are moving in harmony with a Divine plan. They are functioning with a law that they don't fully understand but they understand *that* God because *that* God was bringing water out a rock for two and a half million, in the wilderness; that God was raining down food every day; that God was fighting their battles.

Why did Moses have to fight the battle and they had to hold the hand up? What did that have to do with a battle? Why did he choose the men, Aaron and Hur, to do it? Why when Moses' hand got tired, he couldn't say, "Well, my hand is tired, take a pause"? They started to lose the battle when the hand was going down. They innovated; they put two rocks so it stays up because they were getting tired too trying to hold it up. Why? God had already taught them by Mount Sinai when they saw the pattern of Heaven, they were moving according to a Divine order because that God was dwelling among them. Are you understanding?

Why did God go through Jordan and open the Jordan River, wall up the water, the same way He opened the other river? So the new generation was having the same experience the old generation had because it was the same God, the same yesterday and today and forever. Do you want to just sit and talk about how great the Prophet was and you don't want to see that same God here, and you are the new generation that is going in, and when you are instructed, you can't stay in alignment with the Word? Now you have to... if you conceptualize the Church as a Trinidad thing, well nothing can happen.

That is why you have to start off... that new generation knew that same God is here! That same generation knew the work that started, we came 'out of' but now we have to come 'into'. The prophet has gone off the scene, but we're coming into our inheritance now. We weren't circumcised. We were under the

prophet's message all through the wilderness and we were not circumcised. We are telling all kinds of stories about the prophet. Our fathers and they were telling us stories about the prophet, our mother and they, but we are uncircumcised." Before they started to possess one inch of ground, they had to be circumcised.

May the Lord bless the reading of His Word. You may have your seat.

Continue to read. So let's continue here as we look at this.

...and the wall of the city... [the last part of verse 5]

...and the wall of the city shall fall down flat, and the people shall ascend up every man straight, [straight, straight,] before him.

When the wall falls down, don't get in the excitement and carried away, and you go running that way and this one... No, straight, even when the wall falls down (geometry).

There are certain things that stimulate my thinking and sometimes, I feel I am a general in an army. Sometimes I feel I am an architect building a house. Sometimes I feel I am a surgeon cutting things out of the Body that is affecting the Body to cause the Body to function with greater health from parasites that want to come on the Body and weaken the Body.

That's how God made me up; I can't help it. When I was in the world, I knew life is not to eat and drink, and wear clothes, and build a house, and drive a car. That is why I was searching for God. I did not want society. That is why we were planning to go and to live ... and I feel kind of caged up still.

I'm going through a great thing in my life at this present time where I feel I need to restructure how I live and what I do, and a lot of things, only because daily I am becoming more obsessed and more possessed with these Things. These last few weeks you can't imagine the Things God revealed to me. I was going to come and

preach not even this, this morning. This is a side something I was getting off of other Things and that's why I feel unprepared because I walked out here at the last minute, I feel, "Oh gosh! Mentally, I'm not feeling to go and start to climb into that realm again this morning," because for me, day and night, I'm in some of these Things and then... The preaching is not the thing that wears me down so much, you know; it is the studying. Because when the mind breaks into a certain place, I can't run with things, I have to search it out to make it mine and search it out to the last detail.

My conviction always is, if I stand to say something, I must have some conviction about what I'm saying and not just saying it from here. [Bro. Vin indicates the head -Ed.] I must have some revelation of what I am saying because if I just say It, and can't say how to apply It, It's of no value. If I am giving you something to live by, I must show you how It must benefit you so you could desire It.

That's why people do not desire the deeper Things of God, you know, because they're just content living there. Church, in their mind, because they think institutionally: "Well, we have enough church for the week already, three days."

I don't think 'church, three days', I think when you become a Christian it's twenty-four seven, whether you're in church, you're out of church, whether you're on the bus. Because to me, I see God when He comes down all the time; you are talking to somebody by the road, you are talking to somebody in the pulpit in church; you are talking to somebody outside, in the yard; you are out there with two people, I see the Spirit comes down and breaks and opens Things, and I bring those Things back into the pulpit to preach. Those Things send me searching in the Word.

So, when I see I am having that over and over, I realize God is not an institution person. Do you understand? Because I wanted relationship more than knowledge of

things. I wanted knowledge to bring me in relationship, and if we are talking about Super Race, I don't take that lightly as a slogan. I must start to see that I understand the laws that will operate the Supernatural. When I understand *Key To The Door and Immortality*, coming to immortality in this Hour, and Scripture is put there, I know Light has to come on the Scripture because that's Material that spiritual scientists must find the Material first before they could come into the achievement that the Material was given to bring them to the achievement.

If God knows there was going to be a Motor car Age, and an Aeroplane Age, and an Information Age, He had to have things that could carry voice and image. He had to have the material in the earth for you to make a motor car to advance transportation. He has to have laws of flying and the laws of physics and all these different things if you are leaving the ground to move into a next realm. Do you understand? It is men who discovered things through their research.

How did the Prophet come into the Spoken Word? The door was shut to him, but he was trying to go through that door and couldn't go through that door. So he tried to go through a window and God blocked him.

He said, "No! You are interpreting the Scripture wrong. That Scripture is true as all other Scriptures."

That's why he preached *God Is His Own Interpreter* [1964-0205 -Ed.] and the Word is of no private interpretation, and God interprets His Word by bringing it to pass! That's why he could preach *The Key To The Door* [1962-1007 -Ed.] because he knows there is an approach. The right attitude of approach is what brings the results. He knows there are laws of healing you have to understand. Man doesn't have the power to heal in their hand. He knows it's faith. Gifts never healed anybody. Gifts only stimulate faith in a finished work!

Now, the thing is, what I noticed, all these things are preached and laid out in such a specific way, but people, because their minds do not think on that level, they think more for the church, on the church level. But the same way there are laws of eating and drinking that you observe in your own life, and you get addicted. Some of you were never addicted to drugs, but some of you get addicted to food, and you have a food problem the same way somebody has a drug problem. Then you start to fight your food problem through rehabilitation by using diet formulas.

Now, you see how I explained it there, that is a kind of different explanation but that is a true fact. You don't study why you like food or are tempted by food so much because most of the time, you are not really hungry but you see it, and it's something you like. Look where I have gone already. You see, when this Spirit is here, you just pick up one word and that is it, you know.

You see that with the eye. The eye sends a message into the sub-conscience there; it comes through the eye, which is the gate to the soul. Then, when you get down there, the next thing now, that starts to stir your emotions. You find your mouth starts to water. You just finished eating but a long time you haven't eaten that and you like that, and it's available, and you don't know when you're going to get it again, so you want to try a piece of it. Now, you're exceeding the feed limit, so the feed police will charge you and you will suffer a penalty for breaking the feed law.

You see, when people violate the traffic law and they exceed the speed limit... see, it has the speed limit and the feed limit you know. On the highway, you are supposed to go at a certain speed, but you want to go faster and you start to violate certain principles. When you start to do this now, you're going into another realm because of that eye and the emotion to eat, because that emotion now gets moved. Food gets some people

emotional, but they don't describe that as emotion. In other words, it excites them and they start to covet it.

Didn't Esau get excited when he saw and smelled? Didn't he covet it? Didn't he covet it so much where he couldn't control it, he gave up the birthright for it? Do you see? You see, you read the Scripture but you're not going into the law of the human being. That is why when you are on religion, you just pick up that on a religious level, Elect and non-elect. You call that man an Esau and this time, you are manifesting more of Esau's characteristics than the man you are calling Esau.

A lot of people are chasing a lot of things in the world. The world is the field. They are going after a lot of trophies that they are sacrificing time with God to go after those trophies in the field because they are not really convinced, it's God who gives you things. The things that God gives you in your life is to help you to come closer to Him and get you ready for the Coming of the Lord, to bring you to live in the place where you need to be walking with Him.

Now, what causes that? People are not conscious of their purpose in life. When they think of Heaven, going to Heaven, they are still thinking 'long time' [in the past - Ed.]. Heaven has changed in understanding. Our understanding of Heaven has changed in this Day. He said, "Heaven is not the place my mother used to tell me about. Heaven is a place where you're going to work and do things." You're going to live and work. The things that are seen are made to be understood by the things that are not seen.

This is a Science civilization (I thought I was going to preach on that this morning) and that is a Faith civilization. This is a temporal world. That's an eternal World. This is a negative world; that's a positive World. You have a body for this world and you have a body for that World.

Here you want to see outside there, you get a Hubble telescope to see the edge of space. There, you could look back here into this world without a telescope because the sight is not exactly like the eyes that you have on earth, it's not that kind of sight. But when we know 'seeing', we only know one kind of seeing. Well, they put you next to a dog or a cat, they have night vision you don't have.

When you watch balance; that dog runs like this [Bro. Vin demonstrates -Ed.] without a torchlight on a train line, one piece of train line, and he is not dropping off. He is not looking down and trying to balance like this. Why didn't God give you that if you are higher than the dog? Because on earth God limited your sight because you're not built to live by sight. They are built to live by sight. You are built to live by faith. You are built for a Faith civilization. You are built to live by another law. Then that was necessary for you to be tempted and tested because where you can't see, now imagination will come into play, now feelings come into play so you could be tempted. That's what's coming in my message here too this morning to show you.

Wednesday night, I preached on *We Are Fearfully And Wonderfully Made* [2014-0326 -Ed.]. What does it mean – *Fearfully*? And is it 'wonderfully'? Now you talk to the man who is dealing with the human anatomy, when he says you are fearfully and wonderfully made, the first thing he is thinking of is your body, you know, and he can see the powers in the body. He can see the design in the body. He can see the nervous system, the circulatory system, the respiratory system; he can see all the different systems in the human body. He could see how the ears, nose, and mouth are connected together and all the different things; he can see this.

When he starts to carry you in the spirit realm now: reasoning, and conscience, and memory, and affection; when he starts to carry you in the realm where you dream, not with your body and love, not with your body,

what controls that. And what kind of spirit is in the body will determine what kind of fruit will come out of the body, whether is love or joy, or peace, or anger and malice and envy and jealousy; what kind of spirit is inside of there. And what kind of soul is inside of there, is that soul one that could contact God? Is that soul wired to receive transmission from God? See? So when we get there now, in that realm of our life, you start to realize we are going to Heaven, friends, and we don't even understand our life on earth fully.

When we start to conceive Heaven... that is why messages were preached in this Day, through a Prophet to show us where this world and the earth comes from, how it was a Faith civilization first, then it fell into an Agriculture civilization, then into a Science civilization—Industrial, then we come into Information and all these make up the Science civilization. The Bible put those seeds there and then takes you straight to the Atomic Age, the Nuclear Age, when they could have shot those satellites up and built pyramids and all those kinds of different things, that man could levitate those stones and had these powers.

When they did those things, the earth is what shifted it off its axis and brought the flood, because man discovered that. This Day, the same thing is going to go back because when man starts to discover these things, they think they have more knowledge than the Creator and God has to humble them. That's why He made their wisdom, foolishness. This thing about Jericho here, God was making their wisdom foolishness. God used that method to humiliate them.

Now, this is my point I'm coming to behind that. It was God confounding the wise because man built that. Remember, a city is not a house, you know. A city is not a bathroom, you know. Man doesn't build this where they built it, because when you understand the Book of Joshua, in the sense of some of the land, the geography of the land (why did Joshua fight the first

battle at Jericho), you have to go back into the campaigns of Joshua where they gave all the roster of the cities and see.

Now, the human, normal, layperson wouldn't get anything. That wouldn't even attract them; a military person will watch a man fighting a war in a region. That is why the Israelis and they today, they still are in the same land fighting the same enemies. And they are using the same methods that God used with them and gave them great victories because they are still the nation who was scattered from the land and brought back into the land in the last days. When you read about Israel coming out of Egypt going back in the Promised Land, that is a type of the last days again. They had come back to their homeland. They were in that land when Abraham, Isaac and Jacob and they were in the land. They were in them. It was an hour of restoration.

So, this here now, these people had made a journey from seeing a man unleash a power in Egypt to call flies, call locusts; bring darkness on the land. They experienced seeing a man throw a rod and it turned into a snake, ate up the next rod, and the next rod disappeared inside this man's rod. They were watching a prophet who was given two signs to confirm his commission, who was sent for their deliverance, who was going to raise up this people to know the supernatural God.

That is the first exodus. What is the second? What is the third? Which one was the pattern for the others? The Word has layers. You can just see Moses, denomination, coming out to the Message, and in another realm you could see God in a prophetic office, awakening a people to His supernatural powers and ways.

After all those signs came, Moses didn't smite any rock to bring water in Egypt, you know. Egypt had its miracles. The wilderness had its miracles. In Canaan

had its miracles. Are you catching that? What is God doing? Making Himself known to His people and each stage of their journey is a type of our earthly journey.

Watch something. Abraham, when he started, he had experience with Melchizedek. Is that right? Then he had an experience with El Shadai. Is that right? Then he had experience with Elohim, God in flesh now, discerning the heart; His back turned to the tent. Then he had experience with Jehovah-Jireh. Watch the Father come in one man; different stages of the journey, different miracles.

Watch the prophet: a vision from eighteen months – no revelation of the Scripture yet. Prophecy – “You are going to have a Message” – no revelation of the Scripture yet. Then in the cave, “I give you signs. Go forth and start ...” no Spoken Word yet; different stages; the same God. There are different layers in the Word. The same Word has dimensions to It.

That’s why you can’t approach the Word just with the human mind. And this is the problem: sometimes we take up the Word, we do this [Bro. Vin imitates searching in a book –Ed.] and run to a concordance; we do this, and we take that and maybe think that is right. We jump out there and fail to realize: “No, what did the Prophet say on this? What did the Word say about this? What is the revelation on this? How does it fit into redemption? What is the plan? How is this to be applied?”

It’s not just to say something because, in the end, it must bring faith. It must make us know our position. It must make us know how to operate in the Word. It is to bring us into a relationship with this God. This is the objective. It’s not like you are in a classroom and, “Boy, that teacher is teaching some deep things. Ooh, I like the class.” Then, you walk outside and you can’t retain it, and you are not applying it. You are not interested in making it yours. You have to get a little more serious because Life, all of This is Life. [Bro. Vin points to the Bible –Ed.]

Me, I want to know God, and the Book is opened, and now He's unveiled. When the Book was opened, we found out we were just like them, born in bondage in Egypt. Then we saw a prophet, then we came and got baptized, we are getting sanctified, we are coming through, we get the New Birth, we get circumcised, we are under leadership. And we begin to find out, no, this is not just stories in the Bible; these are things written for our example, so your life now is moving in a path.

Get a desire to know this God because His desire is, He wants to make Himself known to you. Now, hear what the Word says: No man knows the Father save the Son who was in the bosom of the Father and whom He will reveal Him to. And no man knows the Son saved the Father and whom He reveals Him to. [Matthew 11:27 -Ed.] Because that Father, that great Spirit, changed His form and came down to make a way that He could come and live inside of us, share that Life and start our redemption. That was the thing on the 'condescension and ascension' because He condescended by definite stages: Spirit, Word, flesh. You are ascending by definite ways: New Birth, Word image, Word body, and glorification. So it means to say all your experiences have to be unto an end to identify you've reached that stage.

We have two births here today. Two sisters in the assembly, both of them made their girls. Well, there was a time when they got their pregnancy tests and they knew they were pregnant, after a month. Then they had an embryo, then they had a fetus, then they gave birth. And now, we get the announcement; we know the gender of the child and everything but at different stages, they were eating different things and they were going through different things. At one stage, they were not getting any movement; at another stage they were getting movement. At one stage, they were not getting any contraction; at another stage, they are getting

contractions. All these things are telling them how they are progressing.

When the doctor goes, the doctor knows the conception date; he knows it is nine months for it to form before you give birth. And he knows what should be the activity and how to monitor that the growth is going well, and the heart rate; everything is moving, and everything is progressing fine in that world of the mother's womb while it's in its course on to its destination in this world. That was the attribute of the Father in the journey.

I love This more than money. I love This more than women and men and fame. I love This more than food. I love This more than earthly possessions. I live for This. I live for This and I am conscious if we desire It, God is giving It to us.

You see, God looks and sees what desire you have for a certain thing. God measures your desire. That's why the Prophet preached *Thirst* [1965-0919 -Ed.]. He said, "Thirst means *a painful desire*." Some people have a desire but it is not painful. That is more like a little lust or something, an infatuation; a captivation of the mind or something. But when that thing starts to get intense on the inside, as David said when he got so intense to find a place for the ark, he said, "I will not bring sleep to my eyes. I will not lay in my bed until I seek out and find a place for the ark of God." [Psalms 132:4-5 -Ed.] Why? While Saul for forty years never thought that one thought, David knew, "To have God's Presence in our midst, that's it."

When we have Him close, we have access, we have leadership, we have providence, we have foreknowledge; we have everything – prophecy, (see?) foreknowledge. We have everything we need: we have omnipotence, we have omniscience if we have God. Now that is where God calls us to walk, you know. Now, we love the assembling times but God didn't just call us for the assembling times. God called us to walk with Him, to

relate to Him, to get close with Him, to get filled with Him, to grow in the love for Him.

That's why you want to love God and you find you can't love God as you should. Then you are wondering, "But like I don't really love God! I know I should love Him but I feel I'm not loving Him." Now, that is normal. Any young man and young girl could tell you that; they see somebody they kind of like, but they don't really love. They see another one they love and they realize, "Why do I love that one more than this one?" There is something there. They know certain things, maybe, about this one that it brings a confidence. They like this one but they are not sure this one really likes them. Do you understand?

Now, that's why when you deprive yourself of the opportunity He gave to you, to know Him and know Him better and you don't really want to walk *that* close with Him, then you find you don't really have the measure of love for Him that you should have.

You kind of respect Him. There are people who you respect, but you don't really love them deeply. You respect a traffic light also. You respect a policeman standing with a uniform next to that traffic light, and that is more fear than respect, in that case. You don't want to pay a fine. You don't want to come into conflict with the law. Do you get what I am saying?

It is sad when we are talking about a Rapture and you see the level where some people are living, and the things that influence their lives. It tells me what they are getting raptured in because right now, they are caught up already in a lot of other things that are earthbound. To be raptured, you have to get caught up in a heavenly something but most of them already got raptured in something of this world. But I'm not of this world; I come from Another World, a parallel universe. I was born to be an End-time sign.

