

BLACKHAWK'S NEW RAILROAD SERIES HOTTEST THING ON FILM!

Wow! Even our fondest expectations were exceeded last month by sales of the first film in our new Railroad Series—THE SUPER CHIEF. Demand exceeded that for any item we have offered — either in 16mm. sound or 8mm. silent. And, some of our good customers have had prints long enough to write such words of praise as:

"Better than films costing twice as much!"

"One of the most entertaining films I've ever seen!"

"The Super Chief' really travels — and so does your film. More action than a Western."

So, it is with particular pleasure that we announce this month the second film in our railroad series—

WESTERN PACIFIC FAST FREIGHT

Now, if you have any idea that a freight train isn't in the running with a streamliner as glamorous as THE SUPER CHIEF — take a look at WESTERN PACIFIC FAST FREIGHT. It's the run of No. 62, The Fruitblock, from Oakland, Calif., to Salt Lake City — all the way behind a 6,000 horsepower Electro-Motive diesel locomotive. Much of the footage was shot in the Feather River Canyon where the W.P. tackles the Sierra Nevadas — and much of the footage shot in the canyon was photographed from a helicopter. Mighty spectacular stuff it is, too.

One extremely interesting sequence shows the working of Centralized Traffic Control, the modern train dispatching system that permits a man at one control panel to direct trains over a 400 to 500 mile length of main line. It shows how the Fruitblock, and the W.P.'s Vista-Doma streamliner, THE CALIFORNIA ZEPHYR meet and pass on the single track main line, and a siding, without either train stopping. It's a whiz of a film, and priced like wholesale. Order yours today.

If you don't already own

The SUPER CHIEF

order it, too! Either 16mm. sound or 8mm. silent.

THE SUPER CHIEF covers the 39¼ hour streamlined journey from Chicago to Los Angeles of the Santa Fe's newly equipped streamliner. It shows the luxury accommodations of the modern sleeping cars, the Pleasure Dome car with its private dining room, the dining car proper, the observation. And it shows the scenic New Mexico - Arizona country through which the Santa Fe travels. The train is shown in detail, both inside and out, and there are a number of swell shots at speed across Kansas and Colorado.

And the price? Like wholesale!

EFFECTIVE UNTIL JULY 10, 1952

USED AND NEW 16mm. SOUND SUBJECT

IMPORTANT: Read This Before Ordering Used Prints.

We have included in this listing of used films, a number of listings of brand new prints on which we have only one or two prints of each title. New prints are indicated by the letters SDN in the code numbers; used prints are shown by the letters SDU.

We usually have only a few used prints of a title - sometimes only one. This means that within two or three weeks after the mailing of this catalog more and more of these used prints will sell out. Keep this in mind when you order. Order early, and, in justice to yourself, give us an alternate list of titles. We'll never send an alternate unless your top choices are already out of stock. But remember—we can't sell what we don't have—and the used prints we offer are in great demand.

This section was the last part of the catalog to be printed. It was all the areas only one or two days before the general mailing of the catalog was made. At the time it went to press, prints of all the subjects listed were in stock ready for shipment. Normally, within two or three weeks after mailing, 50% or more of the titles will have been sold.

As to the length of 16mm. films - cartoons average about 250 feet to a reel; other one-reelers run 300 to 350 feet. Two-reelers usually contain about 650 feet and longer. Subject normally average not less than 500 feet to a reel. All films of one reel length and over are supplied on reels.

Features

Look at the good listing of features we have this month! It's the best selection we've been able to offer in a long time - so if you are particularly interested in acquiring feature titles, better give this listing your special attention.

Railroading Films

MAINLINE U. S. A.

