Railroading Films

MAINLINE U. S. A.

16 SDU 76C3

Here is a 2-reel Kodachrome film in 16mm. sound that traces the impact of railroad construction over the last century as the prime means of the general development of our country — how the railroads today have a very direct effect on all our lives. Shown are a great many spectacular shots of streamliners and freights at speed, across prairies, over bridges, against backgrounds of snow-capped peaks. Railroad fans can easily identify the trains of their favorite railroad. You'll see streamliners and freights of the Monon, Rock Island, Milwaukee, New Haven, Santa Fe, New York Central, Pennsylvania, Burlington, Southern Pacific, Erie, Missouri Pacific, North Western, and many another pike. You'll also see many a yard goat at work, and many other activities of the railroads in maintaining the far-flung and complex services that they render. Even those of you who aren't first of all railroad fans will find this an informative, absorbing, entertaining and very beautiful film to have in your collection. (Prints of this new are valued at \$150.00.) While our stock of fine used prints remains available, our price is only **\$24.95**

LOADED FOR WAR

16 SDU 76C5

The thrilling story of the American railroads performing the greatest war job in history, in a 2-reel, 16mm. sound film in full color kodachrome. The film shows how essential was the wartime job of the railroads and how they contributed to Allied victory. Shown are many of the special tasks the railroads had during World War II — the moving of troops and their equipment; raw materials; tanks, guns and major parts for ships and planes — and how many of their normal jobs were filled by women and retired employees who returned to work. But, in addition to all this, we see some of the most effective shots of steam locomotives, sometimes three in a row, boosting tonnage over one of the Santa Fe's steep passes in the West. This film does not overlap pictorially with either MAINLINE U.S.A. or LIFE-LINE OF THE NATION, nor with BIG TRAINS ROLLING, prints of which we have been offering up until recently. While our stock of good used prints remains available, you may purchase one **\$19.95** for only

LIFELINE OF THE NATION

16 SDU 76C4

A 2-reel 16mm. sound film in full Kodachrome showing the magnificent performance of our railroads during World War II. The emphasis in this film is more movement of freight than of passenger travel. As a result the film is somewhat contrast to either MAINLINE U.S.A. or BIG TRAINS ROLLING. The viewer, to note another big difference — the enormity of the majestic steam locomotive which still — during the war — the number one source of motive power for freight as passenger transportation. There marked contrast with today when power is close to taking over most passenger trains. So, for those of you who have particularly soft spot in your hearts for steam locomotive, here's your chance some of the big boys of the Santa Fe, Pacific, Norfolk, and Western, Rio Grande Southern Pacific and Pennsylvania in. You'll see lots of others, too. (Prints of these films are valued at \$150.00.) While our stock lasts, you may buy a good used print for only

COMBINATION SPECIAL: Prints of MAINLINE U.S.A. and LIFE LINE OF THE NATION regularly totaling \$49.90 — when purchased together at one time, only \$44.

PROJECTOR BARGAINS

These used projectors are all in good basic condition and real bargains at the prices at which they are being offered. Projector frames and cases are in sound condition, and each unit has been thoroughly checked over and adjusted both mechanically and electronically.

We'll be glad to accept your 5mm. or 16mm. silent or sound projector (if of a standard make and model), and in satisfactory condition, either in trade for other merchandise, or for cash.

If you are trying to obtain a particular make and model of projector, we'll be glad to place your order on file. There, just as soon as we obtain a projector that meets your specifications, we'll get in touch with you and give you first chance at it. Simply write and tell us what you want and (if you wish) approximately what you want to pay, and we'll keep a lookout for that particular machine for you.

We do not sell projectors on time payments. Our terms are cash only - either in full with order or 10% deposit with order and the balance C.O.D. Our guarantee protects you - if for any reason you do not wish to retain the projector you have ordered from us, you may return it, transportation prepaid, within five days after you receive it, and we will give you full credit or refund the purchase price in full, whichever you prefer.

As we frequently have several machines of the same make and model, please order by our item number as well as indicating make and model. In this way there will be no uncertainty as to exactly the machine you want.

USED 16mm. SOUND SUBJECTS

All titles listed on this page are good used 16mm. sound prints. We usually have only a few used prints of a title — sometimes only one. This means that within two or three weeks after the mailing of this catalog, more and more of these used titles will be sold out. Keep this in mind when you order. Order early and, in addition to yourself, give us an alternate list of titles. We'll never send an alternate unless your top choices are already out of stock. But remember — we can't sell what we don't have — and the used prints we offer are in great demand.

This section was the last part of the catalog to be printed. It was all the press only one or two days before the general mailing of the catalog was made. At the time it went to press, prints of all the subjects listed were in stock ready for shipment. Normally, within two or three weeks after mailing, 50% or more of the titles will have been sold.

As to the length of 16mm. films — cartoons average about 230 feet to a reel, while one-reelers run 300 to 350 feet. Two-reelers usually contain about 62 feet and longer subjects normally average not less than 300 feet to a reel. All films of one-reel length and over are supplied on reels. 6mm. film measure just one-half the length of 16mm. subjects.

Incomplete 100' 16mm. Black and White and Color Sound Lengths of Used Features, Serials and Shorts

These incomplete 100' sound lengths of 16mm. film from feature pictures, Westerns, serials, comedies travel films, musicals, documentary subjects, sports films, and other types of subjects, have long been an extremely popular item with Blackhawk customers.

These lengths, while incomplete and start anywhere and end anywhere, are consecutive in themselves - they are not made up of short scenes spliced together. They are not identified individually as to the type of subject, so there is no way we can fill an order for so many rolls of "Westerns," "Comedies," or any other specific type of content. All footage is regular image material (no B-I sound mixtures are included.) And all footage is in good runnable condition.

USED 100' R-I MUSICALS IN PACKAGES

These films were originally produced by some of the leading 16mm production companies in the country for projection in coin-operated Panoram machines. When projected on ordinary 16mm projectors, the image is reversed on the screen. Usually the only place you will notice any difference is in the titles — the letters will appear backwards on your screen.

There may be, without notice, occasional substitutions of one or more titles in any package because we are temporarily out of stock on a particular film. However, we assure you that any substitutions will be of similar type and of the same or greater value.

If you decide, after viewing any of those packages, that you want to keep only part of the package, we will charge you \$1.98 for each R-I Sound Musical Film you retain.

These films may be used for any theatrical, non-theatrical, or commercial purpose, except that they may not be televised.

These films, identified as 100' R-I Sound Musical Films, are used prints of productions made originally by such producers as R.C.M. (Roosevelt, Cowlow, Mills); Minotex; Camrox Screencraft and Globe for exhibition on Panoram coin-operated machines. These machines, projecting from the rear onto ground-glass screens, reversed the photographic image. Yet, those prints show quite acceptably on any regular 16mm. sound projector and the only point where the reversal is usually noted is on the main and end titles, which you may eliminate at the time you assemble your library. Over the last 2½ years, we have sold many scores of thousands of prints, and hundreds of satisfied customers re-order regularly.

The films listed here may be selected by individual title. Good stocks are on hand of most of these subjects - but the listing of a few alternates is always desirable. We'll never substitute unless your first choice is out of stock. These 100' R-I Sound Musical Films are not supplied on reels, but in individual rolls. They may not be used for television purposes.

(Inside continental United States—and this includes Alaska, Hawaii, Puerto Rico, and the Virgin Islands—Bluckhank Zone—we can handle orders only when remittance in full are included. In all cases, we urge you to remit by postal or express money orders or by bank drafts. Foreign orders must be in U. S. funds. Do not send currency or cash—even by registered mail—for you do so at your own risk.

We have found that we cannot economically handle orders totaling over \$12.50 for less than \$10.00 from outside the Continental United States, so henceforth we cannot accept any order that does not total at least these minimums. You will see footnotes reminding you of this throughout the catalog. Just remember, if you live in the United States, your order must be for a minimum of \$10.00 in the United States, and \$12.50 for a minimum of \$10.00 and must be paid in U. S. funds. (This includes orders from Canada and Mexico.)

Purchasers in Iowa must pay the 2% Iowa State Retail Sales Tax except in the case of retailers who are purchasing materials for resale, in which case this fact must be clearly stated on the order.

Under the new postal regulations, parcels may not exceed 30 lbs. in weight or 72 inches in girth. This means generally that all merchandise to large shipments of flims must be shipped to you by Railway Express, and that shipments of jackets, sweaters (except our folding cloth sweats) and moderate to large quantities of retail merchandise must be shipped by air freight. Why? Because when you buy from us to be shipped by express, we will send it express collect for the transportation, which you will pay on delivery.

However, on small moderate size shipments, which may be sent by parcel post, if you wish to remit in full with your order, you may include the appropriate amount to cover postage, postage and insurance, listed on your invoice, as covered by the following three optional groups:

On many classes of flims listed here, additional savings can be made by ordering etc. twelve or more prints at a time. These discounts, however, apply only to quantities purchased within that class, and not to amounts of several classes of flims. Discounts do not apply to any new or used flims unless specifically offered in the listing. There are no dealer discounts of any kind offered by Bluckhank—the prices quoted in this Bulletin, and the quantity discounts available on certain types of flims, apply to all classes of purchasers.