Why am I like this? Do you know why I am like this? I believe this Word. Do you know why I am so? God

didn't just bring me to the Word and somebody talked to me about the Word, you know. We were hungering. We were thirsting. We looked like zombies, almost. It was like, "What is the matter with you all? Why are you not content with life? Look, a nice girl who likes you over there." That didn't interest you. You realize, "This thirst here, there is no girl that could come in here. I am looking for God! Who am I? Where did I come from?"

When that comes and you get a hold of Him, and you start to enjoy some of the sweet Things that bring satisfaction to the soul, and you realize, "Only Jesus could satisfy my soul."

You see, I am talking to you before I get here. If I go to climb this staircase and you are down here, I'll be preaching to myself and I didn't really come this morning to preach to myself; because I took the lighter thing to preach because I want to relax myself a little bit too. Do you see?

The thing is, it's like, look and see in your life. Do some self-searching this morning because all of this is available. It's not beyond your reach. You have put yourself beyond the reach. You have put a block in your mind by allowing Satan to come in and give you an obsession with some earthly thing and that is bringing a kind of false peace and false joy because that blocks you from trying out the realities of God!

So let's move on a little bit here. So, from verse 2 when God begins to speak to Joshua, to verse 5 that we read, when He told them now, "You're going to go around one time for six days, seven times... and then let the priests go before you with the seven trumpets of rams' horns and compass the city, thirteen times in all: six times for the first six days, once a day, and then seven times on the seventh day. Now, that has mathematics in there. It has sound in there. It has geometry in there, *compass* the city

What is God doing? Then there are different types of... there is silence and then after thirteen days of silence—twelve days, I should say; seven days rather, seven days of silence; at the evening time when you make the last round there, it's going to come with such a magnitude of sound from the rams' horns, from the long blast, from the shout of the people. But Joshua is the one saying, "No man shouts until I..." It's almost like a conductor and a symphony but it is really military warfare. The objective is the wall shall fall flat; a stone wall shall be moved, moved and shaken at its foundation and fall flat. "We're going to do that by mathematics, by geometry, by sound waves. We're going to move big massive stone blocks out of their place."

Now, remember what I told you about the pyramids.
Joshua 6:6:

⁶ And Joshua the son of Nun called the priests, and said unto them, Take up the ark of the covenant...

Now, this is Joshua now. God talked to Joshua and Joshua is now talking to his church, and he's bringing them into the Ephesians into their inheritance, into their placing.

⁶ And Joshua the son of Nun called the priests, and said unto them, Take up the ark of the covenant, and let seven priests bear seven trumpets of rams' horn before the ark of the LORD.

⁷ And he said unto the people, Pass on, and compass the city, and let him that is armed pass on before the ark of the LORD.

⁸ And it came to pass, when Joshua had spoken unto the people, that the seven priests bearing the seven trumpets of rams' horns passed on before the LORD, and blew with the trumpets: and the ark of the covenant of the LORD followed them.

⁹ And the armed men went before the priests that blew with the trumpets, and the rereward...

That is the one coming from behind.

...came after the ark.

They had some going before the ark and some coming after the ark. This is a special formation that is taking place. As I said, they started off in Egypt and they saw a prophet come and he started to do certain signs. Moses, maybe at that time, couldn't explain how a rod became a living serpent and how these other men made their rods turn into serpents too. They did, and Moses' rod swallowed up the two other serpents and Moses ended up with a three-serpent rod when he had a one-serpent rod.

Now watch. Do you believe a piece of wood could turn into a snake? I don't see any trouble in that. Hear why I don't see any trouble in that. Everything comes from the earth; that is earthly. Everything that comes from the earth is earthly and the earth is not just mud and dust. *Dust* is a word to describe collectively your whole body: *Dust* thou art. That is like a condensed word: *dust* thou art and to *dust* thou shall return. [Genesis 3:19 -Ed.] But when they break down your body, you have all kinds of calcium, you have different things, you have iron; you have all kinds of different things in your body. Something makes your hair; that is dust. Something made your tongue, that is different to your hair, but that is dust. Something made your eyeball. That is different to your tongue and hair, but that is dust. Something made your heart and your arteries, but that is dust. Do you see the kind of God we are dealing with? Do you see the kind of God we are dealing with?

Well, when we look there now, we see it was a chain of life. God started with botany life. What is the first life? Wood, botany life. What is the next stage of life? Marine life. What is the next stage of life? Bird life. Right? Now, first, you have the mineral kingdom is the

earth. Out of the mineral kingdom, the tree comes. Now how does the tree live? He's drawing up nutrients from the earth into himself. When you are going to plant something, why do you go and get Topsoil and different things and get a certain type of soil? Why don't you go and plant it on the rock?

Now, what you really want are good tomatoes, what you really want are good cucumbers, good sweet peppers, but you are looking for soil. They take soil and convert that. They take something and convert that and it throws out leaves and throws out different things, and fruits. Then you have the animals come now and eat that. The cow eats grass. As they tell you, "How does a black cow eat green grass and make white milk?" You just drink the milk.

Now you say, "Well, I want milk. I am going and start to eat grass. I want to eat the grass the cow eats (as a woman). I want to nurse my baby and I am not going to buy any milk in the supermarket, and my milk is kind of going down, so I'm going to start to eat the grass the cow eats."

Do you think she will make milk? No, she is constructed differently on the inside. She's not constructed like a cow, though a cow has its baby—its calf in nine months and she has her own too, and the cow nurses her young and she nurses her young too, but inside she is not constructed like a cow. She's not a cow. She's higher than a cow.

Now when the birds and the animals eat that, you eat the bird and the animals. You eat the beef; you go and buy a beef burger and you want lettuce and tomato inside of it. Isn't that right? So what drops from the mineral kingdom into the plant kingdom into the animal kingdom ends up inside of you. You are higher up the food chain; you are a human being, that when it comes up into you now, that is making blood, that is strengthening you and nourishing you and these

things. Do you understand what I am saying? And it's making you healthy.

So when you look now you see all of this: you are dust, the tree is dust, the cow is dust; the fish is dust. The whole chain of life is dust; it comes from dust. If you as the highest is terrestrial, we call it the *terrestrial*, it just means *earthly*, an earthly body you have. It comes with certain elements of the earth.

Now, this is where we realize, look, at the power of God. Do you know what kind of wisdom that is to bring that chain of life and these things coming up? Now you say, "I don't see what that has to do with me." And that is the inheritance, the earth, and you are from the earth and you don't know what that has to do with you? And all those parts of life are a shadow, a mystery of you? Do you understand what I am saying?

This is where when we come to the Word of God, you can't get in. It's just a theological something, why? Because your thinking now is constructed according to a Science civilization, how they programed you and made you think, so this seems out of way. But the whole world is bringing man—the whole plan of redemption is to bring man back in God's provided way. This civilization came when man went away from God and brought death and brought ignorance! Why do you think they wanted to go to Mars? Because they wanted to travel? They destroyed this world because they never understood how God laid it out and who they were, as part of it.

Now, why don't we think there? Do you know why? What they call education erased that program, and they loaded their education program, and they designed you to work in a factory to keep building this Eden, an Eden of death. And God now, the Mystery of God... the first Bible was what? Nature, the first Bible was nature!

Now, you think when we go to Heaven, we are going back to the King James Version or the Scofield, when you have an eye that could see further than the Hubble

in a celestial body? When you see what they see at the edge of space; he said, "One of these days they will find out, they are not really seeing all those millions of light-years. They are going around in a circle and do not even realize it." Now, where is he getting that from? When he went into that body and he could see with that eye, he said, "I was looking back here." He said, "Their sight is way, way, way beyond what we know as sight here." A dog and cat have better sight than us here.

I'm coming to sound, what we can't even hear. Have you ever watched a dog in your yard? This fellow is walking like this, all of a sudden he stops and you see those ears do like this [Bro. Vin makes a fluttering sound -Ed.]. He's hearing something. He turns this way and he turns that way and gets alert. Then he runs across there and he starts to use his nose to smell something.

I think, once I preached on the Samoan people when they went there in that part of the Pacific, and they went into new territory, they carried dogs with them because dogs could see in the night. There's danger out there, dogs could smell, dogs could move. They have, from nature, something like an alarm system and can find trouble. That dog could smell any different kinds of scents, different kinds of animals and detect them right there, even before you could see them. That dog can hear the movement of anything that tries to move with stealth and quietness. That dog could hear it.

Now, do you know what man does today? They take and they put a nice burglar-proof there; they put a nice camera there. Why do they do that? They want to see. They want to monitor activities that are dangerous to them. They are not walking in a certain place with God.

God help me to get to this CHRIST, THE MYSTERY OF LIGHT AND SOUND.

You say, "But is this the Message, Bro. Vin?"

If this is the Message? You are not hearing the Message I am saying all the time; everything I am quoting is the Message, so far. But this is not 'church

message'. It's a Message of a people that is coming, candidates for association, a people that is going to be changed and put on immortality; a people that is walking in a consciousness now, raised up under the Seventh Seal, where the Seventh Seal opens, brings the mind of Christ in, where you have an access and a Divine learning that comes, a Quickening Spirit, a Spirit that knows the Bible, the Spirit of Truth in the Bible.

I'm going to show you the military is using these same things. This is my purpose for reading it. They are using these same things. They know it has a power in sound that can move a whole wall, a massive, massive wall. A power in sound could do that. Isn't that something?

They want to discover that power. They know there's power, they lift that blocks up there to build that pyramid. They watched that pyramid and examined it. For hundreds of years, they thought it was a tomb and when man evolved and they started to come into the realm of mathematics and through space and satellites and different things and understanding the curvature of the earth and all these different things, then they started to understand that, that there was not a tomb.

We, who are from the Message know that that is the second Bible, Enoch who lived two hundred and forty-three years was contemporary with Adam, had the secrets of the universe. Why? Because the first man had the Title Deed that he forfeited to step down from an amateur God to come in a terrestrial body to bring his children by sex. Am I in the Bible? Am I in the Message? The Title Deed went back to God!

When that Title Deed came back down this Day, we had a man speaking into existence and creating by a Word and told you, that is more powerful than when Joshua stopped the sun; and when Moses brought flies and these things, nothing was there, even no dust or anything, just the Word. It was beyond when Jesus turned water into wine because it was potential, but

Jesus said, "Greater works than this, you will do." He said, "I, myself could not even understand greater." He said, "But then when that came, I understood this is like back in Genesis, 'Let there be.'" He said, "And when the Squeeze comes, we will have the Spoken Word."

What are we going to have? It takes awareness. It takes a living God. It takes a people in His Presence. It takes a people beholding that Glory. It takes a people who know they are heirs of these Things by revelation. They are the living descendants who the Book came back to because remember, that Title Deed is back here. If I ask you, "What is the Secret?"

"The Word is in the Bride, the Title Deed." Quotation – quotation is not revelation, friends. Quotation is not revelation. When the Title Deed is in you, then you have to be in the Title Deed. You have to find your picture in there. You have to find your name in there. You have to find what the Father says about the Family, you as a member of the Family, the Age you are living in, your promise, your anointing for this Age. You have to find the laws you are going to live by.

Which Age are we in? A Lion Age, an Ox Age, a Man Age or an Eagle Age? What is eagle; prophetic insight, a people who could see? What good would it be to have no eyes when Light comes? Is this the Day when the Evening Light comes, the greatest Light that ever shone? But you have the eyes today. The Light shined on Things that Light had never shined on before.

Going to Heaven, we know is better than going to New York, you know. We know it is better than going to Brazil. You are depending on a travel agency that some man booked to go to Brazil and a man's transportation. Going to Heaven, the God Himself Who came to carry you There, came down and is gathering the people and is walking with them and is bringing them up through a spiritual evolution, (who He's taking There). Enoch walked with God and was not. [Genesis 5:24 -Ed.]

Are you enjoying this? [Congregation says, "Amen." -Ed.] I changed at the last minute (you know that) to come and talk on some of this, because I feel it will have me a little more relaxed but you are getting me tense, man. A nice Anointing is here to open these Things. You see, this is the spiritual perception. When you can check and see there is such a Spirit working right now that you touch that, it opens; you touch that, it opens. You must have the eyes to see these Things. When you don't have the eyes to see this in a service, you are missing so much.

Do you think I study this and know this? Ninety percent of what I say is not even in my message. I am still reading my Scripture, my first Scripture but the thing is, I am conscious the gift is in operation right now. The Spirit of wisdom and revelation in the knowledge of Jesus Christ; that is what I call that. Do you know why? The eyes of your understanding, when that starts to speak, start to get enlightened. And do you know what you know? The hope of your calling and the exceeding greatness of His power. I'm showing you His power through sound here, how sound can move things.

Didn't He say, "Faith will move mountains: if you say to this mountain be moved"? Do you believe that? But, you have to speak the Word, right? And then that is a sound, right? Because the mountain can't hear what language you are talking. The mountain doesn't say, "I will listen in French, so you better talk to me in French to get me to move. I don't understand what you are saying so that's why I stand up here."

The Word, the Word, the Word. How many know Hebrews 11:3, what does It say? Does anybody know? By faith, the worlds were framed (by what?) the Word of God. And then, if you say to this mountain be thou removed – that is sound.

[Bro. Vin hums Amazing Grace How Sweet The Sound. -Ed.] Are you hearing words? Are you hearing words? What song is that? [The congregation says, "Amazing Grace." -Ed.] Okay, okay,

alright. Your ear hears sound, but your brain processed the sound and gave definition and you can put words to the music.

Now, I don't have the ranges. Everybody has their own voice. Do you know everybody has their own voice? That is why voice is one of the things you can use, a voice scan. Do you know everybody has their own eye? You have an eye scan. Do you know everybody has their own thumbprint? Of course, of course.

Now, we live in an Age where this can be manipulated today. Somebody can't have the original, but they can take a scan off of yours, make an image of it, and use it in an artificial way to deceive a machine that is detecting that. Well, here then, when you look and you realize now the Spoken Word, you're going and speak something, and you say, "I want to make sure it moves so I'm going and talk it out loud. I'm going to show that. 'Mountain, be moved!'" And you kind of figure that is power. That might be just power from wind and a lot of air inside of you, but some of the real destructive power depends on what frequency.

Now, there's a range of frequencies where everybody's ear hears. The human ears hear. Then you have something called infra-sound, which is lower, and which is almost inaudible to the human ear. Then there is ultrasound. Now, when you talk about ultrasound, the first time you... most of what we know about ultrasound is to say whether the baby is a boy or a girl in the mother's womb. But they use ultrasound to destroy kidney stones in people, to break them up. You mean sound can break up stones, the sound waves? Now, you see where we are getting? You really are fearfully and wonderfully made. Watch.

Those dogs hear things on a frequency that you don't hear and they see things that you can't see. Now, who gave them that seeing and hearing? God. You have the ultimate of seeing and hearing but in the theophany, but in the terrestrial, you don't have it. Do you know

why? Through the fall, we bypassed the theophany; we came here to be tested and tried, to be tempted.

I am going to show you how if somebody takes you, let's say if somebody kidnaps you, you are in a robbery, they take you hostage or something, and they know that the police will be looking for them because you are a notable person or something, the first thing they may do is kind of get you to a place, either blindfold you or whatever it is, so you don't know your location. When you don't know where you are, and if they put on a little tape and you are hearing bird sounds and different things, and you're hearing things like sea breeze and so on, you could say, "Ah, ha, they think they caught me. I know we are somewhere on the north coast because the car was driving up some hill for a little while." This time now you can't realize that sound like birds chirping is a record playing.

Your brain interprets the sound and says, "That's a dog barking." Now if you are not seeing any sound, you are just hearing sound right now, somebody starts to play a guitar, you say, "That is a guitar." Somebody starts playing on a keyboard, you say, "That is a piano." Somebody starts to blow a trumpet, you say, "I am hearing that trumpet sound." You hear a dog bark. You hear a cow moo. You hear a bird whistle, you might even say, "That is a picoplat," if you are a good birdman. Do you understand? Or "That is a macaw or a parrot sound." And you are not seeing it, but you... What did Paul say in 1st Corinthians 14? I just have the Scripture, it's just that I didn't want to read it. It would have taken me too long. He said, "Every sound has a distinction." There are many sounds in the world.

Now, Adam could have stood up there and known each sound without seeing them and know what sound that was. Why? He knew the characteristics of each one. Now if you have five children and each one talks, wouldn't you know each one, even though you are not seeing them. Why? You are trained to the voice. Now

you might put yourself to the test only to realize you know it. You have old school friends you have not seen for years, and years and years and years. Twenty years and somebody calls you, “Hey, Sammy [Bro. Samuel Johnson – Ed.], I’m here. What is happening?”

You say, “Chris, is that you, boy. How are you doing?”

He says, “How did you recognize my voice.”

You say, “I don’t know. From the time I hear that voice, I know that voice.”

Now you realize, that was stored in a database through your hearing. It went into memory and memory is where it is stored. In there, there’s a built-in voice recognition system. So from the time you hear that voice again, it recognizes that. It flies down through the thousands of people you know and the thousands of voices stored. And whether it is music, if you are an avid music listener and you know a lot of different artistes, then from the time you hear a certain song and you hear that voice, you say, “Hey, I know that song. That person sang that song.” You start to sing along too because you know that.

Now, who designed you like that? God. They made the computer off of a man. You store information, you retrieve it, you have a retrieval system and a voice recognition system, and it comes back out, and that is like light like that! But you don’t recognize it unless it’s certain circumstances, in certain situations.

Now, when you can’t even understand the terrestrial, are you going to understand the theophany? This is the problem we have today. People are getting mixed up with a lot of things because it’s just like Word subjects: “Do you believe in the theophany? Do you believe the theophany is in you? Do you believe the theophany is not in you? Do you believe thus and thus? What is the doctrine for the theophany?”

“Yes, yes, I’m going to check-up the quotes on the theophany.” That is not revelation! We are dealing with

a God Who is a Creator. We are dealing with a God Who... There are seven billion people with seven billion different voices and then there are more than that now with animals and birds and fishes that have their own voices too, and each voice has a soundwave.

I was reading some things while I was doing some research on that. Whales communicate for hundreds and hundreds of miles and they use infrasound that the human ear can't hear; and elephants, thirty, forty miles. And when they had the tsunami—I was preaching about that yesterday at the wedding. When they had the tsunami in 2004, when I preached the message there on *A Woman In Travail* [2004-1229 -Ed.] about Indonesia, when the earth moved on that Boxing Day and so many, over about three hundred thousand people died; over twelve different countries had disasters at the same time, it was such a huge thing.

