BRO. VIN A. DAYAL

[#355 - Songs That Live -Ed.]

Oh, You are more than enough,
You are more than enough,
More than enough,
You are more than enough for me.

Let's just worship Him and give Him thanks, this great, mighty God Whom we serve. Hallelujah. We worship You, Father. Lord, we bring a sacrifice of praise into Your house. We bring our thanksgiving, Lord. We bring our worship to You. Hallelujah. How great Thou art, Father. We thank You, Lord. We thank You, Jesus. Amen. You are more than enough for me.

Why don't you turn around and greet your brothers and sisters, and the strangers? Give them a warm welcome. Make them feel welcome.

[Bro. Vin hums the chorus -Ed.]

Amen. We have a little dedication. Let's just keep singing that while the parents come. I invite them to come and bring their children at this time.

...more than enough...

Just softly, in worship.

...You are with me,

You supply all my needs;

Oh, You are more than enough,

...more than enough,

Hallelujah.

More than enough,

You are more than enough for me.

Once more: Jehovah Jireh. Oh, thank You, Lord.
Hallelujah.

*You are more than enough for me.
Jehovah Rapha...
Jehovah Rapha, You are my Healer,
By Your stripes I've been set free.
Oh, You are with me. Thank You, Lord.
You supply all my needs;
Oh, You are more than enough,
More than enough,
Thank You, Lord.
More than enough,
More than enough for me.*

Hallelujah. We certainly have a lot to thank Him for. Amen? By His grace we have been set free. God is so good, is so faithful. He has done so many good things for us. The Bible says, "Count your blessings, name them one by one, and it will surprise you to see what God has done." Amen. He is worthy to be praised.

The Bibles says:

[Psalms 127:3 -Ed.]

*³ Lo, children are an heritage of the LORD:
and the fruit of the womb is his reward.*

*⁴ As arrows are in the hand of a mighty
man; so are children of the youth.*

*⁵ Happy is the man that hath his quiver
full of them...*

[Psalms 128:1 -Ed.]

*¹ Blessed is every one that feareth the
LORD; that walketh in his ways.*

*² For thou shalt eat the labour of thine
hands: happy shalt thou be, and it shall be
well with thee.*

*³ Thy wife shall be as a fruitful vine by the
sides of thine house: thy children like olive
plants round about thy table.*

*⁴ Behold, that thus shall the man be
blessed that feareth the LORD.*

*⁵ The LORD shall bless thee out of Zion:
and thou shalt see the good of Jerusalem all
the days of thy life.*

Isn't that precious? In an Age where people don't want children, in an Age where people would rather raise a dog or a cat or something, that God has a blessing in His Word for those who would bring children to His honor and to His glory. Amen. It's a reward that God has given unto them.

Our precious sister and her husband here would like to dedicate their children. And the children's names—we have two children here: Hannira Zalikah and Natifa Azizah. Am I saying that right? [Parent says, "Hannifa." -Ed.] Hannifa. Amen. Oh, it is Hannifa; Hannifa Zalikah and Natifa Azizah.

We just want to dedicate them because in the Bible they didn't sprinkle water on them, they didn't christen them and so on. The Bible says, "They brought them to Jesus that He would lay His hands and bless them." Amen. And we believe that He gave us the perfect example. Amen. It was God Himself in flesh standing there, the God Who gives life, the God Who gave man a commission to multiply and bring forth children; the God Who put a blessing in His Word for those children. The very God Who said that the fruit of the womb is His reward, that very God Himself came back now and dedicated the children, blessed them. Amen.

As they grow, growing in grace and in knowledge of the Lord, and should they tarry and come to the age of accountability, then God can bring them to a place where they certainly can walk on even further to be baptized. But as we just come to this place, let's bow our heads and close our eyes as we ask God's blessing upon these little children.

Almighty God, how gracious Thou art, Father, that in times like these, troublesome times that we live in, times when there is such change sweeping the face of the earth, the whole world is falling apart as it seems,

Lord; crime on every hand. Lord God, to see we live in an Age when people would just come into the homes of people and break down their doors and rob them and shoot them. And it's such crucial times, Lord. But Father, we thank You that we understand that You are the One Who gives life and, dear God, we know that You promised protection and blessings for all Your children.

And so, dear God, realizing that we have moments like these when we can come and offer back to You for a life of service the children that You cause to come forth from the very bodies of Your very son and Your daughter, dear God, that Lord God, these children might live to Your honor and to Your glory and that they might fulfill the purpose that You have sent them upon the face of the earth for.

How we can have confidence even in dark times. Lord, how we can have confidence, Lord, even in hard times to know, dear God, that because we recognize that these children did come from You and that You sent them into the earth for a purpose and that You wanted them raised in a certain manner for Your honor and for You glory that, dear God, they might show forth, Lord, Your Light into this dark world that we live in.

And how it is so necessary for parents to know how to raise them, Lord God. In this Age we see so much evil, homes, family life being torn apart, incest everywhere and all kinds of evil crimes and sins destroying the families, Lord. But we respect today, Father, when people would come in the house of God on the day of Your resurrection and, Lord God, they would bring their children, dear God, and they would dedicate them unto You for a life of service. Surely, this is honorable in Your sight and this is respectable in Your sight. And Father, You said that You will honor them that honor You.

And dear God, I pray that You will bless these two little children, Father, Lord God, as we bring them to You, asking that You dedicate them, Lord, You receive them as we dedicate them to You for a life of service.

Lord God, may You grant them health and may You grant them strength. And may, dear God, You bless the parents, Father, who now have the sacred responsibility to train up these children. You gave a promise in Your Word, You said, "Train up the children in the way of the Lord that when they get old, they will not depart from it."

To know that one day should You tarry and they grow to adults and would go by the way of holy matrimony, they would have to take the role of parents. And Lord God, we know that the example of parents has such a positive influence. How it shapes, Lord, and molds the character of the children, Lord, what they see being reflected from their parents.

Bless these parents, dear God, that they might raise these children for the glory of God, Lord God, with Godly example, Father, that will mold and shape the spirits within these children, dear God. And Father God, we pray that Your blessing would rest upon them and that You'll supply their need and, Father God, You will meet, Lord, every need in their life both naturally and spiritually, and You will undertake for them in every situation.

We thank You for the decision that our sister has made, Lord God, to walk in this Light, Father, and to walk in Your Word; to come away from cold, dark denominationalism and walk in the Truth. May You bless her for it, Father, and may You grant the desires of her heart. We pray and we ask these things as we dedicate these children and this family unto You for a life of service, in the Name of the Lord Jesus Christ pronouncing Your holy, magnificent blessing upon them, amen and amen.

Amen. Just have your seats for a moment. I just want to make a little change over here too because I have some things here, you know, when you are getting ready to leave, you have to try to get everything right. And I've been kind of running behind time in my schedule for

doing things. And I have a little betrothal here this morning and I would just like to, you know, take a few moments to do that too so we could get it out of the way. It makes it a little easier.

Sometimes, you get to preaching, and it is kind of difficult when you get in that kind of vein to come back around, and you know, switch back over to something like that. So I would rather do these things first. And I certainly ask my precious brother, that he and his beloved, who is to be betrothed today, that they would be very considerate to me that I don't... I normally like to take a little time and, you know, have it real good, and make it like a little ceremony; something for them. But I just asked him if I will just come and maybe just have prayer, if that would be alright. And he was certainly gracious to help me out by God's grace.

And you know, sometimes the people come through the discernment line, everybody hears their name called and is told what their telephone number is and so on. And then the next person comes wanting that, and the Prophet would say, "If I just lay hands on you sister, will that be alright?"

And then sometimes, you know, you just have to maybe do something like that because of how things are. But nevertheless, it doesn't undervalue and it doesn't make less anything because it is the sincerity of the vows. And I guess that God knows how to space these things because some people, I guess, they don't need all the frills, they just know what they are about. And certainly our precious Bro. Irvin Bute and our Sis. Marcia Weston who is to be betrothed this morning, I believe that they certainly know what they are about by God's grace.

So I'm certainly thankful for them. They have been a great blessing in the Assembly here, a real help, and both of them working diligently in the house of the Lord, helping with the things of the Lord; always making themselves available. And we appreciate it very much.

You know, we always want to take time to give a little honor to these who would make that kind of sacrifice for the Lord because it shows that their heart is in the work of the Lord. They don't just come to church here as a place of attending worship. This is a people that participate. These are people that are stones in this building. These are people who are lively stones who make up this spiritual house here. And so we are thankful for them.

It takes the sharp tool sometimes to cut that stone and fit it and get it cemented in place. Then when a stone is cemented into place, it holds all the things around them too. You see, it holds part of the building. That is why the Body is fitly framed together. And we are thankful for that.

All the people that know him know that he is a fine young man. And I guess that he might have been an eligible person for many a fine, young lady who would have been looking for a fine young man. But you see God just... In the beginning there was one man and one woman and God just knows how to put the right person there, the person that God had formed before the foundation of the world to fit that little shape. You know, the Prophet said, "A man and his wife," he said, "when he embraces her, it leaves a print there." And he said, "There is only one person that can fit that."

So you see, when people get into illegitimate relationships, it just kind of violates that and it just doesn't fit. And God just doesn't—God has to judge it.

So we thank God that God gave him the right mate. And when I was talking with them, I was telling him that God sees the beginning from the end and God knows how to bring a person into the place and time. And you know, He gives you the right companion, not just for here; not just for earthly life and earthly things. I said, "Just remember when the Prophet was walking up the ivory staircase, that hand slipped in there. He was going over into the New World and he was going over into the

World with his companion who shared life with him here on earth.” So it is a wonderful thing to know these things. It does us real good by God’s grace.

The Lord Jesus is going to spend Eternity with the Bride that He marries, so how much more every son and daughter of God that God is bringing that bride by Divine appointment. And so, God has also blessed them. And we are grateful today to know that we have young people like that in the Assembly who would be responsible to choose a wife and then to live faithful to that wife, and go and establish a home and raise a family in the fear of God and be a real testimony in the generation that God has placed them. That is honorable.

The Bible says, you know, it is a great blessing for a man who finds the right wife. A prudent wife is from the Lord. “Houses and lands are the inheritance of fathers,” the Bible says, “but a prudent wife is from the Lord.” [Proverbs 19:14 -Ed.] Man could work, labor, save this, save that, save that, but God gives you a companion, He is giving you the best thing after salvation that He could give you. And the two best gifts that God has to give any man is salvation, and then a good companion. So it is a wonderful thing to know that we can do that.

Just give me something soft and nice so that maybe we can sing something there that we can just feel a little romantic for the next few moments. [Bro. Vin and the congregation laugh -Ed.] The Lord is good, isn’t He? Amen. Praise His wonderful Name. It makes everybody feel relaxed and nice. You see, it is good when you have something like that in the atmosphere. It is good.

The Prophet said, “Jesus comes whispering secrets in the ear of His Bride.” He said, “You know, when a man is going to get married, he pulls that girl close to him and whispers things in her ears.” They have plans. They have different things. He is talking about the honeymoon already. He is talking about the future

home. He is talking things to her about it and they are making plans.

He is talking about the wedding band of unmerited, predestinated grace. He is talking about the Name revealed in the Seven Thunders. He is talking a lot of things to this Bride. He is talking about bringing forth Life in his Own image and likeness and everything else, and the great future that they have ahead of them.

We certainly don't believe in young men running down here after girls; chasing girls. We don't believe in young ladies chasing men either. You know, we don't have that. We are kind of old fashioned here in the Assembly. We believe the ways of the Bible because we are convinced that Jesus Christ is the same yesterday, today, and forever. He is God and the Word doesn't change. Amen. We believe that God reveals to a man and reveals to a woman; a man knows who his wife is and a woman knows who her husband is.

Sometimes, some people get it mixed up of course in this great Information Age, so much of traffic there, sometimes your mind gets bombarded if you don't have something to test these things to find out which is from God and which is not from God that you don't go calling a lot of people your partner. Sometimes, we have to kind of blow some of those flues out, but that is alright if everything just gets straightened back up and back on the way.

We thank God for the Tester and we thank God for the Thing that can blow the flues out. Amen. So it just keeps things straight. You know, if you have to sometimes listen to everybody who is trying to impress this way, and impress that way, no telling where we might be.

Isn't it wonderful that God could give us His Word – a thinking man's Filter, a holy man's taste; keep the mind clear, keep the soul happy? Isn't that right? And we serve the Lord like that.

I am always glad when God, you know, brings a young man to find his bride. Because the Prophet said, “When I’m marrying couples, I would turn them to the east; look to the eastern skies where Jesus is going to come one day for His Bride.” He said, “And whenever I see that, I think of the great Marriage (amen) in these last days, how He and His Bride are becoming one; how He is going to take Her to that Wedding Supper and then take Her to that Honeymoon and then to that Future Home.” So it excites you when you see in reality these things take place.

And you know, it is not easy. These brothers could tell you, sometimes it needs to go and sit down with brothers and tell them. You don’t run into it in one day. You have to wait. You have to wait. You have to wait. You have to wait. You have to prove. You have to make sure all the old stuff is blown out that you know half of it is not God. Amen. Just get it well out. Wait on God’s time and season. Let God tell you it is real. You don’t tell God it is real and you don’t try to convince the Minister that it is real. Let God tell you it is real. And the same God that tells you it is real, will tell the Minister that it is real, amen; will tell each other it is real. Sure.

Then when it comes forth like that, it is okay. God can bless it, people can be identified and give their blessing with it, and it is always wonderful. But when you look and you see, sometimes, so much of these things, people get a little pressure. It is an Age, there is so much bombarding of the minds of the people that they kind of—they see so much of this love making and so much of this Hollywood stuff and so much of this false romanticism, that sometimes it pushes them. It is a current that pulls them, you know, to feel for a mate.

You know, God saw that Adam was lonely. It didn’t say how long He left him like that, but then finally one day God said, “It is not good that he should be alone anymore. I can’t take it anymore. He is reminding Me

too much of My Own Self.” Amen. See? And God said, “I’m going to put an end to this loneliness.” Amen. “I am coming down on the scene.” Amen. “I am going to give him his bride now.” Glory.

I could imagine the same way with Abraham walking around the tent and seeing Isaac, you know, and seeing him look out there and maybe watch his friend and his friend’s wife, and go home by them and eat a meal and come back out.

And then he would talk about it for the rest of the night: “Daddy, I wish... You know, sometimes the thought comes.”

He said, “Relax boy, you are not ready for that yet. Take your time. There are a lot of things that you still have to learn in life. Amen. You have to be equipped.” Nature even tells you, the birds make nests even before they go and lay eggs and everything else. You know that. How many know that is the truth? [Congregation says, “Amen.” – Ed.] Amen.

And so we are grateful that God could be so gracious. Could they stand? My precious brother and sister, come forward by God’s grace. Stand and face the congregation and let the people see you. Amen. Praise His wonderful Name. [Congregation applauds –Ed.] Hallelujah.

Amen. You can maybe just face each other now by God’s grace. Amen. Times like this are very precious. Amen? Amen. A little Scripture in the Bible says:

[Matthew 1:18 –Ed.]

