THE SUPER CHIEF

Yes, THE SUPER CHIEF of the Santa Fe is the first train subject for Blackhawk's new Railroad Series. It's a new 1952 production, action-filled, entertaining and informative. While - naturally - it will have the greatest appeal to railroad fans and hobbyists, it qualifies for use by film libraries, schools, public libraries and groups of all types. It will hold the attention of a two-year-old - and any boy of six or over, dad or grandpappy will get a bang out of seeing it again and again.

The film covers the new Super's 32^{1/2} hour streamlined journey from Chicago to Los Angeles. It shows the luxury accommodations in the most modern cars constructed by ACF, Pullman-Standard and Budd. It shows the Super's most unusual car - the Pleasure Dome car. The train is shown in detail, both inside and out, and there are a number of scenes at speed across Kansas and Colorado.

And the price? Like wholesale! The 1-reel, 1952 professionally produced production available in 16mm. sound and in 8mm. silent, is really easy on the pocket-book.

WHAT DO THEY MEAN?

All those numbers above mean something very definite to us. You've undoubtedly noticed that we've started numbering each of the films and items of equipment in our catalog, and asking you to give the number when you order. If you will do that — and give the complete number each time — we'll be sure to supply just what you want.

It has been quite a problem for us to be sure we were shipping just what our customers were ordering as we often have on hand new 16mm. sound, 16mm. silent (both headline and complete), 8mm. complete, and 8mm. headline versions of the same film — and we may even have a used print of that same film, too. If someone simply ordered the film by title, without specifying the version he wanted, we just didn't know what to ship.

Therefore, we've started using the numbers to identify the films. Each number and letter in the code means a lot, so be sure to use them all in your order. For example, 16 SDU 26C11 means a 16mm. sound used print of a 2-reel color travel subject. 8 SLN 30B9 identifies an 8mm. silent new print of a black and white 1-reel sport

subject. Thus, the first group of numbers tells whether the film is 16mm. or 8mm. The group of three letters tells whether the film is sound (SD) or silent (SL), and whether new (N) or used (U). The final group, composed of both letters and numbers, identifies the film as to type (whether a cartoon, sport, feature, musical, etc.) and length (1-reel, 2-reel, etc.); whether black and white (B) or color (C); and the last numbers are only for identification within the code.

So you see, if you give both the number and title when you order, we can't go wrong. We can make shipment as soon as you reaches us and be sure we're doing what you want us to. It means no delays, and better and quicker service for you.

Our numbering system means, too, that YOU can identify at a glance just what kind of film each title is. There's no guessing whether a certain film is 8mm. or 16mm., sound or silent, or used, if you'll let the numbers work for you in giving information.

COLOR FILMS AT LOW PRICES

Railroading Films

MAINLINE U. S. A.

14 SDU 76C3

Here is a 2-reel Kodachrome film in 16mm. sound that traces the impact of railroad construction over the last century as the prime means of the general development of our country — how the railroads today have a very direct effect on all our lives. Shown are a great many spectacular shots of streamliners and freights at speed, across prairies, over bridges, against backgrounds of snow-capped peaks. Railroad fans can easily identify the trains of their favorite railroad. You'll see streamliners and freights of the Monon, Rock Island, Milwaukee, New Haven, Santa Fe, New York Central, Pennsylvania, Burlington, Southern Pacific, Erie, Missouri Pacific, North Western, and many another pike. You'll also see many a yard goat at work, and many other activities of the railroads in maintaining the far-flung and complex services that they render. Even those of you who aren't first of all railroad fans will find this an informative, absorbing, entertaining and very beautiful film to have in your collection. (Prints of this new are valued at \$150.00.) While our stock of fine used prints remains available, our price is only \$24.95

LOADED FOR WAR

16 SDU 76C6

The thrilling story of the American railroads performing the greatest war job in history, in a 2-reel, 16mm. sound film in full color kodachrome. The film shows how essential was the wartime job of the railroads and how they contributed to Allied victory. Shown are many of the special tasks the railroads had during World War II — the moving of troops and their equipment; raw materials; tanks, guns and major parts for ships and planes — and how many of their normal jobs were filled by women and retired employees who returned to work. But, in addition to all this, we see some of the most effective shots of steam locomotives, sometimes three in a row, boosting tonnage over one of the Santa Fe's steep passes in the West. This film does not overlap pictorially with either MAINLINE U.S.A. or LIFE-LINE OF THE NATION, nor with BIG TRAINS ROLLING, prints of which we have been offering up until recently. While our stock of good used prints remains available, you may purchase one \$19.95 for only

