## ABOUT IRON HORSES?

Maybe you are a little — and maybe you are a lot! But in either event, here is a group of three 16mm. sound films in FULL COLOR KODACHROME of which you'll want at least one in your collection.

All of the prints of these three subjects are used, but complete in every way, and in excellent general condition.

## MAINLINE U. S. A.

Here is a 2-reel Kodachrome film in 16mm. sound that traces the impact of railroad construction over the last century as the prime means of the general development of our country — how the railroads today have a very direct affect on all our lives. Shown are a great many spectacular shots of streamliners and freights at speed, across prairies, over bridges, against backgrounds of snow-capped peaks. Railroad fans can easily identify the trains of their favorite railroad. And those of you who aren't particularly fans will find this an informative, absorbing, entertaining and very beautiful film to have in your collection. (Prints of this new are valued at \$150.00.) While our stock of fine used prints remains available, our price is only.....

## BIG TRAINS ROLLING

Another tremendously absorbing film about trains — this one 3-reels, in Kodachrome and 16mm. sound. While pictorially overlapping very slightly with MAINLINE U.S.A. (described above), BIG TRAINS ROLLING tells more the operational story of today's railroads, particularly an overnight train trip of some 1000 miles taken by two youngsters — brother and sister. It tells about the various types of cars that make up a passenger train — it shows the workings of a railroad post office car — how a dining car operates — the many types of accommodations available for overnight travel on a modern streamlined train. It also shows how a turntable operates, tells something about freight trains, shows how refrigerator cars are packed, and many, many other things of interest in connection with railroading. Even more shots of today's top trains are in evidence — all magnificently photographed in full color. (Prints of BIG TRAIN ROLLING are valued new at \$225.00.) While our stock of fine used prints remains available, our price is only.....

## LIFE LINE OF THE NATION

A 3-reel 16mm. sound film in full color Kodachrome showing the magnificent performance of our railroads during World War II. The emphasis in this film is more on the movement of freight than of passenger travel. As a result the film is somewhat in contrast to either MAINLINE U.S.A. or BIG TRAINS ROLLING. The viewer, too, will note another big difference — the emphasis of the majestic steam locomotive which was still — during the war — the number one source of motive power for freight as well as passenger transportation. There is a marked contrast with today when diesel power is doing the most terrific job. So, for those of you who have a particularly soft spot in your hearts for the Steam Locomotive, here's your chance to see some of the big boys of the Santa Fe, Union Pacific, Norfolk and Western, Rio Grande, Southern Pacific and Pennsylvania in action. You'll see lots of others, too. (Prints of these films are valued at \$225.00 new). While our stock lasts, you may buy a good used print for only.....

**DELAYS IN FILLING ORDERS**

Many of you probably wonder why we are sometimes a few days late in filling your orders. We don't like to get behind in handling shipments and most of the time keep up on our work, but there are times when we are unable to do so. We mail our catalogs out on the weekend that falls closest to the 10th of each month. The second Monday after those catalogs are mailed, we are literally buried by orders — they always come in the biggest numbers on that day. So, if your order reaches us about that time, we may be a little slow in getting your shipment out. We fill the orders in a "first come — first served" way, but we sometimes run two or three days behind during that second week after the catalogs are mailed. If you do find you're waiting a little longer than usual to get your films, we hope you'll understand that this is what probably happened and bear with us. We really are trying very hard to keep on schedule.

# UNUSUAL BUYS IN ACCESSORIES AND SUPPLIES

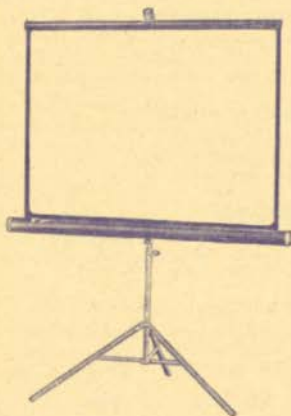

## LOW PRICES ON PROJECTION LAMPS

There's never been a projection lamp bargain like this one! 750 watt, 110 volt, T-12, medium prefocus projection lamps at a saving of 1/3 from the prices you usually pay. These lamps are manufactured in occupied Japan and an American testing laboratory in Japan reports their performance compares quite favorably with standard brands made in this country — they are not the cheap, inferior type of merchandise that was turned out before the War. We hope to be able to offer these lamps on a regular basis. However, our immediate stock is limited, and we may periodically run out. Therefore, to try this bargain for yourself, get in your initial order now.

## Glass-Beaded Tripod Screens

at Unbelievable Prices

For the very best in brilliance and clarity of reproduction for your movies and slides, you want a glass-beaded screen — and Blackhawk makes it possible for you to own one. You never expected to find a glass-beaded screen selling for such a low figure as we are able to give you — especially one as well-built as this!

Many features found in more expensive models are offered here, in the Aurora "Economy" portable metal tripod screen: simple adjustment, easy convertibility from square to oblong screen shape, far proof screen hangers, sturdily designed tripod equipped with rubber-tipped legs, and fine glass beaded screen fabric.

You can own one of these high-quality glass-beaded screens — at only \$14.95 for the 37" x 50" size. Just wait 'til you see the difference it makes in your movies and slides, and you'll agree it's well worth the price.

# USE FEATURES AND SHORT SUBJECTS

All prints listed on pages 11 through 17 are good used 16mm. sound prints except for any small groups specifically identified as used 16mm. silent subjects.

We usually have only a few used prints of a title - sometimes only one. This means that within two or three weeks after the mailing of this catalog, more and more of these used titles will be sold out. Keep this in mind when you order. Order early, and, in justice to yourself, give us an alternate list of titles. We'll never send an alternate unless our top choices are already out of stock. But remember - we can't sell what we don't have - and the used prints we offer are in great demand.

All but the last page of this section printed on yellow paper is devoted to used prints. This section was the last part of the catalog to be printed. It was off the press only 1 or 2 days before the general mailing of the catalog was made. At the time it went to press, used prints of all the subjects listed were in stock ready for shipment. Normally, within two or three weeks after mailing, 30% or more of the titles will be gone.

# DE LUXE PACKAGES of USED 100' 16mm. R-I SOUND MUSICAL FILM

These films were originally produced by some of the leading 16mm production companies in the country for projection in coin-operated Panoram machines. When projected on ordinary 16mm projectors, the image is reversed on the screen. Usually, the only place you will notice any difference is in the titles—the lettering will appear backwards on your screen. For many uses, the titles may be removed.

Blackhawk offers you a saving in these packages of related films of 40% to 50% from the price you pay when buying them individually.

There may be, without notice, occasional substitutions of one or more titles in any package because we are temporarily out of stock on a particular film. However, we assure you that any substitutions will be of similar type and of the same or greater value.

In these DeLuxe Packages, you may replace not more than units in one package with units of your selection, if the package consists of twelve or thirteen units. In packages of three units, one unit may be replaced. The charge for each replacement is \$1.00. For example, you may substitute two units in a package and your total cost will be \$15.95; or one unit in a package to make your total cost \$10.95. In this way, you can take advantage of the special package prices without duplicating units you already own. Replacements must be made at the time you place your original order.

We offer these packages at special bargain prices and cannot, therefore, give pro rata credit for the return of part of a package. These films may be used for any theatrical, non-theatrical, or commercial purpose, except that they may not be televised.