They went into a study with that after they had noticed all the animals... and I remembered when I preached that, I preached about how the animals had gone long before the tsunami came. And I was saying yesterday how all those people who went for retreat and vacation, those women put on their sunglasses and they were coming out in their bikinis to go and sit around the pool, and then those who went with their surfboards, going out there in the water, with all of their gymnastics and different things, they were not hearing a thing and the tsunami was coming. Down in the earth, that earthquake had triggered that tsunami already and those animals—they said the elephants and they had chains (because these countries have elephants; they use them a lot) and the elephants were trying to burst their chains.

They were not hearing anything, they were not seeing anything and the elephants and they were trying to burst that chain. Then the elephants and they were making their noises and it was like "What is the matter with these elephants? Why are they behaving like

that?” Do you see? And next thing you know... they said that it was like a signal that went out that they communicated, like maybe a warning, a warning signal, and all those other animals were hearing that on a frequency that the human being can't hear, and they went to safety.

So, when they found out that now, they came and started to study these elephants, and they started to analyze that behavior and realized that they knew that. [The tsunami was coming -Ed.] And then when they realized that all the other animals that were not there knew, they realized now, it was like a communication that was transmitted at a frequency that they couldn't hear. Then all these people got washed away in the tsunami because they were not hearing a thing, they were not seeing any danger, they couldn't sense anything.

Remember when the Prophet talked about the cows and the birds in India that were in the wall when the earthquake was coming too? And then he said, “What about a church that claims to be Spirit-filled and have the Holy Ghost, and judgment is coming, and they can't hear, they can't recognize the Voice of God?” and was giving a warning in the last days that God doesn't bring man to judgment without first warning him. But it shows how the human being has become so desensitized, unaware, and that's why we talk about living in the realm of revelation and vision, coming out of the humanistic realm, being quickened and raised up into Heavenly Places.

That is what it means: that you start to walk by faith and not by sight. You start to look to the Unseen, not the things that are seen; you start to look to the Eternal, not the temporal. You start to get aligned with God: “Align me with my theophany,” and you start to move now in a channel where there is an influence, a sensitivity because you're linked up to a Power that has foreknowledge that can give you dreams, that can give you visions of things that are to be.

In the last days, did He promise “I will give dreams”? I will give visions. Did He prophesy that in Joel 2? Is that the Former and Latter Rain in the last days? Is that the restoration of the Bride Tree in the last days? But that’s a provided way of God. These are laws of God in His Church. Did the first Church have that? Did the Seventh Seal have dreams connected to it? Were there six dreams and a vision? Does the Second Ride have dreams connected to it? “I’ll ride this trail once more.” Preview of the Bride: the last vision – She’s going up into Glory? Do you see?

He said, “That’s why the Message is in Another Place.” If we’re just in a church, we will never find these Things. And when we talk about this Spoken Word, what is This? What did the Prophet know? When the Angel was coming to this man and talking to him, that’s how things were being done. He was a man in association with the Unseen World; he was a man going back forty, fifty years in people’s lives. We hear that and do not even give a second thought to that World which exists. He discovered a World where the past, present, and future are already recorded.

He said, “When I come on the platform, I am only acting out the vision I saw in the day, what will happen in the service.” Do you know how we come? “Boy, we have to pull down God here tonight! We have to bring down God.” That is where we go.

We, in this Hour, are walking with Him, trying to live close, being taught. And that teaching is doing what? Positioning your souls, positioning your minds, your thinking, your reception from God, no static. It’s flashing through the pages of the Message, flashing through the pages of the Bible. It’s bringing a faith. It could apply in your present environment. You see why that is coming, what that is to help you overcome, what you are faced with, how to handle the wild bull, how to handle the maniac here, how to handle the hornets

here. Something is coming in because, why? You are aligned with God!

Now don't think that's far-fetched from you. If you are a son and daughter of God, you have that equipment, but you are not using it. You're using your ear to listen to all kinds of things on the radio. You're using your eye to watch all kinds of things on the TV. Do you understand what I am saying? You're spending all of your time on your phone and you're texting day and night. Well, you created a world, you created *that* world and you are living in *that* world which you created. So, when you meet people from Another World, you'll realize that you are not an End-time sign.

Oh, God. Let's go to Acts 16. I could just refer you to Joshua. The next part is where the people were actually, carrying out what God had told Joshua, to the precision! I gave you an Old Testament [Scripture -Ed.]; let me give you a New Testament here now, Acts 16. We see the shout, we see the blast of the trumpet, we see the movement; we see so many things in there, laws of physics in operation, laws of sound in operation, mathematics, geometry. Don't lose sight of this.

I explained to you how they came through the wilderness: God opening the Red Sea, bringing the water up, God bringing water out of the rock, God bringing food out of the sky, God bringing healing to them through a certain atonement – a Brass Serpent and these things, and was bringing them to get their thoughts focused into a channel, which was a symbol of Calvary – Jesus on the cross; knowing that the smitten rock was Christ on the Cross, knowing the Red Sea was Christ on the Cross, knowing the Jordan is Christ on the Cross, knowing the slain Lamb is Christ on the Cross. So when that came in reality form, how did they do all the miracles and write the Book of Acts? Through what Christ did, through what Christ did. So we find out all these things are a principle that people were working by.

Acts 16:22. Now you know the first part of the story, how Paul went—we had the Book of Philippians. We had that whole series, right? This is in Philippi. This is about the Philippian jailer and so on and about where he cast out the spirit out of the girl who had the spirit of divination. He waited for three days and she was only saying, “These men are servants of the Most High, who have come to show the way of salvation,” and screaming and carrying on, and he was just watching and not saying a word.

On the third day, He turned to her and rebuked the spirit out of her and then she couldn’t ‘divine’ anymore. When the men saw this, the Bible said, ‘they saw all their gains were lost’. She was a money-spinner for them, and when he cast that demon out, and they saw all the loss of their gains, they went straight to the magistrate. It was a syndicate.

Once I preached on *Demonology* for you and showed you how Satan’s system is: the political realm, the occult realm, rulers of the darkness of this world, principalities, powers, and these things. Satan has a system. And these men are from another System with God because, in this System, Paul is a principality. Do you know that? He is the Messenger of the Age; he is the highest. He’s endued with Power. He met the Pillar of Fire. This man is gifted; he’s a prophet-messenger. This man was taken to the Third Heaven. This man is receiving revelation and vision. He lived in the realm of revelation and vision. Angel is directing this man. He comes in as a normal man going with Silas and them inside the city there, but they’re conscious that the angels of God are compassed round about them because the Holy Ghost raised these men up to carry what? The Message of the Son of Man in that Day, just like us!

Now, look. When he came there, they beat them and they threw them in prison. And look here; verse 22:

22 And the multitude rose up together against them: and the magistrates rent off their clothes...

They publicly humiliated them. In front of all the people there, they did this, [Bro Vin demonstrates how they were stripped of their clothes -Ed.] “Come,” and they burst down their clothes and started to put ‘licks’ on them, [a beating -Ed.] satisfying the people who were filling their pockets with all of their things through their divination, and their thing for Diana and all these different things, all the things that they are doing there with the occult. But what was it? When the antichrist spirit was moving, God was sending out a Lion Spirit. It was in the realm of spiritual warfare: Light versus darkness. Fallen angels were working through the system of the kosmos and God was working through the system of His Church, a living organism on the earth. That is the same today; Ephesians 6:10-20: *You wrestle not against flesh and blood, but against principalities and powers, rulers of the darkness of this world, spiritual wickedness in high places. Put on the whole armor of God, you will stand against the wiles of the Devil in the evil day.*’

I showed you an Ephesians, warfare in Joshua, in the first exodus. I’m showing you an Ephesians, warfare in the second exodus in the New Testament, and I’m showing you that the same God of Joshua is the same God of Paul. The same God of the first Ephesians is the same God of the second Ephesians, is the same God of this Ephesians.

23 And when they had laid many stripes upon them, they cast them into prison, charging the jailor to keep them safely:

That doesn’t mean you have to keep them safe, you know. “Secure them. Put them in maximum security.”

24 Who, having received such a charge, thrust them into the inner prison, and made their feet fast in the stocks.

That is with the big iron clamps around their feet and they put them in maximum security and they chained them up inside of there, to keep them secure after they had publicly humiliated them.

Do you know something that God had said? It said His people went from country to country, Israel. He said and God warned those people, *“Touch not My anointed and do My prophets no harm.”* [1st Chronicles 16:22-Ed.] And now, they had come from all those different cities and he wanted to go to Asia and the vision said, “No, go to Macedonia.”

Now he got there and they’re going into the Macedonian colony there. They went into Philippi. It was like a little Rome because they had the Roman soldiers and they took over there. And most of the people in Philippians (if you remember when we taught that) were Roman citizens who were receiving the Gospel in these places; hard men. That’s why Paul preached about “run for the prize,” and he used a lot of the terminology of what it meant to be a Roman citizen. And he used the Olympics and these things and the warfare so that these men could understand the Gospel in that because that was the kind of background these people had where they were located. They used to have the big games and these things.

And so here he is. They are now in prison and they made their feet fast in the stocks.

25 And at midnight Paul and Silas prayed, and sang praises unto God: and the prisoners heard them.

Now, watch God again, now, using sound. Now, remember before it had a flute, before it had a harp, before any of these things, the human voice is the melody. The human voice has different ranges. There are some human voices that could go so, so, so high and so low; some bass can go so low because the human voice is the ultimate. This is not just human voices now. These are two Spirit-filled, anointed prophets of

God because the Bible called Silas a prophet. A New Testament preacher who preaches by inspiration is a prophet in the Bible.

So watch. Paul, prophet-messenger, apostle, watch him. Now, look. These are Holy Ghost-filled men. This is a man who's full of the Holy Ghost, would shake a viper in the fire. Do you understand? This is a man who said, "Sir, I perceive you have faith to be healed." After he preached the Word and lifted that man's faith, he said, "Now, rise to your feet and be healed." This is a man who said, "Okay, everybody, get calm," when Eutychus fell from the window and died. He went down and laid over him, "Okay, he's good," and then went right back up and went preaching again.

This is the kind of man we're talking about here. This is not a man trying to say a prayer. They prayed, they prayed. It didn't say they were bawling down the place, "Oh God, help us. Look how they beat us up." I don't believe they prayed that kind of prayer.

I could imagine he said, "*Count it all joy when you fall into divers temptations, and the testing of your faith worketh patience and we are killed all the day long and, what shall we say? shall famine, pestilence, tribulations, persecution, peril, none of these things shall separate us from the love of God in Christ Jesus because the excellency is of the power of God. The 'excellency' is the power of God that is inside of us. We have the Treasure in earthen vessels.*"

Just like Jonah in the belly of the fish; at that place there, he was in the Psalms. Jonah was praying out of the Psalms. This is what we are talking about. We are talking about a prophet-anointed people, anointed people with anointed faith. Because, what is Acts? Why is this written in Acts? Acts is the acts of the Holy Ghost. Acts is men with the Holy Ghost, and the Holy Ghost: God above us, God with us, is now God in us. And God was working through the first branch that came from the Root.

Jesus said, "I am the Vine; you are the branches." They were the first branch. They were part of that first... they were stems on that first branch in that first church Age and, "The works that I do, shall you do also!" And this was coming forth from the Life. Jesus, they watched how Jesus prayed and they went and had those meetings and the multitude was being healed. They watched Jesus back there in the meetings, preaching the Word and they said, "Where did this Man get this wisdom from? This wisdom is coming from Above."

He said, "My Doctrine is not Mine. My Doctrine is from Above." He says, "Yours is from the Sadducees' seminary, yours is from a Pharisees' seminary," he said, "but Mine comes from Above." He said, "My Word is Spirit and Life."

It was the Holy Ghost in these men. Now here they are beaten, arrested – falsely arrested, humiliated, ridiculed. They broke their spirits then threw them in the innermost prison because they came in a city and interfered with big business that was going on. It comes like, you come into a place where a man controls the drugs and the money in that city, and you want to come and 'play' you're doing that. Well, you took on hell. They will take you out very, very quickly. And that is exactly what you're seeing there because they said, "These are the men who turn the world upside down, who have come here." That is right.

What did the Devil say? "Jesus I know and Paul I know." [Acts 19:15 -Ed.] Is that right? So these are not ordinary people here. They are Message men. They are men preaching in the days after the Son of Man is revealed. They are the men the Holy Ghost came in and carried the Message. Those men knew you don't touch God's anointed and prosper because Paul himself said, "When I pray, I will pray in the Spirit and when I sing, I sing with the understanding." Have you ever read that in the Bible? 1st Corinthians 14:15. He's a man who

says, "I pray. When I pray, I pray in the Spirit, and when I sing, I sing in the Spirit." Because he understood that there's a power in prayer.

He's a man who had the Old Testament and saw how Elijah's prayer brought God down. He saw how Moses's prayer brought God down. He saw how Abraham's prayer brought God down. He saw Daniel's prayer shut the mouth of lions and these things. These men understood that prayer—those men understood the connection between the brass altar and the incense altar. Do you understand? They knew they were the tabernacle. What did Paul preach? You are what? The temple? Know you not you are the temple of God? And do you know the pattern of the temple? The temple had three courts.

And at midnight Paul and Silas prayed, and sang praises unto God:..

My Lord delivered Daniel; My... [Bro Vin sings -Ed.] now he was singing in the Spirit. All of a sudden the Spirit started to move. He started to get anointed. He started to get anointed because he's offering this up to God. These men were worshipping God. Do you believe that? Do you believe they were trying psychology or do you believe they were operating consciously? This is the man who said, "*Tribulation worketh patience and, patience, experience; and experience, hope, and hope maketh not ashamed and, the love of God is shed abroad into our hearts by the Holy Ghost.*" [Roman 5:3 -Ed.] This is the man who said, "*The sufferings of the present world are not worthy to be compared with the glory which shall be revealed in you.*" [Roman 8:18 -Ed.]

...and the prisoners heard them.

²⁶ *And suddenly there was a great earthquake, so that the foundations of the prison were shaken:*

Why does it tell us the foundation of the prison was shaken? It tells us there was an earthquake and It tells us, the earthquake shook the foundation of the prison.

...and immediately all the doors...

He did not say, "Boy, that place was in an upheaval!" No, he starts to tell you specifically; specific 'earthquake'.

Now, get the thought here. We're into civil engineering here now. We're into laws of construction here, the foundation of the prison; an earthquake that moved the foundation. We're into the walls of Jericho, the big stone wall moved and it foundered and it fell flat. Here, an earthquake and the foundation moved and it tells you the results of the earthquake on the foundation. The mistake they made was to put them in the inner prison.

I am in a piece of geometry here; I'm in a piece of geometry here. And where he and Silas were, they were not where the other prisoners were. Those other prisoners were like in the outer court, an outer prison. These were in the inner prison, where they were offering up spiritual sacrifices, the fruits of their lips giving praise and thanks. Now if you know Hebrew and they were praying in the Hebrew tongue. He knew Roman. He used the Roman when he needed to use the Roman, right? He used the Greek when he needed to use the Greek, but he's Hebrew. He's Hebrew of the Hebrews.

When they started to pray, their language was not like English and so on, you know. Their language has tones to express their Psalms written in Hebrew. Those Psalms have power, even the devil knows the Psalms have power. Why do you think the Baptist people are attracted to the Psalms like that? Why do you think people get a key and put it in the Bible and start to read the Psalm; and when they have court matters and different things, that those things could influence people? Why do the Baptists chant?

Now, remember, Satan knows the laws of God but he perverts the laws of God for his own objective. He knows the laws. Judas knew the Mysteries. Satan was there; he knew the Mysteries. He knows how God

created the world. He always wants to live in man, but his power is limited! He can't come into creative power. Why?

Like I showed you last week, angels only have one body, animals only have one body, sons and daughters have three. Angels and animals are not considered in the plan of redemption so that's why only one body is good for them. But for you to be redeemed, you have to bypass a body, but still be able to be in a body with limitations to suffer temptation and trial in three dimensions.

You see, the preaching we are preaching is going back to God's thought in designing a world with seven dimensions, and in putting laws that govern the universe. Everything in the universe is governed by laws. You watch that sun and plants, you watch rainfall, you watch everything; everything is by, laws. Watch when those laws are disturbed, you see tornadoes, you see volcanoes erupt, you see all kinds of different things. Of course. Well, all of that moves with sound. Wind has frequency; it has sound. The earth – volcanoes produce infrasound.

Now, in the Age of neuroscience, when they can break and start to map out and unlock the mysteries of the human brain, how one side you drive with, one side you recognize certain colors, one side you do things with. Remember when I preached for you and showed you how they manipulated that knowledge now, by carrying it into the commercial realm and through the advertisements (eyes and ears, audio and video), which is communication, they manipulate the senses in the virtual world? And they use it to create wealth because they put a little jingle, a little music with the colors, how they put up the advertisement and they get it in the sub-consciousness.

They go to the Bible and they see how God attracted Moses' attention by sight first – video. And when he came close, by audio: God came down and started to

call him, “Moses, Moses, I Am come down,” and God was getting down into the sub-conscience of Moses, and all that he was taught by his mother and then started to come back up, and he started to get anointed. That was where he got anointed. That was where he crossed from a humanistic realm into the realm of revelation and vision. First, trying to deliver people in the humanistic realm but secondly, by the realm of revelation and vision as God’s anointed and commissioned prophet-deliverer, the Word for the Hour.

Now watch:

At midnight...

Why did he tell us ‘midnight’? It gave us ‘time’. It gave us the structure of the prison. Now do you think God had known that prison before the earth was created, that it would have been built there? Well, that is where we are going. That is where we are going. Do you think God Who preplanned Paul and their lives...

He said, “Those He foreknew, He predestinated. Those He predestinated, it’s them He called. Those He called, He justified. Those He justified, He also glorified.” He’s the one who said, “You were chosen in Christ before the foundation of the world.” He’s the one who wrote that. Do you think he believed his life was preplanned? Do you think when he got beaten and thrown in jail that day, he knew they would have beaten him and thrown him in jail, just like they did to John, the Baptist, just like they did to Joseph; just like they did to Daniel?

When you are going through an experience, don’t you go back in the Bible to see who went through that? Do you look back to see that Jesus Christ is the same yesterday, today and forever? Why do you do that? Because you have been taught that in the Bible; that is how the Bible is. So do you think he, as the prophet-messenger, would not look back, “We’re in prison; this one was in prison there”? Was Joseph, God’s anointed?