18 Now the birth of Jesus Christ was on this wise: When as his mother Mary was espoused to Joseph...

That ‘espoused’ is exactly what is happening here. It means ‘to be betrothed.’ And that was as binding as the marriage. That means—in the English world today, they call it, ‘engaged.’ That is what is happening here. The English word, they are going to be engaged. The Bible Word, It says, “betrothed” or “espoused.” And that is as binding as the marriage. Because it goes on to say:

...Mary was espoused to Joseph, before they came together, she was found with child of the Holy Ghost.

¹⁹ Then Joseph her husband...

You see? She was espoused to him but Joseph was called her husband because he was her espoused husband.

¹⁹ Then Joseph her husband, being a just man, and not willing to make her a public example, was minded to put her away privily.

²⁰ But while he thought on these things, behold, the angel of the Lord appeared unto him in a dream, saying, Joseph, thou son of David, fear not to take unto thee Mary thy wife...

Not to go and live together as man and wife but in the vow, in the union, in the sight of God, that espousal, that betrothal, is as binding as the marriage. And he was going to put her away at first – he didn't want to make her a public example. But then God was so gracious to take the fears and the doubts away from him and won't let him make such a bad mistake, because he didn't understand what was going on. And He said, "Mary, thy wife." Amen. That God sees them together because of their vow, because of how binding that is.

It is your vow that marries you before God. No man could marry you. The law of the land gives you a certificate that you could be considered legally married in the sight of the law of the land. Because the woman has claims upon the man legally as her husband, and the man has claims legally upon the woman as a wife. See? And he just can't abandon her and give her children or something and she can't just stay there and say anything and these things. So once they have something to show that those claims can be founded upon truth... And that's why they gave them that. But

in God's sight, it is the vow that marries them together before God.

God was the first one who performed the first marriage. And God didn't take the institution and then put it in the hands of man. See? Man recognized it to be of God and man walked in it because it was the way that God gave to the first man and the first woman in the Garden of Eden. And that came down from generation to generation.

When Adam had to maybe marry Seth, he didn't carry him by some man to get him married. Adam married him right there. Adam would have blessed him because it didn't have any law of the land to go to get a man to do anything. It was God.

Abraham didn't have to go and get somebody to marry Isaac for him. Who could have married Isaac and Rebekah better than Abraham could? Amen. Who knew the Mystery of God? Who understood the Mystery of marriage? Amen. Who was commissioned with the authority from God more than Abraham? He was God's prophet in the earth in that Hour. He was the one that the Word came to. God even told a king, "I'll destroy you and your kingdom if you touch that man's wife." How Abraham understood these things.

And so we thank God today for them. And they are coming to be betrothed here before the Lord and in the presence of the company of all these precious saints who love them and appreciate them (amen) very much.

Amen. Praise His wonderful Name. My! He has that ring in the pocket and he has a button on top of the pocket. [Congregation laughs -Ed.] I'm certain that the ring is down inside a case too. I trust that he really wants to put the ring on this sister's finger. I feel it is just security for it, to make sure that the betrothal takes place. I don't think it is a reluctance to bring it out. All this modern day stuff, I tell you.

You know, I didn't know anything about this when I got married, yet I was married in the Message. It was

one thing and done. Everything was right there in one, short, little... And I'm happily married, (amen) multiplying and enjoying God's service with a faithful companion. So when you see these things, I guess, out of that seed came all these nice things for these precious, precious saints. Amen.

Let's just bow our heads for prayer.

Almighty God, now that this betrothal is about to take place, moments like these, Father, will linger with us for the rest of our lives, especially this couple that stands here, because this is a junction time in their life, Father. Many, many, experiences have been built up to this very moment, this moment where they are doing something that is sacred and serious, something, dear God, that is going to have a lasting influence upon their lives.

And I pray that even now, You will settle their spirits within them, and in the consciousness of Your Divine Presence, and the presence of the holy angels among us standing here before Your Word opened, dear God, in the sincerity of their hearts, this will be done in Your sight and it will be acceptable before You, and Your blessing will be upon it. Grant it I ask in Jesus' Name. Amen.

[Exchange of vows -Ed.]

Almighty God, our gracious Father, I pray that You would just take away the anxiety and the nervousness from these two precious saints that You have joined together, Father, knowing dear God, that they are standing here in Your Presence and making this pledge of love out of the sincerity of their hearts for each other. And knowing, dear God, that in this first climax where they have come and made a public acknowledgement in the company of witnesses of their love for each other and of their intentions to go forth and to have this union consummated, Lord, and then to go forth and establish a home and live as man and wife and raise a family for Your glory, may You bless them, Father.

And may this great revelation of this Mystery of Christ and the Church be shed abroad into their hearts and bring such illumination to their life, dear God, that Father, the very steps that they would take from this day on, Father, would develop them and mold them and bring them, Lord, into such a place where they can be a perfect reflection of You.

We thank You, Lord, for Bro. Irvin and Sis. Marcia. We thank You for their dedicated lives. We thank You for their dedicated service. We thank You for the blameless testimony that they have exhibited, dear God. And Father, we believe that You, in bringing them together, will make even greater servants out of them that their lives can continue to abound in Your Presence and among Your people, and that they can be used even in a greater way in Your service now that You are bringing them up to a higher level, Lord.

May You bless them and may You keep them faithful. May You keep them clean and unspotted from the world and may You keep them under Your divine and holy influence. And as they would go forth to make their plans and their preparations, Lord, for their wedding and the life that they would live afterwards, may You grant them wisdom. And may You direct them, dear God, as they undertake in all these things. And may they know, Father, that how much more now, Lord God, the enemy would come and try to disrupt them, Lord, but may You secure them and keep them, Father, in Truth, Lord, in righteousness, that their lives can be an example. And when they come back, Lord, to be married here, Father, Your great Divine Presence will give Your witness and confirmation another time; a double confirmation, Father.

We thank You and we praise You, for we ask all these mercies and blessings as we now pronounce them betrothed before You and Your people in the Name of the Lord Jesus Christ. Amen.

Let's just stand. We just have maybe about one hour, so we can just get right in the Word. Let's just open up to Genesis, Chapter 9.

I tell you, maybe they planned for this moment so much, and then it comes and it just seems like the butterflies just begin to... I guess it is always like that when you are making a new step. Like the astronauts, I guess, stepping out into space, it almost kind of gets you a little nervous. But may God bless them and help them and keep them faithful. I know it means much to them and they are very sincere in what they do. Amen.

Genesis, Chapter 9. I want to take special note because I don't know how far I'm going to get in this message this morning, but it is something that God has been dealing with me with. Some of the things I hope to, if God doesn't change it, to speak when I go out. But I'm just depending on Him to help me this morning.

Genesis 9, verse 16, I believe. I would like to—18 would be fine; 18 is fine. Genesis 9:18.

¹⁸ And the sons of Noah, that went forth of the ark, were Shem, and Ham, and Japheth: and Ham is the father of Canaan.

Now the Holy Spirit is very instructive here in pointing out certain details. And whenever you see the Holy Spirit put details in like that, it is for a purpose, because God has a way of hiding His Word. He didn't say anything about Japheth, He didn't say anything about Shem but He injects here, "Ham is the father of Canaan." Though we have not yet even been told anything about Ham and his wife having a child, It just injects that in there – that Ham is the father of Canaan. And This is telling us this because, Canaan, we are going to find out, was going to receive a curse put upon him. And the Holy Spirit, for us not to miss that, puts this in here. And this is when they were going forth of the ark. This is after the flood. This is after God destroyed the civilization that they had and brought the earth back into its pre-industrial state.

It says:

¹⁹ These are the three sons of Noah: and of them was the whole earth overspread.

Verse 20 says:

²⁰ And Noah began to be an husbandman [or a farmer], and he planted a vineyard:

And that is very important for us because the whole earth was overspread, but then we see Noah's occupation. We see something about the type of world that existed. He began to be a farmer.

Let's go to Genesis 10. And we are going to read verse 5. It is speaking here about the sons of Japheth. Verse 2 tells you that, but we are just going to pick up verse 5.

⁵ By these were the [borders of the nations] divided in their lands; every one after his tongue, after their families, in their nations.

And drop down to verse 8:

⁸ And Cush begat Nimrod...

This is speaking of Ham's sons because verse 6 tells you that.

⁸ And Cush begat Nimrod: he began to be a mighty one in the earth.

⁹ He was a mighty hunter before the LORD: wherefore it is said, Even as Nimrod the mighty hunter before the LORD.

¹⁰ And the beginning of his kingdom was Babel, and Erech, and Accad, and Calneh, in the land of Shinar.

¹¹ Out of that land went forth Asshur, and builded Nineveh, and the city Rehoboth, and Calah,

And we know that that word 'Asshur' in verse 11 is a mistake of the translators, because they mistranslated really from the original, that as a noun, and they put it as a name of a person, but it is really a verb. Because it means 'out of that land when he had been made strong'.

‘Asshur’ there, it is a verb speaking of Nimrod after he had conquered all these territories. He was a mighty hunter and then when he became strong, he went forth and built Nineveh. And that is true because Nineveh’s first king was Nimrod. History tells you that – Nineveh’s first king was Nimrod.

...and the city Rehoboth, and Calah,

¹² *And Resen between Nineveh and Calah: the same is a great city.*

Now if you can pick that up here, notice we have cities now in the earth. When Noah came out of the ark, there were no cities. Everything was destroyed in the flood. Noah was a farmer. Noah was in an agricultural society but now the world was changing; the face of the world was changing. Now cities were springing up everywhere. Why? Because this man went forth in conquest. He was a mighty hunter.

He went forth: the beginning of his kingdom was Babel, Erech, Accad; Calneh in the land of Shinar. Out of that land, when he was made strong, he built Nineveh, Rehoboth, and Calah; Resen (see?) between Nineveh and Calah was a great city. So cities were all over the earth now. So it meant to say, society had changed.

Drop down to verse 20.

²⁰ *These are the sons of Ham, after their families, after their tongues, in their countries, and in their nations.*

²¹ *Unto Shem also, the father of all the children of Eber, the brother of Japheth the elder, even to him were children born.*

Now this also is very interesting because you are going to see why in this next verse.

²² *The children of Shem; Elam, and Asshur, and Arphaxad, and Lud, and Aram.*

²³ *And the children of Aram; Uz, and Hul, and Gether, and Mash.*

24 And Arphaxad begat Salah; and Salah begat Eber.

So Shem had Arphaxad and Arphaxad had Salah and Salah had Eber. So Eber was Shem's great grandson. Are you understanding so far? But yet the Holy Spirit said, "Shem is the father of all the children of Eber." It didn't say Shem is the father of all the children of Asshur or Elam. He said, "Shem is the father of all the children of Eber," and it links Shem with his great grandson.

Now all these things are for a purpose because Genesis is for a purpose. See? Genesis is put in the Bible; Genesis is recorded a certain way for a purpose.

25 And unto Eber were born two sons...

Do you see how the history changes here now? Now it is telling you now about a little history of Eber.

...the name of one was Peleg; for in his days was the earth divided; and his brother's name was Joktan.

Now that division of the earth was important because 'Peleg' means 'earthquake'. 'Peleg' means 'division'. And because in his days the earth was divided, that is why he was named that. Do you understand that? And so the Holy Spirit said the name of one was Peleg and it gave you why his name was Peleg. Because 'divided' in the Hebrew, right there: "*in his days was the earth divided,*" that word 'divided' there in the Hebrew is 'Peleg'. And the boy's name was Peleg.

So it shows the father was naming him because of the event. The father was influenced by the event and it had to have great importance because Shem was a prophet. God had said that He will dwell in the tents of Shem. Abraham came out of Shem. The promised Seed – Christ, God, was going to come out of Shem.

Watch.

... for in his days was the earth divided; and his brother's name was Joktan.

26 And Joktan begat Almodad, and Sheleph, and Hazarmaveth, and Jerah,

I want to skip some of that. I can't read all that – I can't pronounce it. Verse 30:

30 And their dwelling was from Mesha, as thou goest unto Sephar a mount of the east.

Why does the Holy Spirit put that inside of there? Do you know why? Because through archeology, when people start to find those places, they will know who lived there. You see, civilization goes on but God tells you who occupied that place, who covered that territory; who built their homes there. So a thousand years after, if the people have to excavate anything there, then they would know where it is. If they could place the time, they will know at that time, who lived there. Look again.

31 These are the sons of Shem, after their families, after their tongues, in their lands, after their nations.

32 These are the families of the sons of Noah, after their generations, in their nations: and by these were the nations divided in the earth after the flood.

So verse 25 tells us he called his son 'Peleg' meaning 'division' because in that day the earth was divided. And then we are reading here too of the nations being divided in the earth. That word 'divided' there also is very important because it is speaking of 'they were occupied with trade.'

That word 'divided' means 'to occupy with trade for profit, for merchandise'. It is not like, just divided. They were divided systematically. They were divided, they were separated; they were placed into a zone. In other words, they were placed into a trading bloc where they could trade and they could... Maybe in their industry, there was a certain type of thing that they did. They had their own market, they had their own different resources and everything else.

It is trying to give us something. It is trying to give us a picture of what the civilization was like, but it is being sealed up. It is being sealed up in here. Look at the next verse now.

Now notice how verse 32 tells you that the nations were divided in the earth when? After the? [Congregation says, "Flood." -Ed.] Flood. After the flood. Noah's sons overspread the earth after the flood. All these things were happening after the flood; after the flood and before Babel.

[Genesis 11:1 -Ed.]

¹ And the whole earth was of one language, and of one speech.

² And it came to pass, as they journeyed from the east, that they found a plain in the land of Shinar; and they dwelt there.

³ And they said one to another, [Come], let us make brick, and burn them thoroughly.

It means to say that they already had the technology and the science. They already were an industrial civilization because they had already built cities. Notice that now. They were no longer an agricultural society. They were building industries, building cities. To build a city...

Look what it took us to build this building – the amount of skilled workmen we had to have, to build this building; the amount of inspections and standard of building that we had to put, just to build this building. If we had the plumbing mixed up with the electrical and the electrical mixed up with something else, we might not have been in this building today.

But the reason we could be in this building, there are toilet facilities, there are air conditioned rooms for different things, there are people who could tape [record the service -Ed.] in the back; there are channels run under the ground for the acoustics and everything. Why? Look how much science, and knowledge, and learning and

technology, and trade and skill, it took to bring the materials from here... To have the offerings – you all know how we had to pick up the offerings and how we had to do different things to get the building built.

That is a building. Multiply that by a few thousands, you'll get an idea of what building a city is. So when you read it there, don't just read without understanding. Read with insight. That is why many times people miss things and they just go over the top of it because they don't catch the inspiration of it.

So they said:

³ *...let us make brick, and burn them thoroughly. And they had brick for stone, and slime had they for mortar.*

⁴ *And they said, [Come], let us build us a city and a tower, whose top may reach unto heaven...*

That is not an ordinary tower. They were talking about a tower that could reach unto heaven. These people were interested in linking earth and heaven together. These people were interested in going up into heaven. And they had confidence in their science and their technology and their capability of what they had a hold of, to take them there.