16 SDU 76C3
Here is a 2-reel Kodachrome film in 16mm. sound that traces the impact of railroad construction over the last century as the prime means of the general development of our country — how the railroads today have a very direct effect on all our lives. Shown are a great many spectacular shots of streamliners and freights at speed, across prairies, over bridges, against backgrounds of snow-capped peaks. Railroad fans can easily identify the trains of their favorite railroad. You'll see streamliners and freights of the Monon, Rock Island, Milwaukee, New Haven, Santa Fe, New York Central, Pennsylvania, Burlington, Southern Pacific, Erie, Missouri Pacific, North Western, and many another rail. You'll also see many a yard at work, and many other activities of the railroads in maintaining the far-flung and complex services that they render. Even those of you who aren't first of all railroad fans will find this an informative, absorbing, entertaining, and very beautiful film to have in your collection. (Prints of this new are valued at \$150.00.) While our stock of fine used prints remains available, \$24.95 our price is only

LOADED FOR WAR

16 SDU 76C6
The thrilling story of the American railroads performing the greatest war job in history, in a 2-reel, 16mm. sound film in full color kodachrome. The film shows how essential was the wartime job of the railroads and how they contributed to Allied victory. Shown are many of the special tasks the railroads had during World War II — the moving of troops and their equipment; raw materials; tanks, guns and major parts for ships and planes — and how many of their normal jobs were filled by women and retired employees who returned to work. But, in addition to all this, we see some of the most effective shots of steam locomotives, sometimes three in a row, boosting tonnage over one of the Santa Fe's steep passes in the West. This film does not overlap pictorially with either MAINLINE U.S.A. or LIFELINE OF THE NATION, nor with BIG TRAINS ROLLING, prints of which we have been offering up until recently. While our stock of good used prints remains available, you may purchase one \$19.95 for only

LIFELINE OF THE NATION

16 SDU 76C4
A 2-reel 16mm. sound film in full color Kodachrome showing the magnificent performance of our railroads during World War II. The emphasis in this film is more on the movement of freight than of passenger travel. As a result the film is somewhat in contrast to either MAINLINE U.S.A. or BIG TRAINS ROLLING. The viewer, too, will note another big difference — the emphasis of the majestic steam locomotive which was still — during the war — the number one source of motive power for freight as well as passenger transportation. There is a marked contrast with today when diesel power is close to taking over most principal runs. So, for those of you who have a particularly soft spot in your hearts for the steam locomotive, here's your chance to see some of the big boys of the Santa Fe, Union Pacific, Norfolk, and Western, Rio Grande, Southern Pacific and Pennsylvania in action. You'll see lots of others, too. (Prints of these films are valued at \$150.00 net.) While our stock lasts, you may buy a good used print for only \$24.95

COMBINATION SPECIAL: Prints of MAINLINE U.S.A. and LIFE LINE OF THE NATION regularly totaling \$49.90 — when purchased together at one time, only . . . \$44.95

PROJECTOR BARGAINS

These used projectors are all in good basic condition and real bargains at the prices at which they are being offered. Projector frames and cases are in good condition, and each unit has been thoroughly checked over and adjusted both mechanically and electrically.

We'll be glad to accept your 8mm. or 16mm. silent or sound projector (if of a standard make and model, and in satisfactory condition), either in trade for other merchandise, or for cash.

If you are trying to obtain a particular make and model of projector, we'll be glad to place your order on file. Then, just as soon as we obtain a projector that meets your specifications, we'll get in touch with you and give you first chance at it. Simply write and tell us what you want and (if you wish) approximately what you want to pay, and we'll keep a lookout for that particular machine for you.

We do not sell projectors on time payments. Our terms are cash only - either in full with order or 10% deposit with order and the balance C.O.D. Our guarantee protects you - if for any reason you do not wish to retain the projector you have ordered from us, you may return it, transportation prepaid, within five days after you receive it, and we will give you full credit or refund the purchase price in full, whichever you prefer.

As we frequently have several machines of the same make and model, please order by our item number as well as indicating make and model. In this way there will be no uncertainty as to exactly the machine you want.

USED 100' R-I MUSICALS IN PACKAGES

These films were originally produced by some of the leading 16mm production companies in the country for projection in coin-operated Panoram machines. When projected on ordinary 16mm projectors, the image is reversed on the screen. Usually the only place you will notice any difference is in the titles—the lettering will appear backwards on your screen.