Was John, God's anointed? Was Daniel, God's anointed? Were they the Word in their day? Of course.

They are not like half of us: "Oh God, why do they have to do that to us? Do you see how Satan is wicked? Do you see what they did to us? We only came to preach the Word of God. Look at them, they are letting all these brothels go on but we are trying to help people live a better life." Do you think it was that way they were talking? No. They moved with...

Who goes now and starts to worship and praise God when they beat you up, put your foot in stocks, put you in the inner prison after they humiliate you? Do you know what that tells you? That had no influence to grip the mind. Who preached, "Bring every thought into captivity?" Who preached, "Cast down reasoning?" Who preached, "I discovered a law in the inward man?" Who preached all of that in the Bible? Who preached predestination and the sovereignty of God? Who could say to the Potter, "Who art thou, oh man, that replied against God? Is there unrighteousness with God?" Who preached that? He himself.

Do you think God puts what man preached in the Bible and then they don't believe it themselves? No. He was the living manifested Word for the Age. He was the pattern for every true Minister. He was an expressed attribute of God in flesh. He had bypassed the theophany, came in flesh, then went up and saw celestial bodies; looked back on earth and saw terrestrial bodies. He saw a temporal world and saw this world here and he began to understand that this is a parallel universe, and he said, "The things that are not seen are made to be understood by the things that are seen." It was he who preached that when he understood a parallel world. It was he who preached: "The light affliction is but for a moment," when he stood in Eternity and was looking back in time.

Oh, that is something I wanted to go into myself. When you are in Eternity, in a theophany, and the eyes

are far beyond human sight, that is like dreaming when you look back at earth. You'll feel that you dreamt all night, and that is one hundredth of a second because that is like the speed of light transmitting to the mind. When you are in Eternity and you look back in time there...

He looked back at life on earth, seventy years, that was a few minutes. That was about four, five minutes or three minutes. A day is like a thousand years with God. He said, "The light affliction is for a moment" in Eternity and came back in time.

That is why Bro. Branham, when he went there, he looked back. He said, "I was afraid of death; all of that has gone from me now. I got a view from the Other Side. When I looked back here, I saw what life is. Here is the testing ground because look at what I am here. This is what I am coming back too. This is what awaits me at the end. If this earthly tabernacle be dissolved, I already have another one waiting."

Let me say this: God knew the schematics of the building. God knew the structural plans of that prison, the same way He knew the structural plans of Jericho.

How many know when the military is going into warfare, they want to know the layout; they want to know how the system is set up; they want to know where is the best place to make the attack from? How many know when Joshua sent the spies: "Go over and look around" and so on, that reconnaissance was to gather intelligence on the ground, with eyes on the ground, so they could know the condition of the people.

Rahab said, "All of us here are already faint. It's a big bluff here because even though we're in this big fortified city, there isn't any city as big as this here in the whole of Palestine, and something tells me this thing is going down. We don't know how but we've heard of what happened – the Red Sea opened," Rahab said. "We've heard of what happened to Og and Sihon. We've heard that." She said, "We stayed from here and we saw

Jordan open up by itself at harvest time in the full strength and they came over like this [Bro. Vin demonstrates – Ed.], singing and coming over.”

Now, here these men came into the city. These men were armed with weapons of mass destruction, and they were armed with weapons to pull down the Devil's strongholds (amen) and deliver people from chains and darkness. How many know in Acts 26, he was sent to, do what? Take the people from darkness to Light; take them from the kingdom of the Devil to the Kingdom of God. He was anointed to do this. God gave him Words. He said, “We teach the wisdom of God, not with words that man's wisdom teacheth, but Words of the Holy Ghost.” This was a man who knew about the Word.

He said, “As a wise master builder, I have laid the foundation.” This man knew about Divine construction. This man had the plans from the Divine Architect Who designed the Church, much more the plan for that little prison there, where they wanted to put God's people into. God knew the wickedness of that city. He knew the wickedness, that one day their cup was going to get full: “My servants will pass through here; I'll shake that thing down.” God knew that Jericho, they found their big defence here: “I'll show them the wisdom and the might and...”

You say, “What do you mean?” What did God do when Nimrod wanted to go into heaven? What was Nimrod's power? Bring the world to one language and one speech. What was God's attack? Broke up their communication system, enlarged their world and put them back, showing them that their wisdom was foolishness. Their pride was in their wisdom. Their pride was in their achievement. They felt stronger.

What is the United States and they doing? You see what is happening in the world. They've fooled the world so many times now, that they think they could fool everybody. They are like a con artist – one after the next. They fooled them in Afghanistan (see?) when the

Twin Towers fell. They fooled them in Iraq, they fooled them in Libya; they fooled them in Egypt. And they came now and Mr. Putin said, "Enough! Enough." Watch what is going on.

You see, there are people who are seeing what the Devil is doing because to them that is their enemy and they are watching their enemy, but the enemy's head got big.

Something tells that man that he is raised up for something, you know. Let me tell you, everybody carries that secret in their heart. Joshua knew he was born for something. Joseph knew he was born for something. Moses knew he was born for something. That's right. Bro. Branham knew from a child that he was born for something. When the whole world was not seeing, God was talking to that boy. Not even his father, and mother and brothers and sister were around. "Don't drink or smoke, little boy; I have a work for you when you get older." Down by the river, everybody was seeing the Light but he was hearing the Voice. God was keeping the secret, secret, between the two of them. God was keeping it secret.

This is the God of the Bible. This is the God of the Bible! It's so He is. Do you know why? He deals in election and foreknowledge. He doesn't deal in behavior, friends. That is why the Prophet said, "Many of you, if the Rapture goes in the morning, you will go before me on good behavior." He said, "And don't think that what I am saying I don't mean that." He said, "That is so, because what I know and how I carry myself with it, I have a lot to be responsible for." See? Because he said, "With what I know, I should be carrying it better than this.

I feel the same way with my little, puny grain of sand." Because sometimes, it's just too much in the mind, you have to let it go. That is why I came in this morning and said, I don't want to go and preach there, maybe I'll take something a little lighter. Look, I got a little lighter here

but it isn't so light after all. But it's something interesting. It is something very interesting.

You see, you might sit down there and say, "Well, I don't see that Scripture that way." Then was there nothing about putting up Moses' hand then with the battle? If there was nothing, when the hand came down, why were they losing the battle? Why did God carry him and show him... If they came out and just came along marching like this [Bro. Vin demonstrates -Ed.] out of Egypt, why did God stop them now, "Number the people here now; go up in the mountain in the Cloud"?

We had a Prophet who went up in the Cloud in this Day too, came back out with the revelation and set the called-out people in order, "Because now I'll move according to a Divine order; that I will dwell among them now." And he had to do that. And once they did that, water came out of the rock, people got healed; everything that they had need of... Why? It was an alignment now. It was an economy now under God.

Who was fighting their battles? God in their midst. But God was teaching them, what? "You do your part; I'll do My part. Moses, you go on the rock here, you do this here." See? "You camp here." He is the General. He said, "You are going over now, when it's overflowing its banks." The Prophet said, "Many people would have said that Joshua lost the commission. Look at this foolish decision the man made. We had all the time to go over when the water was low, now we are going over here."

No, no. God was not dealing with them; God was dealing with Jericho. God was putting fear. That was going to put fear in their hearts. That will make their hearts to melt when they see this thing open up here. That will make them realize, they are not just human beings coming; there is a Divine Power amongst them.

When these men went into the city and went there, let me start to say, God started to anoint these men to sing those Psalms and sing in a certain octave, because

Paul said, "I sing in the Spirit and pray in the Spirit." I don't know what tongue he might have been singing in. He said, "I speak with more tongues than all of you all." Maybe it was a heavenly language. How many know "When Jesus began to cry out," the Prophet said, "in that language, 'Eli, Eli, lama sabachthani,' the graves opened up and the Old Testament saints awoke, they said in the Scripture, just for that time when He cried with the loud voice"?

How many know there are signals? How many know when God came and said, "Throw this rock up in the air; it will start a whirlwind coming down"? What do we know about God? What do we know about God? He said, "You have to do something to start this." These are the laws of the Other World. These are the laws of the Other World.

Let me tell you, a housewife could know this. School teachers could know this because this is not a university language. This is born-again language; people with the Inside Teacher. When the Prophet was teaching about 'justified', he said, "The women, when they are washing their clothes, they have a thing they call 'Clorox' [a brand of bleach -Ed.] now, and when you throw the stain in that, you can't find it." Housewives, He put the Mystery right in their hands. All the meal offering and things, you have to bake it in a heated oven or in a frying pan where the suffering is visible and you have suffering that is not visible. It's simple, the Life of Christ. These things are very simple.

I am preaching some of this because this inspiration is around the place. They are talking about sound and soundwaves and different sounds and I'm going into a dimension here with it to show you these things in the Bible. And that's why the military and all these people are looking into this because they know in warfare, there are certain powers that were employed.

When you come to a military general, the Prophet said, "The greatest military general on earth was

Joshua.” There was Alexander, the Great. He was great too, but he was not linked up. He had no Captain Who came down with the drawn sword. Joshua had that. The kind of way Joshua and Gideon and they fought the battles: “Get an empty vessel; take a lamp and put it there. Say these words, ‘The sword of the Lord and of Gideon’ when we go into the battle. Break the pitcher at a certain time,” in that Ephesians.

What is this? You see, on one side we could see we could type that with things: “I am an empty vessel” and so on, but that is more than that. There is a physical application to that too. Because those people had real swords; those people had real things.

When you watch those old apaches and they before they went to war, they would start to do their dance all night. They were beating that drum, they were beating that drum and they were making that noise with their sound. Is that right? That is two sets of noises. One with their mouths, and they would go into certain kinds of octaves and then they would kind of scream when they went into the battle charged, and the enemy got paralyzed and confused.

Where did they get that from? Nature. Before the bear attacks you, he gets up there on his hind legs. When you see he stands up there and pulls out the big paws and he starts to roar, people freeze. The lion, when he’s stalking, stalking, and when he roars, they say, it’s the fright that kills them. They don’t even feel when he clamps them like that. Because that roar moves boulders.

What? What? What? What did I say there? I now heard it myself too? What is it? That roar has a soundwave. You could measure that sound of the lion’s roar. Do you know that?

Let me show you something. If there is a rattlesnake and if you just hear ‘sssssss’ [Bro. Vin makes a sound as the hissing of a snake –Ed.], and you hear that rattle, when you hear that sound, you get scared. Have you ever heard Bro.

Branham said, those natives in Africa, when he said, "Mamba," he said men just started to run because they know, one bite and you're dead. And even the vision when God showed him the vision, the man was running. He said, "But there was Something that came right in front of me like this and the mamba couldn't come any further. It was a force there."

Now watch. Watch how God in nature... Watch how things in nature like the leopard or the tiger and they are about to attack, they go into a noise before they make the attack. What did God do with Joshua and them? What did Paul and they do here? Do you get what I am saying? Have you ever seen those Chinese martial arts? Of course. When they go to execute certain blows to break stones and they breathe-in and pull all that energy to one place and they make that cry and they execute that, they unleash that, it is directing power; energy; energy.

Do you know in a congregation, like when we were singing this morning here, there is an Energy; you start to feel that Energy? And then when that Energy starts to come out, what happens in the church? Somebody gets up and starts to shout, some get up and start to clap; some start to dance. They get almost like they are getting in a frenzy sometimes. Why? There's an Energy moving there. What is causing that? All these spirits start to come together. But there's music too, and the music now gets in a certain pitch, a certain atmosphere and then in the realm of the spirit, they go into that Place. In there, people start to see visions and speak in tongues and do all kinds of different things. Of course.

These things... Look at this air-conditioning. That is generating cool air. You could sit down here for four hours, easily and relax and feel like you didn't break a sweat and you're just calm. You come out looking nice as you come in, just a little more radiant with the Glory of God. Do you understand? Because that there is releasing some wind upon you, but that wind has a

calming influence too, especially if you have your scarf or your... [Bro. Vin acts like he's putting on a coat -Ed.] So, you have your own things to break down how much you want to feel. Isn't that right?

It's not just a piece of cloth. It's something now, to keep you warm; keep certain parts of the body warm. You are not conscious of what you are doing. You are not doing it in a strategic way, but you are actually doing it more in an unconscious way or a subconscious way. You're not thinking of it up here [mind -Ed.], but it's acting out here [physical realm -Ed.] because you want to keep the throat warm so if they call you to sing at the end of the service, you can walk right out and start to sing though you are in the air-conditioning sitting all this time. But you didn't plan it in your mind like you were going to do that, you know.

Then there is subliminal. How many know that man is influenced in the subliminal realm? Of course. And that again is infrasound or ultrasound, where the frequency is above what the ear could hear, but you're being moved; you're being affected. And they found out that through infrasound too, it could disturb the emotions; it could have great effect upon the human being. And when they discovered this, they went into what you call 'sonic' weapons now for crowd control. It's the new thing.

When they were out there, off Ethiopia, Sudan and these places there on that East Coast of Africa, this cruise ship was going along. It's called Heavenly Spirit, or something like that, I think was the name of the ship. And while they were going along through the waters, there were these Ethiopians and them - pirates. And they came with these jet propulsion bombs which they were armed with, and so, they came in there on the boats. And when they came in with that speed, they were zig-zagging the boats and they came in to start to launch a few and hit the ship; got the ship kind of

damaged and created panic on the boat because it's tourists.

You don't want to get up now... You just had a nice breakfast, and somebody asked you, "Would you like to have some more tea; would you like to have a piece of cake?" And then you come outside and you see this boat coming, and you see men shooting missiles and hitting the boat. Well, this is chaos. And you know, some people are on the cruise, you're out there and your family is at home: "Oh God!" You are seeing the ship going down, you are seeing you're dying; you are seeing how this could happen to you on your trip.

So in times past, these people had robbed a lot of people. So, now with this international warfare, and the television and these things in this information Age, if that's the wrong people and there are civilians and things there, and you shoot something there, it could cause international things. If you are a big shipping line, that could put you out of business; that could bring down everything.

So, they had on this ship armed with a sonic weapon. It's not looking like a weapon; it's just looking like a dish. But that dish now is going to release sounds at a certain frequency that, when that sound starts to hit them at that range... And the first one, they could warn you, and then the second one they would give you a second warning and then they'll crank it up full. Well then, that is going to blow your eardrums. You're deaf when you get that. That is going to start to create sick... All of your emotions after the infrasound hits, will get you sick and everything else.

Well, the U.S. was using a lot of these things in Abu Ghraib. If you remember, we preached during the time when they had the Iraqi war and that was where they tortured all the people there and these things. And they recorded these things and these things were leaked out and made public, and they were showing how they were dehumanizing and humiliating all of those Muslim

people. You see the Americans and them, how they had them strapped and they put the headphones on their ears and made them lose their sleep. And they did things to break their spirit through the torture.

Well, the military is experimenting in sound because they realize the effect sound has on human beings. So for crowd control... Like when they had the 'Occupy Wall Street' [a protest in 2011 in New York against economic inequality -Ed.] thing there, where do you think all that has gone? When they started to use that sound weapon now, if a doctor examined you, he couldn't find any 'lash' [marks or bruising -Ed.] on your body. He can't find if they beat you, he can't find if they've shocked you with anything but you have damaged organs, because they're damaging organs with sound at a certain frequency. So it carries torture and these things to break the human will on a next level, and to disperse the crowd and these things. They are using these weapons. This is where science has gone and this is what the military is using. Because they are looking back now and realizing that there is power in these things.

People used to levitate these big stones by sound. And this is what I am coming down to. I gave you these first two Scriptures both Ephesians, both Exodus to show you, look at what is happening and then to show you today's military in this Third Exodus, they're coming with this now, through science, in this Age. Because we're in the Age now where all of these things; where men like Nikola Tesla [Serbian/American inventor and engineer -Ed.] and them who were like prophets in the realm of technology. And the U.S. now, with this big program with HAARP [High Frequency Active Auroral Research Program -Ed.] and all these things, where they have these weather weapons controlling the weather, controlling the public, destabilizing cities and different things with the kind of weapons that they have that people don't even realize.

Now, this is why I love the Bible, because you see, there is nothing new under the sun, and no matter what

realm we take this to show you... Because in the Bible, when I preached there, how the runner used to run with the message. Then when they found they were going too slowly, they got the pony express, but he was only going on land. Then they got the pigeon because that could cross water. They got air mail. See? And then it came from telegraph, and from telegraph, it brought in telegram, then you had television, and then from television now, we've come now to the Internet. See?

When they're transmitting images and voices through digital signals, that takes your image there... Like how we're streaming here, that little camera there, that takes in all of this, breaks it down into signals, sends it back through the ether waves and people in Africa, people in Australia, people in China, everybody could sit down and listen and watch the service; see you in your colors right here which goes on normal. And you realize that all of that is going on right here.

A few people in that control tower in the back there, in that streaming room there, they are working by those laws and applying those laws to get this service around the world instantly. And while we are sitting here, we have eight churches from South America in Guyana to North America in Toronto linked up here as church this morning. So you are sitting down here, we are not talking, we are not... So what we are doing here, look at that impact globally, and that is just by tapping into certain laws; how much more we are talking about some of these other laws here. Amen?

Quickly. Help me... Pray for me. I want to read something quickly just now. So I am saying now, Paul and Silas weren't just saying prayers. I'm saying Bro. Branham talked; he talked. Right? He talked; he preached. But that day he stood up in the woods and God stood up there and said, "Speak for the squirrel," and that day when he was on the Colorado Mountain and He said, "Speak to the storm," that was not just

talking, yet it was the same voice; yet it was the same man. Do you get what I am saying?

How many know the Bible says, “Fire proceeded out of the mouth of Moses and Elijah”? Why does it say ‘Fire’? How many know the Bible says, “A Sword proceeded out of the mouth of Jesus”? Why does it say ‘Sword’? Spoken Word, right? But Spoken Word, that’s a certain anointing of the Spirit. This is not an everyday thing. These are things that are unleashed for certain conditions; certain circumstances. God did it at Jericho; God did it here in Philippi.

I told you God knew the schematics of the building. God knew how it was built. It was a war, that God was... They built a maximum security prison and they said, “Put these.” They had all the other criminals inside of there, you know: drug pushers, human traffickers; everything. They took the men of God, who came to preach the Word, and they put them in the inner prison and they put their feet in stocks, because Satan recognized them as more enemies than these. But the thing is, though they strapped down their feet and strapped down their hands, they had a voice and they had the Holy Ghost and they had a revelation, that no torture could take it out of them.