People are talking about going to Mars. We may sit down here and can't even go down to San Fernando, some of us. If we go to Tobago, we would get lost. And they sit down there and talk about going to Mars. So it just means to say, the reason that they are attempting that... And it is not costing them a few dollars; it is costing them millions and billions of dollars to do it. And they do it because they believe in what they have gotten a hold of. That is why they are doing it. And they convince men to get in their rocket and fly up there too.

So these people had confidence that what they had a hold of, they could go into heaven. And they said:

...and let us make us a name, lest we be scattered abroad upon the face of the whole earth.

See? That was their fear. Their fear was: to become disunified, because they understood how the strength that they had, came by being unified.

⁵ And the LORD came down to see the city and the tower, which the children of men builded.

⁶ And the LORD said, Behold, the people [are] one, and they have all one language; and this they begin to do: and now nothing will be [withheld] from them, which they have imagined to do.

God also knew what they got a hold of, they were capable of doing what they were set out to do. Because God said, “Now nothing will be withheld from them, because look what they have a hold of.”

Didn't the Prophet say Science will find God before the church? Didn't Einstein [Albert Einstein -Ed.] find a law where things going at a certain speed will pass right through the wall without disturbing it? Christians can't even believe that today. And yet Einstein, a scientist, knows, you get something traveling at the speed of light, it will pass through without disturbing it. See? And they believed that. And then watch here. Einstein believed that if you find a certain centre in the heaven, you could create worlds.

Bro. Branham, when he was among the Pentecostals, he said, “That is the thing that they couldn't take – the Spoken Word.” Yet Einstein, a scientist, found that. Do you understand what we are saying?

So God was saying now:

...and now nothing will be [withheld] from them, which they have imagined to do.

⁷ [Come], let us go down, and there confound their language...

Not break up their city, not cause an earthquake and shake it down, but God was saying, let us do what? Confound their language.

...that they may not understand one another's speech.

Let us disunify them by breaking up the very thing that holds them together.

⁸ So the LORD scattered them abroad from thence upon the face of all the earth: and they [ceased] to build the city.

⁹ Therefore is the name of it called Babel; because the LORD did there confound the language of all the earth: and from thence did the LORD scatter them abroad upon the face of all the earth.

Almighty God, let me not feel pressured, Father, to try to hurry through this. And may You help the people and may You lift them up a little higher today. And give them spiritual understanding that they can have an insight as to the things that are taking place in our midst and roundabout us in the world that, dear God, testifies to us of the Age that we are living in.

It seems the Devil is working with such subtlety that Christians, Lord, is just having the wool pulled over their eyes, not being able to see how rapidly, Lord, this great control that is uniting the whole world, that is going to control trade and commerce, and those who don't have the mark of the beast will not be able to buy and sell. Everything will have to bow at the feet of this great, evil one, Lord, that is working to build his kingdom, this one that You cast out of Heaven, this one who worked for six thousand years and who is about to be enthroned as God upon the face of the earth.

Lord, what a great time that we are living in. We just pray that You'll anoint our eyes with eyesalve, You will help us to have spiritual vision, spiritual insight, Lord, that we will not be left without understanding, but we will know what is happening in this Hour, and we will

know how to serve You and we will know how to stay in harmony with You. Grant it we pray, for we ask these things in Jesus' Name, amen.

God bless you, you may have your seat. I just want to maybe talk to you a little bit, because I am—I don't know if I could cover most of this, what I'm looking at.

It has been very astounding to me for some time ever since back in 1989 when the Holy Spirit gave that message on *The Return Of The Global Village* [1989-0910M - Ed.]. And I spoke a few times and I spoke a few messages right here in the local Assembly. And sometimes I believe that when we hear the Word, if we don't have the Holy Spirit and we don't have an insight or we don't study closely, we would never be able to grasp the Truth that God is making known to us.

I believe that when God was opening that in 1989, it was a breakthrough, an insight, a spiritual discovery into something so fabulous, so astounding that, you know, few people realize how the Truth that exposes and uncovers and reveals to the believer what is happening in the time that they are living in, is so true in the Bible. That there is nothing that is happening upon the face of the earth that is not in the Bible.

Even to the time when we were preaching that message on *The Loosing Of The Four Angels* [1993 Loosing Of The Four Angels Who Are Bound In The River Euphrates -Ed.], and I always wondered, how could drug lords and drug cartels and all these people have an industry that is dealing with billions of dollars, yet you have nations and governments who can't even speak in that kind of terms financially. Yet, you have a cartel that has a global influence, manufacturing the drugs, exporting it; have their trans-shipment ports, controlling it. They have a global market for these things and yet you find that they are controlling governments, they are controlling these things. And I wondered, "Where is that in the Bible?" And then the Holy Spirit showed in the Bible how that

word 'sorcery' is '*pharmakeia*'. And that word '*pharmakeia*' is '*drugs*'.

And when the Holy Spirit showed those things under that Sixth Trumpet, exactly where it comes out in this Age, when the bottomless pit is opened and all these things begin to come out. Because it is a science, friends, where people are planting...

You know, just like you have West Indian tobacco. Well, think of how many cigarettes are sold in Trinidad. Well, where do you think they are getting tobacco from? They have tobacco fields, they have tobacco plantations. You went to school; you read about Sir Walter Raleigh and all of them and their tobacco plantations. They bought the slaves and now they had them on the plantations – how they had the labor and they had the estates. Firstly, they had to get the land and then they had to get the labor force. Then they had to get the market. Then they had to get the shipping for it. And so it was a big industry.

And then today, now they have their advertisement and everywhere you turn, brother, now you are seeing those little, little boys and girls smoking. And when a Prophet came, he said, "Out of all those demons, the one God hates the most on the pulpit is smoking." He said, "One of the biggest deceptions," on *A Thinking Man's Filter* [1965-0822E -Ed.], he said, "are men deceiving their own fellowman (see?) just for money."

And so, when you watch what they call legal there, then you watch on the next side, these people, well they are not legal, but they have their plantations, they have their workers, they have their crop of the coca, they have their laboratories where they take this through a chemical process and then they bring it out. Then they have the marketing people. They have their armies to protect their investment and their commodity. They have their shipping and they have their routes and they have their markets. And then they have their salesmen

who they call ‘pushers’ and they have the big ones who they call the ‘drug lords’.

Well, one is planting tobacco. One has the West Indian Tobacco Company, the big place. You pass, you see it is impressive in Champ Fleur there. You see the security guards all around it and everything else. You see the vans, the WITCO [West Indian Tobacco Company Limited -Ed.] vans driving all around the country. You see that they go to all the shops and supermarkets. You see the men come out there and they put it on the shelf. You see it looks big and nice and pretty by the cash register and everything else but they are marketing cancer. It is death.

They have local brands; they have imported brands. They have different brands. They have filter tips; they have no filter tips. They have what you have... They have—they even tell you, this one has so much percent tar; this one has less percent of tar. This is the slim kind; this is the fat kind. They have everything, but it is all death – something from the Agricultural Age, the agricultural industry, but look how it evolved into a place where when the Industrial Age came on...

I’m preaching about **“THE THREE REVOLUTIONS”**. And this final revolution is the information revolution. There was the agricultural revolution, the industrial revolution, and now the world is talking about the information revolution. And I want to show you—if I don’t get through it, I want to show you how whenever it comes to the information revolution, destruction comes.

I want to show you that the world in the beginning was an information revolution but without scientific technology. Adam had communion with God. Adam had access to God. Adam had an influence, a channel of communication with God that he got that by inspiration.

You say, “Is that right?”

God created all the species of animals, all the species of trees and everything. Adam stood right there and named everything. He wasn't there when God was creating it. He wasn't expressed as a man to hear God call monkey, "monkey" or lion, "lion" or tiger, "tiger" and say, "Let there be this and let there be that." But Adam had access to that super information highway where he could access God's Internet and receive these thoughts from God, (amen) where this was flowing; where angelic beings knew that language. Angelic beings had access to that information, but here was a man linked up with God. Heaven and earth were linked up.

Genesis 1 and 2 was not an agricultural society though it had botany life. Is that right? Adam was to dress the Garden but not with tools. Is that right? [Congregation says, "Amen." -Ed.] But when the fall came, God said, "For thy sake, I'll curse the ground. Now, by the sweat of your brow you shall eat bread." God said, "You are going to work for your food now. You are going to dig that soil now. You are going to have to get water for it now. You are going to have to put manure, you are going to have to do different things."

Is that right? Why? It was an agricultural society. Adam never built a sickle in his life. Then we find that Cain, when he killed Abel, what did God do? "Cursed be the ground again"; a further curse on the ground. And Cain said, "Oh, now my punishment is more than I could bear. Things were so hard with Adam and they during that time there, and now you mean to say, things get harder now; a next curse on the earth?" See?

And then Cain realized, "I am not going to stay and die trying to till that soil." And we find out that Cain began to change the face of the world. The Bible said, when he went out from the Presence of God, Cain built a city. So life started to change.

Today, what is happening, the changes are so rapid and are in a realm where the natural man, the untutored person, the person who is just taken up in

food and clothes, hardly even know what is happening. Because the level of intelligence has come so high.

Long ago, I remember when I was a little boy, when Christmas time came, I had something with a little stick with some marbles inside of it and you would run all around with that and we would play with that and everything else. See? And then you have some little—maybe a tricycle or something. But children today, you find that they don't want those kinds of toys. They want these video games.

I remember a time back there in Canada, I brought a little thing with mathematics, a kind of maths business, but it was like in the form of a computer. And I brought it home and I kept it. And I didn't want to give it to Timmy [Timothy Dayal -Ed.] because I felt that they were going to destroy it. So I said, "Look..." I tried to read and I couldn't understand it. So I said, "When we get Wendell..." I said, "Wendell is going to explain it to you and he is going to show you how to use it."

So he is behind me: "Daddy, let me..." So finally he took it. He didn't even read the book. He couldn't read the book at the time and he was working it. He said, "Daddy, watch. Look." He could do it. And then I actually started to realize, "Look, we are in one Age and they are in a next Age. Something is happening, they are coming out different. Their thoughts are different."

You know, we have the Message here on computers. I had it, but since then I dropped out of the Information Age maybe about a year now because I got something messed up on one of the discs and I couldn't access the program. So I'm right back to all my books, and I am writing day and night now. And I remember I got a more updated program and I was trying to access the Message and I lost it. And I knew it was in there somewhere but I couldn't find it.

I said, "Okay, well I'll close this thing up. When I go to Canada, I'm going to take it with me and the brother

up there is going to find it back for me if it is really there.”

So he was behind me. He said, “Daddy, give me a chance with it. Give me a chance with it.”

I said, “Boy, you see that computer, you keep your hands off of it. It is a lot of money for that. Just leave that alone for me please.”

He said, “Daddy, I can find it.” A couple of minutes he said, “Look, your program is right here.” And the thing is, I realized it is something different – the Age of information. People are born in a certain type of Age. It is a different type of Age.

So if you notice in the Bible, Adam was one kind of being before the fall. He walked with God. God came down there, God spoke to him. He stood in the Presence of that Mystic Light. He and God would talk. God would come down in that Theophany and they would talk. He would walk through that big paradise with those great, big elephants and lions, not one fear, not one scare; nothing. He had dominion. He was a god because God said, “I give you dominion over the whole earth.”

Now God, when He does something, and He does it perfectly, if it gets away from that, and that is part of God’s original purpose, He must make a way to bring it back. Because God is interested in bringing man back there. That is why Jesus said, “Father, that they may be one as I and You are one.”

He didn’t want to see us, when a storm comes, “Oh God, we are dead. We are dead; we are dead. Lord, don’t You care that we perish? I can’t make it. I’m going to backslide.”

He said, “Shut your mouth, boy. Peace be still.” And He quieted everything.

They said, “What manner of Man is this? Even the winds obey the Man.”

He said, “Oh you of little faith.” Is that right? And then He prayed, “Father, let them be one like this! Let

them walk in this kind of faith. Let them live here in this kind of faith.”

Don't you want to walk there? [Congregation says, "Amen." -Ed.] Then He told His disciples, "The works that I do, shall you do also. Angels come to me, angels will come to you too. I have raised the dead, you will raise the dead too. I can discern hearts, you will discern hearts too. I forgave people who spitefully used Me and spoke all manner against Me," He said, "You can do the same also. Be of good cheer. Because I have overcome, you shall overcome also." Is that what He said? Is that what He really, really said? Then do you believe what He said? [Congregation says, "Yes." -Ed.]

Now we know He said that, but do we believe it? Do we live there? Do we accept it? Do we let it control and influence us? No sense you believe He said it and then you are not letting it control you, you know. Because the reason He said it to you, He wants to get you out of your condition to come up there. He lived in a world of Perfect Faith.

Then when the fall came, look at man. Man dropped down into a realm now, everything was agriculture. And it went on so for years until Cain was separated from the Presence of God. That was the marking time, that was the turning time. Civilization was going to take on a new face – the way that people plant; the way that people lived.

When Cain built a city, now man was living in house when he never used to live in house before. Now man comes home and rings his doorbell and gets inside the house, takes off his slippers and sits back. Now they have chairs. Now man has transportation. And Cain was showing, "God thinks He could curse me but I will progress and let God see." It looked good. See?

So Cain felt successful because he felt that he bypassed the blessing—he felt he bypassed the curse rather. See? Instead of repenting and falling and saying, "Oh God, forgive me!" it was like he set out to prove to

God, "I'm not going to suffer." So he started to work and work and work and work and work, and then he started to discover things. And every time he discovered something, he was changing the way that God had set things.

Are you understanding so far? [Congregation says, "Amen." – Ed.] Then it came from agriculture to industry. Man was making bricks. Man was building roads. Man was building cities. Man was building sewer systems. Man was building a system to power it with lights. Man was trying to find ways when they were building those big buildings – working with gasoline to lift those big boulders up. And when they found out that that was too slow, they started to work in the realm where they could build the pyramids with atomic power to lift those stones that high.

Men started to develop knowledge in sciences of geometry and mathematics and algebra and learn all different types of sciences that they were able now to come forth. And the earth that was not yielding as it should because of the curse, so that man could remember his sin, that man could see that he violated God's Word, that man could see that he needed to submit to God and live dependent upon God... Because God is a parent. No chastisement is joyous but it is that you might bring forth fruit and that you might be disciplined.

And so instead of that, we see that Cain decided, "If I'm going to live life this way, I'll have to suffer. So what I will do, I'll change the way life is to be lived so I wouldn't have to submit to that kind of principle." So next thing, we see another type of civilization coming in.

I don't want to take time and read it but you know what I'm talking about – Genesis 4:16 to 24. It says, and they began to have all this cattle; great, big farms now. Man realized, they tested that: "This one is good to eat. This kind of meat is good." So you see they started to have those great, big cattle. He began to get those big,

strong ones and breed certain kinds that could carry heavy loads. He started to breed certain kinds that were good for meat – fancy steaks and different things. He started to realize, a certain type of skin is good for clothing and different things. And so, they began to use it.

Now we have mad cow beef, billions and billions of dollars, and they have to destroy it. And do you think they are going to destroy it? Nobody wants to destroy it. Do you know why? It is a billion dollar industry.

Any scientist could take fifty, seventy five million just to say, “No, no, we found something here. That doesn’t have to do with that,” to let it go. Do you think that they are going to slaughter all that? They could say, “No, that what is showing up in the human body is really coming from something else. How are we so sure it is not the vegetable that they are spraying with certain things? Or how are we not so even sure it is the water? Maybe the chlorine is really backfiring or something. Or maybe all these modern drinks that we have on the market like sweet drinks [soft drinks –Ed.] and this kind of drink and that kind of drink and the preservatives that they put inside of that, how is it we are not sure it is that? How is it bound to be related to this?”

Do you think that they are going to destroy it? No, sir. Not this. It will blow over for a while, quiet it; use the same media that built up the appetite for it to culture them a little different in their thinking. Because you are talking about hundreds of abattoirs, thousands of butchers employed, so many farmers out there, so much farmlands to feed all this cattle; so many different industries, brother, to make the sausages and to make the different things.

Don’t you realize when you walk in the supermarket and you pull out a packet of this and a packet of this, that was a cow somewhere? You see, people don’t think. Now this is why it is coming upon the world because it is changing continually and you don’t realize there was

a time that a man could not go in the market and pick up this frozen thing, this frozen beef here, this here – pig foot, this here, sausages, the long pepperoni. There was a time that man couldn't do that.

The cow is walking out there but man learnt a way to process it; man learnt a way to preserve it. Man built up... The Industrial Age brought the kind of machinery, he could slice it thinly and shave it nicely and the plastic that they could package it in and the deep freezer to freeze it over, and the technology to advertise it – Charlie's Meats and this and that. And it's nice and they are importing stuff and they put somebody saying, "Whoo, this kind is soft and tender." And then the cookbooks give you a recipe for it.

That is what the Industrial Age has done. It took the cow from an agricultural society and they brought the same cow up here now on a higher level. So the man now, he and his family are trying to kill this cow in the garage or in the backyard somewhere. And they say, "Hold down the cow. Hold down the foot well." No, no, no. Bang! "Do you want this one?" Tranquilizer. In the abattoir, brother, there are machines dealing with everything.

It was not until a day I was traveling on a plane and they were showing some news and I realized how much—sometimes it is fifty thousand tonnes or how much... Maybe I'm under estimating the number because I am telling you it right now, but it was a humongous number they were talking about – the amount of bread one bakery in New York puts out there per day, one of those big, big, massive bakeries, and the amount of staff in that bakery.

When you are talking about a bakery, we are not talking about a little thing on the street corner here, you know. We are talking about something from here down to Chaguanas: the bakery. When you see those big, industrial type bakeries, you talk about ovens. You see? When you walk in every store down one of those

avenues, only restaurants on top and below and everywhere else. And you find those big, big, long container trucks that travel across the country sometimes (see?) loaded with just certain types of pastries and this and that and that. The Industrial Age, it changed the way of doing things.

Man used to go out there and plant his seed. Adam had to till up that soil; sweat.

Eve said, "Is that all you were able to do today, Adam?"

He said, "Girl, I am getting tired. I don't know how I'm getting tired so, these days." He said, "I'm remembering my sin. Thank God, He is merciful, He didn't kill me right there and then. I could still labor. I'll trust him for some strength. I will let Him know that I'm sorry." And he went on. See?

Then you find now after a little while now, Adam was going down the road with two, three bags on his shoulder, Abel coming now with the little corn or something; maybe Seth. And then you see Cain and his boys and they, brother, one big combine, when it goes through, they are harvesting that crop. Why? What they invent is no longer man planting a seed.

When I went into Europe some years ago behind the iron curtain and we went into Poland, I saw an old lady with a horse with what you call a harrow. And the horse was pulling this wooden thing that was tilling up the soil as she went; what little she could do.

And then in Canada and those places, when you see those farms, one man's farm is maybe from here down to Felicity somewhere. And then you see he has a few men on these tractors with this big, long thing called a 'sower'. And that is sowing—that is tilling and sowing right away. What did that? The Industrial Age did that. Where a man has to get maybe fifty, sixty men to work two months to do that, in one week a man plants over that whole thing. Do you understand what I'm saying?

Life was changing. Life was completely changing. And when life changed, people felt it was a better way to do it. It really took us out of a situation.

When a family has to really travel sometimes to come to church, three, four transportation; sit down in a maxi, old noise and different things. And then they get a little car and they drive to service, they feel blessed. They listen to their own music that they want to hear. They have it just how loud they want to hear it. Whether they want a tape, they put on a tape instead, you know, some preaching; whatever they want.

Whether they want just a little quietness and conversation, they are on their own. They feel blessed as it gets them out of a situation. It brings them out of a little pressure. Before when they were walking, they feel now, life has become better. Well, this is what is happening to the world today.

Something happened in Trinidad this week, because for a little while they have been talking about, "You better move in the Caribbean and get into the Information Age," or we would be left behind. Because the world is changing rapidly.

And I want you to see that when Cain began to bring in a new civilization, eventually it came to the place where the Bible said, "And the men became of great renown." And then they began to invent all kinds of evil things. And they came to a place that Noah's message in that Age had no real effect. Do you know why? Because people in their learning, it seemed that they were so far advanced above that kind of thing. It was too unscientific for them. Because they had the technology that could unite the whole world against the prophet's message.

They could have controlled the masses of people in a type of religion, scientific religion, that they gave to them that this seemed to them like it was a total contradiction to that type of civilization. From the time it came into the mind Age, from the time it came up in

the realm of intelligence now, where men were of great renown and great thinkers and great inventors and these things, it was the time when the destruction had to come.

What was God's purpose? Get it. What was God's purpose? For two thousand years, from Adam in an agricultural society... Now think closely. Some of you who maybe went to school will understand me a little better. In an agricultural society... Because in those days man lived for nine hundred years. After the flood, man began to live a hundred years. You see, Adam and they were hundreds of years when they were going to have their first child. This one was so many hundreds of years. After the flood (watch the genealogy) man was thirty-five years and had his child. Man was thirty years old and had his son.

Why? Because from now, where Adam lived nine hundred and something years, Methuselah lived nine hundred and sixty-nine years, Noah lived for so many hundreds of years, now God had cut the time of man. God had reduced that life's span, that man was living a shorter time. So now in a couple hundred years, it had moved from an agricultural society to an Industrial Age and by two thousand years, they were in an Information Age.

After the flood, the Industrial Age was 1675. Are you understanding? It took man almost three thousand years to come from an agricultural society to the Industrial Age. And from the Industrial Age, that is where Luther came and they invented the printing press during that time too in the Age of the Reformation. Paul, Irenaeus, Martin and Columba, all of them lived in an agricultural society. They lived in a primitive type of society.

When Luther came, for the first time now, they had the printing press. Man was printing Bibles left and right. They scattered It across the world. The greatest missionary Age was the Philadelphia Age that took the

Bibles and put it back in the hands of the people. All through Europe, the Reformation burned. All through Europe, man was able to read the Word in a printed form. Every man had the Book for himself. Back in the time of Jesus and they, everybody would go and hear the priest read because they didn't have the availability of literature; printed literature.

But then watch something. Then God was determined to turn the world back. God sent the whole world backward and wiped off the industrial society. Do you know why? Because it said, "And they corrupted the earth." They ruined the earth, they destroyed the earth. Man had reduced the earth to such a hell hole that God said, "My Spirit shall not strive with man anymore."

Because now they were mixing this tree with that kind of tree; they were mixing that animal with that kind of animal. Now they were mixing this kind of vegetable with this kind of vegetable. And now they were destroying the human race, they were destroying themselves with their knowledge and their science to build up all their inventions.

Look what happened here in the Industrial Age. When the Industrial Age started, the Bible said, "Lamech rejoiced." He said, "If God judged Cain for wounding a man, how much more Lamech, seventy and seven fold." And Lamech began to sing a song and that was because of the invention of the sword. He had a weapon now. Man learnt to temper brass and make a sword. And having a sword, it gave him the advantage over his enemies.

So the Bible said, "And violence began to spread throughout the earth." Why? What brought on armament? Do you know what brought on armament? The Industrial Age. Because when they found out that they could make all of this for the economy, they realized too, we could make guns, we could make tanks, we could make bombs, we could make planes, we could

make different things to give ourselves the edge in warfare, because in man there was always a desire for conquest.

God saw after the flood, when Noah walked out of that flood... Do you remember the story of the flood? God told Noah, "Take the animals, the clean ones; take the different beasts; take the different fowls. He said, "Take the different kinds of herbs because this thing is going to destroy everything. When you go back out, I'm going to repopulate the earth."

So here, Noah came out of the ark with his family. It didn't have a building around. It didn't even have a road around. It was a new world. The man was back, he saw a big tree here, he had to try to think now, "Okay, where am I going to... The ark settled on Mount Ararat. He was looking around there to find a place; only him and his family. Then the Bible said, "And they spread over the whole earth afterwards."

Now catch this, you know. In no time, quickly out of Ham's lineage, civilization started again. Civilization started again until man decided now for conquest. They were building places one after the other until finally they reached the realm where they saw they could control the whole world. And so, Nimrod decided to unite the whole world together.

Now all of these things in the Book of Genesis were a type for the last days because God was going to show how the earth was going to come right back the same way. Now one of the things that really struck me when God started to deal with me with this, I began to see how people, they are talking about what is coming and what the Prophet said, and it is happening all around them and they can't see it. They are caught up in it and they like it and they are enjoying it. And they are thinking in their mind that they are a better people, not knowing that they are being blinded by the god of this world because they don't understand what is happening. The Seals don't mean anything to them.

When you ask people, “Do you believe the Seals?”

“Yeah, I believe Bro. Branham came.”

He said, “Do you understand what is in the Seals? Do you understand what is revealed about the end-time? Do you understand what is revealed, how Satan himself will sit down and be worshipped as God? And the whole world will worship him.” The Bible says that the Devil has come down and deceived the whole world.

You hear how these Pentecostal churches, oh, are blasting the Catholic church; this, that and the other. Brother, and they don’t realize that Laodicea is rich and increased with goods and all the people that they dealing with in business everyday, it is the Catholic church and they don’t know it. All that they are doing things with, it is the very things that are tying them up and entangling them up in the web and they don’t even know it! And if you think that I’m speaking out my head, you watch and see. Something here, I’m trying to show you.

1989, when the Holy Spirit—you go back on some of those tapes there, I stood up a day and I said, “I’m prophesying in the church.” I said, “I’m making certain predictions. What is going to happen to bring this whole thing – it is going to come through technology, it is going to come through information; it is going to come through those things. They are going to make discoveries in that field because that is where the power is going to come.” Because I saw it here in Genesis.

That Nimrod conquered the world and was going to link earth and heaven together. He had all the people unified because his conquest was so great. He had all the resources under his control. He was controlling military, trade, commerce; everything. Building, everything, industry, banking; commerce. See? He had control of everything; religion. And he made every kingdom subject to Babylon. And God put that there to tell us what is going to happen in the last days.

And I brought to you the message, *The Traps Of The Mighty Hunter* [1989-0715 -Ed.] we put it on the tape and book. I preached, *Behold The People Are One* [1989-0716M Behold The People Are One And They Have One Language -Ed.] and showed the evolution of the communication system. There was a time man used to send signals, smoke signals. Today, it is satellite signals. There was a time man used to send airmail; a carrier pigeon. They tied the letter onto the pigeon and sent the pigeon. The pigeon is a homecoming bird and it would fly.

In the Bible days, they had a runner and he used to run with the message. You don't see anybody running with a message anymore. People are on the internet. People can talk to people around the world like if they are right here. People are sharing information. People are having video conferences; people are sitting down right there. It is coming in.

And then they set up the thing right here in Trinidad, these last couple weeks. They put up this big, new dish up in Matura [place in Trinidad -Ed.], the earth station. Let me tell you, since that time, 1989, I follow every piece of thing on information around the world. Because I know where it is coming. I'm watching and seeing how it... The Prophet said, "He is unseen to the eyes but we can see what he is doing."

When they had all those big communication systems and they were having those mergers, TIME and Warner were buying up ten, twelve billion dollar deals... Sometimes people don't realize how much money is ten or twelve billion. Let me tell you, that will buy Trinidad a few times, you know. And you are talking about companies. And when they started to control that thing... And I read where the man was going under the code name of Cronus. And Cronus was another name for Nimrod, the god of fortresses. And you go back to Daniel 12 where it tells you about the god of fortresses.

That's why you see Daniel and Revelation, people don't read them. The Prophet said that Genesis and

Revelation are two books that the people don't read at all. Why? The Devil hates it because that is where he is going to be exposed. Read it on *Satan's Eden* [1965-0829 - Ed.]. But I'm trying to show you, people are looking at the thing there, talking about it here in the Bible and can't put it together. That the very thing...

Like the Seventh Day Adventist – the very thing that they are supposed to be talking against, they are supporting. Why? Because people cannot see the Word being fulfilled. They don't know how to look at it. They can't make the world... They don't realize that right now, the world is changing so rapidly that right here in Trinidad you talk about people now with US accounts, banking this, this kind of banking, that kind of banking, things that—services that they are opening up in a way to make you feel prestigious, in a way to make you feel that you are getting special benefit and special privileges. And you feel, all the time you were giving support to an institution, you were not getting anything, “Well, I'll carry my money over here. I'll carry my money over here. They have better privileges than that.”

And it is a whole society coming in. It is a whole new way people are doing banking and commerce and trade than the way they used to do it before. And they get into it so subtly that they are looking now for something in their mind that maybe one day the Pope is going to come out and say something.

Sometimes we look for a lot of things through religion and it doesn't come through religion, it comes through business. Sometimes we look for it to come through business and it comes through religion because it is the same Devil that has many faces. He is controlling religion, politics and demon power. He has built his Eden. He is camouflaged in his Eden. He is veiled behind oil wells and industries and banking and science, but it is the Devil that you are dealing with.

People only see the Devil in, “Well, they are not getting me in any denomination. I'm not going down there. I

believe the Message.” Then they give more support to something else in a next realm that is the same Devil. By that time, the Devil have them tied so much there, they are watching whether they would get rebaptized by sprinkling or Father, Son and Holy Ghost, and they are trying to brakes from that and then they are tying themselves more freely and deeper in another way, because they have no spiritual discernment as to what is happening.

Listen to this. They had this article here. I don't know if you saw it or if it meant anything to you when you saw it: *'The Future Is Here.'* And they began to give something about gearing up for the year two thousand. This is right here in Trinidad. It happened around the world to many nations, but this is our own in the island here.

They say: *On Tuesday June 25th a new satellite earth station antennae will be commissioned at Matura taking Trinidad and Tobago to the forefront of telecommunications technology.*

Things that Trinidad wasn't accessible to, Tuesday gone, they are accessible to it now. In other words, in a certain realm, they have moved up into a whole new realm of information that brings power to the very nation.

Listen to this, okay. Listen to this. Maybe I try to make things look kind of far-fetched or look kind of little different to the normal way, but you see, when the Word is opened to you, It changes your way of thinking. And that is why when you see me stand and cry out against certain things and stand against certain things... Why? Because I am dealing with the spirit behind the thing. People don't deal with spirit half the time, they deal with natural things. But watch.

TSTT decided to replace the antennae with one of a modern design. Matra Marconi Space UK Limited, one of the world's leading satellite equipment manufacturers, was contracted to do the twelve million dollar job.

Half of the time when some of these people are coming down to do the job and they are setting up these things, people here are so limited sometimes to what is happening. When they put certain satellites in space, they don't tell you what it is and what they are putting it for. And then afterwards, they could tell you how many cows there are in Europe; how many cows are in each pasture. They have a way to track them from the sky. Sure.

How do you think they moved in and they took over Saudi Arabia where they had the Gulf War? They took it from the sky, satellites, and showed the position of the troops moving in. Five hundred thousand US soldiers went in. Remember I told you they were not going to pull them out. There were articles that they were going to pull them out, pull them out; pull them out. How is it they bombed one big place there? See?

You see, what is happening, friends, when they discovered the fourth dimension, Satan got a hold of the capabilities to deceive the whole world at one time. Television and these things put a person in global contact. If a man is influencing ten people here, he could influence ten people in every village around the world where they are connected.

If the Prime Minister stands up in Woodford Square, he could only speak to so many people. If he goes on national television, he could speak to the whole nation at the same time. He could bring the whole nation in the realm of thought that he wants by bringing them in the same channel and under the influence of his voice in what he is saying.

When Satan got a hold of that, man failed to even realize what they had. God said, "What? They have one language?" He said, "Think about what they are going to do now. Now nothing shall be withheld from them." Look at the power man came into. When it came into the Information Age, God destroyed the world; brought it back to a pre-industrial state. Then Noah started off

as an agricultural man. Then they started to build cities; the world started to change. Then it came to a tower – one language, one speech, gathered the whole world together; communication.

Language is ‘*communication.*’ Language is a very, very broad word. Language just doesn’t mean English. Language could mean algebra. Algebra has its own language. Doctors have their own language in medicine and everything. See? Sure. Computer graphics is a language. You do driving, you see certain road signs, that is a language to you. It tells you what it means. You are walking and you see a cigarette and an ‘X’ across it, that is a language. That tells you ‘no smoking’. You haven’t read a word yet. Isn’t that right? Sure!

You see little symbols, that means Mazda, that means Suzuki, that means Audi; that means Mercedes Benz. Then you go in the Book of Revelation, you see a woman on a scarlet colored beast, that means the Roman Catholic church. You see the great, red dragon, that means Satan. Isn’t that right? It is a language.

So when you look and you see, it came up from agriculture to industry to information. And when it came to information, because God wouldn’t destroy the earth by water again and it wasn’t time yet to destroy it by fire, God broke it up and scattered them. And when God scattered them across the face of the earth, from that time till this time, we are hearing them talking about a global village and they are uniting the world together again by information.

For almost three thousand years, it was just agriculture. Then the Industrial Age came and they invented the steam engine, and then they started there. And then every type of motor car came afterwards, then machinery; planes. And while that was going on, in the spiritual realm, God was bringing the Church up too, (isn’t that right?) showing that God was moving together when it was moving.

Because when they had the horse and buggy Age, Luther caught the revelation. Then they had the motorcar Age; Wesley caught the revelation. Then they had the Pentecostal Age and they moved into the gifts of the Spirit and they had the airplane Age there. And then we saw a man standing here speaking God's thoughts again. He said, "Lady, I'm seeing so and so and so. I'm seeing this here. He spoke to me this morning. He told me, go down there, you will find it just the way that I say it." He said, "You went to the doctors last week, so and so happened."

Where was he getting that information from? He had access to something. He was linked up with Something. He broke into the place where Omniscience comes down, Omnipotence comes down. But the Church could not move there in the Industrial Age. It had to be when they came in the Mind Age, (isn't that right?) the Capstone Age when the Head comes down.

Wasn't that an Age in the Bible, when the Head will come down to the Body, when Christ will be the Head of the Church, when the two will become one; when the Bride will be capped off? Was that an Age when the Marriage will take place – the Head and the Body becoming one? Wasn't that a prophecy in the last days? Didn't the Son of Man—was the Headstone coming back? Then that Age brings back healings, discernments, faith, miracles, angelic visitations, translations. Didn't that come back here? Sure!

Watch. Satan has a way of getting people materialistic minded. You see, you don't know the power of what you are dealing with. You don't know the influence of what you are dealing with half the time. Half the time, in your spirit you are feeling a little more prestigious. Satan could give you... God could give you a little better clothes maybe for something, you take it and you feel that you are a better person. That has nothing to do with God. How is it, better clothes can make you a better person? That is just a better fig leaf,

a more refined fig leaf. Because when God robes a man, he robes him with the Holy Ghost, He robes him with Power; He robes him from the inside! Isn't that right?

You see, this Message, friends... In this Age, what is happening and what is happening to the people so fast, they could hardly grasp it, they could hardly grasp it, they could hardly make sense of it.

They say: TSTT decided to replace the antennae with one of modern design of Matra Marconi Space UK Limited, one of the world's leading manufacturers contracted to do the job. Site preparation work began in September 1985 and was completed May 12th 1996. With its sophisticated tracking and control system, the antenna will closely track the movement of the Intelsat VI satellite, continuously optimizing signals received and transmitted. The project also included the installation of new high power transmitting equipment and low noise received amplifiers.

The new Matura antennae is linked to corresponding earth stations in Germany, Holland, Jamaica and Puerto Rico with the Intelsat operation center in Washington.

This new world that we are talking about, that is being divided here, did you notice before it came from the Industrial Age to communication, in that Age, the earth was divided? And Shem called his son, Peleg. Now today we see it coming in.

Look, recently right here, they had all these big, Latin people that came. They had their big meeting. All the top heads and they were right inside there in Hilton Hotel. You see it every day in the papers but it doesn't mean anything to you. You see Christopher, [Warren Christopher -Ed.] Secretary of State came. I tell you—I said, "Look the sign."

You see Bee-Wee [BWIA West Indies Airways Limited -Ed.] come with the big airbus now. You say, "Yeah, we got a new airbus, boy. In New York flights will be cheaper and there'll be more people." They don't understand what is happening. In the spiritual realm, it means nothing.

That doesn't seem to relate to church. We are in church, we are in Third Exodus Assembly, when everything is changing. And now they have our air space. They have come into our air space; we now could go with certain types of aircraft in their air space. Why? We are all zoned together. We fall into a region; the whole Caribbean here being pushed together as one.

Firstly, you had the OAS – Organization of American States. Before that, you had the Caribbean Basin Initiative. The Caribbean Basin Initiative, they had that first because Cuba was influencing Grenada, Suriname, Guyana and different ones. And Russia was influencing them. So America had to come down here now; have something here to stop that communism thing.

When that broke there, then now we see what they did. They came and they opened up Grenada, poured in some money and everything else, made everybody feel nice; locked up all the dissidents who were carrying that virus among the people and put them in quarantine. Are you understanding what I'm saying? Why? "Because we have to restructure, we have to change it around." And that is what is happening, friends.

And now the activity that is going to come here, this Revelation 13 that is coming, this New World Order that President Bush [George H. W. Bush, 41st U.S. President -Ed.], while he was there, and fought that Gulf War and all these things so that they could take certain strongholds to bring in this New World Order. We talked about it.

But do you know what the New World Order is? It is going to be based on economics and trade. So they have one trading bloc from Anchorage, the northern part of Canada, Anchorage Alaska, all the way to the southern tip. And now the terminology comes in – the Americas, the Americas; the Americas. See? And it is coming in. So new language, new terminology, new way of saying things. Why? Because it is defining something. It is bringing you now into perspective to where you are

relating to. What is doing it? Politicians? No, the Devil. The politicians are only the medium.

I told you when they had election, I said, “Watch. That is the Medes and the Persians – this is the Hindus.” Read *The Handwriting On The Wall* [1958-0309M -Ed.], you are going to find that. He said, “Look what is happening there”; showed you the spiritual part behind it. Further proves it in this last local election too. You see, the people get caught up in cultural ties, caught up in this, caught up in that and missing... Why? They are not following spirit.

People go to church, people go back home. People go to work, people go to school; people do different things. They move around, they have friends, different places. They are not following something in the Spirit, they are not governed by the revelation of the Word, they are not seeing what is happening to see what they are dealing with.

Let me tell you, anybody that you are talking with, you better have discernment to know what kind of spirit is motivating that person, you know. Otherwise, you could get sucked in because they have some wrong motive, but you are taken up with their personality. Sometimes you don't know where that influence is coming from and you are getting influenced by them and you are throwing down your real influence to become influenced by another.

Go and read *Influence* – it was preached about five or six times. See what the Prophet was talking about on *Influence*.

We are in an Age... Let me tell you this – remember, Satan deceived the whole world. If it was possible, even the elected would be deceived. And remember we are in an Hour where you have to redefine deception. Because you could be right in the Message and be more deceived. Saying that you believe one or two things, have the Hoffman's Head on your wall, have the picture of the Cloud, that doesn't mean that you are not deceived. Not

to be deceived is to have the leadership of God in your life.

“As many are led by the Spirit of God, they are the sons of God.” [Romans 8:14 -Ed.] If they have leadership, there is the Intelligence of God guiding you, there is wisdom, there is faith, there is knowledge; there is virtue. There is power, there are miracles, there is healing if the leadership of God is there. Is that right?

Could God be leading a person and they can't make a decision, And when they do make a decision it is contrary to the Bible? No, no, no, no, no. Because remember Gehazi and all those fellows, even Judas right up with Jesus, all these things, even Achan in the Ephesians, remember they were in the land but there were things that had a greater hold on their lives than the purpose of being in the land, you know. Being in the Message—you might be glad that you are in the Message and that you know about the Message and these things, but while you are in the Message, brother, if you...

Why do people commit adultery? They are in the Message, but they look out there and they see a woman, and she is enticing to them and they go after it. Why do you think a man gets trapped with money? He is in the Message but the lust for money, he didn't overcome that, so he goes after it and he gets tied up with it. Sure. Why does a man go after popularity? He is in the Message; he knows it. Didn't Saul fall for that? Didn't Balaam fall for that, yet knowing the right approach to God, and could bring a revelation from God and had an inspired prophecy? Do you see the Age that we are in? Sure.

Didn't Judas have powers to cast out devils? He came back rejoicing but yet he didn't have any power to hold his spirit. He could sell out the Word. Is that right? So you see, there is no security in saying, “I am in the Message or I love God.” There is no security in that. Why? The program of God is to make you the Word, and

when you become the Word, you overcome. You overcome your own will, you overcome the will of man and you become subject to the will of God! That is the program of God. You become a prisoner where God has the preeminence, the oversight and the leading in your life. And that is where you live.

But outside of that, where the time is going to come and they have a network now linked up with Europe, linked up here. Do you think that is only for business? Do you think that is only to make telephone calls to your family? No, friends. The Devil didn't give you that because he wants you to call your family. These things are coming in to take over the world. This is the power that man has to be able to take control of everybody. Everybody comes like a statistic; everybody comes as a file on a computer disc.

You watch Bill Gates and those fellows, do you think they are soft? They had Bill Gates in National Geographic sitting down there fifty-something feet high in the air. Paper, fifty something feet high, he sat down on it on a long—like an iron rod through it and then on the next side he had a CD-ROM. And he said, "All of this information here will fit on this." And then they said, "We are into the place where those big, public libraries that they have there with all those thousands and tens of thousands of books, you have it right on your desk in the form of a CD-ROM."

A little CD-ROM like that has all the books and all the knowledge in the books that the whole library – three blocks and librarians and benches and shelves and everything else right here. You put the public library in your pocket and you walk away. You wouldn't study to borrow a book any more. Can you understand that kind of power? That in a couple of seconds, you could access any information in any book in that library right there!

I tell you, by what I'm going through here, I see a lot of you are still in the agricultural revolution. Eighty

percent of you all are still back in the agricultural revolution. From agriculture...

You see, in the Message terms... Hear what I'm doing this morning: I'm preaching these things that I have preached all the time, you know. In Message terms we say, *Satan's Eden* [1965-0829 -Ed.] and *God Of This Evil Age* [1965-0801M -Ed.]. In historical terms and the realm of education that is out there, they say, "agricultural revolution," they say, "industrial revolution" and they show you how that changed the world. Well, people read that and then they can't accept the Message when the very thing that they have there, what they consider the evolvment is just how Satan works to bring his Eden to its climax.

That is why I'm showing you where Adam was. God... Why do you think when they come to the Information Age, the destruction comes? You don't go beyond the intelligence. And if it came in the days of Noah and it came at Babel, it is going to come right back here because we are back to that time. And if God's thoughts are being expressed and if the Headship of Christ is come back, then the Church can look for a Rapture – looking for a Rapture here and looking for the things that God promised.

If science is giving man the access... Everything in the computer world is access, you know – access, access; access. But the Bible talks about access. Paul used that word quite back there, talking about: by faith we have access to stand in this grace; we have access before the Throne of God where we can come with boldness. They were talking about a fellowship, a communion; a communication link up.

Why? The Blood cleansed everything and broke down the middle wall of partition, removed the enmity, brought us back in fellowship with God, gave us back the same Nature through the baptism of the Holy Ghost. God dwelling in a man that all the thoughts of God were in the man; he could hear from his theophany. The man

could see what tomorrow holds for him, he could live under that Influence. Why? Because of the access.

Job had a channel, he moved in and got inspiration that when he spoke there, he knew it was: THUS SAITH THE LORD. Sure. That is what we are talking about.

If they are moving up there, friends... My time is up. If they are moving up there and they changed the way of life for their people and they had their educators and their workers and the skilled men to put up their dish... And when they needed help from overseas, they went and got overseas help too. And when they needed computer classes, they sent for that too, and they started to introduce it in the schools too. And then they started to get people computer literate. Why? They are trying to get their people up [higher -Ed.], to link up and move in the rhythm of what they are doing.

Then if God is trying to get His people linked up with Him, and God's people should be catching a vision of what is breaking in the natural realm is only a misrepresentation of the real things in the spiritual realm.

Listen to this. This tells you how people catch things.

Ironically Matura was the site chosen to help catapult Trinidad and Tobago in the world of satellite telecommunications.

Catch this, you know. They say, "Now look. Matura ended up to be the place chosen for Trinidad and Tobago to move on into that realm." Well I could say, Abel country is the place. Watch. Watch something.

In 1971 Textel erected the country's first earth station here. Thousands of years before nature...

Hear what they are saying now. These people now are trying to figure out the site. They know, "How did this end up on this site, boy?"

Thousands of years before it even had people here, they traced where the Caribs and the Spanish creoles migrated from Caura and Blanchisseuse to settle there. So it goes right back to the indigenous people, the

Caribs who were here in the country. You see how they are tying all their business.