There may be, without notice, occasional substitutions of one or more titles in any package because we are temporarily out of stock on a particular film. However, we assure you that any substitutions will be of similar type and of the same or greater value.

If you decide, after viewing any of these packages, that you want to keep only part of the package, we will charge you \$1.98 for each R-I Sound Musical Film you retain.

These films are licensed for non-theatrical use only, and cannot be shown on television or theatrically.

These films, identified as 100' R-I Sound Musical Films, are used productions made originally by such producers as R.C.M. (Roosevelt, Mills), Minoan, Casner, Screencraft and Globe for exhibition on coin-operated machines. These machines, projecting from the ground-glass screens, required the photographic image reversed. Y prints show quite acceptably on any regular 16mm. sound projector only point where the reversal is usually noted in on the main and e which you may eliminate at the time you assemble your library. Over 2 1/2-years, we have sold many scores of thousands of prints, and but satisfied customers reorder regularly.

The films listed here may be selected by individual title. Good stock hand of titles is on hand but the listing of a few alternatives desirable. We'll never substitute unless your first choices are of these 100' R-I Sound Musical Films are not supplied on reels, but individual rolls.

PHOTO SWEEP (ANTI-STATIC FILM CLEANER)

Here is a product that will be welcomed by all film men who realizes how much damage results from static electricity on films. That static results from handling or touching it, running it through the projector—and a film on your film is attracted to it by static. The more static it carries, the more static builds up, and finally dust and dirt particles are attracted to a sweep the film.

PHOTO SWEEP is a non-static and of dielectric film of the same film. Simply dampen one side of your film with water and sweep the film. It cleans and coats both sides in one operation instantly. Your films will be clean and will not be attracted to static electricity that attracts most dirt. Also, the need for waxing is eliminated. Film are clean and will not dry out, and any minor scratches already in the film will be masked and not appear in projection.

PHOTO SWEEP is also available in Aerosol Spray Cans on transparent film, glass covers, lenses, etc. to make them static-free and non-dust attracting.

Read This Before You Order!

Blackhawk can continually offer you these exceptional buys only by eliminating all possibility of credit losses, and by operating our organization at the utmost efficiency. Therefore, irrespective of your credit rating, our terms are CASH WITH ORDER, or (inside continental United States) C.O.D. However, even inside continental United States, a 10% deposit must accompany all C.O.D. orders of \$50.00 or more. Outside continental United States—and this includes Alaska, Canada, Hawaii, Mexico, Porto Rico and the Panama Canal Zone—we can handle orders only when remittances in full are included. In all cases, we will accept orders by postal or express money orders, or by bank drafts. Foreign orders must be in U. S. funds. Do not send currency or coins—even by registered mail—for you do so at your own risk.

We have found that we cannot economically handle orders totaling less than \$2.50 (or less than \$10.00 from outside the Continental United States), so henceforth we cannot accept any order that does not total at least these minimums. You will see footnotes reminding you of this throughout the catalog. Just remember, if you live in the United States, your order must be for a minimum of \$2.50. If you live outside the Continental United States, your order must be for a minimum of \$10.00 and must be paid in U. S. funds. (This includes orders from Canada and Mexico.)

Purchasers in Iowa must pay the 2% Iowa State Retail Sales Tax except in the case of retailers who are purchasing materials for resale, in which case this fact must be clearly stated on the order.

Under the new postal regulations, parcels may not exceed 20 lbs. in weight nor 72 inches in girth. This means generally that all moderate to large shipments of films must be shipped to you by Railway Express, and that shipments of projectors, screens (except our folding cloth screen) and moderate to large quantities of reels and cans must go by express instead of parcel post. Whenever an item has to be shipped by express, we will send it express collect for the transportation, which you will pay on delivery.

However, on small moderate size shipments, which may be sent by parcel post, if you wish to remit in full with your order, you may include the appropriate amount to cover packing, postage and insurance, based on your address, as covered by the following three territorial groupings:
