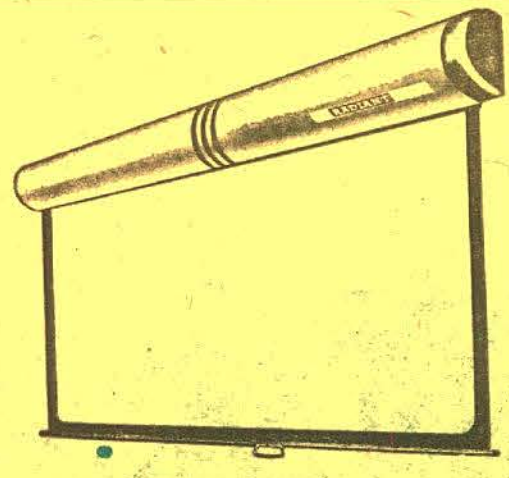
## USED 16mm. SOUND PRINTS OF INSTRUCTIONAL FILMS FOR YOUR SCHOOL'S LIBRARY!

LET ONE OF AMERICA'S BIGGEST INDUSTRIAL COMPANIES PAY $100.05 OF THE COST OF THIS $170.00 SCREEN FOR YOU—YOU PAY ONLY $69.95!

## 9'x12' RADIANT MODEL EC BEADED WALL SCREEN

***Regularly $170.00. Blackhawk's low, low price - - -$69.95***



These 9'x12' Radiant EC Beaded Wall Screens were purchased by one of America's biggest industrial corporations for use at its training centers across the country. A shift in motion picture production plans, however, necessitated the acquisition of Cinemascope-type screen—and these 9'x12' ECs were virtually not used at all. Some of them were not even removed from the original fibre shipping tubes. All, for all practical purposes, are new—and you save exactly $100.05.

As you probably know, the Model EC is the simplest, most efficient large audience screen of its type and size. It can be conveniently hung from either wall or ceiling. The fabric is securely anchored to spring roller. It moves up or down smoothly and evenly.

***Just Out!***

## RADIANT'S NEW IMPERIAL CHAMPION TRIPOD SCREEN

*with the new wide-angle reflective "Uniglow" fabric—40% more brilliant than a beaded screen—seamless to and including 70-inch dimensions!*

This new Radiant Imperial Champion Tripod Screen is one of the first major advances in screen development for a number of years. First, it reflects far better than the standard beaded screen, and is much more efficient in reflective quality when viewed from an extreme angle. Its fine-grain "Uniglow" surface is much more desirable for slide showing than the usual beaded screen. Second, for the first time a highly-reflective screen fabric is available in widths exceeding 50-inches. Up until now, screens having both dimensions greater than 50-inches contained one or more seams. With this new "Uniglow" fabric, no seams are necessary unless both dimensions exceed 70-inches—thus a 70x70-inch screen contains no seams.

## LONG PLAYING MAGNETIC RECORDING TAPE

***1800-feet on 7-inch reel***

**TWO VARIETIES AVAILABLE**

**IRISH 1800-foot LONG PLAYING TAPE "SECONDS"**

In standard quality this sells for $5.50 per reel. This is end or side cut, and the recording level may not be as uniform as first quality—but for other than professional use, you won't be able to tell the difference. Some 1800-foot lengths may be spliced. Six 1800-foot 7-inch reels, only $14.95. One 1800-foot 7-inch reel, only..... **$2.79**

**IRISH 1800-foot LONG PLAYING MYLAR BASE TAPE "SECONDS"**

This is recording tape of the same oxide quality as the type described above, but on DuPont's MYLAR base WHICH IS VIRTUALLY UNBREAKABLE. You can cut it—but it's practically impossible to tear it! **This is the tape that sells at $7.95 for an 1800-foot roll in "first" quality.** Six 1800-foot 7-inch reels, only $19.95. One 1800-foot 7-inch reel, only..... **$3.79**

**BLACKHAWK'S OWN 7-11A MAGNETIC RECORDING TAPE**

Here's Blackhawk's own brand of magnetic recording tape—priced real low! It is available in 1200-foot lengths on 7-inch plastic reels. A-wind only (magnetic coating wound in). This is standard tape in thickness and output, and offers a substantial saving compared to the same class of tape under a nationally advertised brand.

# USED 16mm. SOUND INSTRUCTIONAL FILM PRINTS

## *for your own school's film library, at but a fraction of the cost of new prints!*

Blackhawk has been obtaining over the past several months, a constant stream of good used 16mm. sound instructional film prints made by such producers as E.B.F., Coronet, Young America, McGraw-Hill, Academy and United World.

These first quality prints are all in good used condition and generally are available at less than half of the cost of the same film new. In many instances the used prints are priced at savings of 75% and 80% from the cost of a new print. The number of prints available on each title varies widely. On some titles we have six or eight prints—on others but one or two.

*At the prices at which we are offering these prints, and with the limited stock we have available, we are in no position to offer a preview service to schools. Therefore, on orders received from schools, school systems and institutions, our terms are 30 days net, and returns of prints will be limited to any found not to meet our description of "good used condition."*

Orders against this list of used 16mm. sound instructional prints should be prepared just as soon as possible after your receipt of this list. We will promptly notify you of any titles we are unable to supply because of orders that have reached us ahead of yours.

# EASTIN INSTRUCTIONAL FILMS

Here are the three most popular Eastin Instructional Films in 16mm. sound. In total number of prints made and sold, these three films rank among the top for any productions of any company. You can stretch your budget on these three subjects by buying used prints for good used 16mm. Sound copies of THE FORUM SCENE FROM JULIUS CAESAR and INSTRUMENTS OF THE ORCHESTRA are available at $19.95 each, and of MACBETH at $14.95 each.