They say: [Then] *thousands of years* [ago], *before nature had chosen Matura for another special purpose, its Rincon and Orosco beaches are among the few places on the planet where the leatherback turtles bury their eggs between May and September each year.*

There are few places on the whole planet where leatherback turtles bury their eggs, and Matura beach out there is one of those places. Do you see what makes it unique too? Watch.

Despite the many efforts of conservationists the leatherback turtle remains a highly endangered species and their numbers continue to dwindle. As one of the chosen nurseries for these marine reptiles, it is our duty to jealously guard nature's own.

The female leatherback comes ashore to nest as many as ten times in a single four month season. It says: When her hatchlings eventually emerge from the metre deep nest in the sand, however they are immediately attacked by terrestrial predators: hawks, vultures and even marauding stray dogs.

Do you get anything out of that? Do you know who the hawks are? They lost their identification. "They used to be a cousin to the eagles," the Prophet said – *The Seed Is Not Heir With The Shuck* [1965-0218 -Ed.]. Do you know who the vultures are who feed on those rotten things? And then those stray dogs. See?

A few of them will make it to the water alive but many of those fall prey to the crabs, sharks and other marine predators.

I remember some years ago I saw a documentary with that. We were going to Honduras and we were overnighing in Miami and they had this thing with them. And they were showing how those leatherback turtles would come and dig down in that sand and they would get down there and lay those eggs. And from the time when those eggs hatch out, from the shore to the

beach... And they are waiting for the water to come in. And when it comes, they have to move with it, because the tides, in going back out, it has to take them. And from the time they come there, like those birds could smell them. And they showed all those pelicans and those different kinds of birds there and vultures were just flying down and they were picking them up.

And to see that she just comes thousands and thousands of miles to find that place, to find that beach, lay those eggs there and then when they hatch and they are going out to the water where they are going to live in that water and they are depending on that wave to take them out, here is where they get an air attack. And they said one or two makes it to the water. All die between that hatching time and hitting that environment where they are supposed to really go forth and live. And then when they hit there, the crabs in that water now are waiting for them. Because they are so small, they can't even defend themselves. And the crabs and sharks try to take the rest, and it is becoming an endangered species.

In that place where they set up this communication tower, there is this mystery in nature, there is this special species of God's creation where there are few places on the planet... And friends, let me tell you something, I really must confess, I've seen a lot of those vultures flying down and devouring quite a lot. And when they escape the vulture here, I see the crabs and the sharks too on the next side.

The ones that could really catch the wave—and let me tell you, this morning, He is giving you a wave. 'Catch your wave' is like a surfer language. A surfer out there has to be waiting for his wave. Wave—when you say, 'another wave rolls in' it always speaks of... Wave is a change. Wave is an inspiration. See?

And like the revival – you read that Azusa Street revival, they called it, *Another Wave Rolls In* [edited and condensed version of Frank Bartleman's eyewitness account of the Azusa Street

revival –Ed.]; a wave, wave after wave of the Holy Spirit. And when you see a person—because if you don't catch your wave, you can't do anything. You will work in the flesh. When Paul caught his inspiration and began to bring that, that was the wave for that first church. When Martin caught his and he began to preach that inspiration, that was the wave for that church. If they had to do anything for God, they had to catch that inspiration and move with it.

And you in this Hour, if you are missing your Word, if you are missing the Word that is linking you up with God, if you are missing the Word that is designed to give you the discernment of the Age that you are living in and showing you the changes and why civilization is taking a new face and why things are breaking up and it seems like the world is again falling apart...

Don't you realize under the Fourth Seal everything is uniting? We quote it, but without insight. Religion, politics and demon power, it is easy to say that. Just three words, so it is not hard to remember. And we see they are uniting under the Fourth Seal. And then under the Sixth Seal, it is not this type of civilization. Because under the Sixth Seal, one man is the head of the whole world – the Beast and his kingdom.

So think of it. In this Age, the bottomless pit was opened. And when the bottomless pit was opened, the world started to get linked up together. And when the world was linked up together, then the whole world wondered after the beast and will worship the beast. Because warfare changed drastically. You know, long ago... People realize now that you don't have to get armies to go and fight wars anymore.

As I close with this. This is, I think yesterday, or the day before yesterday. It says: *"The Internet shrinks the world. Region gears to join information revolution."*

Forty million people worldwide have access to the information superhighway, the Internet, the fastest developing technology in this century. And it says: On

Thursday, the Caribbean Association of Industry and Commerce (CAIC) hosted the eighth annual private sector conference at the Trinidad Hilton to explore this information revolution and its impact on trade and development in the Americas."

Now all these people are soldiers. When I say, "Soldiers," understand what I am saying. Satan, Nimrod has an army. And people who fight on an industrial front, people who fight in the private sector on a certain front, all those are realms. Because when you read Ephesians 6, It says, "Principalities, powers, rulers of darkness." It is just words for people again.

I was showing you the other day how highly organized Satan's kingdom is. It is highly organized, friends. It is not what you conceive it to be sometimes. That is why, when you are taken up with the aspects of the war just in your mind, your little mind battle, and you are going through this, you say, "Boy, the devil is giving me a hard time!" And you mean the little imp who whispers little thoughts in your mind. You are not talking about the one who is taking over the world, you know; who the whole world is going to worship, you are not talking about that one. You are talking about a little, nervous condition that you have, that you are trying to shake off sometimes.

But the thing is, when you watch what is coming, it is going to be this Bride worldwide who will be hunted and persecuted before she goes to be with Jesus Christ. She will be pressed until She is all pressed out.

Right now you are eating three square meals a day. Right now you are wearing nice clothes and you are smelling sweet. You are driving up and down. See? But the thing is, it is changing so fast all around you that many places where you are putting in your roots, many places where you are getting involved, many places where you are getting influenced, if you don't have discernment, if you don't have an understanding of what is happening, you are going to tie yourself and you

will have to look to take a next look. It will be hard to walk away, it will be hard to escape, flee for your life. Your roots will get so deep. Watch.

Because you see these things are the very process—what I'm saying is, it is the very process of the unifying of the world to be controlled. That is why it is changing now. It has to change now. Do you know why it has to change now? Because the Seven Seals are opened thirty-three years already warning a Bride and calling a Bride out and getting a Bride ready. And when these things start to move with this pace, it is only because it is time to go.

Look at the Comet. [Comet Hyakutake -Ed.] We are talking about the Comet here and bringing it from a next side here. Put the two together. Put what God showed in the heavens – put that and showed the Elect being put to safety in an Hour of judgment. And put and see what I'm talking about: when it comes to the Information Age, that's the judgment time. God destroyed it in the days of Noah.

What will happen after this Information Age? The world will come back to a pre-industrial state, the desert will bloom; the fruit will come forth in abundance like it was when Joshua and Caleb had to carry it. It will have no more motorcars and tanks and bombs and all these kinds of buildings. It will be a different kind of society. Under the volcanics under the sixth Seal, God will change it to bring back another Civilization. It always comes when it comes to information. It doesn't go higher than the Information Age. And now we are caught up in the Information Age; it is changing the face of the world.

In TIME Magazine, in a little article, it says: "*Starting with the telephone, each breakthrough in electronic communication has changed the world. On the threshold of a new century, yet another new technology, the information superhighway that melds telephone, video, computer traffic into a single stream, is entering our lives. While the info band is still being defined, what is beyond*

doubt is that it will revolutionize the ways that we work...”

They say people will not have to sit down in an office and report to work anymore. You have your laptop, you have your fax, you could do your stuff and fax it right in. Sure. From right where you are. Out in your car you are doing your stuff too. You don't have to be tied down in an office. Everything is changing. Lifestyle is changing too.

Long ago, you had to say, “Stop here by that telephone booth. I have to get to a telephone booth now.” You are pulling your little cell out now and you are talking wherever you are, normal. It comes in like style, like fashion; like upgraded life. When Peter Minshall [Trinidadian Carnival artist -Ed.] brought the mas [carnival celebrations - Ed.], he showed the man trapped in technology and different things. See? Even a natural man outside there was catching a revelation and was trying to bring it because he was seeing a danger of something but couldn't find it in the Word.

I'm trying to say, look the agricultural civilization. I didn't have time to develop it as I would like to, because I am now speaking on it for the first time. Then the industrial civilization – from Adam to Cain, to the days of Noah, look how the world came. Then God brought it back to a pre-industrial state and then it started with Noah, a farmer. Then it went where they started to build cities with Nimrod and then it went to communication, information that united the whole world – one speech and one language. In the days of Noah, when it reached there, God destroyed it. The next time, God destroyed it. And here we are again in the last days, friends.

For three thousand years, all the way from Babel— not from Babel, from the beginning when man started there... Because the lifespan of man was cut after the flood, it held them longer in that realm. Because now, nobody was living for nine hundred years to discover those things. Before they could even break through

agriculture, they were dying. But then they started to break through in the Industrial Age and it changed the world, changed the way that we travel, changed the way that we dress, changed the way that we eat, changed the way that we do business; changed everything; the way that we work: the Industrial Age. And now the Information Age is revolutionizing the people again once more.

Now telemedicine is going to be here next year. They have to get people: they are dying down here. Do you know why? They don't have the money to travel and carry them up in the States. Now Royal Bank is going to give you a tele-card together with your Visa card.

Do you know what they are going to do there? Now on the Internet they are performing an operation there and if they hit a spot that they don't know what to do, they take those files and they send it to a specialist right there. He is in his office in the States, he looks at it and he advises them. They don't have to carry that patient to wait long lines for an interview, you know. If they are performing an operation there and they don't know what to do, then just like how they have video conferencing, the man could stand up right there—he is standing right there in the operating theatre though he is thousands of miles away in the States.

When we were in Tobago, just in Tobago, Sis. Vernice's niece, she is taking some kind of course in some place there. And she was explaining the course to me. And she goes there and it is by satellite learning. Now children don't have to go to school out there. No. You access all your lessons, graduate, do your exams, everything, qualify, learn things right there, because all that education will be revolutionized. Medicine is going to be revolutionized.

He said, "Do you see what they have imagined to do?" But that is that side. What about the next side now? People didn't know about dimensions; people didn't know about ministry of angels. People thought that was

only for the twelve apostles. People were confused about the gifts, whether it should have the gifts here and all these different things. People wondered what healing really is: Whether it is “I rebuke you! I rebuke you in Jesus’ Name!” or whether it is knowing spirits, knowing how healing takes place; knowing what happens when the life leaves a person – whether they’ll still have the symptoms. See? All those things have opened up to do what? Bring the Church a little higher.

Like I said, “Bro. Bosworth sat down with Bro. Tommy Osborn, a man who never saw one miracle; when he was finished, he had tens of thousands of healings.” Why? He said, “Gifts of healing don’t mean power to heal. Gifts of healing mean knowledge of healing – the approach.”

God came back in this day by a Prophet and said, *There Is Only One Way Provided By God For Everything* [1958-0927 -Ed.]. He showed us everything is in the Bible. There is nothing that is not in the Bible. And that is why you see, I try to drive that down many times here in this church. Do you know why? Everybody wants their little, private business. And that is only a trick of the devil shutting them out from the Holy Ghost. But if it is in the Bible, then God shows the way to do that.

The way to get your wife, there is a way to do that. A next way is a wrong way; you can’t get blessed. The way to make your money, there is a way to do that. You do it a next way, you can’t get blessed. Sure. There is a way to dress to be accepted by God or there is a way to be dressed, brother, you’ll be fed to the dogs. Exactly right. God has a way to do it. God has a way for everything, friends.

There is a way to worship God that God will accept it. He said, “Do like your brother,” and you don’t want to do like him, He can’t accept it, like Cain and Abel. There is a way to do it. Exactly. Everything, there is a way to do it.

So it is changing the lives of the people completely. And at this very Hour, with all these changes, you see people... Long ago, the restrictions that they had to go through.

Now, as I told you, they had this meeting recently for people traveling to Mexico and those Latin American countries without a passport. They are sitting down discussing this. Because when they are uniting in the realm of business, they are uniting in the realm of finance; uniting in the realm of technology. Why? Because it all goes together. It has to go together.

Listen to this article: *'Telemedicine By Next Year.'* They say: *Telemedicine, medical care via satellite will soon be here by next year.*

This was last year they had this. I had this cut out.

And when it does arrive, it will link local doctors...

Get this. They are talking about Trinidad, you know. *...via video conferencing technology.*

You will understand when I say that they put up that earth station, how the doctors are going to fit in, how the banks are going to fit in, how everything is going to fit in, and where it is going to carry the whole nation. And don't even think that it is not going to affect your life. You are doing business, you are tied to a bank somewhere. You are working somewhere, you are getting a salary through a certain course. Once money is passing through your hands, that money is channeled by a certain system. Once you are spending that money, you are spending that money in places that are tied to certain things. Sure. You don't think that it affects you, but then your movements have been ordered movements. You don't do what you want. It tells you, this bank card is accepted here, here, here, here. Sure.

Then you see, this grocery tells you, "Okay. We are tied to this here with Bee-Wee. You shop here, you get this here with Bee-Wee." Then they say, "You can get your money in this bank here but you pay this fee here.

And this bank is linked with this bank and linked with this bank.” Sure.

And when it comes in, you don’t realize, “I remember I used to do it like this before. But it is really easier to do.” Yeah. Because they are changing the way that you do business, they are changing the way that you work; they are changing the way that you shop. They are changing the way that you are doing these things.

And it is all happening in your daily life and it kind of eases up a lot of pressure upon them because they put the pressure upon you in the first place. And then you get settled into something that you don’t get alert over it, so you are relaxed with it. Until eventually when a thought comes in opposition to that, you could get offended too and try to defend that, because it seems like it is going different to what is suitable for you. Somebody wants to make your life miserable now. See? And it just shows your spirit is getting hybrid, you are getting entangled; you are getting controlled. And it is coming so easy upon you, that you don’t even realize it. Why? Because revelation...

Now, you can’t stop doing it. Understand what I’m saying. But what I’m saying, you shouldn’t be sleeping in it. I am talking about you are awakened while in it. Because one of these days, not very soon, all of that, we’ll have to walk away from it. And remember, you have to feel the strength inside of here. And remember, things that you like are the harder things to walk away from. Remember, when you take fire in your bosom, you get burnt. There are all kinds of fire.

I’m finished. I’m doing this last one just to show you what they are talking about and I’m closing.

...doctors via video conferencing technology with their foreign counterparts in the United States to exchange X-rays, charts and other diagnostic information, discuss patients’ problems even to get a firsthand look at surgery and other medical procedures. The new services are being spare-headed by the Royal Bank which yesterday

launched its USA Medical Services card. The card is being offered free of charge...

All these things have been here since last year, you know. The 'next year' that they are talking about is this year. This is going on.

The card is being offered free of charge with the Bank's new Visa's gold card.

See? They realize that you could benefit so much. They say, "In case you are sick or you have to get over there for an operation or you need special treatment... You know that they are killing people in San Fernando General. You know they are killing people in Port of Spain General. And you know to fly up there, immediately you can't get it. But this card could help you. It is direct to the doctor, video conferencing, or whatever it is that is needed. This is free but you have to take out the Visa."

Well, now you are going for the Visa because that has some good benefits. See? Now watch.

