## THE GREAT MIKE WINS

with **Stuart Erwin, Carl "Alfalfa" Switzer and Robert Henry**

Here's a heart-warming yarn concerning an unbeatable trio — a boy, a dog and a horse. The boy is Jimmy Dolan, a typical twelve-year-old who has a paper route in Santa Anita, Calif. He also has a mongrel dog, Corky, and an interest in Mike, a delivery horse which looks like a thoroughbred and undoubtedly has a great future in racing — in Jimmy's opinion.

This opinion seems to be shared by Spencer, trainer for the famous Whitley stables. He and Jimmy train Mike and enter him in a big race. Members of a gambling ring bribe a stable hand to dope Mike, but Corky sacrifices his life to upset the plot. Mike, grieving over his canine pal, refuses to eat or exercise. Something drastic has to be done. Jimmy knows what to do — and Mike responds like the thoroughbred he really is.

Here's a whiz of a featurette — three reels in length — running just under 30-minutes. Prints regularly sell at \$62.50. Yet, here at Blackhawk you can obtain a brand new, first quality print at **LESS THAN WHOLESALE. Only \$29.95**

The regular price is \$19.75. Blackhawk's price is **LESS THAN WHOLESALE, only \$9.95**

## THE WRONG MISS WRIGHT

These Famous Kids Comedies are the 2-reelers which were so well-known as "Our Gang" Comedies when originally released to the theatres by M-G-M. All of the famous "Our Gang" characters of the period in which this group of subjects was produced appear in these 2-reelers — Spanky McFarland, Farcia, Jean Darling, Alfalfa, Stymie are all there. These 2-reelers are not only collector's items today — they're just as satisfactory entertainment as ever!

And, typical of Blackhawk's ability to bring you BIG bargains, is our acquisition of some hundreds of prints of these twelve titles. These sell regularly at \$42.50. Blackhawk's selling price is not only a bargain — it is far below regular wholesale. Of course, prints are brand new and first quality in every way.

**SPRING'N' UP** — What a pretty young girl can do to the kids! She can make them go on for us to show their shoes... comb their hair... or even wash their cars. But even such self-sacrifice cannot always win a new neighbor's affections.

**WASHES IRONER** — Spanky stops traffic in an "ambulance" as he races for his Chinese friend to help wash little Fawcett's sooty, soiled in football scrimmage. But everybody gets into the act, including a pet monkey.

**BEAR SHOOTERS** — The kids go hunting, but aren't quite equal to the game they meet. Only these kids could rig up a hunting "snafu!" such as this one.

**WHEN THE WIND BLOWS** — Howling winds, specks, haunted houses, comical palamans, and the kids all in one side-splitting film.

**MOANS AND GROANS** — The kids are trapped in a haunted house and confronted by it's occupant, and have to solve this problem in their own unique way.

**CHOO CHOO** — Pity the poor man who has to escort Spanky and his pals on a long train trip! It's a never to be forgotten event for everyone.

**FLY MY KITE** — Grandma does anything the kids can do, from boxing to flying a kite. When a heartless nephew forecloses a mortgage on grandma's home, you can bet the gang starts eating.

**HONKEY DONKEY** — Spanky and the kids have trouble with an obstreperous donkey, who really packs a kick.

**TEACHER'S FET** — Why didn't we have teachers like this? The kids as usual expect the worse when their new teacher comes in, but they're in for another of their hilarious surprises.

**FREE EATS** — Billy Gilbert adds to the fun in this story of a big picnic the kids have on a millionaire's estate.

**FISH HOOKY** — Going fishing is a much better way to spend a day than going to school — except when the Trout Officer becomes wise. The kids use every trick they know to get away from the old kill-jay.

**THE POOCH** — Peewee, the famous bulls-eye dog, adds to Spanky's troubles as he has a run-in with the dog catcher. It takes all the kids' ingenuity to save the pooch.

# RAILROADING FILMS

All of the prints of these three subjects are used, but complete in every way, and in excellent general condition.

*in full color*  
**Kodachrome**

## MAINLINE U. S. A.

Here is a 2-reel Kodachrome film in 16mm. sound that traces the impact of railroad construction over the last century as the prime means of the general development of our country — how the railroads today have a very direct affect on all our lives. Shown are a great many spectacular shots of streamliners and freights at speed, across prairies, over bridges, against backgrounds of snow-capped peaks. Railroad fans can easily identify the trains of their favorite railroad. And those of you who aren't particularly fans will find this an informative, absorbing, entertaining and very beautiful film to have in your collection. (Prints of this new are valued at \$150.00.) While our stock of fine used prints remains available, our price is only **\$24.95**

## BIG TRAINS ROLLING

Another tremendously absorbing film about trains — this one 3-reels, in Kodachrome and 16mm. sound. While pictorially overlapping very slightly with MAINLINE U.S.A. (described above), BIG TRAINS ROLLING tells more the operational story of today's railroads, particularly an overnight train trip of some 1000 miles taken by two youngsters — brother and sister. It tells about the various types of cars that make up a passenger train — it shows the workings of a railroad post office car — how a dining car operates — the many types of accommodations available for overnight travel on a modern streamlined train. It also shows how a turntable operates, tells something about freight trains, shows how refrigerator cars are packed, and many, many other things of interest in connection with railroading. Even more shots of today's top trains are in evidence — all magnificently photographed in full color. (Prints of BIG TRAIN ROLLING are valued new at \$225.00.) While our stock of fine used prints remains available, our price is only **\$34.95**