LIFELINE OF THE NATION

16 SDU 76C4

A 2-reel 16mm. sound film in full color Kodachrome showing the magnificent performance of our railroads during World War II. The emphasis in this film is more on the movement of freight than of passenger travel. As a result the film is somewhat in contrast to either MAINLINE U.S.A. or BIG TRAINS ROLLING. The viewer, too, will note another big difference — the emphasis of the majestic steam locomotive which was still — during the war — the number one source of motive power for freight as well as passenger transportation. There is a marked contrast with today when diesel power is close to taking over most principal runs. So, for those of you who have a particularly soft spot in your hearts for the steam locomotive, here's your chance to see some of the big boys of the Santa Fe, Union Pacific, Norfolk, and Western, Rio Grande, Southern Pacific and Pennsylvania in action. You'll see lots of others, too. (Prints of these films are valued at \$150.00 new.) While our stock lasts, you may buy a good used print for only \$24.95

COMBINATION SPECIAL: Prints of MAINLINE U.S.A. and LIFE LINE OF THE NATION **\$44.95**

USED 100' R-I MUSICALS IN PACKAGES

These films were originally produced by some of the leading 16mm production companies in the country for projection in one-projected Panoram machines. When projected on ordinary 16mm projectors, the image is reversed on the screen. Usually the only place you will notice any difference is in the titles—the lettering will appear backwards on your screen.

There may be, without notice, occasional substitutions of one or more titles in one or more packages because of unavailability out of stock on a particular film however, we assure you that any substitutions will be of similar type and of the same or better value.

If you decide, after viewing any of these packages, that you want to keep only part of the package, we will charge you \$1.98 for each R-I Sound Musical Film you retain.

These films are licensed for non-theatrical use only, and cannot be shown on television or theatrically.

These films, identified as 100' R-I Sound Musical Films, are used in production made originally by such producers as R.C.M. (Hollywood Miller), Mincor, Cuneo, Screencraft and Globe for exhibition on open-coated machines. These machines, projecting from the 16mm glass screen, require the photographic image reversed. Prints show quite acceptably on any regular 16mm sound projector on point where the reversal is usually noted in on the main and which you may eliminate at the time you assemble your library. Over 25 years, we have sold many scores of thousands of prints, and we satisfied customers reorder regularly.

The films listed here may be selected by individual title. Good stand hand of most of these substitutes — but the listing of a few alternatives desirable. We'll never substitute unless your first choices are out of stock. These 100' R-I Sound Musical Films are not supplied on reels, but divided rolls.

These films are licensed for non-theatrical use only, and cannot be television or theatrically.

This guarantee provides that if for any reason you do not wish to retain any film or materialize your order from Blackhawk, you may return it to us at any time within 30 days of the date of purchase. We will then, at our expense, return to you a copy of your invoice, and will give you full credit. Read This Before You Order!

Blackhawk can continually offer you these exceptional buys only by eliminating all possibility of credit losses, and by operating your organization at the utmost efficiency. Therefore, irrespective of your credit rating, your terms are CASH WITH ORDER! or (under certain conditions) CASH ON DELIVERY. (We reserve the right to require CASH ON DELIVERY for C.O.D. orders of \$50.00 or more.) Outside continental United States—and this includes Alaska, Canada, Hawaii, Mexico, Porto Rico and the Panama Canal zone—we can handle orders only when you authorize us to bill you in advance. In all cases, we charge you the retail price for the express handling fee. Do not expect to be billed for the shipping charges. We will send you the actual cost of shipping and handling charges for material for you to do so at your own risk.

We have found that we cannot economically handle orders totaling less than \$2.50 (or less than \$10.00 from outside the Continental United States), so hereinafter we cannot accept orders totaling less than \$2.50. This does not mean that you are not eligible to purchase from us throughout the catalog. Just remember, if you live in the United States, your order must be for a minimum of \$2.50. If you live outside the Continental United States, your order must be for a minimum of \$10.00 and must be paid in U. S. funds. (This includes orders from Canada and Mexico.)

Purchasers in foreign must pay the 5% Texas State Retail Sales Tax except in the case of retailers who are purchasing materials for resale, in which case this fact must be clearly stated on the order.

Under the new postal regulations, parcels may not exceed 20 lbs. in weight, nor 72 inches in length. This means that the maximum length of film must be shipped in two flat boxes. In addition, the boxes must be shipped in two flat boxes. Railroad Express, and flat shipments of printers, screens (except one folding cloth screen) and material for large quantities of reels and cans must go by express instead of parcel post. Whenever an item has to be shipped by express we will send it express collect for the transportation, which you will pay on delivery.

However, on small inordinate quantities, which may be sent by parcel post, if you wish to send in full with your order, you may include the appropriate amount to cover postage, postage and insurance, based on your address, as covered by the following three territorial groupings:
