The story of the little Christmas tree...

A CHRISTMAS RHAPSODY

The heart-warming story is reminiscent of the Hans Christian Anderson fairy tales which have long delighted children and grown-ups alike. Photographically, the film abounds in exquisite winter views and Christmas scenes. Musically, it offers an original score, beautifully performed by a chorus and full symphony orchestra.

HOW RUSSIANS PLAY

Produced by Julian Bryan

In the belief that a study of the way people spend their leisure time, of their own free will, often reveals a great deal about their character, this film has been made. It pictures Russians in their amusement parks, zoos, theaters, museums, art galleries, excursions, and camps. It introduces the popular Russian games, grolki, and gives a glimpse of Russian soccer. Russians like their demonstrations to be on a grand scale and the film closes with a sequence showing an International Youth Day celebration. (6mm, sound, length 1 1/2 reels)

A RUSSIAN CHILDREN'S RAILWAY

Produced by Julian Bryan

In the U.S.S.R. is a land called Georgia, and here the Russian camera has recorded the story of the fifteen Children's Railways built by the Soviet Government. Not intended as a pure entertainment device, they are

a means of furthering the interests of youngsters in railroad, thus helping solve one of Russia's major problems — transportation. You will enjoy seeing this small railroad in operation. (6mm, sound)

Children of Cossack Arts

Produced by Julian Bryan

This is an American made production photographed just after the close of World War II. You wouldn't expect to see a dramatization of "Huckleberry Finn" in this film, but it's there because this American classic is included in the Russian school curriculum. In this production we see Russian children engaged in their typical activities — going to school, playing games, marching in parades, playing their favorite games, visiting museums and art galleries, and living in the summer Pioneer camps which — except for the holidays they spend — are permanently established in summer camps in this country. (6mm, sound)

IMPORTANT! Read This Before Ordering.

We usually have only a few used prints of a title - sometimes only one. This means that within two or three weeks after the closing of this catalog, more and more of these titles will be sold out. Keep this in mind when you order. Order early, and, in addition to yourself, give us an alternate list of titles. We'll never send an alternate unless your top choices are already out of stock. But remember - we can't sell what we don't have - and the used prints we offer are in great demand.

This section was the last part of the catalog to be printed. It was of the types set one or two days before the general mailing of the catalog was made. At the time it went to press, prints of all the subjects listed were in stock ready for shipment. Normally, within two or three weeks after mailing, 50% or more of the titles will have been sold.

As to the length of 16mm. films - cartoons average about 250 feet to a reel; other one-reelers run 300 to 350 feet. Two-reelers usually contain about 650 feet of film; longer subjects normally average not less than 200 feet to a reel. All films of one reel length and over are supplied on reels.

SPECIAL PURCHASE! Radiant and Da-Lite Screens

We have another big lot of Radiant and Da-Lite screens - all glass beaded - in a wide range of sizes, mostly tripod type, but a few wall type. The Da-Lite screens are brand new, first quality, but are not all equipped with the exact type of fittings or finish with which Da-Lite is delivering these models this fall. The Radiant screens are factory rebuilt - units that were damaged in shipment to distributors, returned to the factory for complete renovation, and which can hardly be told from new. All Radiant screens are in the standard factory cartons. Make use of this opportunity to buy that new screen at a saving of up to 40% over the regular price. Our stock is limited, so the sooner you order the surer you are of getting the screen you want.

Newest film in Blackhawk Collectors Series—and a collectors' film if there ever was one. For the most part, the motion picture scenes making up **THE DAYS OF McKINLEY, BRYAN and TEDDY ROOSEVELT** were photographed in the 1890's—the very early days of the motion picture. You'll see The Bowery in New York—crossroads of the world in the 1890's; typical scenes of the great orator, William Jennings Bryan; Teddy Roosevelt and the Rough Riders on return from Cuba; Admiral Dewey's Flagship home for repairs after the Battle of Manila Bay; McKinley's Inaugural Parade—and the Famous Black Horse Cavalry; a Tammany outing; Columbus Circle, New York; McKinley's funeral procession and Teddy Roosevelt as President of the United States. There aren't many films that offer such a wealth of really historical motion picture scenes — and particularly not at Blackhawk's "priced like wholesale" prices.

**BATHING GIRLS---
 THEN AND NOW**

A fascinating cabinet showing the evolution of today's swim suit from the "bathing costume" of the 1890's. You'll see the rather quaint cotton costumes of the late 90's, the diving suits of the early 1900's, the two-piece suits of the mid-20's, and their developments in the modern trend with sun backs and figure-controlling fabrics. You'll get more than one chuckle out of the old-timers. And, as for the new ones — well, as our narrator says in the sound version: "No matter how handsome a man may be, he can never compete with bathing girls for attention on the beaches."

**WESTERN PACIFIC
 FAST FREIGHT**

Here's a highly amusing film for railroad fans, and a good many others besides. It's the story of No. 62, The Fruit-bloke, as she goes from Oakland, Calif., to Salt Lake City, Utah — all the way behind a 6,000 horsepower Electro-Motive diesel locomotive. The "Storage" was built by the Fruit-bloke's home town, the Western Pacific, backing the Sierra Nevada and some of the footage shot in the canyon was photographed from a helicopter. Mighty spectacular stuff it is, too. One extremely interesting sequence shows the working of Centralized Traffic Control, the modern train dispatching system that permits a man at one control panel to direct trains over a 400 to 500 mile length of main line. A whiz of a film.

BARNEY OLDFIELD'S RACE FOR A LIFE

The first film, silent film in our Blackhawk Collectors Series—a 1-reel comedy produced in 1914, and containing just about everything that characterizes the slapstick comedy of those early silent days. Mabel Normand is the girl, Mack Sennett is the boy, Ford Sterling is the villain and Barney Oldfield is the hero. The film does have special interest to motor fans because of Barney Oldfield and his racing car of four decades ago. And for railroad fans because of the shining Santa Fe mogul locomotive that appears so prominently in the film. Of its type, it's a gem of a film.

DANGEROUS FEMALES

The first 16mm. sound film in our Blackhawk Collectors Series—a 2-reel comedy produced in 1929 by Al Christie and originally released theatrically by Paramount. The only production Marie Dressler and Pally Moran ever made, as a team, for a company other than MGM. It's a comedy absolutely typical of the Dressler-Moran team, broad and funny. For its day the recording was excellent and the speech is completely intelligible. For what it was, and for what it is, we recommend it.

WHEELS A' ROLLING

Here's the film that shows the escalation of railroad motive power from its earliest beginnings up to today. You'll see the Tom Thumb, the Best Friend of Charleston, the John Bull, the DeWitt Clinton, the Cumberland Valley (now Pennsylvania) Pioneer, the Lafayette of the B. & O., John H. Hancock, the C. & N. W. Pioneer, the Reichen Wägen, Lincoln's Funeral Coach, the Minnetonka, the William Crooks, the Santa Fe's Little Buttercup, one of the Burlington's Immigrant Trains, Old 990 of the Empire State Express, the Burlington's Pioneer Zephyr of 1934—the first diesel-electric, stainless steel streamliner. All of the romance of American railroading is captured in this WHEELS A' ROLLING pageant, photographed just as it was presented at the 1948 and 1949 Chicago Railroad Fair. The commentary and score of the pageant are the commentary and score of the film.

The "King of the Fast" Great Trains — THE GOLDEN ARROW, operated jointly by British Railways and French National Railways. The Golden Arrow Service is the fastest surface railway between London and Paris, just 4 1/2 hours. Yes, it's the fastest in the world on the British Golden Arrow line. It's the only train to cross the English Channel ferry, The Invicta, for the 80-minute crossing to Calais. At the dock in Calais, the French Golden Arrow, the Fleche d'Or, is awaiting the arrival of the ferry and twenty minutes after the ferry docks it departs for its 3-hour, non-stop run to Paris. Here's a film that gives you the real flavor of Continental trains, and the countryside through which they travel.

ACCESSORIES AND SUPPLIES

NEW REELS AND CANS—16mm. AND 8mm.

Made by one of the top manufacturers in the business, these reels and cans are available from Blackhawk at the bargain prices you have come to depend on at "Sixteen's Super Market." The reels are stamped from a good grade of steel with sufficient spring to resist bending, yet are light in weight. Cans are embossed to achieve maximum rigidity. Reels and cans are of matching baked dull brown enamel finish.

PHOTO SWEEP (ANTI-STATIC FILM CLEANER)

Here is a product that will be welcomed by each film who realizes how much damage results from electricity on films. That static results from handling or wiping is turning it through the projector — and so dirt on your film is attracted to it by static. The more you wipe it away, the more static builds up, and it easily dust and dirt particles are attracted to screw the film.

PHOTO SWEEP gets rid of that static — and of dirt on the film at the same time. Simply dampen (do not use a pad of soft cotton material) and draw your film through the cleaning and coating both sides in one operation. Instantly, your films will be clean and will stay clean because the static electricity that attracts most dirt also the need for waxing is eliminated. Films are kept and will not dry out, and any minor scratches already in the film will be masked and not appear in projection.

PHOTO SWEEP is also available in Aerosol Spray Can use on transparencies, glass cover slides, lenses, negative carriers, etc. static-free and non-dust attracting.

Special on 8mm. Film Cans

We made a lucky buy on 8mm. cans, and look at bargains we can give you in these items! These cans of high quality, made of light grade of steel that means many years of use, and finished in gun metal black with the embossed "A.S." on these cans is in a center ring that makes the cans interlock lightly when they are stacked — preventing slipping, sliding, stacks of film. When you stack these cans, they stay stacked! They are new, but slightly show-worn — some scratches or nicks in finish. It won't impair the good use you'll get from them.

MANSFIELD 8MM. MOVIE EDITOR

This Editor, consisting of Viewer, Gearing Rewinds, and Automatic Dry Splicer, all mounted on a metal base and beautifully finished in blue and gold, is just about the best buy in 8mm. equipment you'll find in many a day. It is easy to operate, handles 8mm. reels up to 400' capacity, and meets the requirements of both amateur and professional. The various parts are available individually as well as in the complete editor, so additional information on the set may be obtained by consulting the more detailed descriptions given below on the component parts. One of the most unusual things about this fine piece of equipment is its price. Regularly \$25.95, Blackhawk can give the Mansfield Movie Editor **\$19.95** (EN-33) to you for just

MANSFIELD 8mm. VIEWER

The optically ground and polished lens system and brilliant viewing screen on this viewer give sharp, clear, 1 1/16" x 1 1/4" images, free from distortion. Of die-cast metal construction, it is attractively finished in blue Hammerhead. Illustrated above as center unit of Movie Editor. Regularly priced at \$10.50, the Mansfield Viewer Unit (EN-34) is available from Blackhawk at the low price of **\$7.95**

MANSFIELD JUNIOR SPLICER

for 8mm. and 16mm. sound or silent film

A precision-made splicer at a remarkably low price, and one that will give years of satisfactory use. It comes complete as pictured, with splicers, bottle of film-splicing Cement, water bottle and scraping blade which is inserted in bottle cap, all mounted on a wooden base. The splicer itself is of heavy gauge metal construction anodized in silver and gold. The usual price is only \$3.50, but Blackhawk is able to offer you the Junior splicer (EN-32) at the even more surprising price of only **\$2.79**

CINELAC

Cinelac protects film emulsion — either black and white or color — motion picture film, slides and stills — against the hazards of scratches, abrasions and finger marks. A new anticstatic element minimizes the effects of static electricity in attracting dust and lint to the film surface. A 2 oz. bottle is enough to coat 1,500 feet of 16mm. film, 2,500 feet of 8mm. film, or approximately 5,000 square inches of film surface. For best results, it should be applied to the emulsion side of new prints before they are placed in service.

MANSFIELD REWINDS

for 8mm. or 16mm. film

The rewinds will handle reels up to 800' capacity. They are equipped with fingertip controlled drag brakes, and their gear ratio of 3 to 1 makes for easy winding. They are of metal construction and have a gold anodized finish. The regular price of these rewinds is \$7.50. Blackhawk offers them to you (somewhat similar to those pictured above as part of the Editor), unit EN-35, **\$5.95**

MANSFIELD AUTO-SPLICER

It has dual scraping blades with radial pivoting action, chrome steel film cutters, ribbed for distributor-line operation, an automatic spring release when splicing is completed, and a star-proof molded rubber base. The body is finished in blue Hammerhead. It gives a faster, cleaner splice, and film enthusiasts know that dry scraping produces a really permanent splice. All this (illustrated as part of the Editor above) would regularly be \$7.95. Blackhawk has the Auto-Splicer (EN-31) at the astonishing price of **\$5.95**

BLACKHAWK EQUIPMENT MART

PROJECTORS • CAMERAS • RECORDERS • ACCESSORIES

The Nation's Bargain Counter for Used A-V Equipment

This month offers a very special opportunity for you to buy a 16mm. sound projector at even further savings over Blackhawk's regular money saving price! We have developed a number of regular sources for a great used equipment we offer, and are now getting it in such quantity that it is our intention to keep all items moving - even if we have to cut the price, which is exactly what we are doing.

So, this month, on all 16mm. sound projectors which have been listed in the two previous issues of the Blackhawk catalog, we are cutting the price by \$10.00 or \$20.00 more in order to clear them out. Each of these items available at this extra savings are below as SALE SPECIALS. Give them your special attention in making your selection. But don't delay, they'll move fast at these special sale prices!

All equipment offered in Blackhawk's Equipment Mart is good used material - and real bargains at the prices at which it is being offered. Every item has been thoroughly checked over, cleaned and adjusted, both mechanically and electronically, before being listed.

If you are desirous of obtaining a particular make and model of projector, camera or recorder, we'll be glad to place your order on file. Then, just as soon as we get an item that meets your specifications, we'll give you first chance at it. Simply write and tell us what you want and (if you wish) approximately what you want to pay. We'll keep on the lookout for that particular machine for you.

We do not sell anything on time payments. Our terms are cash only - either in full with order or 10% deposit with order and the balance C.O.D. Our guarantor protects you for any reason you do not wish to retain the equipment you have ordered from us, you may return it, transportation paid, within five days after you receive it, and we'll give you full credit or refund the purchase price in full, whichever you prefer.

As we frequently have several units of the same make and model, sometimes with minor differences, and sometimes at different prices, please order by unit item number as well as indicating make and model. In this way there will be no uncertainty as to exactly what unit you want.

LIFELINE OF THE NATION

(Used Kodachrome Prints)

A 2-reel 16mm. sound film in full color which shows the magnificent perils of our railroads during World War II. The emphasis in this film is more on the matter of freight than of passenger travel. As a result the film is somewhat in contrast to MAINLINE U.S.A. or BIG TRAINS ROLLING. The viewer, too, will note another difference — the emphasis of the majestic steam locomotive which was still — du war — the number one source of motive power for freight as well as passenger traffic. There is a marked contrast with today when diesel power is close to taking over principal runs. So, for those of you who have a particularly soft spot in your hearts for steam locomotives, here's your chance to see some of the big boys of the Santa Fe Pacific, Norfolk, and Western, Rio Grande, Southern Pacific and Pennsylvania. If you'll see lots of others, too. Prints of these films are valued at **\$24** (150.00 new.) 16mm. 700'. Price only **\$24**

These 1-reel films are the last two scraps of comedies made by Hal Roach as "Our Gang" comedies before he discontinued production and disposed of his rights to this registered trade mark to M-G-M. And, they're some of the best he ever made with Spunky, Syvnie, Alfalfa and many of the other characters of the 1935-1937 period.

MAINLINE U. S. A. (Used Kodachrome Prints)

Here is a 2-reel Kodachrome film in 16mm. sound that traces the history of railroad construction over the last century as the prime means of the general development of our country — how the railroads today have a very direct effect on all our lives. Shows in real time spectacular shots of streamliners and freights at speed, across prairies, over bridges, against backgrounds of snow-capped peaks. Railroad fans can easily identify the trains of their favorite railroad. You'll see streamliners and freights of the Monon, Rock Island, Milwaukee, New Haven, Santa Fe, New York Central, Pennsylvania, Burlington, Southern Pacific, Erie, Missouri Pacific, North Western, and many another pike. You'll also see many a yard goat at work, and many other activities of the railroads in maintaining the far-flung and complex services that they render. Even those of you who aren't first of all railroad fans will find this an informative, absorbing, entertaining and very beautiful film to have in your collection. (Prints of this new are valued at \$150.00.) 16 SDU 76C3.

USE 100 R-1 SOUND MUSICALS AT NEW LOW PRICES!

YOU MAY PURCHASE ANY OF THE TITLES LISTED ON THIS PAGE AND CONTINUED PAGES AT THESE BARGAIN PRICES:

EACH: **99¢** ANY SIX FOR ONLY: **\$4.99**

These films, identified as 100 R-1 Sound Musical Films, are used prints of productions made originally by such producers as R.C.M. (Roosevelt, Conkey, Mills), Minacoy, Cameo, Screencraft and Globe for exhibition on Panoram, coin-operated machines. These machines, projecting from the rear onto ground-glass screens, required the photographic image reversed. Yet, these prints show quite acceptably on any regular 16mm. sound projector and the only point where the reversal is usually noted in on the main end titles, which you may eliminate at the time you assemble your library. Over the last 25 years, we have sold many copies of thousands of prints, and hundreds of satisfied customers re-order regularly.

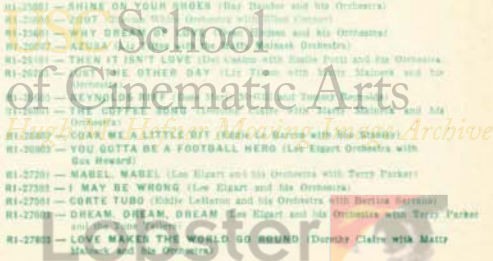

The films listed here may be selected by individual title. Good stocks are on hand of most of these subjects — but the listing of a few alternatives is always desirable. We'll never substitute unless your first choices are all our stock. These 100 R-1 Sound Musical Films are not supplied on reels, but in individual rolls.

These films are licensed for non-theatrical use only, and cannot be shown on television or theatrically.

USED 100' R-I MUSICALS IN PACKAGES

These films were originally produced by some of the leading 16mm production companies in the country for projection in coin-operated Panoram machines. When projected on ordinary 16mm projectors, the image is reversed on the screen. Usually the only place you will notice any difference is in the titles — the letters will appear backwards on your screen.

There may be, without notice, occasional substitutions of one or more titles in any package because we are temporarily out of stock on a particular film. However, we assure you that any substitutions will be of similar type and of the same or greater value.

If you decide, after viewing any of these packages, that you want to keep only part of the package, we will charge you \$1.98 for each R-I Sound Musical Film you retain. Also, if you would like to order individual films from any of these packages, we will be glad to fill your orders at \$1.98 per print so long as we have a stock of the title that has not been assembled into packages.

These films are licensed for non-theatrical use only, and cannot be shown on television or theatrically.

Our Guarantee

Normally, our guarantee provides that if for any reason you do not wish to retain any films or merchandise you order from Blackhawk, you may ship them back to us, transportation paid, within five days after you receive them, together with a copy of your invoice, and we'll give you full credit. We realize, however, that it is not always possible for schools, institutions, and other such organizations to complete checking within five days. Therefore, we will extend this screening and checking period to a reasonable length of time based upon the quantity of materials ordered, which might require a longer period

than five days. Of course, returned merchandise must be in substantially the same condition when returned as you received it.

Our Terms to Schools

Blackhawk's terms to schools and institutions provide payment within ten days after receipt and approval of materials. Orders should be placed on official purchase order blanks or requisition forms. Payment on a monthly basis can be arranged upon request for schools for Board of Education approval is required before payment is made.