Executive Director says telemedicine and other similar high-tech services were being made possible through the new partnership between the bank, government, Telecommunication services of Trinidad and Tobago, International Communications networks and AVM Channel 4.

In order to give you that service, you have to get the TV station with the satellite to project the video conferencing, you have to get the bank to handle the financial part of it; you have to get the government now to control the policy that surrounds it. Do you understand what I'm saying? And the banks will deal with the foreign exchange and the money and these things that are going to pay for the services. So then all these spirits come together to make life more comfortable for you.

And God right here, the Holy Spirit, gives us an access too. Because it is by an access. If man with their government and man with their telecommunication

system and man with their banks, their financial power, what about God with His video, His audio?

Do you know God has video? Does He show visions and give dreams? Do you know God gives a Word of knowledge and a Word of wisdom – God’s audio? That Voice speaks on the inside. Do you know that God has Holy Ghost power to drive that Devil back to hell and break that power around your life? And do you know, God, through the opening of the Word in this Age gives an elected, called out people access into His Internet, into His super Information? What do you think makes the Bride a super race? It is because she has those super things. She has a Super Sense far beyond these five senses.

Didn’t Joshua have one? Didn’t Abraham have one to see the baby coming, that he didn’t stagger through unbelief? Didn’t Moses have one back there in Egypt? Didn’t Peter and they have one? Peter and Paul and them, they saw where to go and preach. Man called them over here, “Don’t go over there, come here.” They heard a Voice say, “Stay in this city, I have people here.” They heard the Angel say, “You have to bear witness of Me in Rome.” Isn’t that right? Their whole life was access through the Internet.

Don’t you realize that Satan has nothing original? That is what I’m trying to say. He is only counterfeiting what God has, trying to give them it by science! Then if man is coming to those things in the natural, what kind of life are you living? You mean to say, there are people not so spiritual to catch, “Hey, if that is happening here, and that is by the knowledge of the ‘tree of good and evil’, what is God doing here?” See?

Tele-medicine is not expected to be available until next year [that is this year, so it is here now] when TSTT introduces its new integrated services digital network, ISDN, allowing for the effective transmission of voice, data and video on a single telephone line.

And that is why they put up that earth station there. So it is here now. I'm saying, right here in the country here now, the services are here. I am talking about on the next side now, on God's side, the services are here!

Let me tell you, way back when God opened those Seven Trumpets, and they were saying, "He is only talking about the Jews. Why is he going all there?" and those things blew over in the church here, let me tell you, I knew what those things were, you know. I don't say it and I don't tell everybody but I'll say it here. That is the same Angel that came in the house and revealed the Seven Seals, the same One that does it. Sure. Do you know why? It is an access. It is an access to it.

And that is why I am saying, these things that are happening around you, many of you, what God put within your reach, it is all around you. All these messages on the access through the Blood and what is in the Atonement and the approach to God and these things, it comes like thoughts. But because you are back in the Agricultural Age or in the Industrial Age and didn't move up in the Mind Age to understand what kind of services were being put available to you and the capability that those revelations of the Word do to you, because by those Divinely revealed Truths is how He turns your hearts back. But the Word mixed with faith is what profits you.

And you will sit down here many times and it is right all around you, and then man by natural science, man by the tree of knowledge can go in a place where the church, the spiritual Church, the called out, that God is working with to bring to this spot, is failing to see and is failing to understand what God has made available to them.

And I trust by God's grace, from the little that I was able to get over to you this morning, that you get a little idea, we are not in an agricultural type of civilization. Maybe Trinidad and a lot of parts of it might be, but not the world, friends. You live down in Biche in the back

there, well some of the people say, “All we do is plant ganga [marijuana -Ed.]. That is how we make a living over here.” See? In the back of Nariva or wherever the place is, when they had Operation Weedeater [a counterdrug eradication support operation -Ed.] and they ate up [destroyed -Ed.] all that weed up inside of there... See?

I’m sure you saw recently down here, all those soldiers with gas masks. Do you see the type of training that they are doing? What do you think all that is happening for, friends? You see, it is happening around you and you see it. But think of it, they are doing an exercise because somebody’s mind is already thinking in a certain realm.

Did you see the whole battle they had with the government and the press here with the media? And I preached before and I told you, the *Information Warfare In The Mind Age* [1995 -Ed.]. And I’m coming back here preaching about the information revolution to you, and I’m trying to tell you what is happening.

Let me tell you, sit down when you go home and you get quiet, take back these things, take back the Scripture and listen closely and pray and ask God to help you understand. Not that I want to think that I’m saying something so important that maybe it is exclusive. I am not trying to project that kind of thing. But I’m trying to tell you that...

That’s why when I played that tape the other night and all of you were in that service and listened to the Word and what the Word was saying, how many of us took that kind of Word and are walking in that kind of inspiration? How many of us watch in our own human spirit and see whether we are being trained that way when the Word comes and shows us how to deal and how to operate in the Supernatural, what to do?

It is like someone taking swimming lessons. You say, “Okay, you pull the water this way, you turn this way, you try to breathe. You breathe in and you breathe out. You try to get the coordination with your feet.” But you

don't sit down there and then say, "Well, I could swim. I got the lesson; I could swim." You have to go and try it out. You have to develop the harmony; you have to develop the speed. You have to get into that place. And when you get in there, then you know something is happening. Praise His wonderful Name.

There is nowhere to go beyond this, friends. They are talking about going into the 21st Century and so on. Sure, they might do that but Peleg, in his days—in the days of Peleg, when they were coming from agriculture to industry, and then they were coming from industry to information, the earth had a quake. And that earthquake was so significant that Shem called the boy 'divided' – Peleg. And then after that, the nations were divided in the earth.

Like they are doing now – one trading bloc in Europe, you get all those European nations. They broke down the Berlin wall and united those nations there to make United Europe. They have the one in the Pacific. Next year, Hong Kong is going back to the Chinese. All those little Asian islands there: Taiwan, the Philippines, Singapore, all of them; Japan, all of them is another bloc. The Asian Tigers they call them. See? Beasts in the earth.

And then the next big one, the Americas – from Anchorage, Alaska, all the way to Tierra del Fuego. And the land is divided now. And we are in this zone here and all our culture and all our influence is reshaped. Even down to people who grew up in cultural backgrounds, brother, girls that grew up not cutting their hair, all those girls in Caroni [East Indian girls who followed Hindu traditions –Ed.] and this and that, and who are in their little thing, you see them in the disco now, hair cut up, singing calypso, chutney, all kinds of different things. You see? Why? What is happening? People—the technology, the images and the voices coming through the fourth dimension is changing their values and their taste.

Then the flights, they are opening up new airways. And when you open up new airways, now they are establishing new contacts, they are moving people in different directions now. So we are doing the Macarena [a dance performed with exaggerated hip motion to a fast Latin rhythm -Ed.] NOW. Man came over here and introduced the Macarena and showed everybody how to do the Macarena and now a little Latin salt shaking inside the pot too. Do you understand what I am saying?

You see, you all don't watch it. You have to be watching, friends. That is only a result. Why? When the government starts things, then they have cultural exchanges, then they have educational changes. Then they are saying, "Okay, we are tying this school with that school. We are twining them." And different things are going on. What are they doing? Relationships are being forged, ties are being developed. Why? It is bringing out a new movement. Next thing, all what you want, you are getting it right here. Your flights are taking you there cheaper and everything else.

Tourism opened up certain parts of the world, and then they are offering all the deals and all the vacations and all the sites and all the different things to those places when they open it up. And everybody starts to go there because they want a new place to go to. And that is why it will deceive the whole world.

All these religious groups who are preaching and they are sounding like they know what they are talking about sometimes, when you do check it out in the end, half of them are giving support. You watch and see all who play that they are fighting the archbishop, watch and see where all this is going to end up; watch and see.

The only thing that you fight Rome with is the Word. Unless you are born again by the Word, you are still part of her, though you don't even know it. Why? Because in the spiritual realm, your spirit is part of that spirit, and that spirit is the bigger spirit and your spirit has to bow to that spirit.

And you inside the Assembly here down through these years, you have been here, you have been listening, think about these things. Paul said, "If there is anything that is of virtue, honest, and of a good report, think on these things."

When you get out there in the world and you watch how things are happening and you see how things are changing and everything is like better facilities and better this and that, realize that your lifestyle is being changed. They are bringing change to you. They make it so acceptable, they make it so enticing, they make it so seducing, they make it so enjoyable, they make it like that, in a way that it kind of makes you feel so prestigious, it is an honor for you to do that. You see?

As the Prophet said, "John Barleycorn, they had the old John Barleycorn years ago." He said, "John Barleycorn, he was like a mountain dew," one of those puncheons forty over proof. So you see this hideous looking man. He said, "Today they have the same John Barleycorn in a nice bottle, nicely advertised, with some young girl in a bikini with a glass by the beach drinking that John Barleycorn."

It is the same demon there, but it is just polished up and beautified and made nice and looks nice. And that is what all the sin is. It is the same sins, but all that Satan did through science and the polish of civilization, he made it look so nicely. But that is how he deceived the world. But the Holy Spirit has come back in the last days while gross darkness is upon the earth and upon the people: "Arise and shine, your Light has come."

To pull the veil off of it, not to show it as when Nebuchadnezzar saw it. When Nebuchadnezzar saw the kingdoms, he saw a head of gold, a chest of silver, thighs of brass and legs of iron. When God showed Daniel it, he saw four ravenous beasts: a lion, a leopard, a bear and a monster. Isn't that right? And those were the same spirits behind all the things that were being projected.

You watch the nations, you watch the banks, you watch the schools, you watch the restaurants, you watch the cars and the car marts, you watch everything, it looks so pretty and nice. That is the civilization, but behind it, the spirit of this world, it tries to make you think, "The Lord isn't really coming now, man." Science discovered something, they say, "That isn't going to happen until so and so."

When the earthquake took place, the next thing they were united. California goes down, friends, before the Resurrection. The Sixth Seal opens with an earthquake. So from the conquest of Nimrod, the cleaving of the earth, the dividing of the land, and then it brings in the fullness of the Information Age.

Watch – Noah started off. In Genesis 9 was agriculture, planting a vineyard, but Genesis 11 was communication. Genesis 10 were cities being built – industry. This is in the Bible. Genesis is the Seed. What was in Genesis is here. And just before that comes, the earthquake comes, and then Nimrod was ruler over the entire earth and caused everything to bow down to Babylon.

I believe. I sincerely believe what I preached here this morning and I believe exactly that all these things where they say that this thing can't come in, it will have to come in. Do you know why? Because natural disasters will make it come in. It will force it on. And that is where many are going to be caught unawares.

When the earth was divided, he saw what was happening. And Shem being a prophet named his son Peleg in his days to mark the time when the thing was happening. And from the division of the people in the world for trade and commerce, trading blocs, then the next thing that came was the world state controlled by information.

Let's stand to our feet. Scientists, those people up in UWI [University of the West Indies -Ed.], out in the schools, out in all those different workshops, educational workshops,

they are trying to get people cultured for this Age, to move on in this Age.

Look at how the bank, the government, TSTT and AVM came together to bring these things. They got together and signed. Do you see where they are thinking? Do you see where they are moving the world? They have to move it there because they are being given the facilities to move it there. They are given the help from overseas. Do you know why?

Revelation 13 is what? United States of America, where the image is going to come out of that is going to control the whole world; United States of America. Do you know why? Because it is already sold out to the Vatican. And though they will not tell people to become Catholics, yet the Protestants will put pressure on the little groups like these to become subject to the Roman Catholic church, though Rome herself will not come out and do it directly.

So that is why they would talk about Rome and they would talk about this, and they would talk about that and the Pope keeps silent and gets slapped up and everything else. And the Pope does not even make a noise and the archbishop does not make a noise. They are keeping quiet because behind the scenes they know who really is in charge. Exactly, friends.

That is why I'm trusting that when we can sit in a service like this and we would speak things like this, it is not any more somebody trying to say, "Well, ahh, maybe... I wonder if that could be." Without the Scripture, that is what the world and the educated are saying because they don't know where it fits in the Bible. But we know where it fits in the Bible. And we see what happens when it comes there, when it comes to that place. And we know spiritually, when Jacob saw those angels ascending and descending, bringing messages, man at the bottom and God at the top, and earth and Heaven were linked up, the Prophet said, "The Tower of Babel was a perversion of that."

When the Angel was coming to Daniel and saying, “The prince of Persia withstood me; I was coming with the message for you. From the day that you prayed, your prayer was heard,” he was praying, he was communicating to God. He was sending a message to God, God was sending a message back to him. It got in a traffic jam. The information got jammed up somehow – a virus in the system. The Angel said, “But Michael came.” The Chief Technician, brother, he had the Message through in no time. Daniel was on his feet. He was no longer wondering anymore. Why? He had access to Information. He had those angels coming there.

Enoch, while those men were going in that Information Age and uniting the world that was going to be destroyed in the days of Noah and God was going to bring it back to a pre-industrial state, Enoch was already walking up that ladder. Enoch already knew that pyramid, how the Headstone was going to come down. Enoch had that Mystery. Enoch walked with God. Enoch had fellowship with God.

That is what I started to preach at the beginning of this year: *Conditions For Cleansing And Restored Fellowship* [1996-0107 -Ed.]. You watch as we go through this year, you watch and see what is happening and you’ll understand a little better. When we sit in the meetings, you want to come with a purpose in your heart, “Lord, I...”

I know a lot of people wouldn’t fully understand because a lot of you are simple folks and maybe this might make more sense to people who understand a little better. But I trust that even some who get what I’m saying, they can break it down and help some of the people and talk with them and share with them. And that some of you too will kind of realize, even in the spiritual realm that God brought man—while they were coming from agriculture to industry to information, God brought man out of the humanistic realm to the realm of revelation and then brought him up into the realm of

vision that he will not walk anymore by sight, but he'll walk by faith. He'll walk where Enoch walked with God in that Information Highway getting knowledge of how to go, when to go.

Is that what the Rapture is? Didn't Elijah have that too? Didn't Elijah have information and the king of Syria was wondering where he was getting it from? He thought it was a hacker, maybe somebody was trying to break into their system. See? It wasn't a hacker.

When Nebuchadnezzar got troubled how Daniel could see back the dream, he wanted to know, maybe that's why he didn't get it in the first place, maybe somebody had stolen the tape. [Blank spot on recording -Ed.] ...the vision, Who gave the dream in the first place. When he couldn't remember the dream, Daniel could see back the dream and tell him about the dream.

But I'll tell you something here now: they could only deal with things that are past and present. They can't show you anything if it hasn't come as yet. Do you know that? But Jesus could say, "Go in the city, you will see a man walking with a pitcher on his shoulder; follow him in that house. Tell him that the Lord has need of that house. The Lord wants to keep the supper there." Is that right?

He said, "Go by the crossroads, you will meet two men there"; in the future. "Go to Arizona, Seven Angels will meet you in the air." Is that right? "Go in the meeting tomorrow, they are coming to challenge you on your doctrine; tell them. Tell that man there, he and they were sitting down by that table with that checkered tablecloth coming in here, writing on his prayer card and saying that this is of the Devil, and that he is going to expose me because I'm a fake." Isn't that right?