## LIFE LINE OF THE NATION

A 2-reel 16mm. sound film in full color Kodachrome showing the magnificent production of our railroads during World War II. The impact of the railroads on the war effort, out of freight than of passenger travel. As a result the film is today in high demand in other MAINLINE U.S.A. or BIG TRAINS ROLLING. The *Newsweek* says, "will note another big difference — the emphasis of the majestic steam locomotive which was still — during the war — the number one source of motive power for freight as well as passenger transportation. There is a marked contrast with today when diesel power is close to taking over most principal runs. So, for those of you who have a particularly soft spot in your hearts for the steam locomotive, here's your chance to see some of the big boys of the Santa Fe, Union Pacific, Norfolk and Western, Rio Grande, Southern Pacific and Pennsylvania in action. You'll see lots of others, too. (Prints of these films are valued at \$225.00 per print.) While our stock lasts, you may buy a good used print for only **\$29.95**

# Oliver Twist

Length eight reels, 16mm. sound, assembled on 2-1600' reels

Brand new, first quality prints of this production distributed theatrically by Monogram in the 1930's may not compare artistically, technically or in lavishness with the recent British production of this Dickens' classic now being distributed by United Artists, but it does offer an altogether acceptable version for libraries and exhibitors supplying service to schools. Sound is good and prints — made by DeLuxe — are of top quality. Featured are Dickie Moore, Irving Pichel, Doris Lloyd, Barbara Kent, Clyde Cook, Alec B. Francis. While our stocks lasts, the price per print is only

# Mickey

Length eight reel, 16mm. sound, assembled on 2-1600' reels

Here is another small block of brand new, first quality, black and white prints of the 1948 Eagle-Lion production starring Lois Butler and Bill Goodwin. This probably represents all of the black and white prints on this production that will be made available. While prints are not sold outright, they are leased for life of print which, for all practical purposes amounts to about the same thing. Considering the quality of the production, the recent production date, and the fact that the lease runs for the life of the prints — a simple, single paragraph agreement — this amounts to almost the same thing as owning the print. While our stock lasts, the lease price per print is only

**\$149.95**

# THE BLACKHAWK STORY

Several months ago we printed in our catalog an explanation of just how Blackhawk operates, so our friends would understand why we can't always fill their orders. Since then, so very many people have been added to our customer list, we thought it might be wise to reprint this explanation. We think it will be of interest to our new friends—and you who saw it before might glance through it again, for a new chapter has been added to:

## The Blackhawk Story

"What goes on at Blackhawk? You list a lot of films you don't have."

"What kind of an outfit are you anyway? Two weeks ago I ordered a print of BLAH-DE-BLAH from your current catalog, and you wrote me it was out of stock. Now I get your new catalog and you have it listed."

"I ordered the day I got your new catalog, but the film I wanted was already gone."

"Take me off your list. You couldn't supply the film I ordered."

Boy, do we ever take a beating — sometimes — from some of our otherwise good friends! And, frankly, it's because we still have not been able to get across to you the whole story of Blackhawk's unusual type of operation.

So, here are some further details of THE BLACKHAWK STORY:

Blackhawk is the only outfit of its kind in the 16mm. and 8mm. field. Almost all of our stock is made up of close-outs and liquidations of new prints, or our purchase of complete libraries of used 16mm. sound or silent prints. There is no regular day-in-and-day-out source of prints of the titles we offer. Usually, once our current stocks of a title are sold, it may be weeks — even months — before we have that item on hand again. So, on most films, there is no way we can adjust to the demand, and when we're out of stock — **WE'RE OUT OF STOCK!**

As a matter of fact, it's the kind of service that Blackhawk renders to producers, distributors, libraries and individuals that makes it possible for us to offer the kind of bargains we do — the fact that at Blackhawk, dollar for dollar, you get so much more.

But, dealing with quantities that are limited, there is absolutely no way we can avoid disappointing some of you some of the time. (And, believe us, we're more disappointed than you are.) We could disappoint fewer of you, or disappoint some of you less often, by raising our prices — then not so many of you would order. Our films then wouldn't be as big bargains as they are now — and you wouldn't be happy! We wouldn't sell as many prints — and we wouldn't be happy!

We could, at the time the catalog is printed, show our stock of prints on hand. But providing this detailed information would slow down the issuance of the catalog. And besides, many subjects on which we had twelve prints at press time might be sold out sooner than some on which we had but one. And, anyway, the quantity we had on hand at the time the catalog was printed still wouldn't be the available quantity at the time you received your copy of the catalog.