How were the Hebrew boys standing in the fire but not getting burnt? God did that before with Moses. The tree was in the fire and the tree was not getting burnt. You see, the world doesn’t know this kind of physics. Now catch this. What the world calls miracles, is normal everyday laws with God because these are God’s laws. How did God hang the world in space with seven billion people and four-fifths is water and none doesn’t fall off? How did a man go to another dimension without this body and look back here in another body and could see it’s two dimensions? But that is normal with God. God doesn’t get worked up to do that.

Now, it’s time we have to change some of our concepts and thinking. Because let me tell you, this is the wall

between reasoning and revelation, you know. That wall has to be torn down and your reasoning has to become revelation. From the humanistic realm, you're coming to the realm of revelation and vision, otherwise there would be no Super Church; it's just some religious human beings.

We have Jehovah's Witnesses, we have Seventh-day Adventists; we have Message people. Everybody has their prophet and their leader and their books and they are going around trying to quote what they are saying. We are not called to be that kind of thing. We are called to operate in the things. We are called to believe these things. We were born for this. We are going to come to a place, the sleeping saints will come back. We are going to come to a place, this body will be changed and we will travel at the speed of thought.

I don't know what you are looking for; I'm looking for these things. I'm looking for that more than anything else that the world could offer. Jesus was looking for Calvary. He knew Calvary had to come because that was where He was going to take away all the Devil's rights legally. He was longing for that fight. That was where He was going to spoil principalities and powers, "Making an open triumph over them," the Bible said, "and crush the Serpent's head."

That was the first prophecy: "The woman's Seed will bruise the Serpent's head." God told Abraham, "Your seed will possess the gates of your enemies." He was looking for that. When Satan tried to bring all kinds of things in his mind, He said, "Father, what shall I say, save Me from this hour? For this cause came I unto this hour. Father, glorify Thy Name." Hallelujah! "Unto this end was I born; for this cause came I into the world."

What did God say? "And You shall shortly bruise Satan under Your feet." Aren't you looking for that? That is what He said about you too. If the Bridegroom hit sixteen cylinders, the Bride will hit sixteen cylinders

too. The problem is you do not look for it. Start to look for it. It's you who has to create it. It wouldn't fall out of the sky; it's your faith that's going to push you into it.

It was Luther who caught a revelation and started to preach, "The just shall live by faith." He handed it over to Wesley. Wesley took it and carried it into sanctification, started to preach it; the Church started to get sanctified. The Pentecostals took it, carried it into the aeroplane Age for the restoration of the gifts and the Prophet took it from there and brought it to the unveiling of the Mighty God and the Spoken Word. Hallelujah!

Don't you realize when you watch that film and you see the Prophet standing there, he said, "You know I'm waiting on something here"? Yeah. And then he said, "Could the pianist play *Only Believe*," and he was getting ready there. He was getting into the realm of music; he was getting ready to play this here. He knew he was anointed and commissioned. He knew he was sent here. He knew, "He met me in the cave." He knew he was the Moses of the Age. He knew the Scripture prophesied this for this Hour – the Son of Man to be revealed again. This was how Messiah was made known. He knew God came back in human flesh in a day like Sodom. It wasn't like a man went out there and... He was born and trained and prepared for this.

If you are Bride, your life is preplanned. That is why these revelations are coming and breaking the seals on the book of your life. Some people like the terminology more than the revelation. And when they are singing the terminology, they have no concept of what it is saying, and that is the problem. But when they start to talk, you say, "I am not saying that at all." You are getting a reasoning off the revelation. You have to get *the* revelation, not a reasoning off the revelation.

I just want to break into something here to read for you. This was about a scientist, a New Zealand

scientist. You know, these scientists get together. This one was from, I think, up in the Scandinavian countries, and this man, he talked about what he had witnessed in Tibet. And this was the place we wanted to go – among the lamas.

You see, some of this, Sammy, that knowledge wasn't by chance because that was preplanned. We knew where the buck stopped with a lot of that knowledge, because the Seals in the Book weren't opened, but we knew what existed and what was there.

They have all the drawings for it. I am sorry I didn't get a graph or something to show you the drawing on the screen. I have the drawings that the man used when he witnessed this thing. He had gone to Tibet, him and his friend, and he was able to... I'm trying to just pre-say a little part instead of reading the whole article because I'm watching the time. He had learnt a lot of things that other foreigners, they said, had no chance to hear about or to observe.

One day his friend took him into the neighborhood of the monastery. And this is a scientist, a recognized scientist, who had spoken these things that they saw. Because I knew this previously; I had come across this article. I'm using this article as something you can research and see for yourself and hear about it. But I am not dealing with the article so much because that's why I am preaching out of the Bible and the Message and making an application.

You know, I'm giving you this because this is like something real because most people, whenever they talk about the power of sound, scientists go back to the Book of Joshua, how sound took this whole wall down. Then when I look at this same Scripture, which we preached on so many times, of Acts 16, I could see the same principles and the same God. Because again, the earthquake came to the foundation. And it was not a normal earthquake that shook a building or brought

cracks in the building; it was an earthquake that took bands off of prisoners and opened prison doors.

When you understand God wants to open prison doors and says, “You can’t lock up My people” and “You, with your science, can’t build anything to hold My people,” is what God is saying. And God did that before in the Bible with Daniel and the Hebrew boys. So that’s why I’m showing you a God here, Who comes to man when, to intimidate people, they said, “Do you know what is going on here? Heat it seven times hot today.” They said that even the men carrying them in, they got consumed. They kind of went on the extreme to put fear, to get everybody to bow to the image.

I’m saying this consciously too. *The Beginning And Ending Of The Gentile Dispensation*, these things we’ve preached. And Babylon conquered the world and set up the false worship, which we are in that Hour of Revelation 13. And Jezebel and Ahab, their methods and their science that they are using, is why I am preaching all of this in the background of this too.

So when the man now got exposed to some of this and... He said one day his friend took him to a place in the neighborhood, (one of the lamas was his friend) of the monastery and showed him...

You see, Sammy and I used to be in metaphysics. You would not understand half of this because you all grew up around church or maybe in the world and didn’t seek this kind of knowledge. But we spent a couple of years well [many years -Ed.] in these things, and that is why I have that attraction for these things and especially now with the Book open.

In one of the rock walls at a height of about two hundred and fifty meters, was a big hole which looked like the entrance to a cave. In front of this hole, there was a platform on which the monks were building a rock wall. The only access to this platform was from the top of the cliff...

If you know Tibetan landscapes, it's huge mountains. That is where the Himalayas and these places are.

...and the monks lower themselves down with the help of these ropes.

They are building something, but in this construction now, they are going to lift all these stones by levitation of sound. When I read this, I understood... And that's why I am using and saying, God was confounding the wise with their wisdom, when He brought down the wall of Jericho. It's like they put up this for defense to keep everybody out. God said, "I'll show you how easy I could take down that because your wisdom is foolishness to Me. My foolish things will take that down."

When they built their maximum security prison and took God's anointed, ("Touch not My anointed; do My prophets no harm") and they took His anointed, they whipped them, they beat them, they humiliated them and they threw them inside of there, God started to anoint them to sing and pray. And they started to go under the leadership of the Spirit, singing and praying, and that triggered the earthquake. And they were inside the inner prison and the very foundation they were under, was under them. Do you understand what I am saying? And the prison doors opened and the chains fell to the ground. When they came, they saw every prison door open, every chain fell off but the prisoners were still here. The man was going to kill himself and Paul said, "We are all here."

In other words, God got His message over. "Did you think you could hold them? No, if I be for them, who can be against them? And if you think you can hold them and humiliate them, you can't do that to them."

When they put the Hebrew boys there, God said, "Do you think you all are the majority and you all can do what you want? I'll show you that you all have the whole world but My Elect, don't you touch them; not My anointed. Do them no harm." And God stepped into the fire with them and cooled that fire and showed: "Do

you want to burn? Burn. Heat it seven more times; I'll show you it can't get hotter because I have something to neutralize the heat and take the heat out of the fire." Do you understand?

Then they got those lions with that kind of roar and wanted to terrify and paralyze people and God was showing "That can't touch not one of them." Afterwards they came, they saw Daniel, those lions were licking him. He was like he was playing with them like kittens.

The king came, "Oh, Daniel."

He said, "Relax, king." He said, "The Angel of God was here this night; everything is okay."

You see? What was it? The same God Who made that lion, Who Himself is the Lion of Judah, the real Lion, came down inside there. Because Daniel was from Judah. They were the royal seed from the royal house. And the Lion of Judah Himself came down and all those natural lions got calm when they saw the Lion of Judah Himself come down there.

Now, I am going into something here, which I don't even have time today unless you let me go. [Bro. Vin laughs – Ed.] Revelation 10, the Creator was coming down with the Title Deed. The Book was back in the hands of the Creator because Satan could never take that Book. It went back in the hands of God, and now He's coming down with It for the living descendants. But to come down now, He clothed Himself with a Cloud, with a Rainbow on His head, face like the sun, feet like pillars of fire and He cried with a loud voice and Seven Thunders uttered their voices.

That is what came down in this Day. That is the Seventh Seal. That is what we're in. That Book that was going to be handed is inside of us. That is what we ate, we who talk about Revelation 10:8-11: "I ate the Book." We who say we are the living sons of God, the manifested sons, that is us we're talking about.

Revelation 4, the Church caught up into Heaven saw, what? The Throne. And what was around that Throne,

was a Rainbow around the Throne. Now a rainbow has seven colors. White light through a prism breaks up into seven colors, from red to violet. Do you understand that? Light, white light, there is a seven-fold mystery of this light. This is the Light that came back.

Each Age produced a ray: Paul, Irenaeus, Martin – red, orange, yellow, blue. But when you come back to the Pyramid at the top, it comes back. And this Light that has come back, is all those Seven Mysteries that became one Mystery, Christ, the Person Himself, to be reproduced in human beings – the Third Pull – Christ in you, the Hope of Glory; this great Glory.

Then this Rainbow which came from Light and Seven Thunders uttered their voices, (He cried with a loud voice as when a lion roareth,) this is the Creator Who came down and put one foot on the land and one foot on the sea with the Title Deed claiming back (footprints are possession) everything with that loud roar. That's this Message. Seven Thunders will do what? Show us how to prepare. It will gather the Bride, show us how to prepare for Rapturing Faith, that gives us faith to be changed. These Divinely revealed Mystery-Truths, these Secrets are locked up in this white Light.

There's a connection between light and sound because God is Light and God is the Word, and when He speaks, His Word manifested, is the Light Itself.

Now, music has seven notes and for every note, there's a color that goes with that note. With that note there is a certain frequency; there's a certain color. And there are Seven Voices, Seven Seals that hold this Mystery of Christ.

Now, this God Who is Light, "This is the Light," John said, "that was from the beginning"; that, "God is Light and in Him there is no darkness." This is the Creator and by His Word, the worlds were framed by the Word of God. When the Word is in operation, when this God, Who is Light Himself comes and breaks up Himself, like in the upper room, the Logos, and then portions of this

went, you become, “You are the Light of the world.” You are the Pyramid City; a Pyramid City having the Glory of God.

A man coming up, growing up in the Stature, is the Light for this Day. You are children of Light. You are not of the night. You are not of darkness. We once were darkness but by the New Birth, now are you Light. That Gene of God, part of Eternal Life, that is part of the Light in you – the Word predestinated to the Word written for the Hour. That’s why only the Bride, the Word Herself can take the Word Itself and reveal the Mystery of that Word because everything is not written there; it is predestinated in Eternal Life.

You see, going to Arizona was not written in Revelation 10, but the man who was born to fulfill that, his birth was pointing him Westward; from birth. “You will never be successful in the East; you have to go West.” When the Angel came on the river, It went West. Everything was going West. When six dreams came, he was going West. Where? Sunset Mountain – evening light, in the West, the setting of the sun. A preplanned life holding the Secrets of God.

When these people got together... In other words, they had the Gene of God. They had something that linked them back with the omniscient God. They were never out of connection with God. God always knew where they were every time; every place.

Psalms 139, I read the other night: “Though I make my bed in hell, though I do this, though I go here; though I try to flee from Your Presence.” Why? When that Gene is quickened, now you start to operate on a conscious level. Before you have it, He’s connected with you. He’s seeing everywhere you’re moving but you do not know you’re connected with Him and you do not know you are being monitored by everything you do; you’re under His Divine guidance.

That’s why when death comes and you are in your foolish ways going to death, He steps down there. You

are going here and He... You could reach a junction, He will show you, "I was protecting you. I was watching over you. I was keeping you in the way because I sent you on the earth for a purpose." The same way the Prophet tried to shoot himself and these things, not knowing. You see?

This light and this sound, that voice... When I heard that voice on the tape, that was the thing. As I used to tell you, go back to the message again *Looking To The Unseen*. [1958-1003 - Looking At The Unseen -Ed.] When I heard the voice, I was on my road to the Himalayan Mountains in Tibet where I was reading these things here. Something in me from the inside, not from me here [the mind -Ed.], said, "That man is talking to God. That's a Prophet."

If that was a jokey [comical -Ed.] thing, do you think forty years after I would have been standing here with this kind of faith? Do you think I would have come through one straight line of continuity and that Word has been unfolding for forty years, if that was a joke? And you've heard me saying that from the earliest of days when I'm in the Message? Why? Because that Influence is there. You were born with that Influence.

That's why my way of preaching the Message is a strange way. Hear my kind of preaching. Hear how I'm preaching. I am trying to show you they have things, what the military, the U.S. military and all other militaries in the world, are using now in warfare. I want to get to my Scripture, in 2nd Kings where I was speaking there in the room, and show you how they are going back in the Bible because they know in the Bible, there is power. There is all kinds of power unleashed. They know the Bible is true. They know the Bible is ancient wisdom. Why? Many of the things...

When Bro. Branham came in this Day, do you think Bro. Branham... The Church missed Bro. Branham but the scientists and the military knew him. He opened doors they were trying to unlock and couldn't unlock on

time travel. He said, "I am fifty years old." When they questioned those people: "Yes, that happened."

You yourself see that on the film. But if you don't have the perception you don't pick it up. I might be preaching and pointing it out to you. But he said, "Lady, you are getting younger before me." When the message is finished, do you know what you remember? "Look how that man knew people's names and things" and that is a phenomena and you're done with that. It's like, "I go back..."

Do you mean God has that recorded somewhere? When I say it, do you hear how I say it? Access to a database is what I use, to give you the modern language to show, no, it's pre-recorded: past, present and future; pre-recorded. Then that means preplanned life. How do you act out this?

Then the Angel said, "Your thoughts speak louder in Heaven than your words on earth." Thoughts give a vibration. For that to be, it has to give a vibration. Thoughts give a vibration. Bro. Branham said, "The Angels standing there, even your very thoughts are not hidden from them."

Okay, let me show you. When he stood there, he said, "Lady, you were just praying, 'Have that man to call me.' Are those things right?" Silent prayer in the heart. The One Who gave him the knowledge, the One Who told him, "The thoughts speak louder in Heaven," was here telling that woman exactly what she was just praying a little while ago. That is the same One Who said, "Why did Sarah laugh?" The Bible explicitly tells you she laughed within herself; not a sound.

What did he say? "Don't think that." He said, "It's like a wave coming and I feel it." Those thoughts are waves. What do you think silent prayer and meditation are? Do you think that is less powerful? That is more powerful than loud prayers many times. We are fearfully and wonderfully made. This is something. This is something.

We want to live our life just normal and just go along, and that is only because of the unconsciousness that you are the soul. When you know you are the soul in that body, you become more taken up with the soul than the body. But when you don't know you are the soul, you get more taken up with your body, the part that is going back to dust; the part that you are going to drop off and never know yourself, the real 'you'.

So they noticed how this was being done and the man saw these big stones going up like that. But what the scientist noticed was, the priests and they stood with the trumpets, just like in the Bible, and they stood in geometrical formation, and then they were playing now this music, certain notes they were playing, and all of a sudden after a while when the whole atmosphere got a certain way, they saw those big stones started to do so [go up -Ed.] and they were just bringing stones and the stones were going up and they were putting them into place. This is a Western scientist who observed hidden mysteries from the East.

When Bro. Branham went East, he said, "I saw men write a Scripture verse with their eye on a beam of steel." Is that possible? He said, "I saw men levitate." He said, "I saw men walk on red, hot coals and there was not a scorch or anything on their feet." He said, "I saw men lay on a bed of sharp nails." It's in the Message. Get your computer and find it. You say, "Well, that is the Devil." Did he invent that? If the Devil does that, what does God do then? Then you should believe God did this, because this one is in God's Word, what God did, if the Devil does that.

Again, I am showing you the wisdom how when God is coming in war... Like man today they have their surveillance system and they are tracking every phone call, every email, everything here. They have listening devices, they are monitoring people, all kinds of things going on. They are building dossiers on people. They are infiltrating places. It's the world today! But they

are only doing what God already does because their own are so unsophisticated to God's. God monitors their thoughts too. They might get a recording of a man's voice, and say, "You said this." "On that day," He said, "even your thoughts." God will say, "You were thinking this."

What did Jesus say when He came? He said, "You say if a man... Thou shalt not kill." He said, "I say if you hate somebody in your heart, you killed already." As a man thinketh in his heart. He said, "Long ago science used to say a man doesn't think with his heart, he thinks with his head, until they found a place in there, a little vacuum, so small, where the spirit, that soul is in a man." You are fearfully and wonderfully made.

They saw... So he said: *The fact that the films...*

The man filmed this; made two films of it. He made two copies. This is the mind... And he took it back to Harvard, in the University, the big University where all these people do their research and their science because they want now, when they see...

Look all this Eastern thing came, this herbalist and all these different things come now, all these special potent drinks that they have. They say this kind of drink here, you know, some special wild berry from the Himalayas.

One time, Bro. Steve [Walters -Ed.] and they gave me some; it really helped me too. I don't know why I said this; the supply kind of ran out. [Bro. Vin laughs -Ed.] Goji berry or something they call it, you know. But the thing is, now they have their stem cell business. Right? They have all kinds of different things.

Now watch. They are discovering that there are things that these people have ancient mysteries that the West does not know and the West now, clamped down... Look how the acupuncture that the Chinese have, this thing was so advanced to Western thinking, they can't

even understand how that could be true. Now they have to accept that.

Long ago when these old Amerindians people took these worms and things and put them to... When people had certain types of things, they put some of these insects and they started to eat inside there and kept the thing clean, they started to realize, "That looks strange." But then they started to realize now, these people discovered things far beyond what their medicine could.

When Doctor Odongo, who died now, who used to be here, and when the man drank the gramoxone [herbicide – Ed.] and the man was dying, and quickly he ran and got some mud and made a thing and put it down the man's throat and saved the man's life, the doctors came and they got rid of him because that was not conventional medicine. The man is alive, but they threw him out, when all their medicines they had couldn't do anything for the man at that stage.

Do you understand what I am saying? This is denomination. They are dead as a doornail! Woman in shorts, smoking, preacher married three and four times, deacon married six and seven times, woman preaching and all kinds of different things! When the Word came and operated, they rejected that to hold on to what they have and tried to kill This and suppress This. Understand. They don't want This; they want to stay in their superstition. It's normal.

The given measurements are transposed into their geometric equivalent. It becomes evident that the monks in Tibet are fully conversant, [this is the scientist now, Western scientist,] with the laws governing the structure of matter which the scientists in the modern day western world are now frantically exploring.

He himself is a scientist. He said, "They are now trying to explore this, but these people have these things ancient." Remember that is so ancient; that is what Enoch and they built the pyramid with; lift up

those stones quite up there. They knew geometrical science that they can't even work out their mathematics today; they can't build that today.

It then becomes evident... [You see?] It becomes evident that the monks are fully conversant with the laws governing the structure of matter.

Look at these places, Stonehenge and this place on Easter Island in Chile, and Machu Picchu. When they saw where Machu Picchu is, they said, "How on earth could they build a city? And look at the size of those stones." They have stones cut out in some place there somewhere close to Russia. They said, when they saw the size of these things, they wanted to know, "How on earth... Where did these things come from? There is no near mountain around here. How did this reach here? They have no mechanical thing to bring and transport this here."

Satan locked up man in Satan's Eden, you know; kills them with movies, kills them with sports, kills them with pornography, kills them with all kinds of different things that they don't know anything about God. He killed them with all kinds of different religions and preachers, denominations, and they know nothing of the Supernatural, nothing to do with the laws of God, nothing of the Word of God, yet everybody is religious.

It appears from the calculations that the prayers being chanted by the monks did not have a direct bearing on the fact that the stones were levitated from the ground.

See, he's not religious so he is thinking that way. If he knew the Bible Scripture, which I was quoting here, he would know Paul and they were fully conversant, what they were chanting in those prayers in that prison, brought that thing and shook that whole place down; what Joshua and they with that shout and what they were playing on that trumpet.

That is what they are now exploring with the elephants and them, how they could hear that. Well, just watch the size of the elephant's ear alone. They are

telling you, “With an elephant’s memory, an elephant will remember things for forty or fifty years.” If you do something to an elephant and he sees you, there is something in that memory, he will bring you right back there and start to chase you or something, if you are an enemy to him. No, that’s serious.

They discovered these things in the creation. Now remember, the Creator designed every one of His creatures. The same way there are all different species of animals who have different talents operating in different ways, when you come in the Body of Christ, this is the kind of Body the Body is.

We have plenty of singers, all are not the same. Certain singers move you more than some, because they sing certain types of songs. Others have a certain type of voice that moves you in one way and the next one moves you in another way. What causes that? You don’t know. It just gets you happy. One time you get happy and shout. When Maria [Allert -Ed.] sings and she goes into an overdrive and gets in that tone, it is something else. When Sophia [Shepherd -Ed.] sings, she goes on a next side. When Grace and Meda [Ellis -Ed.] and they sing, they go on one side. When the boys and they sing and they go in another vein, it moves you in different ways.

Now you are not thinking about the sound and the effect of the sound on you and how you are responding to certain types of songs, and then with the music too. You, in the ignorant realm, will say, “I like this,” or “I prefer this,” or “I find this.” Because something in you, you don’t like to be moved in a certain way, because you are losing control of yourself and you fear you lose control, so you want to keep yourself under control. But if you only let God move you a little bit, your prison doors will open up and your chains will fall off of you.

Sometimes when they are singing those songs, the Anointing comes in a certain—there is a certain tone, there is a certain emphasis, there is a certain way it is

delivered. Do you understand? Sometimes it is the right day when the congregation is set right. Do you understand? Because even in the congregation, you have good balance. It's like an equalizer here, you know.

Sometimes this one is only pulling here and pulling here, but sometimes when the Spirit comes and moves, you see it evenly distributed. The Pillar of Fire moves through all the pieces and It is moving through the right side, and the left side, and It is moving over here, and It is moving over here and It is moving. Sometimes where the faith is here and the rest is sleeping, (boom!) you see the Fire is moving just in a little circle right inside of there. You see Lisa and they get up and start to shout and scream a little bit. Do you understand? That is dynamics in the service. You do not understand that because when you sit down there, you are just watching a service; it's just a service. But this now is to raise your level of awareness, why things move in a certain way.

Again, sometimes the people come and they don't feel to do it that day. Sometimes musicians come and they're really not into it, and play more by memory than in the Spirit. Do you understand? It happens! It happens. We are human beings. You are tired, you worked hard, your mind, you are coming to take a relax and then you have to go and play; you thought somebody else would be playing this evening. You come to preach; you thought somebody else will be preaching. So, it happens.

When we can get in that way and the Spirit can move through us, because all of us have components inside of us to allow God to move. If we are an Assembly, we are cell upon cell, upon cell, upon cell. It's a Word constructed. If the Assembly is under a Divine administration and set in order, and you have offices and gifts and things in their place and in the channel, then you're going to find that the Spirit can be

distributed and move and operate with greater effectiveness than when you have disorder and chaos and people out of their position. Of course! This is why God showed the order in Heaven; came and established it on earth. Why? To operate with these people in the Supernatural all the way into the promise.

Just let me hit the other Scripture and close. I wouldn't get there until I get about two hours, so let me hit this last Scripture and we'll close with this. 2nd Kings 6. I'll close with that for the day. Oh, I tell you, this is a world, but I love this world, this Word-world. I love this atmosphere where the Spirit is just breaking and the Word can make us think on a different level coming to the Intelligence of God; the Intelligence of God coming down into us.

2nd Kings 6, verse 8. Now you know the story here. It was a time of great famine. There was a siege that was laid around the place; how they created famine. I preached for you a couple of times on that, on how famine could be created by the military; how this was a man-made famine. They laid a siege and they cut off the people, like in the time of Titus; like the Babylonian power is doing again. All of these are types for this Day. This is in the time of Elisha. This is in the days after Elijah. This is where we're seeing the Holy Spirit working through His Bride in continuity to the prophet.

Verse 8:

⁸ Then the king of Syria...

2nd Kings 6, verse 8:

⁸ Then the king of Syria warred against Israel, and took counsel with his servants, saying, In such and such a place shall be my camp.

⁹ And the man of God sent unto the king of Israel, saying, Beware that thou pass not such a place; for thither the Syrians are come down.

Just now. I didn't want to go there. I wanted 2nd Kings 7, sorry. That first part was dimensions. That was to reveal communication and dimensions, how he said, "Lord, open the boy's eyes," and you know they saw that they were in a world in the midst of a world. A parallel universe around them was full of angels in chariots of fire. But this one is what I want, 2nd Kings 7, verse 1.

You see, when you go from chapter 6 into chapter 7, chapter 6 opens up dimensions and angelic beings and the unseen world, how it's right in the midst of the visible world, and 7 deals with the influence of soundwaves in the body and the human mind; the human spirit.

What God is doing here in these Scriptures, you can see, every act that God performs or does is with a certain intelligence, and every act, there is a situation that necessitated God to operate in that manner or allow God to display certain things that will have relevance to us in the world when this Book is opened. Again, I want to show you how the military is using these things as well. They know there is a power in sound, to destroy. They are already making these weapons.

I was telling you about the pirates on the boat, and when they turned this thing on, it started to blow these people's eardrums, and they disarmed all of them, and they stopped the whole thing, because they could not advance because that sound, they had it in a direct line straight to them that it started to bring all kinds of nauseating feelings and everything. This is what they're developing now and they are using it for all these crowd control; all these riots. When they are stirring a lot of these riots and these people, getting them out there and so on, a lot of these methods are being employed.

This is manipulation of the human mind to the highest because people are so susceptible, they are not perceptive to what is happening around them; they are

just getting certain feelings in an environment where these things are being transmitted. Because remember, these things, you are not seeing with the eyes, you are not smelling this with your nose; you are not even hearing this with your ear. That is why the manipulation becomes so deceptive that it's like an hidden enemy, like where the Bible shows the beast in the water. The water is moving up, but then when you look, it was a beast that came out of that water that was in that water, and showed how the water is the people, but there are powers in that water manipulating the people. This is what society is being done to, today. All this Arab Spring... *Cyber Warfare And The Fall Of Egypt* [2011-0227 -Ed.], remember my message on that, and I showed you those things, how they do these things.

¹ Then Elisha said, Hear ye the word of the LORD...

This was after he had prophesied that there was going to be a famine, a change in the economy, and the man laughed and ridiculed him.

...Thus saith the LORD, To morrow about this time shall a measure of fine flour be sold for a shekel, and two measures of barley for a shekel, in the gate of Samaria.

You talk about famine. Dove's dung was being sold for so many pieces of silver and an ass' head was so much money. Remember the message on that. So he is talking this and saying, "By tomorrow this time," he said, "fine flour will be sold for a shekel." In other words, where is all this food coming from? What is going to bring this change in the economy? Watch God, okay.

Now remember, Scripture, when you see things like this in the Bible, God is showing a power among His people in the Bride. Elijah and Elisha are Christ and the Bride. Just like the first Exodus is a parallel of Joshua and them, and I showed you that in Ephesians, in the Book of Acts, because Jesus was the Moses; the

Holy Ghost was Joshua. Of course! Then you come here and see now, Elijah and Elisha are the same. We're in a day like Ahab and Jezebel; that history has repeated again in these last days. You know that. This is just before the destruction of Jezebel. In 2nd Kings 9, Jezebel is destroyed. This is 2nd Kings 7.

Do you know we are living close to that? Do you know Elijah has already come and repaired the altar at the evening sacrifice? Do you know your hearts are turned back? Do you know the Spirit of Elijah doth rest on Elisha? Do you know the Spirit and the Bride say, "Come," and the Prophet has gone off the scene, the Elijah Prophet who turned the hearts back? Of course! Do you know man is creating famine on the earth today, falsifying the balances by deceit; making the shekel great and the ephah small? Of course!

*² Then a lord on whose hand the king
leaned answered the man of God, and said,
Behold, if the LORD would make windows in
heaven, might this thing be?*

See? Sarcastic. He heard the prophecy and he laughed and he ridiculed the prophecy because he leaned on king Jehoram, Ahab's son. Do you know this is Ahab's son, there? [Bro. Vin indicates the U.S.A -Ed.] Of course! Democrat united with Jezebel – Ahab and Jezebel. Yeah, you know the Bible.

He [Barack Obama - U.S President -Ed.] went and saw the Pope just recently here. Remember when we started with the new evangelism and I showed you Mr. Putin [Vladimir Putin - President of Russia -Ed.] went, I showed you Mr. Netanyahu [Benjamin Netanyahu - Prime Minister of Israel -Ed.] went; I showed you Mr. Biden the Vice President [of the U.S.A -Ed.] went, who is Catholic? And then this one went. Is Israel in the Bible – Last Day prophecy? Is America in the Bible – Last Day prophecy? Is Russia in the Bible – Last Day prophecy? Is Russia going to put a bomb on America and the Vatican? Watch and see.

³ And there were four leprous men...

² *...And [Elisha] said, Behold, thou shalt see it with thine eyes, but shalt not eat thereof.*

³ *And there were four leprous men at the entering in of the gate: and they said one to another, Why sit we here until we die?*

⁴ *If we say, We will enter into the city, then the famine is in the city, and we shall die there...*

These were four leprous men, right? They were hungry. Now look how God is going to use a hungry belly. This deliverance is starting in a hungry man's belly and the man has to choose death. "We sit here and die. In the city there is nothing, but among the Syrians out here, there is food. If we go in there, we're going to die of hunger. If we go over there and they see us, because we are not Syrians, they are going to kill us. Well, we are going to die anyhow; we'll just have to take it. But if they offer us some food, at least we're going to get our bellies full and then die."

So they calculated... There were not many options, but when they calculated it, the hunger was the thing that was moving them and they were thinking right now about some food in the stomach, so they decided, "Let us go where the food is." Hunger isn't too bad after all. Hunger isn't too bad after all. Sometimes you get a little hungry, but hunger could lead you to become a great blessing for many others, as we will see.

...Now therefore come, and let us fall unto the host of the Syrians: if they save us alive, we shall live; and if they kill us, we shall but die.

⁵ *And they rose up in the twilight, to go unto the camp of the Syrians: and when they were come to the uttermost part of the camp of Syria, behold, there was no man there.*

All these camps for all these months, all these military... You know, when they are going to set up a siege, it is not just people outside. They have their tents, they have their place where they are cooking and eating, they have their cooks, they have their military installations where they are controlling all people who are coming into the city and moving them: "You can't come in here," and they garrison the city and they take full control that nothing can come in, nothing can go out, because the plan and the objective is to starve these people out. By that, they withhold trade; they use up what food they have. That starts to bring crime. That starts to bring famine and hunger.

In the story, it tells you, people were eating babies. Two women said, "I will eat my baby tonight; we will eat your baby the next night." When the next night came, after they ate the first baby, the other woman ran with her child. She went to the king saying, "Just look what is going on."

They turned to cannibalism through the famine. They lost all sense of morality, virtue; ethics. Hunger makes people do that. Hunger makes people go into prostitution; woman lose their virtue, everything, trying to survive. This is a tactic. Now catch this.

Why is that so? Because of how we are made; how we are made. Man knows the human body. You need food and water. And so, they know, "That is a place, if we withhold that from you, you'll go berserk after a little while. And we could speed up that by bombarding your mind with certain kinds of soundwaves, certain kinds of music; strap it on, on you and different things; bring certain things to irritate you; bring things to create fear and panic." Why? Because your knowledge, your reasoning...

Like I told you, if they take you and they hide you somewhere, and they are playing certain noises, and you are hearing a donkey make a noise and you hear a cow, you say, "Uh huh! I'm by a farm. I'm by a farm."

No. They are playing a tape for you and you got disoriented. And you know there are only three places with farms: one in the back here in Carlsen Field [Place in Trinidad -Ed.], there is another place; in different places they have their farms. The Ministry of Agriculture, they gave out lands for farming in certain areas.

So you say, “Uh, huh! I have to be in one of those places. Since we didn’t go in that direction and I didn’t smell the refinery going down south, on Erin’s [Place in Trinidad -Ed.] side where they have the other farms, I know maybe I am in the one by Carlsen Field.” You feel you are there because they have truck noises and everything playing; recorded.

Do you know when Israel went back, in the early days before... When they were going back to their homeland and few were going back (this was like in the thirties and so when they were going back), and then the Arabs and they started to come against them and they set up their little kibbutz areas. [A collective community, traditionally based on agriculture -Ed.] And sometimes the Arabs and they now saw the Jews came back to resettle in this land and they wanted to claim the lands, the Arabs and they started to fight them off and tried to run them and intimidate them because they were in small numbers. Because it was the Holocaust that drove back the whole big set.

Well, when that was going on there, sometimes now, they were coming against a kibbutz. They maybe had one rifle, three or four rounds of ammunition and these people were armed to the teeth. They realized, “What are we going to do?” So they went into psychological warfare. They got microphones and speakers and they got now—they started to play things, you know like laughter and talking and things, so people would think there were thousands of people there. They say, “What! You can’t charge that kibbutz like that. There are a lot of people up there.” They have lights on and all kinds of different things, you know.

Then now they have one or two guns and they amplified that sound and when they shot off something, now it's like, "What? It's a bunch that has a lot of weapons," because their enemies have never been inside the kibbutz yet. But they're using this sound now to carry their minds in a next realm because since they can't see, they have to imagine. And so, they got into the spirit realm of them because they are too far to see with the physical eye or binoculars. They can't see inside of there, so now, they are using a mind game on them.

Now if a human being wasn't designed with reasoning, conscience, memory, affection and imagination, you would not have any problems, you know. One of your biggest troubles you get, that fights you, is memory. And there are certain things that trigger that memory. Can people trigger that memory? Can music trigger that memory? A lot of things can bring back scenes in your life where you had some bad faults or mistakes; pictures of a person that used to give you trouble, that shows back up. Do you understand what I am saying? Or imagination: Satan gets there now and starts to use the memories now in a time when you are kind of lonely and different things. Next thing, it's a big fight to walk back down memory lane. Because of how...

The thought I am bringing is, because of how you are designed, (temptation and trials,) you can be tempted. You don't have to be... Temptation is not just like the woman with Joseph, who took off her clothes and was trying to force him into an act. Temptation can just be in the mind: a feeling, a song; certain types of things arousing you.

You are sleeping in a room and next thing somebody is playing some kind of erotic songs on a tape and you say, "Oh God! What is going on in that next room?" Now, you are getting all kinds... You are tormented.

When you walk in, it's an empty place and somebody just has a record there just going around and around.

To put it in a next term: you are somewhere in the dark and you hear a growl [Bro. Vin makes a growling sound -Ed.] that sounds like a wild beast, and then you want to use the toilet or something and it's an outhouse, you are not going out there. [Congregation laughs -Ed.] Why? That sound—because you can't tell if it's a live thing or it isn't real. All you could identify with that sound is a wild beast. And you go out there and something has two little lights, close together like this so, looking kind of red in the dark and these two lights are like that.

Now, that is why Satan can manipulate people. And in their torture and these things, when they are torturing people, you have to get in a position consciously to hold yourself and resist that, because you are conscious, the method that is being used is to break you; to disorientate you first to make you lose control of your senses.

That is why faith is a powerful thing, because reasoning doesn't govern you, it doesn't control... Faith will have the power to bring all the senses, that it doesn't matter what the enemy tries to come with, faith will hold you steady. By faith they were tortured not accepting deliverance! And out of weakness, they were made strong, by faith!

Now the direction where we are heading to, we have to pass through some of these waters. That is why the Prophet said, "Get tied to the Absolute because we will be sailing through some of the most treacherous waters." And they have all the mind thing, because they have experimented with all of this already. People will give up people. Let me tell you, many of you sitting down here without the Holy Ghost, will give up people to save your own skin. You can't help it because you never lived where you came into faith; you never lived where you had a conviction and a passion, and your identification was shallow.