Science could take an old movie and show it back. They could take the present thing that is happening and send it around the world, but they can't take what is going to happen tomorrow and show it to anybody. God is still ahead of them. God is still ahead of them, friends.

This great Holy Spirit that we believe, He is the One that is in this great Exodus, taking His people out: "I've sent My Angel to bring you into the place that I've prepared for you. Hearken to His Voice."

And as we walk, friends, under His leadership, let me tell you, we are walking in the times that lay right ahead where the Church has to be spiritual, the Church has to be spiritual-minded.

Look at Bro. Branham. God told him, "It is going to move from healing to discernment, be sincere." He said, "And this thing will get greater. Consecrate yourself for the visitation of the Angels now. It is coming. Those Things that are sealed up in the Bible will start to be made known now."

Let me tell you, friends, that earth station is up. Those eggs there are hatching out. Catch your wave. Make sure you catch your wave. Watch those hawks and vultures and stray dogs. Watch those crabs and sharks. Make sure you catch your wave. Because the Holy Spirit wants to move in a new realm.

I'm going out there on the West Coast in Vancouver where brothers from all around the world are going to be gathered together. I don't know what is going to happen. I don't know if chaos is going to strike, natural disasters, what... We live every day, walking, trying to live each day as though He is coming today. Maybe I might never come back; maybe I might. Only God alone knows. What I'm trying to say, "That is unpredictable."

But what I know is, we don't have many more days. And now is the time, a real believer in their heart, they want to know, "Lord, I believe You but I'm not seeing my life where it ought to be, Lord. I am seeing through a glass darkly, still. Maybe I'm seeing man like trees. I need another anointing, Jesus. I can feel that in my heart, something tells me, I'm not where I ought to be. And I want to break through but it seems like certain things are in my life, still. Lord, show me. The release, give me the release that I want. This is a year of release.

I want that access. I want to have Your thoughts coming to me because You said the Bride has the Mind of Christ; She knows what He wants done with the Word.”

How can She get that outside of that access to that Information? She knows it is He in Her fulfilling His Own Word. How can She do that without being linked up with Him?

Brother, here we are. There is an Angel moving with us. That satellite—that earth station is going to track that satellite. That satellite is picking up information from around the world, making it accessible to people right here.

What about those angels? Are they not ministering spirits? Don't they go with you through life's journey? Don't they bring messages to you? Don't they give you leadership and direction? Don't they keep you in the path? Aren't they for that purpose? Didn't God send one to take you from Egypt to Canaan? Isn't it the Holy Ghost that will be with you and in you even until the end of the Age? “The world will not see Me anymore but you will see Me. I'll come to you.” [St. John 14:18-19 –Ed.] Isn't that what He said in the Bible? Not denomination, not some cold church, not some man's ideas, not some backslidden preacher or some lukewarm church member. The Word, friends; the Word becoming real in the hearts of people. People breaking through in that realm to see the Age and the place where we are at.

Think of it – this great God, this Supernatural God. Hallelujah. We have a prayer request here. If the parents are here with the girl, they can bring the child – Bro. Alexander. Hallelujah.

Let's just worship our God a little bit, this great, lovely One in our midst, this great, mighty One, the Lord Jesus Christ. Hallelujah. Hallelujah. Oh, we thank You, Lord. We thank You. We thank You. We thank You. Hallelujah! Oh thank You, Lord. Glory, glory, glory, glory, glory. Hallelujah. Thank You, Lord. Thank You Jesus.

Oh, friends, it is a great time. It is a great time for the Church. It is a great time for believers to believe God. Let your faith...let your faith move you into a place. Hallelujah. Hallelujah. Thank You, Jesus. Thank You, Lord.

This little girl here has some disease. I understand that she is suffering from scoliosis which is a scientific name for a devil that is bending her spine and making it very discomfoting for her. But the Bible says, "The prayer of faith shall save the sick and the Lord shall raise them up." Believers have to have confidence in God, in God's promise, in God's Word.

You look in your heart and there is nothing to condemn you, you can stand and confess It. If you see condemnation, then make those things right. Many times, people just take things for granted. Sometimes we need to turn over stones, we need to look back in places; we need to see. Because friends, you know what it is – it is not flesh and blood, it is demon power. And demon power knows when it can stay and when it can move. It knows when it has no rights there, no legal rights, but it knows its rights.

And here by the grace of God, "If two shall agree as upon touching anything, it shall be done. What you bind on earth is bound in heaven because the prayer of faith... In My Name you shall cast out devils." It will be to that Devil that is trying to bend that girl's spine, that is trying to lodge himself there.

And I trust that by God's grace, they who are standing here in need can find that favor before God and find that place where they can stand and say: "Lord, I believe that You are more than able to do this for me. You are the High Priest Who intercedes upon my confession on what You are able to do for me. I'm placing my faith in what You have done. You are more than enough, more than enough for me. You are Jehovah Rapha, Jehovah, Jireh." Amen.

And if you are out there in the audience or in the mother's room or around the building somewhere, if you have some place, right where you are today, I want you to believe, I want you to trust Him; I want You to have confidence.

Let's just bow our heads together and unite in prayer.

Almighty God, out of the depths of the sincerity of the heart of this young girl standing here, Father, growing up in the home with her parents, dear God, coming to service back and forth and, dear God, maybe not thinking of You in a real, close personal way and then to come and find herself here under this condition, this Lord, which has affected her, that we know, Lord God, that sickness is of the Devil. It is a devil, oh God, that is trying to change this girl's structure, dear God, and bring discomfort to her.

But, Father, here she is standing in Your Presence and knowing that Your Presence is here, Your great, Divine Presence that she feels, dear God, that has changed the very emotion in her heart and soul to make her, Lord, realize that she is here in the Presence of an Unseen Being. It causes her to weep and cry, dear God, because You say, "If we draw nigh unto You, You will draw nigh unto us. And if we cast our cares upon You, You careth for us, Lord."

She has confessed, dear God, that she believes You. And so, Father, she is standing believing that this prayer of faith that is being prayed on her behalf today, and this church standing in unity and in support of this prayer of faith, Father, as we come in warfare against this demon, oh God, of sickness, this devil that has afflicted this girl, Father, this devil, oh God, that is trying to bend this girl's spine, this scoliosis or whatever the scientists have called it, Almighty God, in the Name of Jesus Christ, standing upon Your finished work, Father, Lord God, we rebuke this devil. In the Name of Jesus Christ, we command this devil to leave this girl.

May she be free from this bondage, Father. May she be free from this affliction and may the Quickening Power of Jesus Christ straighten up this spine, Lord, and may it come back to its normal condition, dear God. And may, dear God, she not only walk straight naturally being free from this hindrance, may she walk in Your Word and may she serve You and give her life to You, Father.

In the Name of Jesus Christ, may this blessing be upon her as we, the Church of the living God, pronounce it upon her in the Name of Jesus Christ, thanking You for Your grace and Your mercy. You said, "Healing is the children's bread, Father. Suffer them to come onto You and forbid them not, for such is the Kingdom of God." Grant it we ask in the Almighty Name of Jesus Christ, amen.

Every head bowed and every eye closed.

Almighty God, coming to the end of this meeting, these things that have been spoken today might be strange to some, yet not to others, because down through the years You have dealt with us, Lord, concerning these things, giving us the insight, showing to us, Lord, the schemes of the enemy, though he might be trying to veil himself and camouflage himself.

Though he might be trying to do things in a covert way, though dear God, he might try to lead us down detours and misinform us many times and throw us off the track, yet we know, dear God, he cannot shake off the Holy Spirit. Lord God, You know what he is going to do. And so, Lord God, we thank You that, Father, You can continue to uncover these schemes to us that Your Church, dear God, might rise up to the spot where it ought to be in this Hour.

And how I pray, dear God, that Your Holy Spirit will take these things and make it so real, dear God. These things that we might have learnt in school, some of us, these things that we might read about in the newspapers, yet not being able to put it together, but

Lord God, may it strike our hearts and bring us to such a Divine realization today, for You have promised in this Age that if we come and buy of You eyesalve, our eyes can become anointed that we can see.

Lord, how we need that spiritual vision in this Age of blindness where the god of this world has blinded the minds of the people. But Lord God, may the eyes of Your children be so enlightened today, Father, that dear God, we can leave this place illuminated, we can leave this place inspired, dear God. We can leave this place focused, Lord. We can leave this place even understanding from the very natural things, the real happenings in the Unseen realm, in the Spiritual realm, that You are moving our souls into, dear God. Grant it I pray, Father.

Lord God, as we would leave this place and knowing, dear God, some of us You are taking, Lord, out in this missionary journey, Father, where we will be gone for a couple of weeks and me, even for three weeks going out there in Norway afterwards. Gracious Father, the only thing that we know, Lord, down through these years is how You have kept us and watched over us. And Lord God, we can acknowledge you in all our ways and depend upon You to direct our paths.

And here, as we stand here, we take this little church and those out in Princes Town and Cedros, Father, and God, we commit them into Your great, mighty hands asking You, the great Shepherd and Bishop of our souls, that You would watch over Your people. You are the great Shepherd, Father. You are the great One that we look to. And so I pray, dear God, that You would watch over Your people, You would keep them in peace and You would keep them in safety.

Lord God, these who stand here, Lord God, the deacons, the trustees, the Ministers, the workers, all the different ones, every family that is represented, those that make up this Assembly, oh God, Father, You would keep them, dear God, in Your Presence and You would

keep them, oh God, bearing the responsibility, Lord, You would keep them under Your Divine leadership, dear God, that the church and the affairs of this church, Lord God, can be carried out, Father, in such a Godly way, in such a way that would be pleasing unto You at all times.

May dear God, Your love bind every heart together and may You keep Your children unified, oh God. Keep them in rank and file. Keep them in decency and in order, oh God. Keep them, oh God, Father, so unified under Your headship, Lord, and may Your great Presence, Father, meet every need, oh God. Lord God, no matter what circumstance may arise, may You, the One Who has led us down through these years and taken care of us, may You meet that need, dear God.

And Father, as we would go out and do Your service, Lord God, may You watch over us. Those who will have to leave this evening, a couple of them, oh God, I pray that You would give them a safe journey, Lord, that when we meet tomorrow, Tuesday afternoon out in Toronto, dear God, to journey to Vancouver, Lord God, we can go there as delegates of Yours, dear God; we can go as Your representative, Lord, to join with delegates of the City foursquare around the world where, You, the great King Theophany, the King of that City can come down in our midst, the very Headstone Himself (hallelujah!) and You can give supernatural instructions to Your people in this great Hour.

Lord God, and when we leave this place today, may Your great Presence go with us. The strangers and the visitors who might have been here for the first time hearing these things, some of it might be strange to them, it might be a different kind of service, a different kind of preaching, oh God, but Lord God, may You awaken them, oh God, Father, that they can see why it was so necessary for You to open up the Seven Seals and how it could not be opened except You sent a Prophet because there is no higher way to bring Your

Word than by a Prophet, Father: “Surely the Lord God will do nothing, except He reveals His secrets to His servants, the prophets.” And You promised Elijah to come in the last days with a Message to call us out of organization and turn us back to the original, apostolic faith, to prepare a people and make them ready for Your Coming.

And Father, this is what we believe and this is what we are walking in, oh God. And we know as we walk in this Light (and You are this Light) we have fellowship with You. May dear God, throughout this audience today You bless Your people, You minister to every need that when they leave this place, dear God, they can leave with that burning in their heart, oh God, that only the Holy Ghost can bring. That they can say, “Didn’t our hearts burn within us as You spoke with us along the way. I was glad when they said unto me, let us go in the house of the Lord.” May You grant it, Father.

And may if there is one desiring to be a Christian, Lord God, may Your grace and mercy be extended to them. Let them, oh God, realize, Father, that that is a Fountain opened in the house of David to cleanse them from all sin and righteousness.

And, oh God, Father, the little offering that is be taken up now on behalf of those, dear God, for the trip, the last one, Father, I pray, dear God, Father, it would be out of the—it would be the capstone offering, Father, of the ones that was taken up for this little trip for the saints. And may, Lord God, Your people, Lord, give liberally and cheerfully, Father. And may it be a help to those, dear God, Father, Lord God, who were unable even to get the full fare and had areas, oh God, Father, that they had to attend to and these things. Knowing oh God, it is not a joy ride but oh God, they are going out there to be in the service through an invitation, oh God.

And Father God, may even as Your people, Lord God, in the past supported so gallantly, Lord God, may they continue to do so. And may throughout this entire

Assembly, Lord, on every level, oh God, Father, we see Your people becoming more involved and Your Holy Spirit moving with them in a greater way.

We thank You. We praise You, Lord. We give You all honor and glory once more in the precious, almighty Name of Jesus Christ. Lord, from the depths of our hearts, Father, we express our gratitude and our appreciation for You, our love to You, Father. Oh God, Lord God, we are undeserving of You, Lord, but we are so thankful that You have been mindful of us. Have Your Own blessed way.

Dismiss us from this place but not from Your Presence. And may Your richest blessing rest upon each and every one, in the Name of Jesus Christ we ask it, amen and amen. Amen.

God bless you. You may have your seat. *In times of trouble and inward struggle, when it seems the end of the way; taking this direction, I am longing for perfection.*

[#363 - Songs That Live -Ed.]

Well, it has come to the end, friends. You know, there is so much to go. Sometimes I hate to hurry out like this, but we just wish that we could do it differently. But God bless you.

Pray for me. Keep me before the Lord when you are down on your knees. And may God direct you in your prayer concerning the work, the need out there; the need among God's people. We are all in this together.

And may God bless you and give you good services. Try to be here for everyone. Give your full support. Remember, you have a place. You don't just attend here, you have a place here. You have a post of duty. You want to come to it like that. You don't want to serve with eye service when I am around here. You want to come out here and be a real, real servant of the Lord Jesus Christ.

And maybe after they pick up the offering, all the saints who are going, they can come out and maybe sing a little song for you. Amen. In that way, give you their

little farewell, so they don't have to be running around the building. And we are so grateful for all these things that could make it...

Little Rahab, I was coming up in the car and I was thinking about her this morning. I said, she is going to be so glad to meet a lot of new friends out there and so on. And God can make it to be a real blessing for her out there, and each and every one of them, bring them back changed. May God bring them back full of the Holy Ghost; inspired. May God bring them back with a new burst of faith. And may God bring them back to take their place in the Assembly here. And I trust that God will undertake for each and every one of you in whatever way that you have need of.

And you know, whenever I go, I always leave my number where I can be contacted if there is an emergency or anything. There isn't any meeting too big enough to close down, to come back home if it demands or warrants that. But I know that we have quite capable brothers who are faithful and who know to carry out the work of God in my absence.

So God richly bless you. And make this the last offering to them and give from the depths of your heart. Give cheerfully. Give something extra today by God's grace. And may you know it is going to serve to be used to help the saints. God bless you. We are dismissed. Bro Bishop.

[Bro. Vin calls the song leader and then leaves the pulpit -Ed.]