We could do any of these things, and more, but nothing we've thought of yet would be a real solution. We have, recently, made a change that we believe will help quite a bit. Where we used to prepare just one catalog a month, and mail the whole issue at one time to everyone on our list, we now have two issues—prepared and mailed about two weeks apart. These two issues are exactly like except for the center section devoted to listings of used films.

The first issue of the catalog is mailed to half our mailing list. Then, two weeks later, we prepare the second issue—using exactly the same information as in the first edition with this exception: We check all the listings of used prints to eliminate everything sold and add everything we have acquired since the first issue went to press. In this way, when the second half of our customers receive their issue, they have completely up-to-date information on listings; and the group which receives the first issue also has the very latest information available to us at the time we started printing.

You may be interested in just how these catalogs are prepared.

Preparation of each month's Blackhawk catalog begins with the listing of all new and used material added for sale since the previous month's issue. Copy work progresses a day or two before composition begins. A day or two later printing begins. It takes from five days to a week to print and bind, another day or two to mail. This means that from the time preparation of each catalog starts until you actually get your copy may be from 12 to 18 days.

Before each form is run on the press, last minute eliminations are made so that all listings are absolutely correct at the time of printing. But, in spite of all this checking, some of the items will have been sold by the time you get your copy of the catalog.

We are, however, doing our very best to give you outstanding bargains in new and used 16mm. sound and silent, and new 8mm. silent films. We want to bring you the biggest selection of the best films at the lowest prices ever.

## A New Chapter

Now for the new chapter of THE BLACKHAWK STORY. Lately, we have been running into the same problem on projector sales as we have had right along on films — often we get several orders for the same used projector. Of course, it's a matter of "first come, first served," and after the first order has been filled, we just have to disappoint the others who want that same projector. Sometimes, fortunately, we know that we will be getting in several more of that same model projector and can offer to hold one of them for the other people who might be interested—and often this works out very satisfactorily. In fact, our customers have been so pleased with this method of handling their orders, when we would otherwise have had to disappoint them, that we believe we can work out a regular procedure along these lines that will be even better for you.

If you are looking for a good used projector, write and tell us what make and model you want. You can probably tell from the catalog listings of other used projectors about what you can expect to pay for such a model—if you aren't able to determine in that way, ask us what we think you will have to pay; we'll be glad to give you an estimate. Then, we'll hold your request on file for up to three months, and as soon as we get a projector of the kind you want we'll notify you immediately with a full description of it. You can take it or leave it as you wish—you are under no obligation to buy it. You can always order any other projector you see listed in our catalog in the meantime, but having your request in with us means that you will have first bid on the particular make and model you are most interested in—at no additional charge or obligation.

We think this will be a convenience that many of you will want to take advantage of. Remember, when doing our utmost to please most of our—most of the time, and every time we serve you we want to deliver "Always More Movies for Your Money."

# USED 16mm. SOUND FEATURES

All prints listed on pages 12 through 18 are good used 16mm. sound prints, except for any group specifically identified as used 16mm. silent subjects.

We usually have only a few used prints of a title — sometimes only one. This means that within two or three weeks after the mailing of this catalog, more and more of these used titles will be sold out. Keep this in mind when you order. Order early, and, in justice to yourself, give us an alternate list of titles. We'll never send an alternate unless your top choices are already out of stock. But remember — we can't sell what we don't have — and the used prints we offer are in great demand.

This section, printed on green paper, was the last part of the catalog to be printed. It was all the press only one or two days before the general mailing of the catalog was made. At the time it went to press, prints of all the subjects listed were in stock ready for shipment. Normally, within two or three weeks after mailing, 50% or more of the titles will have been sold.

As to the length of these films — cartoons average about 250 feet to a reel; other one-reels run 300 to 350 feet. Two-reels usually contain about 650 feet and longer subjects normally average not less than 900 feet to a reel. All films of one reel length and over are supplied on reels.

# DE LUXE PACKAGES of USED 100' 16mm. R-I SOUND MUSICAL FILM

These films were originally produced by some of the leading 16mm production companies in the country for projection in coin-operated Panoram machines. When projected on ordinary 16mm projectors, the image is reversed on the screen. Usually, the only place you will notice any difference is in the titles—the lettering will appear backward on your screen. For many uses, the titles may be removed.

Blackhawk offers you a saving in these packages of related films of 40% to 50% from the price you pay when buying them individually.

There may be, without notice, occasional substitutions of one or more titles in any package because we are temporarily out of stock on a particular film. However, we assure you that any substitutions will be of similar type and of the same or greater value.

In these DeLuxe Packages, you may replace not more than units in one package with units of your selection, if the package consists of twelve or thirteen units. In packages of three or six units, one unit may be replaced. The charge for each replaced is \$1.00. For example, you may substitute two units in a 3 package and your total cost will be \$15.95; or one unit in a 6 package to make your total cost \$10.95. In this way, you can advantage of the special package prices without duplicating units already owned. Replacements must be made at the time place your original order.

We offer these packages at special bargain prices and cannot, therefore, give pro rata credit for the return of part of a package.

These films may be used for any theatrical, non-theatrical, or commercial purpose, except that they may not be televised.