That's why when God told Moses, He said, "Separate yourself, let me kill this whole bunch of rebels; I'll raise up a greater church than this," Moses threw himself in the gap, and he said, "Take me first." God was tempting Moses there, you know. God wanted to bring out something like when He told Abraham, "Go and offer your son." God was doing that so we in this Age could look back and see, that man's identification wasn't a shallow thing and that man was thinking more of God's Name and not fame. He gave up all the world already. Watch Balaam, the first little sign he got, he was running after Balak to curse God's people for money; seeing vision and things too. Do you understand what I am saying?

Now this is because of how we are made up. If you weren't made up how you are made up, and you were made up like a robot, you would have had no temptations; you would have no trials. But God made you up with the sight, you can't see certain things, yet the inside...

That is why many of you get moved. Now you do not know people move you, you know. Somebody kind of holds your hand and starts to get in that infrasound, that low voice, and that phone in the night and say, "Girl, you don't know." [Congregation explodes with laughter -Ed.] This is here, you see? I am saying, you know, how a lot of people get moved by the same sound, and the same soundwaves. Because somebody lies down there in that bed with that phone and says, "But you don't know what I am going through." And he gets in those low tones and that kind of painful, groaning tones, like, "I am in torment here because you're not here with me."

You are committing suicide and that person is committing suicide. Both of you all are messing up yourselves, spiritual suicide, because you don't understand the laws; you don't understand the laws. You don't understand how you are made up, that you're

putting yourself under your own temptation. You are creating your own trials for yourself.

That is like a person got a rope and saying, “How does it feel to hang with a rope?” And they put it on their neck and they jump off and they are swinging, and then their eyes start to bulge out, then their Adam’s apple wants to burst and then that pressure like their head wants to explode. Now the same way somebody is doing that, is what you are doing because you don’t understand how you’re made up and you are keeping yourself weak and you’re keeping yourself under temptation where you’ve become very vulnerable.

When you get into the Word, your soul is planted by the rivers of water and you start to take in the Word, and you start to understand the enemy. You have to understand where you have to be positioned in the realm of the soul – you. That is the man who has to be the boss in the house and he is the one marshaling the forces, and he has to bring the body and the spirit under his control by using the Word, and seeing himself the way God shows him in the Word.

When he comes out of that, he is just a human being: a man full of passions; a woman full of passions. You had to be made that way for temptation, and the world had to be designed with the things to stimulate the eye; stimulate the emotions. If it didn’t have things in the world to stimulate the emotions and the eyes, then you still wouldn’t be tempted. Do you understand what I am saying?

It comes like you go in a convent with all the nuns there, or you go maybe in a Muslim place there, where the women’s heads are covered, feet are covered, long sleeves, everything, and you go by the beach, where do you feel you will get more temptation? Do you understand what I am saying? Of course!

Well, this is the thing. We are made in a certain way, but we are put here to overcome. We are being trained in the Word to know the laws of the Word by experience,

to learn how to operate in the Word, to know our strengths in the Word, to know what really fortifies; not church.

That is why, you see, sometimes... Do you know how many people are calling me recently to talk? I can't step down from this place. Let me say it in a nice way: see one of the Ministers because right now the things God is transmitting and where God has me, I don't even want to come to church if I don't have to. I want to stay alone with God, because it's things, forty years in my life I'm waiting for, I'm seeing, I'm seeing in part, and it started to come and I start to think on a next level and the Word started to open in places. When I see that now, I'm seeing something breaking. Something is breaking. And this is to take the church into the next step. And at that time... Not even my wife... I locked the door; she's outside.

Sometimes she says, "You locked me out."

I said, "I didn't really lock you out."

It is not just thoughts. It is thoughts opening certain things. You see, I have never changed from mortal to immortality yet and this was what was put in my hands as a Minister. Do you think I want to get up here and just preach baby food every day, that can't even make you overcome here much more to change, and God gave me a spot and a space where I can preach to the world? That's why when I come, I just can't focus on you. Maybe I might preach a service and you might get ten percent, and you have Ministers around the world catching things for their congregations. Do you understand what I am saying?

I have to be conscious, because when certain things are coming, it's not the ordinary things that you go and open the Bible and see. Your mind has to be made up in a certain way to think on a certain plain. Now, I'm not trying to say this to make myself sound spiritual, but the thing is, when you listen to the Word that has been preached in the last—from *Jerusalem Which Is*

Above And The Israel Of God [2014-0202 -Ed.] to, *We Shall Bear The Image Of The Heavenly* [2014-0323 -Ed.], here last Sunday, and then coming here on Wednesday night, *We Are Fearfully And Wonderfully Made* [2014-0326 -Ed.], and then speaking, "THE MYSTERY OF SOUND AND LIGHT", that I can't even get close to there. But this is the Scripture right here. This is it right here. Verse 6.

When they went, no Syrians were there; no army was there. Tent, money, gold, silver, food, everything was there and the place was vacant. People were running for their lives, armed soldiers, armed to their teeth. What could bring that kind of fear on an army who starved a city out for months; had them eating dove's dung and asses heads? And then now, four lepers, to show you the condition, they were outside the city and they know people's condition in the city. People were eating their children inside of there already and they couldn't go into the city because they were lepers. They would stone them if they were coming through there. They had to come: "Unclean, unclean."

Then they said, "We can't go in there and we're going to die because we're starving; nobody gave us anything to eat. We're going unto the Syrians. Either they save us or either they kill us. That is it."

When they got there, they found the place abandoned; gone. All the riches... People left in a haste; didn't have time to take up sword, didn't have time to take up food, didn't have time to take up clothes, didn't have time to gather up their belongings, because they were camping there for months. What could have moved battle-hard men, scarred men like that? Hear what moved them! Hear what moved them. Understand.

America in the Gulf War did this, what I was explaining just now with the Jews and them and how they amplified things. Hear.

⁶ For the Lord had made the host of the Syrians to hear a noise of chariots, and a noise of horses...

Not a noise of birds, not some camels, not two or three lion noises, because those men had bows and arrows and they could shoot that lion from a distance quickly. You got those archers, whap! [Bro. Vin imitates using a bow and arrow -Ed.] They would maybe get ten arrows in that lion, if it's a lion's noise. But God knew, "This is an army." He made them to hear. He made the host of them:

...to hear a noise of chariots, and a noise of horses, even the noise of a great host...

Now watch, from hearing to reasoning. They didn't see any, (okay?) they heard. Now watch the God Who made the body, knows how to manipulate the senses of the body.

I'm now getting settled. Oh my, I'm sorry. I'm not going to continue. But the thing is, I've gotten to a place here, now I could really explain some things for you.

You see, it's this God Who did it. Now watch. God didn't have to use a mechanical device to make them hear that noise, the same way God didn't have to use a mechanical device to transmit a vision. Television was here when Adam was here. Are we going somewhere? Television was here when Elijah was here.

In the days of Elisha, all those angels were there and Gehazi couldn't see them. He said, "Lord, open the boy's eyes." His eyes were not closed like this [Bro. Vin closes his eyes -Ed.], you know. No. He gave him the spiritual perception to see the unseen. Boom! He saw angels and chariots. Well, the prophet, walking in the realm of revelation and vision, he knew this. He knew that was how Elijah walked. Elijah taught him this.

Did Elijah teach you demonology? Did Elijah teach you about ministry of Angels? Did Elijah teach you about dimensions? Did Elijah teach you where you can live conscious that the unseen world is with you all the time?

Do you see when you believe something, how different it is? See, we hear teaching, but when you get revelation, it is something else.

The Lord made them to hear this.

...even the noise of a great host: and they said one to another, Lo, the king of Israel hath hired against us the kings of the Hittites, and the kings of the Egyptians, to come upon us.

They say, “Do you know what happened? We have them clamped down, though somehow they got a message out. Somebody passed through our dragnet and got out and now mercenaries are coming and they are coming with a speed,” because they could *hear* them coming. They didn’t see anything, you know; the Lord made them to hear that.

Like I was explaining to you just now, how you are hearing a sound of something but you are not seeing it, and the reason that is having an effect on the human being, is how you are made up. You are a triune being. You are made up with senses.

So they heard it! They didn’t see an Egyptian, they didn’t see a Hittite, but the number that was sounding like... Because they know the sound of many chariots. They were an army. When they were marching, they knew the hoof-beats of those horses. They knew, “That it is not two horses that we are hearing.” They knew, “That is not two chariots that we are hearing.” Do you understand what I am saying? The Lord made them to hear a great host.

Now today you can hear airplanes or Apache helicopters. You can hear gunfire, AK 47 gunfire, or you could hear certain types of missiles being launched. When you are a military person, you know that is that kind of thing. It has that kind of boom. You know that is the sound of an Apache gunship coming before you even see it. Because you could be in the terrain. They are coming around a mountain, you are hearing it but

you can't see it. There are trees covering it; you can't see it through the trees, but you are hearing it. You don't stand up in the open and say, "Where are they? Where are they?" No! You run for cover when you are a soldier.

They say in the Gulf War, (I have it, but I'll just say it, because I don't have time to read it for you), when the final massacre was coming and the Iraqis were fleeing, they began to play, (the U.S. and they)... They were fighting a psychological warfare with a hot warfare at the same time, because you know warfare has levels. You have the propaganda warfare first, where you start to drop the leaflets and everybody says, "You are being warned. A biological bomb is about to be exploded here. You will die if you stay in here; get out." This was to create fear and dissent against the people, so people started to run for their lives. So when you get internal dissent now, the military has to shift its focus to get crowd control, and can't focus on the enemy as they should. This is strategy in warfare.

You see, sometimes we read the Word, but we need our thoughts to expand because this is an army God is frightening. These are not civilians that God was frightening. God was frightening an army. The objective was this – it was to fulfill a prophecy of the Bride that tomorrow this time, it will have this, because that was the Word that went out of Elijah's mouth. Do you understand?

When they fled with that fear, all that food remained. People who were starving now, there was such a surplus of food... Because they had planned maybe to spend the year until they killed out all those people through starvation, until they couldn't defend themselves anymore, and then they would come and take the city. Well, so it was. So this was how they worked that there among the people. The Lord made them to hear this.

They said the U.S. now, began to play loud sounds. And they had these big, big speakers and they were

sending this. And then they had their way, they were throwing the sound into regions where some of those people were running to hide, and when they were hearing, they were hearing these planes coming and they were hearing these tanks rolling in.

Now when you are a soldier and you are in a whole battalion of tanks coming in and those are modern tanks, they are blowing up buildings from a distance. When they roll in, they mash down walls, everything. This is 'shock and awe' you are talking about, and they are coming in to slaughter, because it's war and they have the enemy on the run.

Well, from the time the soldiers and they started to hear that, they said, in droves, they were running out and surrendering. And it was happening so much that they didn't even have time to be able to mobilize all those people, because there were thousands and thousands of them panicking, and it was because of what they were using and what they were hearing.

Now these people went back in the Bible and saw this. When you see this now... They don't read It like you and me, you know. Do you see how I am explaining it to you, how that works on the mind, works on the body? Because in this Age, what did we learn about the mind? You are tired. The greatest battle ever fought; the mind is the battleground. Decisions are made in the mind.

When they got up, they made a decision: "Everybody has to surrender." Do you know why? Fear influenced that decision, that they would be slaughtered. They still might have a chance to live. They would get some imprisonment. Hopefully they wouldn't get shot or something. They might put them in Guantanamo Bay and lock them up for a few years, but at least they will still be alive; their children will still be alive.

So fear... But what brought that fear? They were seeing a whole battalion—they were *hearing* a whole battalion coming in like when those planes were coming in, charging coming in, to drop those bombs, and those

tanks came rolling in, and that gunfire, and all of that now, was just acoustics. It was just acoustics. And at the levels they were transmitting it too, it was creating fear and panic within the people. But they were using sound to bring whole armies...

God used that right here. Now God will send that voice Supernaturally in the air, but today you can do that through technology. Same way we could stream here and you are seeing a vision... You watch the news around the world, in five minutes, you see Israel, Australia. You see famine here, you see earthquakes over here, you see Tsunami over here, in five minutes. You see ten countries around the world on CNN. If you have to go country by country in a plane, before you reach, that has already passed and gone and so on, but you could watch that live. Do you know why? You are like in Eternity looking back in time.

So it was when he went beyond the curtain; he could look in this earth here. And a man's lifetime is seventy years, but on that side, that is a few seconds. That is a couple of minutes. That is like when you lie down and you think you dreamt all night, and when you come out of the dream, it was for less than ten seconds, because that information is travelling at the speed of light. That is why it breaks time zones.

That is why this is breaking time zones. In one place it's Monday already. They are streaming the service from back in the past because we are in Sunday. In some places it's Saturday. They haven't come in to this time zone yet and here we are finishing up the service on Sunday.

This is where when you watch and see, God has put us in a dimension, God designed us a certain way where we could go through trials and temptations and testing and these things. And what do you have to overcome? Fear, insecurity, reasoning; imagination. This is what paralyzes your faith: doubt; unbelief. Why? You're seeing the tumor getting bigger. I'm not healed! I'm not

healed! And the doctor says, "We have to cut it off," and you give in. Why? Sight is your problem. Sight is your block that you can't move into faith.

That's why the testing here, many times people don't realize what they really have to overcome, is battles in their minds. And faith... That is why people can't get inspiration and move into faith. Inspiration is like in a second, you know. You're in a dreary situation...

Job on the ash heap for all those months, down, complaining, murmuring, going through there, trying to dig in: "God giveth and the Lord taketh away," yet in the next breath, "Shall a man live after he dies?" So and so and so here. "God is holding man in judgment" and all kinds of different things. Then the other voices now coming here. They say, "Job, you need to repent. Bro. Job, you are a good man, but God wouldn't do this," bombarding... That was soundwaves bombarding the mind. Elihu came in now, with a different tone and a different way and started to lift his spirit up a little bit.

Then God came in the whirlwind and said, "Gird up your loins." When he was on that ash heap, like in a blink on a clear day, he said he saw the lightning flash and he heard the thunder roll. Something stuck the inner man and he was off the ash heap: "I know my Redeemer liveth!" A spark out of nowhere! He caught something and held it!

Like Moses broke into that realm: "You will see the Egyptians no more!"

Then the people were always: "Moses, you brought us here to kill us."

He came right back down and said, "Lord, what do I do?"

He said, "What are you crying unto Me for?"

The Prophet said, "He had already spoken, 'You will see them no more' and he dropped back down in the realm because the cries of the people paralyzed him and pulled him back down"; voices, sounds were affecting him.

I showed you two key things here: how they are using the power of sound to move buildings, create earthquakes; soundwaves. I showed you how they are using voices, psychological warfare on the mind. God performed that because God knew... And when God did that, now that secret is out, so all they had to do, "Hey, we could do that to the enemy." They did it and it is on record; tens of thousands of people, soldiers fled and gave up everything.

Why do you get scared with a nightmare and get up sweating? Why? Image and voice. A dog is chasing you. A big, black dog is coming up upon you and you are seeing the fangs, and you are hearing the growl, and you see the look in that dog's eyes, and you know you don't stand a chance. You are running and you are getting tired and when you look back, he's almost upon you. And you jump up and your heart rate is going like this. [Bro. Vin moves his hands back and forth quickly -Ed.]

What caused that? What caused that? Why does it affect you that way? Why does it affect you so in a negative way? When you understand that, you start to understand how you get lured into temptation, how you get manipulated, how Satan plays with your senses, how he leads you into places you didn't want to go; how he gets you in the spirit where you can't cut off and drop off. Do you see how Bro. Bowen says, "This plane can't land; this plane can't land"? Well, it's so when Satan gets some flying in his flight path – that plane can't land and they need to jump out with a parachute. But then he tells them, "You will die for sure. You will die for sure and people will see you." So, you are just hoping things change. No, no.

I'll get more on that for you a next day. But take this as part 1, Light and Sound, because I want to show you how every sound is connected with light and colors. And to show you the power of sound and how through certain types of communication, even in nature, like I explained to you about the animals, the elephants and

the whales, the scientists study those methods of communication because in war, this is of great value when you... They use it for military purposes. You see, sometimes you see a power, but you can't apply it. "Well, I am not a fish. I am not in the sea. I don't need to communicate with somebody."

Have you ever seen people who know that their family—they get some news about their country and a storm is coming or something here that their family doesn't have access to that kind of news, and they hear and they are almost frantic? They can't get a flight; they can't get back there. Their children are on vacation somewhere, and they know their children are on a hike up in the mountain, and they know what is going to happen there, and this hurricane is coming and, "Oh my! My children are going to die outside there," and they have no way to get to them.

Like Bro. Branham on Hurricane Mountain, and the panic and the fear, and he was trying to bluff himself, and trying to hold it up and then something said, "You can't bluff that subconscious. You are on the death walk and you know it." He got down and he started to pray. When he got up, he hadn't gotten an answer yet. He didn't know what to do and he had to make a decision. And he was panicking and he had to make a decision, and he said, "I am going this way," and he was going straight to his death. While he was going, he heard a Voice come, soundwaves: "God is a present help."

Now watch what God was saying in the experience. He needed a present help and he needed a refuge from the storm. God has the whole Bible, but God picked that out to speak to him there. When he was in Colorado, God came down and said, "I calmed the storm in Galilee, and you calm the storm here." Watch how God talks direct to the Scripture.

When I walked in there last Sunday, this, when it struck me afterwards and I started to go in this

Scripture here, I said, “My goodness, I was telling them about the lepers and so on here.” As soon as I walked in there and here was that Scripture right there of something God did that looked like an ancient thing and this is what they are using and employing in tactics in war playing on the mind of the people.

Big, brave soldiers know that those kinds of armies are coming in there, “We are all going to be slaughtered because we have no real defense. We came now and we’re attacking this city and left ourselves open for an attack from the outside. We were so thinking that they on the inside couldn’t come against us.” And God knew exactly what to employ, and it was two fold. They fled and they ran and all the food went back into the city and fulfilled the Word of the prophet, even to the part where the man to whom he said, “You will not eat of it,” the man dropped down there and died and couldn’t eat of it, with the food that cheap.

