

TAJNA VEZA

Valter

Smjestite u mrežu prezimena maratonaca s popisa, koji su tu stazu istračali brže od 2 sata i 7 minuta. Po jedno slovo svakog prezimena, koje pripada samo toj riječi, već je upisano. Svaka riječ se križa s barem jednom od preostalih. Ako se dva slova javljaju u susjednim poljima (vodoravno ili okomito) onda ona moraju biti dio neke riječi s popisa.