## SHAKESPEAREAN FILMS

### JULIUS CAESAR

*Senior High, College*

In this superb picturization of Act III, Scene 2 of William Shakespeare's famous tragedy, Julius Caesar, we are first given an intriguing glimpse of the Roman Forum. News of Caesar's murder is excitedly spread, Brutus and his fellow conspirators emerge from the Senate House to harangue the gathering mob, Caesar's body is brought forth, and finally Mark Antony delivers the famous funeral oration which has become a standard of eloquence to the English-speaking world. Students who see this production can hardly fail to gain a new appreciation of the power, beauty and dramatic appeal of Shakespeare's masterpieces.

**Price, this 2-reel, 20 minute, 16mm. sound film ..... $55.00**

### MACBETH

*Senior High, College*

Two famous scenes from Shakespeare's powerful tragedy, Macbeth, are combined in this valuable production. First we are given a gripping rendition of Act II, Scene 2, in which Mambeth, urged on by his ambitious wife, murders Duncan, King of Scotland. Then we witness a masterly performance of Act V, Scene 1, in which Lady Macbeth appears in her weird and dramatic sleepwalking scene. In addition to brilliant photography and sound reproduction, this film offers inspired acting by a distinguished cast, impressive sets which recreate the interior of a medieval castle, and a musical score played by the London Symphony Orchestra.

**Price, this 2-reel, 20 minute, 16mm. sound film ..... $55.00**

## SERIOUS MUSIC FILMS

### INSTRUMENTS OF THE ORCHESTRA

*Intermediate Grades, Junior and Senior High, College*

In this cleverly conceived and brilliantly executed film, Dr. Malcolm Sargent, the famous British conductor, explains that a symphony orchestra can be likened to a single great musical instrument with four parts—the wood winds, brass, strings, and percussion. To illustrate this, he leads the London Symphony Orchestra in Benjamin Britten's specially written music, "Variations and Fugue on a Theme by Purcell." Each kind of instrument in the orchestra is heard—either playing the theme or a variation on it, then each group of instruments is introduced to play a variation, and finally the entire orchestra joins in a performance of the lovely fugue.

## RCA "400" SENIORS

*(2 case)*

**These very slightly used RCA "400" Seniors and Juniors are trade-ins from a large midwestern university that has the policy of starting each school year with new projectors. Some of them look like new. Some have a few nicks and mars on the case covers resulting from transporting them around the campus from building to building. But the important thing is that they have been used for but one year, and have had qualified care and maintenance all along the way.**

**The RCA "400" Seniors have amplifiers of 10-watts capacity and 10-inch Alnico permanent magnet type speakers—projector in one case, speaker in the other. They operate at both sound and silent speeds, and have motor driven rewind. They are quick threading, quiet in operation.**

### DESK-TOP REAR PROJECTION SCREEN

**Here is one of the smallest and handiest screens that has come our way in many, many moons. It is a 9-inch by 12-inch translucent screen, and a steel mirror, all mounted in a three panel, leatherette covered case that folds out to form the screen, reflecting mirror and the shadow-box top.**

**This unit is ideal for desk-top use in fully lighted rooms. The projector is threaded in the normal way and the light beam is directed into the mirror which is set at a 45-degree angle behind the screen. This properly reverses the picture so that it is correctly positioned, left to right, when viewed from the screen front. It works with any movie, filmstrip or slide projector.**

**This screen, utilizing transmitted light rather than reflected light, will give a brilliant picture even when utilized in a fully lighted room.**

**These screens are brand new and first quality in every way. These special screens, designed for a special purpose, and so far as we know there is no comparable item regularly available on the market today. Our stock is limited, and our price considerably lower than the original selling price on this unit.**

**Desk-Top Rear Projection Screen, made to sell for $19.95, only.....$14.95**

### *Slide Sets in Many Interesting Subject Areas*

The following slide sets have been made up by Blackhawk from bulk stocks of individual SVE color slides. (Note, however, that the sets on Hymns and Songs are black and white.) All of these, just like the SVE sets listed elsewhere on this page, are largely Kodachrome duplicates sold originally by SVE at 50c and 60c per slide. Each individual slide is identified by a key number and an index list of caption is supplied with each group. Depending on the size of the set, slides are packed in either cellophane envelopes or in cartons.

## RADIANT FOLD-PAK SCREENS

### Size 7' 6" by 9' 10"

This is a fine quality screen for use outdoors and indoors under a wide range of conditions. The screen itself is a heavy, white plasticized fabric with black border fitted with grommets for lacing to the portable tubular steel frame. It comes complete with tubular "V" fittings and both long and short legs. The long legs are for outdoor use where there is no platform or stage—the short legs for platform or stage use. The screen may also be used indoors and suspended from a ceiling using the same tubular frame. This unit comes complete with all fittings and is conveniently housed in a foot-locker type of case making transport and storage clean and easy. The unit purchased new through normal channels would sell at between $150.00 and $200.00. *Full, well-detailed assembly instructions are shown on the under side of the case top (see illustration).*

***Radiant Fold-Pak 7-foot, 6-inch by 9-foot, 10-inch screens, very specially Blackhawk priced at only.....*** **$39.95**

*(These units are extremely well-packed in wooden boxes for warehousing and storage. Because of this, we recommend freight or truck as the most economical means of transportation as*