Nobody could have seen, by tomorrow all of that was changing. But look at the methods God employed. Watch the method God employed in Jericho. Watch the method God employed in Philippi. Watch the method God employed in Samaria. All of this has to do with science and sound in the Bible, and sound at a certain frequency, and sound depicting certain imagery on the human mind. Because that is the same way you will stand up here and hear a guitar and say, “That is a guitar playing. That is a piano playing. That is a dog barking. That is a plane flying in the sky. That is a helicopter” and you are not seeing it. “That is a wolf howling. That is a cat. That is a lion roaring,” and you are not seeing it.

You are just hearing sounds and then you realize how much sound, knowledge of sound is stored in your subconscious. You never have to use it, you’re not in an environment, you’re insensitive to it; but then when something happens, you go to analyze, “Why was I afraid of that?” Have you ever gotten scared? Have you

ever felt fear? Has God ever brought you to a place where you felt fear and you wanted to panic?

Like Bro. Rojas [Bro. Renwick Rojas - Minister -Ed.] was talking about how he was drowning one day and then realized he really wasn't drowning. But in the mind, he couldn't feel the bottom, but when he made one step, he felt sand under his foot. When sand came under his foot, he felt a sense of relief. But it's a sense of despair when you don't feel anything because you can't see.

That is the mind. All of that goes on in the mind. That is because the mind could not analyze at the time what was happening so there was no control. And the human person you are seeing there, you are trying to call, "Help, help," and they are laughing and thinking it's a joke you making or something like that, and they are just going in another direction.

When you stop and you analyze now, your experience and see how you reacted in a circumstance, you start to figure, "Why was this here?" You start to learn the powers of fear. You start to learn how fear could destabilize. You start to realize how insecure fear could make you feel. You start to realize how knowledge is power. You realize that must have lasted thirty seconds, and you realize how many things, in thirty seconds, passed through there in the human mind. And you realize the power and the influence of that fear never left you.

We were there in Tobago with the Russians. He was there. I say, "Come and we'll go in the sea and bathe."

He said, "I don't go in the sea and bathe, boy."

When I heard that part yesterday or Wednesday, then I understood. That is close to forty years, that little half a minute thing, and the impact of that is so strong still. When you analyze yourself and you look in, you understand these things; you understand these things.

What a place God is calling us that we can serve Him. As the song says: *Arise and possess your inheritance.* [496 - Songs That Live -Ed.] You want to rise up. Let the

musicians come for me. Amen. What a great God we serve, friends. What a great, mighty God. I just want to walk a little closer to the Lord Jesus, and grow in His knowledge and in His power, live under the power of His grace; understand His ways a little more.

I want to sing this little song: *Only Trust Him. Come every soul by sin oppressed. There is mercy with the Lord, and He will surely give you rest by trusting in His Word.* Let's stand to our feet. *Only trust Him, only trust Him, only trust Him now. He will save you, He will save you, He will save you now.* [#121 - Songs That Live -Ed.]

As they play it softly. Hallelujah. As we have our heads bowed all throughout the region, I give you the opportunity now to say let's come up a little higher in God. The people of this world, the scientists of this world, the people are finding these secrets. As the Prophet said, "Science will find God before the church," because the church has become a little earthbound something and everything has come down to being institutionalized, and routine and ritual of church services.

That's why sometimes, you know, you wish there is a different type of environment, not like a pulpit and a congregation, to talk some of these things. But where we can talk and you can ask questions and we can be in an atmosphere where we can get ahold, where we can walk conscious, where we can realize that the same way the apostles and they walked and they began to pray in the Spirit, began to sing in the Spirit and sing with the understanding, and they began to be so anointed that God carried them in realms of the Spirit, in certain octaves.

You heard Bro. Branham on, *Christ, The Mystery Of God Revealed* [1963-0728 -Ed.], he said, "Did you catch that? They just went up another octave there as they were singing that song." He said, "And look, the clock is saying two o'clock." He said, "The second pull is over and look, the Third Pull is at hand." And a Prophet

there that morning, was telling us when God wasn't God and how He unfolded right down to this present time, the Secret God had in the back-part of His Mind. A man who lived and walked with God, living in two worlds; a man, who sometimes, he couldn't tell whether he was in a vision or in reality standing there, in his last days he just wanted to go out in the woods, go back out in the desert, walk over the places where the Angels came, where the Sword was put in His hand.

That is the way I feel. I want to just walk back down through some of the trails, get back close with God. It's just a feeling. Sit under a tree a little bit. Go out somewhere quiet and say, "Father, speak to me."

We are here. We are at the threshold. The change is going to be imminent. Places like these are going to be closed down just now. The world is shaking. It's falling apart. We see the Scriptures. We see the world in turmoil. We hear the Russians saying that they are going to turn America into ashes. We know what a Prophet said since in 1933 with those visions; saw it in vision; spoke it. We see the sickle in His hand, Revelation 14 in the Bible – Communism will destroy the Vatican and these things. We see these things. We see the turmoil that is taking place. We see these things heating up. We see the kings of the East and the alliances being formed.

Bro. Collin [Wellington -Ed.] has been so good. Sometimes he keeps me up to date with some of the things, and then not only that, he keeps quoting back the messages, *The Adopted Son And The Economic Recession*, *The Lord's Vengeance Of His Temple* [2007 -Ed.], how they're going to make the arrows bright; going back down through *The Beginning And Ending Of The Gentile Dispensation*, all these things that we have gone through and preached and laid out, and showing, "Look it's happening here, look it's happening here, look it's happening here; look it's happening over here."

Sometimes I'm not thinking about it in that way and it comes back and he sends the quote and he sends a video: "Look at this. Look at this." And I look at it and say, "My goodness." I'm so thankful that I have some of these brothers who are there at the side. They know I don't have time for some of these things. As a matter of fact, I don't even try to really keep up-to-date with it in the way, because to preach these things most of the times, it's God Who gives it to me, and in one flash, things I watch, I observe, I find something interesting, I make a note, I put it down coming down through; don't even go...

Look, like this; this there, through that experience, it sent me into these Scriptures, and seeing, look what the world is doing, look what the military is doing, look how they are destabilizing these countries, look how they are using technology, look how they are fighting these wars, look how they are doing these things, while I'm in the midst of talking about how we are made, how we are in the place of trials and temptation, how we are overcoming; how we are coming to the theophany from here; why we have more than one body; why the animals or the angels don't have three bodies. Proving these things by the Bible. Carrying these thoughts in such a realm, as he said, "Eyes have not seen and ears have not heard, neither has it entered into the heart of men." When we came in there, and the light of the new day, the inaudible things, the inconceivable things; the invisible things.

If you have any eyes, you can see how the Holy Spirit followed these things that are in this season here. I, myself, can't even keep up with the message. That's why this morning I feel it's so intense, some of the things, I said, "I don't have the time to concentrate as I should; I'm so tired." I said, "Let me take something a little lighter."

I was getting some of these things off the side to show how we can suffer temptations and trials and these

things, how these things are on the mind; how the powers that govern us in the natural realm, how they go in the Bible, they go There and they find out how Joshua and them fought war and they discovered sound and the power in sound and what soundwaves can do.

It took them into a new realm of communication, how the whales communicate; how when you're dealing with war, you want to send messages in a place where it is inaudible to other people; where the enemy can't get ahold of it. You want to send things encrypted.

God's Steganography and God's Cryptography. That is what God did with the Seventh Seal – encoded It, because He knows there's a people, He can transmit it in their hearts. Let me tell you, that is what God is doing. That's what God is doing. That's why you want to walk in a place. This same God is showing us another way, how He can fight for His people.

Look how He fought for natural Israel. Look how He fought for Paul and them here. Look how He fought for them in the time of Elisha and them here. Watch. Is the Alpha a type of us? Is Elisha and they a type of us? Is Joshua and they a type of us? Alright. We're not taking Scriptures wild in the Bible; we're showing that same God in that time and season doing these things.

Lift your hands with me, let us...

Heavenly Father, we've been here long today. Many things, Lord, are breaking before our eyes; we desire to see even clearer. When we see the world in this form, it's a different world to the world that has been constructed as a cage, a virtual world to trap us and hold us in Satan's Eden; keep us sedated by the propaganda and the bombardment with all the lies on the *News* and things to keep us in confusion, keep us unstable; keep us in darkness.

The rulers of the darkness of this world, the principalities and powers, that manipulate the people in this information revolution are manipulating the humans upon the face of the earth, oh God, while they

set up their plans and move upon the people without them prepared or recognizing what they are doing. But You sent Light, Father. You opened the Seven Seals. You opened the Bible, because whatever is happening is already written in the Bible somewhere.

Lord God, when we look in the Scripture, when we look in the revealed Word, we realize what a privilege, what a blessing it is to walk with You, Jesus; to walk with the invincible God, to walk with a God Who knows what is past, present and future; the God Who knows what is going on in the king's chamber, the God Who can open our eyes and take all fear away instantaneously by showing us the Angels and the chariots of fire all round about us going with us; the God Who can perform miracles of such nature, Lord, to drive away armies with evil intent by bringing a Squeeze upon the people. You broke their power instantaneously.

We see You did it in the beginning of the Gentile dispensation, with Daniel and Shadrach and them; so many places in the Bible. Lord, as we look a little deeper at these things, we realize that there is more than what meets the eyes when the Spirit of Truth can search the deep things of God. Because the spirit of man only knows the things of man, but when the Spirit of God can open the Word and give us insight and bring us to see, Lord, that You, this great God, Who told Abraham, when those five kings wanted to attack him, You said, "Fear not, I am your Shield. He Who keepeth Israel never slumbers nor sleeps."

Oh God, to have a God like You in the camp. We see, oh God, in the Exodus, every condition, every circumstance, how You provided for them what they had need of: food and water and healing, and fighting their battles, and everything else, dear God. Let our faith be anchored in the Scriptures; in the unchangeable God Who works in an unexpected way; (hallelujah!) a God Whose thoughts are higher than

man's thoughts; Whose ways are higher than man's ways.

When men think they are wise, You show how foolish they are. Oh God, like You did to them in Jericho and in Philippi, You showed how foolish they were, dear God. When they thought they could intimidate Your people and strangle them and bring them down to cannibalism and everything else, You showed, dear God, they could dish it out, but they couldn't take it. You had all of them fleeing and running leaving all that riches and, dear God, when they thought they had a victory, all they did was empower Your people with greater wealth. Hallelujah!

What a mighty God You are. What a wonderful God You are. We want to know You more and more, Lord. We want to know You by revelation. We want to walk close with You in this Hour.

May You bless each one today. May You open our understanding. May You bring greater illumination to our hearts and minds. May You give us revelation that could bring stability into our lives in these unpredictable, in these fearful, perilous times that we live in when everything seems to be shifting; everything that could be shaken is being shaken off. But You said we shall receive a Kingdom that cannot be shaken, cannot be removed; such revelation, revelation with prevailing power over every circumstance, oh God, where it can set us upon a Rock, we shall not be moved. May You grant it, Father. Grant it, Lord.

May Your Holy Spirit just continue with us as we worship You. As we sing here, may Your Spirit just move. May You fill every heart, dear God. Oh Father, let us realize that You are the God that we can walk with, driving in the car, walking in the street, sitting at our desk, in our homes, lying on our beds; wherever it is.

We live in a parallel universe. You are right close to us all the time, Father. We just need to keep that

consciousness, where we can live with a conscious realization that the unseen world is with us all the time. Oh God, Lord, let us live and walk in this place, Father. Let us learn to trust You, dear God. Let us learn to believe You, to know, oh God, that nothing can happen to us, Father, oh God, except You permit it, oh God, because dear God, You are God. Father, You set a boundary to everything, Father.

Sometimes we see things and we panic, we cave in; Lord, we fall apart. Satan use that, Lord, to destabilize us so many times. Fear has torment, but You did not give us a spirit of fear and bondage; You gave us a Spirit of Love and power and a sound mind, (hallelujah), a Spirit of adoption as a placed son, a positionally placed son whereby we cry, "Abba, Father"; a Spirit of sonship – we could ask our Father to give. Even as we ask, grant it, Lord. Grant it, we pray.

Only Trust Him.

[#121 - Songs That Live -Ed.]

Only trust Him...

Sing like Paul and Silas. Get in the Spirit and sing in the Spirit and sing with the understanding.

...trust Him now,

Not tomorrow; now.

He will save you,

He will save you, He will save you,

He will save you now.

Oh, sing it again: Only trust Him.

Only trust Him...

Sing with such a faith. Let that faith come through; your expression from your soul, (amen, hallelujah,) and believe it as you confess it.

He will save you now.

Doesn't matter what your circumstances are.

Come, every soul by sin oppressed.

Come, every soul by sin oppressed,

There's mercy...

There's mercy with the Lord,

And He, He will surely give you rest,
...will surely give you rest,
By trusting...

By believing and trusting. Oh, hallelujah. Walk closer with Him today.

Only trust Him, only trust Him,

I will trust Him. Amen. I will believe Him. I will take my stand upon His Word. I will lay aside every weight and every sin. I will walk with Him. Amen. I'll put my confidence in Him.

...He will save you...

For Jesus shed His precious Blood, friends, to make every promise true.

...His precious Blood...

Rich blessings to bestow;

Plunge now, today into this bleeding Word, this crimson flood.

...this crimson flood

That washes white as snow.

Breaks up every molecule of unbelief, breaks up fear, takes these things away from you; loose the Holy Ghost in your life!

Only trust Him!

Only trust Him, only trust Him,

Only trust Him now;

Tell fear, "Go back." Tell doubt, move away from you. Amen! Hallelujah! Watch the living Saviour, the Mighty Conqueror, unconquered by any foe. Amen.

...He will save you,

He will save you now.

Oh, yes, Jesus is the Truth, the Way,

...the Truth...

There is no other way, friends. There is no other truth and there is no other way.

That leads you into rest;

All fear, all torment, all pressure, all nervous strain is gone; your soul is anchored.

Believe in Him without delay,

And come into His blessings. Amen.

And you are fully blest.

Will you trust Him today? Will you believe Him now?
Amen.

Only trust Him, only trust Him,

Only trust Him, children. Don't doubt Him. Trust Him, believe Him. 'Tis so sweet to put your trust in Him. Hallelujah.

He will save you...

Like He lifted Peter back up on the water, like He came to those Hebrew boys in the fiery furnace; came to Daniel in the lion's den.

Come, then and join this holy band,

A Bride marching, "*Onward Christian Soldiers*" going up into Glory, (hallelujah) proudly displaying the Blood. They overcame in the battle. Hallelujah.

To dwell in that Celestial Land,

To dwell in that Celestial Land,

Where joys immortal...

The Prophet said, "There can be no sadness, no sorrow There. It was all joy." Hallelujah.

Only trust Him...

We are moving up in that flight path. Amen.

Only trust Him, only trust Him,

Only trust Him now;

He will save you...

That deliverance, He could save you out from any condition that the Devil is trying to oppress you and to keep you down in. He'll break those bands; He'll open up prison doors. Hallelujah!

Come, then and join...

...then and join this holy band,

And on to Glory...

Rise up in Glory; in faith. Amen. Let's get into a Heavenly place.

...in that celestial...

He said, "That Heavenly place came down in the Church." What we call 'Heavenly places', that Celestial

Glory, that blessing, that Holy Ghost, It comes down among us.

Only trust Him...

Hallelujah!

...only trust Him,

Only trust Him now;

Hallelujah!

He will save you...

His hand is not short that He cannot save.

He will save you now.

Oh, as we sing it again: Only trust Him, I want to call Bro. Sammy to pray. Amen. Hallelujah. Let's have a little prayer meeting, a little prayer time here. Hallelujah! Let the Holy Ghost give us a new surge of faith. Hallelujah.

Oh, He will save you...

Deliverance; this is a time of deliverance. Hallelujah!

He'll...

Let those walls fall down, those walls that the enemy built up around you. One more time: Only trust Him. Amen.

Only trust Him, only trust Him,

Oh God, we believe. We confess our faith in Your mighty Presence. Hallelujah! Glory be to God.

He will save you, He will save you,

He will save you now.

As the musicians continue to play softly, I want you, before you could leave this place today, say, "Oh God, where am I living? I want to walk consciously. I want to live in the conscious realization that all Heaven is here with us; that God is moving His Bride up six thousand years since the Fall of man. The Title Deed has come back and a people is moving up into Heavenly places. This world of Perfect Faith is opening up through a Divine channel of His revealed Word. God is showing us that we are part of that Word and the Holy Spirit is moving us out of the natural into the Supernatural." What a place.

You ask Him today as our brother will pray. Let's take this time, let's trust God; let's believe God. I know you want to walk a little closer. I know when you sit there sometimes, you say, "Oh God, where am I living? I'm living in Trinidad, I am living in McBean, Couva, I'm living in Port-of-Spain; I'm living up in Tunapuna somewhere. God, I want to live in Heavenly places in Christ. I want to live in the realization that I am an attribute son, Eternal; an attribute daughter that is Eternal."

Oh God, I know He can break the seals off of your mind, take the shackles off your mind and let this great Light shine to illuminate Your life, and this Quickening Power, move your thoughts on another level where the Mind of Christ drops in. Oh my. May He give it to all of us. We all need a portion of it today. He knows the measure each one needs.

[Bro. Samuel Johnson prays -Ed.]

Could we say amen? Praise His mighty Name. *The hour of shaking is now at hand, amen, when many builders do not realize they have been built on sinking sand.* This world is again falling apart, friends, but God is taking a people out. Amen.

[#554 - Songs That Live -Ed.]

The hour of shaking is now at hand

When many builders...

Hallelujah.

...would realize,

They have built on sinking sand.

Oh, for the stone...

They have rejected

the revelation of the Son of Man.

Oh, but unto you...

...unto you He's been a Treasure,

And an Anchor to your soul,

All the evils of this world

We'll overcome.

*For more than conquerors we are,
Through the Power of Jesus' Name
Oh, priests and kings...
And forever we shall reign.
For more than conquerors we are,
Through the Power of Jesus' Name
Oh, priests and kings...
A royal priesthood
...and forever...*

*Oh, many pressures came...
Many pressures came from
outside and within,
And temptations did arise
To take a look
Unto the other side;
Oh, but by the grace of God
we resisted sin,
And the devils were surprised,
We knew by the Word of the Lord
We were tested and tried;
Oh my. Hallelujah.
But unto you who look Above
Through the window...
God has sent to us...
On the wings of a Dove.*

*For more than conquerors we are,
Through the Power of Jesus' Name
Oh, priests and kings...*

Third Exodus Assembly

Depot Road, Longdenville, Chaguanas
